REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedures or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions, etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO
1946-1947

SECRETARY'S REPORT RE ELECTION

To Board of Directors

Royal College of Dental Surgeons of Ontario.

Gentlemen:

In accordance with the provisions of the Dentistry Act and the By-laws of the College, an election of the Board of Directors for The Royal College of Dental Surgeons of Ontario was held from October to December, 1946.

On the twenty-first day of October, nominations were called for by circular letter addressed to each member of the College resident in Ontario.

Valid nominations were received as follows:

District No. 1—C. M. Purcell, Pembroke

H. A. Stewart, Kingston

District No. 2—S. J. Phillips, Oshawa

District No. 3—F. A. Blatchford, Fort William

District No. 4—Harvey W. Reid, Toronto

District No. 5—G. H. Campbell, Orangeville

M. C. G. Bebee, Owen Sound

District No. 6—J. F. Giffen, London

District No. 7—R. O. Winn, Kitchener

District No. 8—H. L. Field, Hamilton

As a result the representatives for Districts Nos. 2, 3, 4, 6, 7 and 8 were elected by acclamation and elections in Districts Nos. 1 and 5 were necessary. On November 29th ballots were mailed to all qualified electors in Districts Nos. 1 and 5 with necessary instructions.

The report of the Scrutineers herewith submitted shows the election of C. M. Purcell for District No. 1 and G. H. Campbell for District No. 5.

A communication herewith presented from the Secretary of the Faculty of Dentistry, University of Toronto, states that at a meeting of the Faculty Council held on November 4th, 1946, E. W. Paul was elected as representative of the said Faculty to the Board.

Therefore, the members of the Board for the ensuing biennial term are:

District No. 1—C. M. Purcell, Pembroke
By election.

District No. 2—S. J. Phillips, Oshawa
By acclamation.

District No. 3—F. A. Blatchford, Fort William
By acclamation.

District No. 4—Harvey W. Reid, Toronto
By acclamation.

District No. 5—G. H. Campbell, Orangeville
By election.

District No. 6—J. Frank Giffen, London
By acclamation.

District No. 7—R. O. Winn, Kitchener
By acclamation.

District No. 8—H. L. Field, Hamilton
By acclamation.

Faculty Representative—E. W. Paul, Toronto.

The ballots as sealed by the Scrutineers are herewith presented and should be disposed of by direction of the Board.
April 9th, 1947.

DON W. GULLETT, Secretary.

UNIVERSITY OF TORONTO

Faculty of Dentistry

230 College St.,
Toronto 2B.
5 November, 1946

Dr. D. W. Gullett,
Secretary-Registrar,
Royal College of Dental Surgeons.

Dear Doctor Gullett:

Referring to your letter of 2nd October 1946, please note that at the meeting of the Council of the Faculty of Dentistry held 4th November 1946, Dr. Edgar Watson Paul was appointed Faculty Representative on the Board of Directors of the Royal College of Dental Surgeons of Ontario for the two-year term beginning 1st May 1947.

Yours faithfully,

COLIN D. ROUS, Secretary.

SCRUTINEERS REPORT OF ELECTION

To the Board of Directors

Royal College of Dental Surgeons of Ontario,

Gentlemen:

According to your request to act as Scrutineers of the biennial election of the Board of Directors of the Royal College of Dental Surgeons of Ontario, we attended at the Board Room of the College this eleventh day of December, 1946.

After we had made the required declaration of secrecy, your Secretary handed us the envelopes marked: "Ballot, Royal College of Dental Surgeons". There being an election in two districts we report as follows:

DISTRICT NO. 1.

Number of ballots received165
Number of valid ballots165
Number of invalid ballotsnone
The 165 valid ballots were marked as follows:
For Dr. Charles Murray Purcell95
For Dr. Henry Allen Stewart70
Showing a majority of 25 for Dr. Purcell

DISTRICT NO. 5.

Number of ballots received98
Number of valid ballots98
Number of invalid ballotsnone
The 98 valid ballots were marked as follows:
For Dr. George Harrold Campbell62
For Dr. Milton Clarence Gunn Bebee36
Showing a majority of 26 for Dr. Campbell.

We hereby certify that the above statement regarding the ballots handed us by Don. W. Gullett, Secretary of the Royal College of Dental Surgeons of Ontario and the disposition of them is correct for Districts Nos. 1 and 5.

Three ballots were received too late and were discarded.

Signed

R. GORDON McLEAN
A. T. LAIDLAW
Scrutineers.

December 11, 1946.

REPORT OF PAST-PRESIDENT

To the Board of Directors.

Gentlemen:

It is customary for the President of the Board of the Royal College of Dental Surgeons, on completing his term of office to address the members, and I wish to take advantage of this opportunity to express my deep appreciation of the honour of being President of this august body for the last two years. I congratulate the Board on having such a capable successor in Dr. Harvey Reid.

May I recall to the older members, some of the events considered since our last annual meeting and acquaint the new members with some of the work of this Board.

On February 13th last the Board of Governors of the University of Toronto appointed Dr. R. G. Ellis, Dean of the Faculty of Dentistry to take office on July 1st next. We all extend our congratulations to Dr. Ellis on his appointment to this important position and wish him success and good luck in his new endeavours. The success of a professional school depends on close co-operation between the profession and the faculty. I am sure our Board's relations with Dean Ellis will continue to be as pleasant as they have been in the past under the retiring Dean Mason.

At the December meeting of the Board section 4 of the Rules and Regulations for the certification of specialists was amended to include the specialty of Pedodontics with the specialties already recognized by the Board.

I am glad that the members of our profession employed by the Department of Health of the City of Toronto have not felt the necessity of becoming members of the Local Trade Labour Union. I trust that amicable relations between our Board and the Union will continue.

Our closer association with the Ontario Dental Association has been beneficial. The interchange of ideas brought about by the formation of the Public Relations Committee should make for intelligent co-operation between the Association and our Board.

At an Executive Meeting of the Canadian Dental Association held February 24th-25th last a resolution was unanimously adopted that a recommendation be sent to the Board of Governors that the Secretary's, Dr. Gullett's, salary be raised from \$6000. to \$8000. starting March 1st, 1947. A mail vote of the Governors of the C.D.A. was taken and this resolution was confirmed. As the Board of the R.C.D.S. pays Dr. Gullett's salary on a 50-50 basis I had a mail vote taken of the Board members of the R.C.D.S. Our members voted unanimously that our Secretary's salary be raised to conform with that of the C.D.A. to take effect as of March 1st. Dr. Gullett has been our secretary since May 1940 and too much credit cannot be given him for the important part he has played in dentistry during that time. The fact that he serves the national association as their Secretary too does not in any way detract from his interest in the affairs of the Board of the R.C.D.S.

The following extract from a Circular issued by the Academy of Dentistry, Toronto, is important enough, I think, to be included in these observations. I understand Mr. Norman Alexander, Presi-

dent of the Canadian Dental Trade Association, has written to each of the dental dealers in Ontario drawing their attention to this matter.

Courses and Clinics: The regulations of the Board of the R.C.D.S. relative to courses and clinics coming under the heading of teaching is as follows: "Courses and clinics will be allowed only under the sponsorship and direction of a recognized dental society and with permission issued from this Board in each case." Indiscriminate sponsorship would thus place the final onus for screening on the R.C.D.S. Board. However, it is their wish that the matter should be approached on a mutually co-operative basis. In past years we know that such courses and clinics were often the method of approach used by the charlatan as an adjunct to high pressure merchandizing of mediocre materials. Your Council respectfully requests that you do not make requests for commercial courses unless you are assured of the fact that they have a sound ethical background, and are in the best interests of the profession.

In closing I wish to thank the officers and members of the Board and the profession in general for the splendid co-operation given me during the last two years. I am not going to mention any one in particular. The kindness, help and co-operation of you all is deeply appreciated.

I am leaving the Board with utmost confidence the dental health of the public and welfare of our profession in Ontario are in capable hands.

Respectfully submitted,

S. W. BRADLEY.

Motion: "That the members of the Board of the Royal College of Dental Surgeons convened at this annual meeting wish to record their appreciation of the very valuable work and advice so freely given by Dr. S. W. Bradley through his entire time on this Board as a member and especially during his term as President.

We recognize his ability and his many contributions to Dentistry. In his various capacities he has reflected credit on our profession and his retirement from this Board is a distinct loss." Carried.

REPORT OF THE REGISTRAR-SECRETARY

To the Board of Directors.
Gentlemen:

The past year has been one of readjustment. Members of the College who served in the military forces have returned to civilian practice with the exception of approximately 37 who have chosen to remain in the Royal Canadian Dental Corps. The provisions of dental treatment services for ex-service personnel by the Department of Veterans Affairs caused an increased burden upon the whole profession following the war in order to provide the services. The major part of these services have now been completed and a more normal demand for dental services may be anticipated in the near future.

Undoubtedly an increased appreciation of dental service exists as compared with pre-war years. Difficulty is experienced in attempt-

ing to estimate the percentage increase of the demand which in turn gives rise to the question of sufficiency of personnel at present and in anticipation for the future. Two factors will influence the need for dentists. First, the prevailing economic conditions of the future, and secondly the introduction of enlarged plans for health treatment services sponsored by government or other agency. Distribution of dental personnel in rural areas is not good at present as several municipalities, which had a dentist previous to the war, have little or no service.

The regulations respecting narcotics are not well understood by many of our members. A prescription for the use of narcotics must be for a patient under treatment by the dentist who writes the prescription and the prescription must be for the treatment of the condition for which the patient is being treated by the dentist. Care in observing the regulations is important in order to save investigations by the narcotic authorities.

At the recent session of the legislature The Dentistry Act was amended to the effect that "no person shall conduct any course for training or imparting instruction in any branch of dentistry or shall grant degrees in dentistry without the approval of the Lieutenant-Governor in Council upon recommendation of the Minister of Health." A similar amendment was made to the Medical Act.

The amendment to the Act sought by the College has not been introduced in the legislature at this date. Assurance has been given that this bill will be brought in at the short session to be held in June.

Upward adjustments have been made under the Minimum Wage Act of minimum wages for females effective as of March 29th, 1947. Under the Minimum Wage Act the province is now divided into three zones.

Zone 1—Toronto, Hamilton, Ottawa, London and Windsor, including suburbs of each city.

Zone 2—Every local municipality over 3,000 population.

Zone 3—Every local municipality under 3,000 population.

The minimum rates of pay are:

Zone 1—(i) inexperienced employees:

first 3 months	\$14.50
second 3 months	15.50

(ii) experienced employees	16.80
----------------------------	-------

Zone 2—(i) inexperienced employees:

first 3 months	13.50
second 3 months	14.50

(ii) experienced employees	15.80
----------------------------	-------

Zone 3—(i) inexperienced employees:

first 3 months	11.50
second 3 months	12.50

(ii) experienced employees	13.80
----------------------------	-------

"The weekly work period for which the minimum weekly wages established are paid shall be for a week of not more than 48 hours or for the normal number of hours established by custom by an employer."

The relationship between the profession and trade unions has given rise to serious considerations. On several occasions representation has been made on behalf of the dentists employed by the City of Toronto. Agreement has been reached that members of the profession employed by the city do not need to become members of the trade

union as a condition of their employment. The trade union of city employees has been recognized as the collective bargaining agency for employees of the city and consequently arrangements respecting salaries, etc. are considered by the trade union officials. Provincial legislation governs the recognition of collective bargaining agencies and consequently it would be necessary to obtain exception for members of a profession by amendment to the provincial act. There has been indication that a federal act of this nature is being introduced which may or may not except members of professions.

Instructions were given that a form be prepared for the use of an examiner, under the arrangement for a Board of Referees, when examining a patient at the request of the Board when complaint of services rendered has been made to the Board. A suggested form is submitted as an appendix to this report.

CHANGES IN REGISTER

As of April 30th, 1947, the number on the Active List is as follows:

Annual fee paid	1969
Honorary re 50 year list	58
Fees unpaid on above date	2
Total	2029

Changes during the year have been as follows:

Added to Active List

New Graduates	39	
Licentiate from Michigan	1	
Licentiate from Manitoba	1	
Licentiate from Ontario	3	
D.D.C. Certificate Registered	1	45

Transferred to Inactive List

Died	23	
Out of practice in Ontario	77	100
Loss		55

In reality this loss in number on the Active List does not indicate less practising dentists in Ontario. During the war years entire graduating classes were registered and placed on the Active List on an honorary basis in order to qualify for appointments in the Canadian Dental Corps. The College kept these members in good standing by issuing honorary renewal certificates each year. Upon retirement from Military Service a considerable number have taken up practice in another province, for the most part in the province from which they originated. This fact accounts for the decrease in number on the Active List this year. There still exists a number who are not, as yet, permanently located and consequently have paid the annual fee. Undoubtedly most of those in this category will be located in practice elsewhere than in Ontario. For the pre-war year 1938 the number of dentists for Ontario was reported to be 1900. The population of Ontario has risen from 3,672,000 in 1938 to 4,107,000 in 1946, an increase of nearly one half million.

It should be pointed out that some 72 Ontario licentiates are now employed by the Federal Government, a condition which did not exist previous to the war. (37 with the Royal Canadian Dental Corps and 35 with the Department of Veterans Affairs). These licentiates are not all in Ontario at the present time. They are not engaged in private practice so are deductible from the number of licentiates given above. The Royal Canadian Dental Corps is not up to its establishment and an effort is being made to induce licentiates to accept appointments at the present time.

An increased number of licentiates are now engaged in dental public health activities and school dentistry, making a further deduction in the number in private practice today.

To summarize the matter, the following approximate figures are presented for those to whom 1947 renewals were issued:

Total number 1947 renewals issued		2029
Number serving in R.C.D. Corps	37	
Number employed by D.V.A.	35	
Number employed full time in Dental Public Health	4	
Number employed full time school dental service	10	
Number employed full time teaching staff	9	
Number not residing in Ontario	10	
Number not actually practising (estimated)	23	
Number of deaths since issuing renewals	5	
	133	2029

Much comment has been made to the effect that too many licentiates have located in the larger centres. Comparative figures are set forth below for the number of dentists in the five larger Ontario cities as for the years 1938 and 1947. When the increase in population is taken into consideration for these cities between the same years the per capita relationship is not greatly changed.

	1938	1947
Toronto	648	712
Hamilton	107	105
Ottawa	106	112
London	48	60
Windsor	37	46

A class will graduate this year in mid-July from the Faculty of Dentistry, University of Toronto, which will be the last class on the accelerated plan. This class consists of 45 undergraduates and 30 graduates from other countries (except 2) who are taking the final year. It is estimated that approximately 35 will practice in Ontario. No class will graduate from the Faculty during the year 1948, the next graduating class will be in May 1949. During the interval between July 1947 and May 1949 there will be a steady diminution in the number of dentists in Ontario due to death and retirement without the addition of new graduates.

There are as of this date 53 certified specialists practising in Ontario. The objective in instituting the certification of specialists is to assure the public of a high level of qualification and care should be exercised by the Board in the maintenance of such standards for certification which will leave no doubt in the matter. Academic qualification is the best recognized distinctive skill today and should form a most important place in the certification in order to gain the desired end.

This Board has granted 4132 certificates to Licentiates at this date.

EXTRA-MURAL AND EXTENSION LECTURE SERVICE

The Extramural and Extension Lecture plan still proves to be a popular arrangement for continuing education with members of the College. Thirty-six meetings were held under this plan during the last year compared with twenty-four meetings for the previous year.

EXTRAMURAL LECTURES AND CLINICS

Society and Place	Date 1946-47	Speaker	Subjects Presented	Number Present
Brant County Brantford	March 5	MacGregor	Dentistry for Children.	20

HONORARY REGISTRATION

The following members who have been on the Ontario Register for 50 years or more were sent honorary renewal certificates:

1886	Bannerman, J. G.	Owen Sound
1886	Carrique, J. H.	Toronto
1887	Allen, A. H.	Toronto
1888	Frain, J. H.	Norwich
1888	Willmott, W. E.	Toronto
1889	Matthewman, G. P.	Ottawa
1889	Kerr, J. J.	Cobourg
1890	Allen, G. P.	Mount Forest
1890	Belden, G. F.	Toronto
1890	Bower, Ira	Ottawa
1890	Martin, Oliver	Ottawa
1891	Lennox, C. W. F.	Bracebridge
1891	Sisley, M. J.	Toronto
1891	Wright, G. F.	Trenton
1892	Trigger, T. C.	St. Thomas
1892	Musgrove, G. J.	Niagara Falls
1893	Fowler, G. S.	Theswater
1893	Irwin, John H.	Collingwood
1893	McGorman, W. T.	Port Arthur
1893	Peaker, E. A.	Toronto
1894	Abbott, C. N.	London
1894	Bell, J. Wick	Hamilton
1894	Cameron, J. D.	Renfrew
1894	Davidson, D.	Woodstock
1894	Hughes, Fred G.	Waterloo
1894	Sangster, W. A.	Port Perry
1894	Lyon, V. H.	Ottawa
1894	Nicholls, B. F.	Toronto
1895	Bansley, J. C.	Toronto
1895	Falconer, E. W.	Toronto
1895	Kennedy, W. C.	Orillia
1895	Marshall, Oliver A.	Belleville
1895	Mullin, A. E.	Sarnia
1895	Schnarr, C. N.	Kenora
1895	McLean, R. Gordon	Toronto
1896	Adams, W. F.	Toronto
1896	Ball, T. E.	Wroxeter
1896	Britton, Frank	Brantford
1896	Campbell, L. G.	Markdale
1896	Graham, R. L.	Port Hope
1896	Lundy, W. E.	Toronto
1896	Mabee, L. M.	Goderich
1896	McMillan, J. F.	Toronto
1896	Pearson, C. E.	Toronto

1896	Revell, R. L.	Woodstock
1896	Sihler, A. T.	Simcoe
1896	Smith, P. St. C.	Toronto
1897	Baird, David H.	Ottawa
1897	Brereton, E. L.	Barrie
1897	Cummings, A. E.	Thornbury
1897	Foster, S. E.	Warton
1897	Graham, W. H.	Ottawa
1897	Henderson, C. K.	Hespeler
1897	Kennedy, G. T.	St. Thomas
1897	Kinsman, A. R.	London
1897	Maclean, W. A.	St. Catharines
1897	McLean, A. H.	Orillia
1897	Little, A. E.	Owen Sound

Members Eligible for Honorary Registration January 1st, 1948, are as follows:

1898	Beattie, G. A.	Ottawa
1898	Clarke, M. J.	Belleville
1898	Cooke, C. A.	Sutton
1898	Hill, W. J.	Toronto
1898	Hilliard, J. A.	Kitchener
1898	Hutchison, J.	London
1898	Lambertus, J. A.	Eganville
1898	Watson, A. H. R.	Port Hope

A resolution should be passed granting Honorary Registration to these latter members of the College.

Again I desire to thank the members of the Board for the splendid co-operation given this office and also to express my appreciation of the many kindnesses shown me personally directed toward the objective of facilitating the work.

Yours faithfully,

DON W. GULLETT, Registrar-Secretary.

Motions: "That beginning January 1st, 1948, that the following dentists be granted honorary registration:

G. A. Beattie
M. J. Clarke
C. A. Cooke
W. J. Hill
J. A. Hilliard
J. Hutchison
J. A. Lambertus
A. H. R. Watson

Carried.

"That the 1947 Licence Fee for those graduating in July be set at \$5.00" Carried.

"That the Secretary and our Solicitor be instructed to protest to Toronto City Council and Provincial Government that Labour Union No. 79 does the bargaining for the dental employees of the City of Toronto contrary to the policy of this Board and that Doctors Field and Winn prepare a resolution expressing the attitude of this Board." Carried.

"That the report of the Registrar-Secretary be adopted." Carried.

REPORT OF TREASURER

To the Board of Directors.

Gentlemen:

Detailed statement of the revenues and expenditures of the past year will be found in the auditor's statement herewith presented.

Licentiate Fees

First fee notices were mailed out on December 2nd last; second notices were sent out January 15th; Drafts were issued upon those who had not paid on February 3rd, and on April 1st the remaining number who had not paid were placed in Division Court. As a result of this action 1487 paid after the first notice; 406 paid after the second notice; 133 paid by draft and one after court action. Two namely Dr. R. M. Carruth, Toronto, and Dr. W. C. Kelly, Windsor, were not paid on April 30th and their cases are in court for collection.

Investments

As instructed, \$2000.00 Province of Saskatchewan 5% bonds were sold during the year and \$2000.00 Dominion of Canada 3% bonds purchased making no change in capital. This exchange was made at a profit of \$260.00.

Equity — University of Toronto

The \$50,000 equity with the University of Toronto was paid off this year and these funds are now deposited in the bank savings account of the College.

Harry R. Abbott Memorial Fund

The receipts from the Harry R. Abbott Memorial Fund for the year were \$398.81 and the expenditures were \$500.00, leaving a balance of \$427.74 which is \$102.19 less than in the fund last year.

Auditors for the next year should be appointed at this meeting.

DON W. GULLETT, Treasurer

Motions: "That the investment of the funds received by this Board from the University be referred to the Investment Committee with power to act." Carried.

"That Thorne, Mulholland, Howson and McPherson be appointed auditors for the ensuing year." Carried.

"That the report of the Treasurer be adopted." Carried.

REPORT OF THE EXECUTIVE COMMITTEE

To the Board:

The Executive Committee present the following recommendations.

1. Dental Hygienists

This committee recommend to the Board that:

- (a) We approve of the establishment of a course to train Dental Hygienists for a limited number of applicants as soon as facilities for such a course can be established.
- (b) Action to be taken to change the Dental Act so that Dental Hygienists be under control of the Board.

2. Pedodontists

That we recommend to the Board the establishment of a specialty of "Pedodontia" and that our by-laws be changed to give effect to such action and a suitable amendment be prepared.

3. Dental Services for Relief Recipients etc.

This committee recommends to the Board that in regard to fees for Relief Recipients, etc., the schedule of the Workmen's Compensation Board be a basis, with necessary additions for hospital calls, house calls, etc.; and that the Board set up machinery for administration and control; and that the cost of administration be a direct charge to the Department of Welfare.

4. Complaints to the Board

That in view of the many complaints received from patients as to the services rendered by dentists, this committee recommends to the Board that a Board of Referees be appointed to examine and pass on these cases, and make confidential report to the Board, and that the profession be advised of such action.

Respectfully submitted,

HARVEY W. REID, Chairman

Motions: "That we seek amendment to the Dentistry Act of Ontario to enable the R.C.D.S. to establish an ancillary group to be known as "Dental Hygienists" who shall be under the control of the Board of the R.C.D.S. of Ontario." Carried.

"That this Board recommend to the C.D.A. that the Council on Dental Education of the C.D.A. be requested to recommend a uniform standardization of education for Dental Hygienists under the heading of—

- (1) Matriculation requirements
- (2) Educational curriculum
- (3) Uniform licensing by province. Carried.

"That the report of the Executive Committee as amended be adopted." Carried.

REPORT OF DISCIPLINE COMMITTEE

Board of Directors.

Gentlemen:

The Committee has dealt with a great number of complaints.

during the past year. Many of these were of a minor nature but the following ones have given some concern to the Committee.

Dr.— — — Complaint was received that this man was holding himself out as a specialist without proper certification. In addition complaint was made by the public respecting the type of service rendered by him. After some correspondence Dr.— — — wrote agreeing to abide by the regulations.

Dr.— — — Copy of ——— newspaper was forwarded to the Board containing an advertisement respecting X-ray. Dr.— — — was advised respecting the regulation and immediately removed the statement from his professional card as required.

Dr.— — — Copy of a large advertisement which appeared in the ———Daily Reporter was forwarded to the Board. This advertisement was in respect to the establishment of Dr.— — —'s office in a new building, and had a statement attached to the effect that his office was the best equipped in that area. A strong letter was written Dr.— — — pointing out to him his infraction of the regulations. In reply he disclaimed giving any authority for the advertisement or statement to appear.

Dr.— — — A complaint was laid by a patient respecting unsatisfactory services. In reply to a letter sent Dr.— — — calling him to explain the matter it was found that the patient was an eccentric type and that Dr.— — — had done everything possible.

Dr.— — — Complaint was made by patient that he had received mistreatment in respect to professional services by Dr.— — —. After investigation it was found that Dr.— — — was not guilty and statement was sent to the patient to this effect.

Dr.— — — Complaint was received from the Sanitary Division of the Toronto Department of Health stating that information had been given to the Department that Dr.— — —'s office was in a most unsanitary condition. A letter was written to Dr.— — — pointing out the serious nature of this complaint. Reply was received disclaiming any such condition as existing, and stating that there was undoubtedly an ulterior motive behind the complaint.

Dr.— — — The Workmen's Compensation Board laid complaint against Dr.— — — in that he had attempted to collect an amount in addition to the account paid by that Board for services rendered under the Workmen's Compensation Act. He evidently paid no attention to the warning from the Medical Officer and the case was referred to this Board. After receipt of a communication from the Secretary, Dr.— — — readily acceded in the matter.

Dr.— — — An anonymous letter was received respecting the unsanitariness of Dr.— — —'s office. No attention was paid to this anonymous letter.

Dr.— — — Complaint was received through the College of Physicians and Surgeons to the effect that Dr.— — — did not give proper post-operative attention to a patient who was admitted to hospital through serious loss of blood through hemorrhage following the extraction of teeth. This matter was investigated and Dr.— — — disclaimed

any neglect. He stated that he did everything possible with the type of patient concerned.

Dr.— — — This man occupied the office of a member of the profession while he was serving in the military forces. Recently the office was turned back to the dentist who was retired from the Corps. A great number of patients have telephoned the Secretary stating that they paid money to Dr.— — — for services which they have not received, and that he has disappeared leaving no address.

Dr.— — — Complaint was received respecting large publicity photographs which appeared in an issue of the Globe and Mail. The committee interpreted these photographs as nothing more than pure publicity, and a letter has been written to Dr.— — — to that effect also pointing out the attitude of the Board in such matters. Satisfactory answer was received.

Dr.— — — made verbal request to meet the Discipline Committee. He was requested to state nature of his request in writing before calling a meeting of this committee. No reply has been received.

Dr.— — — Further to the information reported at the last meeting of the Board, the Department of Veterans Affairs has reported difficulty with this man in that he has been paid for services which he did not render.

X-ray Signs

Many complaints have been received respecting X-ray signs in the Toronto area. Those who were forced to remove the words X-ray from their sign feel that they are not being fairly treated.

Several incidents have occurred respecting the regulations governing dental services sponsored by the governments. In some cases it has been necessary to give warning owing to the serious nature of the matter.

Recently an advertisement appeared in the Toronto newspapers stating that dentures would be relined at a certain fee. The matter is being investigated with the objective of prosecuting the individual concerned who is not a member of the College.

Complaints respecting the charging of exorbitant fees and treatment of patients in the dental office have been numerous.

ILLEGAL PRACTICE

The following cases have been dealt with:

E. M. Smith, 173 Rushton Rd., Toronto—appeared before Magistrate Elmore, City Hall, Toronto, on December 10th, 1946. He was convicted on a first offence and fined \$100.00 and costs or one month in gaol. He paid the fine.

F. N. Regan, Wa Wa—appeared in Magistrate's Court at Sault Ste. Marie on a charge of practising illegally. He pleaded not guilty to the charge. He was convicted for a first offence and fined \$100.00 and costs or one month in gaol. He served the gaol term. (This is the second time this man has been convicted on a first offence.)

Graydon E. Tyrrel, 221 Seaton St., Toronto—appeared before Magistrate Elmore at City Hall, Toronto, on May 1st, 1947, on a charge of practising illegally. He pleaded guilty and was found guilty of a fourth offence and fined \$500.00 and costs or three months in gaol.

———This man is a dental student who engaged in illegal practice during holidays and week-ends. The case was taken up through the Dean of the dental school where he was in attendance. ——— admitted his guilt and appealed by letter for mercy. After consideration of the matter prosecution was dropped.

Evidence exists of an increase in illegal practice and a number of cases are under investigation at the present time.

Yours respectfully,

H. L. FIELD, Chairman.

Motions: "That a letter be written to each of the members of the College who have been improperly listed in the Bell Telephone Directory pointing out the fact that this is a direct violation of the regulations of the R.C.D.S. and must be remedied in the next issue of the Directory, and that written assurance that this will be done be given." Carried.

"That the Inspector of the Board be requested check on illegal signs, X-ray especially, as soon as it is convenient, starting with the City of Toronto." Carried.

"That Dr. — — — be advised that this Board disapproves of his unlawful listing in the Telephone Directory. That he holds himself out as a specialist when not recognized by this Board, and that unless immediately written assurance that this will be corrected is received, that Dr. — — — be summoned to appear before the Discipline Committee." Carried.

"That the Chairman of the Discipline Committee be instructed to call a meeting at which Doctors — — — and — — — be summoned to attend to answer charges of conduct unbecoming a member of the Royal College of Dental Surgeons." Carried.

"That the Secretary be instructed to write Dr. — — — stating that this Board views with alarm his prescription of sedatives and stimulants for Mr. — — — in such excessive amounts. Any further action of this nature shall have to be considered by the Discipline Committee." Carried.

"That the report of the Discipline Committee be adopted." Carried.

REPORT OF FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO

To the Board of the Royal College
of Dental Surgeons of Ontario.

Gentlemen:

The total registration of students in the Faculty of Dentistry for session 1946-47 is 542. Of this number seven graduates were taking the Diploma Courses; three proceeding to further degrees; twenty-five young women in the course in Dental Nursing, twenty-three of

whom were ex-service personnel; and 508 undergraduates including 357 ex-service personnel and eight women students. Of the graduating class 28 men and one woman were ad eundem students, graduates from dental faculties outside Canada. We are pleased to have these students from other countries again enrolling in this Faculty. This is the last class of the war-time accelerated plan and Convocation will be held on July 14, 1947.

The Board of Governors of the University of Toronto have ruled that the registration in the Predental Year commencing September 1947, be limited to approximately 80 students, and the President has suggested that they be chosen from applicants without preference to location. The ex-service applicants will be granted some priority on their academic standing. It is the intention of the Faculty that prospective students be given an aptitude test.

The curriculum of the Predental Year in this Faculty has been changed. It includes the following compulsory subjects: English, Physics, Chemistry and Biology, and one of French, Mathematics, or Fine Art and Archeology. This course will not only fulfill the predental requirements for the course in Dentistry, but successful students may be given credit for a year in the Faculty of Arts. A time-table of this course is submitted. It is hoped that this course will give the student a broad cultural background.

From June 24th to 29th, 1946, a post-graduate course was given in Periodontology to twelve graduates. The graduates attending represented widely distributed centres from Detroit to Montreal, and Ithaca, N.Y. As this course had not been reported I included it in the 1947 report.

Two other post-graduate courses were given in this subject from September 9th to 14th, 1946, attended by six dentists, and another course from December 9th to 14th, 1946, with thirteen dentists enrolling. Some of the dentists registered came from long distances. A course in Periodontology was given every second Thursday from March 6th to April 17th, 1947, to twenty-one dentists from Buffalo, also one half day session of instruction in the same subject was given to forty dentists from the Niagara County Dental Society, N.Y. These courses were given by Drs. Box, Williams, assisted by McIntosh and Robb.

From January 26th to February 8th, 1947, Dr. R. H. W. Strang and his assistants, Drs. Glen Whitson, N.Y., and W. H. Thompson, Pittsburgh, gave a two week's course in Advanced Othodontics to twenty-eight dentists of Canada and the United States. These men came from very widely distributed areas, from Vancouver, Canada, and Spokane, Washington, U.S.A., Ottawa, also from Winnipeg, Canada, to Washington, D.C., Phoenix, Arizona, U.S.A., and Sherman, Texas. This course was received with enthusiasm and much appreciated by those enrolled and had a very stimulating effect.

During the session Graduate Diploma Courses have been given in Periodontology, Othodontics, Dental Surgery and Anaesthesia, and Dental Public Health. The following time table and list of examinations was followed:

TIME TABLE

Hour	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8.00						Chemistry Lab. A. Group
9.00	French Lecture B. Group Chemistry Lab. A. Group	Biology A & B	Physics Lect. B. Group	Biology Lect. A. & B.	Physics Lect. A. Group	
10.00		Biology A & B Lab.	Chemistry Lect. A. & B. Math. Lect. French Lect. Fine Art Lect.	Biology Lab. A. & B.	Chemistry A. & B.	Math. Fine Art
12.00	Physics B Group Lect.				French Lect.

4.00	1st Aid 5 Lectures Preventive & oral Hygiene 4 Lectures Dental Bibliography 1					
7.00	Physics Lab 3 hrs. A Group	Physics Lect. A Group	Physics Lab. B. Group			

TIME TABLE
Diploma Courses

Hour	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8.00						
9.00	Practical	Preventive Dentistry	Special Lectures	Pharmacology (18 weeks)	Clinical	Clinical
10.00	Practical	Clinical	Radiology (20 weeks)	Pharmacology (18 weeks)		
11.00			Radiology (20 weeks)			
12.00		Medicine 30 at General Hospital		General Pathology (12 weeks)	Medicine	
2.00	Anatomy Lab. (15 weeks)		Anatomy Lab. (15 weeks)	Dental Pathology Dr. Box (20 weeks)	Clinical	
3.00	Anatomy Lab. (15 weeks)		Anatomy Lab. (15 weeks)	Dental Pathology Dr. Box (20 weeks)		
4.00	Physiology Lectures All Session					
5.00	Seminar Physiology.					

The following is a time-table and a list of examinations which have been approved by the Faculty for the present session:

Dental Surgery and Anesthesia Course

1. Dental Surgery and Anaesthesia
(written and clinical)
2. Anatomy
3. Medicine
4. Pathology
5. Radiography
6. Physiology
7. Pharmacology

Orthodontic Course

1. Orthodontics (written and clinical)
2. Anatomy
3. Medicine
4. Radiography
5. Physiology
6. Histology

Periodontology Course

1. Periodontology (written and clinical)
2. Anatomy
3. Medicine
4. Pathology
5. Radiography
6. Pharmacology
7. Physiology
8. Histology

Dental Public Health Course

The subjects specified by the School of Hygiene and

1. Preventive Dentistry
2. Orthodontics
3. Pedodontia
4. Dental Public Health Education and Administration.

I regret that owing to difficulty in administration the courses in Histology and Pediatrics were omitted. Discrepancies of this nature are understandable as this is only the second year of conducting these courses. They will, therefore, be better organized for next session. Even with the flaws and weaknesses, the quality and contents of the course do compare very favourably with similar courses given in other Dental Faculties. I personally believe that too much is expected of the candidate in one academic year. In other words the curriculum is too full and yet it seems that little can be eliminated.

The Faculty is suggesting that the registrants be chosen on the following criteria: That in future an applicant for the Diploma Courses to be accepted must have received in the final year examinations of his undergraduate course at least 66% of the total marks and at least 75% on the subject of the specialty for which application has been made and of the allied subjects, but that in exceptional circumstances after a record of satisfactory practice other cases may be considered.

Of the eight scholarships made possible by the W. K. Kellogg Foundation, four awards have been made in the following districts, and the winners have maintained their academic requirements:

R.C.D.S. Electoral Districts Nos. 4, 5, 6 and 8. Awards are still open in the following Districts Nos. 1, 2, 3, and 7 several applications have been received, however, and more interest in these scholarships has been shown by Secondary School Principals than in the past.

A committee on Endowment and Procurement was appointed by the Faculty under the chairmanship of Dr. A. M. Hord. The committee have worked hard and I submit a brochure which is being distributed through the Extension Department of the University, and although the response has not been satisfactory to the committee still they are encouraged.

The following scholarships have been established during the year: H. P. Temple Scholarship and Henry Thomson Scholarship to commemorate the names of two leaders in the Dental Supply Business of Canada. Also members of the class of 2T3 have immortalized the name of their graduating year and a scholarship from the Students Administrative Council of the University.

Sixty-five dentists have availed themselves of the Graduation Consultation Service. The members of the Faculty are pleased to be of help in the diagnostic field and it is surprising that more practitioners do not avail themselves of this service.

The Extramural Lecture Service is as popular as ever, and this year, after a lapse during the war, we have again sent Dr. T. N. Scott on the extensive itinerary through Northern Ontario. Many meetings of dental societies were held under this plan throughout Ontario, details of which will be reported elsewhere.

Examiners and Petitions

The Committee of the Board of the R.C.D.S. on Examiners and Petitions met and will report on particular questions which have to do with ad eundem students from outside of Canada. It is my sincere desire that any action taken by the Board of the Royal College of Dental Surgeons will be in full harmony with the Faculty and that any change from past regulations will be operative only after due notice of such change. I would not like to see the efforts of this Faculty over a period of many years spoiled by too precipitous action in changes of the regulations which have stood the test of actual practice. I believe that the policy followed in the past has brought nothing but good to this University, has extended its influence as a University and created good-will within the Empire and other countries.

Library

The report of the Library will be submitted by the Librarian. As Dean I wish to state that the present financial arrangements for the conduct of the library are satisfactory and I hope that this amicable feeling may continue. The combined library adequately serves both the students and the profession.

Research

At present Dental Research is receiving more financial support than at any previous time. The National Research Council of Canada through the Canadian Dental Association has made available substantial grants for the study of dental problems. The Ontario Government has generously supported research through the Board of Governors of the University. A Committee, therefore, has been appointed by the President of the University to administer this fund and

dentistry has been given grants for special research problems. Further grants have been made by E. R. Squibb & Sons, and by the Bristol-Myers Company. The Faculty is very grateful to the Board of the Royal College of Dental Surgeons for their generous support in this matter. The following investigations are proceeding at the present time:

- (1) Dr. W. J. Linghorne is studying the dental application of physiology in the Departments of Physiology, Periodontology and Chemistry.
- (2) Dr. Neil H. Cheo is studying the etiology of periodontal diseases, under the direction of Dr. H. K. Box.
- (3) Dr. R. E. Breen, under the direction of Dr. R. G. Ellis, is investigating the nature of the sensitivity in dentine.
- (4) Dr. Effie M. Milner is continuing her study on infants suffering from coeliac disease from the standpoint of tooth and bone development, and on a control group of patients of similar age not suffering from coeliac disease and not having had the special coeliac diet.
- (5) Dr. R. J. S. Tickle is making a chemical study of nitrous oxide for dental anaesthesia under the direction of Dr. G. H. Lucas of the Department of Pharmacology.
- (6) A study of micro-organisms found in deep periodontal pockets as revealed by the electron microscope by Dr. H. K. Box of the Department of Periodontology, and the Department of Physics.
- (7) An anatomical, histological and physiological study of the role of the condyle in mastication by Dr. R. J. Godfrey, Dr. H. K. Box and Dr. C. H. Moses.

Retirements

Several members of the staff besides myself will be retiring from active teaching at the end of this session. The contributions which they have made to the profession and to undergraduate and graduate teaching cannot be over-valued. May they all enjoy their release from active responsibilities and take the opportunity to still add to the knowledge and culture of Dentistry.

As I retire from my official position as Dean of the Faculty of Dentistry I thank the members of the Board for their co-operation in the settlement of questions which have been of mutual interest to the profession and the Faculty. The relations have always been cordial and all have endeavoured to make the solutions agreeable and fair. The spirit of tolerance and adjustment have always been the prevailing influence.

I thank you for your personal criticisms, as well as for the kindnesses which you have shown to me. I shall never forget the thrilling luncheon tendered me and for your generosity in having my portrait painted. On that occasion Dr. G. H. Campbell was all too kind in his praises of my endeavours. My retirement will be from active duties but my enthusiasm will always follow the development of increasing dental services to the less fortunate in our community and in the preventative field of dentistry for children.

All of which is respectfully submitted.

ARNOLD D. MASON, Dean.

Motion: "That the report of the Faculty of Dentistry, University of Toronto be adopted." Carried.

REPORT OF COMMITTEE ON EXAMINERS AND PETITIONS

Gentlemen,—

A meeting of the Committee on Examiners and Petitions was held in the Board Room, 211 Huron St., Toronto, on Friday, March 28th, 1947, for the purpose of considering applications of candidates for registration with our Board, and to deal with correspondence relating to the work of the committee.

Those present were,

Doctors J. Frank Giffen, Chairman

J. E. Amos

Harvey W. Reid, Vice-president of the Board

S. J. Phillips, Chairman, Committee on Government
and Legislation.

also, Dean A. D. A. Mason

Assistant Dean T. Cowling

Dean-Elect R. G. Ellis.

As you are aware, a new Citizenship Act for Canada became effective the first of this year, which now requires at least five years' residence of those who wish to obtain Canadian citizenship.

We, at present, have several graduates of dental schools of foreign countries, who were admitted to the final year in the Faculty of Dentistry of the University of Toronto, prior to the enactment of the new Citizenship Act, with the intention of registering with our Board to practice dentistry in the Province of Ontario.

The Committee entered into a discussion of the regulations in respect to qualifying for registration with the Board. Various points arising from the applications of the present applicants were considered.

By appointment we interviewed Mr. John Medwell Brown, a graduate of University College Hospital Dental School, London, England, and Mr. Russell Thomas Frederick Boyd, a graduate of Sydney University, Australia.

These interviews were very satisfactory and we gained considerable knowledge regarding the Matriculation, preprofessional and professional qualifications of candidates from these countries and decided that on the completion of their academic year in the Faculty of Dentistry, University of Toronto, they would be well qualified to register with this Board.

The following motion was passed regarding the graduate applicants.—

Motion: That this Committee recommend to the Board that in the case of R. T. F. Boyd, Alfred Bayley, J. M. Brown, E. J. Cloke, A. S. Jackson, J. L. Sertori, V. P. Webb, D. D. Freeman, B. J. Hyams, B. D. McCallum, N. H. Bain, H. W. Wigley, G. A. Cuthbertson, R. F. Deakins, Francis Watson, J. E. McGovern, that By-law 8, Section 1(a) re citizenship be waived and that upon successfully completing their course in the Faculty of Dentistry, U. of T., and after signing a covenant to practise ethically and to maintain the dignity and honour of the profession, and after paying the fees required by this Board, that they be granted their L.D.S. certificates. Carried

An application for registration with this Board was received from **Philippe Emile Baenziger**, a graduate of Royal Dental Hospital, University of London, England.

Motion: That we advise P. E. Baenziger that, apart from the credentials he has already presented, it will be necessary for him to successfully complete the final year in the Faculty of Dentistry, University of Toronto; to sign a

covenant to practise ethically, and to maintain the dignity and honour of the profession; and to pay the fees required by this Board. Carried.

A communication was presented from Dr. A. L. Posen of Toronto who is contemplating a post-graduate course in Orthodontics at Columbia University, asking if a diploma granted on the completion of the course would be favourably considered as a requirement of this Board for granting a specialist's certificate in Orthodontics.

Upon investigation this course appears to be a splendid post-graduate course in Orthodontics and well worthy of recognition, and we recommend that Dr. Posen be advised that, upon successfully completing this course and supplying this Board with a letter of certification from the Dean of the School and a copy of the examination papers and marks obtained, and fulfilling all other requirements of our regulations regarding specialists and specialization, he will be granted a specialists certificate in Orthodontics.

Consideration was given the following applications for undergraduates and motions were passed respecting each applicant.

(1) **Ng Sui Ching** of Hong Kong, a British subject, and a qualified student in the Faculty of Dentistry, University of Toronto, applied for student registration with this Board.

Motion: That our Registrar be instructed to issue him a qualifying certificate.

(2) **James Howard Young**—second year student in attendance at McGill University making application to transfer to the Faculty of Dentistry, University of Toronto.

Motion: That we recommend to the Board that in the case of J. H. Young, his qualifications for matriculation be considered sufficient. Carried.

(3) **J. E. Purdie**—a letter received from the Faculty of Dentistry, U. of T. respecting this individual, whose academic standing is stated to be same as was stated for J. H. Young (above).

Motion: That this Committee recommends to the Board that J. E. Purdie be issued a qualifying certificate if his matriculation and all other requirements comply with the regulations of this Board. Carried.

(4) **D. E. W. Boyd**—a student of the graduating class, Faculty of Dentistry, U. of T. applied for student registration without fulfilling the citizenship clause of the regulations.

Motion: That the citizenship requirements be waived to facilitate his registration with this Board. Carried.

A communication was received from Dr. Proctor, President of the D.D.C. respecting an inquiry from Dr. Joseph Freeman.

Motion: That in reply to the communication from the President of the D.D.C. he be informed by the Secretary that this committee is of the opinion that Joseph Freeman has not the necessary qualifications to be accepted to write the D.D.C. examinations. Carried.

It was again suggested that the Board request of the Faculty that the final examination papers and the marks obtained in both oral and written examinations of the graduating class and those taking the specialists courses, be submitted to the Board as soon as they are obtainable.

Respectfully submitted,

J. ELMER AMOS,
EDGAR W. PAUL,
J. FRANK GIFFEN,

Chairman.

Motion: "That the report of the Committee on Examiners and Petitions as amended be adopted." Carried.

REPORT OF THE COMMITTEE ON LEGISLATION AND GOVERNMENT

To the Board of Directors,
Royal College of Dental Surgeons.
Gentlemen:

Our Committee met in the Board Room, April 22nd, 1947.

The following were present:

Doctors Harvey W. Reed
J. Frank Giffen,
Don W. Gullett, Secretary,
S. J. Phillips, Chairman,

together with

Doctors A.D.A. Mason, Dean
R. G. Ellis, Dean-Elect
T. Cowling, Assistant Dean.

The purpose of this meeting was to consider the following resolution of the Board: "That the matter of staggering elections, changing of districts, length of term of President, reviewing By-law No. 8, Section 4, subsection F, be referred to the Committee of Legislation and Government to investigate and bring in a report at our regular meeting.

The Committee discussed at some length regarding these regulations in reference

- A. Regulations of other Boards.
- B. Citizenship.
- C. Matriculation.

A. Most other Boards have very definite rules and information for all persons desiring to practice dentistry in that state.

B. Citizenship

Dr. Don W. Gullett, Secretary, presented the new "Canadian Citizenship Act" of January 1947; also Mr. Watson's interpretation of the new Act.

1. In order to obtain Canadian Citizenship a British subject who was living in Canada when the Canadian Citizenship Act came in force and had been domiciled there for five years automatically became a Canadian Citizen.

2. Other British subjects in order to qualify for Canadian Citizenship must make a declaration and satisfy the Secretary of State that he was lawfully admitted to Canada for permanent residence and (B) that he has resided continuously in Canada for a period of one year immediately preceding application and has also resided in Canada for a further period of not less than four years.

3. A person who is not a British subject is required to make a formal application for citizenship papers, and in addition it is required that such person file a "Declaration of Intention" to apply for citizenship not less than one year prior to the date of application.

4. These provisions apply with same force to a citizen of the United States as to any other non-British application.

C. Matriculation

1. Matriculation equal to that required of Ontario applicants before beginning study of Dentistry.

2. Certification by Dean of School from which the applicant graduated and/or by Secretary of licensing authorities where last registered.

3. Credentials proving Dental Course taken equal to course required by the Board at the time the course was taken.

4. (a) If graduates of an approved dental school to have completed one year at the Faculty of Dentistry, University of Toronto, and passed the required examinations.

(b) If graduates of other than an approved school to have completed at least two years at the Faculty of Dentistry, University of Toronto, and necessary required examinations.

After considerable discussion recommendations were made in the form of the following motions:

Re Citizenship

Motion: Reid—Giffen—That this Committee recommend to the Board that By-law No. 6, Section F, also By-law No. 8, Section A be amended to read as follows: "To be a Canadian Citizen or to have resided continuously in Canada for a period of at least one year immediately previous to applying for membership in the College and to satisfy this Board of his intention to become a Canadian Citizen."

Carried.

Re Matriculation

Motion: Giffen—Reid—That By-law No. 8, Section 1, Subsection (b) be changed to read "To matriculate in the R.C.D.S. and to obtain a qualifying certificate from the Registrar of the Board before beginning his dental studies." Carried.

Revision of Subsection (E) By-law No. 8.

Motion: Giffen—Reid—That subsection (e) of By-law No. 8, Section 1, be revised "That the Committee recommend the following amendment of By-laws." (By-law follows this report).

SUGGESTED AMENDMENTS TO ACT AND BY-LAWS

The suggestions respecting amendments as referred to this Committee at the last Board meeting were discussed.

Motion: Giffen—Reid—That this Committee recommend to the Board that be the following motion

"That in the matter of,—staggering elections, changing the districts, length of term of the President, no action be taken."

The following regulations are suggested as a simplified form to be sent to those making application.

REGULATIONS RESPECTING REGISTRATION AS A MEMBER OF THE ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO

All graduate applicants for license to practice in the Province of Ontario are required:

1. To be Canadian Citizens or to have resided in Canada for a period of one year immediately previous to applying for membership in the College and to satisfy this Board of their intention to become Canadian Citizens.

2. To have held before commencing dental studies qualifications equivalent to those required from Ontario students.

3. To be certified by the Dean of the School from which the applicant graduated and/or by the Secretary of the Licensing Authorities of the State or Province in which the applicant holds a licence to practice.
4. To present credentials that a graduation diploma was granted on a basis of a four year dental course following two years approved pre-dental education. (The dental course is to have been taken in four calendar years.)
5. If the applicant is a graduate of an approved school—to have successfully completed one year in the Faculty of Dentistry, University of Toronto, and to have passed such examinations as the Board may direct.
6. If the applicant graduated from other than an approved school—to have successfully completed two or more years of dental education at the Faculty of Dentistry, University of Toronto, and to have passed the prescribed examinations.
7. The Board may require the applicant to pass written examinations in the subjects, as specified by the Board of Directors from time to time—and to satisfy the Examiners in Clinical Dentistry, including Diagnosis, Radiodontia, Operative Dentistry, Prosthodontia, Periodontology and Dental Surgery, (Oral and Practical examinations) being taken in the presence of the Examiner and to pay an examination fee of \$100.00 and a registration fee of \$100.00.
8. To sign a covenant to practice ethically and to maintain the dignity and honour of the profession and to comply with all by-laws enacted by the Board.

All of which is respectfully submitted,
F. A. BLATCHFORD,
E. W. PAUL,
S. J. PHILLIPS, Chairman.

Motion: "That report of the Committee on Legislation and Government be adopted as amended." Carried.

BY-LAW NO. 73

A by-law to amend by-laws Nos. 2, 6, and 8.

By-law No. 2.

Sec. 2, line 5 Following the sentence ending "give the deciding vote" insert the sentence "He shall be a member, ex-officio, of all committees."

Sec. 6, line 3 Delete the words "Accounts, of two members", and insert the words "Finance, of three members;"

By-law No. 6.

Sec. 1 (f) Following the words "a Canadian citizen" add the words "or to have resided continuously in Canada for a period of at least one year immediately previous to applying for membership in the College and to satisfy the Board of his intention to become a Canadian citizen."

By-law No. 8.

Sec. 1 (a) Delete the words "by birth or naturalization" and insert in their place the words, "or to have resided continuously in Canada

for a period of at least one year immediately previous to applying for membership in the College and to satisfy the Board of their intention to become Canadian citizens."

Sec. 1 (b) Add the words, "and to obtain a qualifying certificate from the Registrar of the Board before beginning their dental studies."

Sec. 1 (e) Delete entire sub-section and insert the following "To present credentials that a graduation diploma was granted on a basis of a four year dental course following two years of approved pre-dental studies. (The Dental Course is to have been taken in separate calendar years.)"

Sec.1 (f) To read as follows, "The Board may require the applicants to pass written examinations in the subjects, as specified by the Board of Directors from time to time; and to satisfy the examiners in Clinical Dentistry, including Diagnosis, Radiodontia, Operative Dentistry, Prosthodontia, Periodontology and Dental Oral Surgery and Anaesthesia. (Oral and Practical Examinations to be taken in the presence of the Examiners.)"

Sec. 1 (f) change to Sec. 1 (g)

Sec. 1 (g) change to Sec. 1 (h)

Sec. 1 (h) change to Sec. 1 (i)

Sec. 1 (i) change to Sec. 1 (j)

Delete the words "(These regulations will apply only to Canadian Citizens who are applicants from countries, provinces or states which permit Ontario applicants to sit for examination on a similar basis.)" which appear at the end of Sec. 1.

(The required three readings were given to the above by-law.)

REPORT OF PUBLIC RELATIONS COMMITTEE

To Board of Directors.

Gentlemen:

Since the last meeting of this Board the Public Relations Committee has held three meetings. The matters demanding the attention of the Committee may be summarized as follows:

1. **Treatment Services for Welland Health Area.**
2. **Dental Treatment Services for Provincial Welfare Recipients.**
3. **Rural areas in need of Dental Service.**
4. **The adoption of Suitable Case History Chart.**
5. **Planning the Establishment of Dental Treatment Services in Particular Areas.**

1. Treatment Services for Welland Health Area.

As a result of the Dental Public Health activities in the Welland Health Area and the appointment of a Dental Health Officer an urgent demand has arisen for increased dental treatment services beyond the capacity of the present dental personnel in the area to supply. After considerable study of this problem the Committee resolved as follows:

"That whereas the Public Dental Health programme being instituted in the community of Welland anticipates an inadequacy of treatment facilities, be it resolved that this Committee recommend to the Board of the R.C.D.S. that steps be taken to provide such facilities through (a) more intensive cooperation of the dentists of that community in the movement, (b) the supply of additional personnel for this purpose either full or part time, (c) the provision of proper financial remuneration for such service, and that all possible data be assembled for that purpose."

Following up this conclusion it was deemed expedient to meet with the dentists of Welland in order to secure the view-point of the local dental personnel and develop a mutually acceptable solution. A meeting was held in Hamilton at which the dentists and the Dental Health Officer of the area met with the members of this Committee. After lengthy and amicable discussion the following resolution was unanimously passed by the meeting:

"That whereas the future health of a child depends to some extent upon mouth health, and whereas a specific condition has been recognized in the Welland area, and whereas the local dentists of the Welland area have stated that they are unable to cope with this situation, we as a combined committee recommend that:

First—Post-graduate candidates be secured to participate in Welland area for a limited time under the control and direction of the Board of the R.C.D.S. or

That dental personnel be secured to augment the present personnel for a limited period.

Second—That any other means acceptable to this committee and the dental personnel of Welland be forthwith considered."

It is hoped that the members of the Board at this meeting will give direction for the implementing of these recommendations.

2. Dental Treatment Services for Provincial Welfare Recipients.

For some years, the Board has endeavoured to institute a suitable arrangement for the rendering of dental treatment services to Provincial Welfare Recipients. At intervals representation has been made to the proper authorities. Although always agreeable reviewed no definite action ensued.

At the last meeting of the Board the Minister and Deputy Minister of Welfare attended and discussed this matter. As a result this committee was instructed to proceed with further discussions and to prepare and present a memorandum to the department. After careful study of the age and number of eligible recipients which include old age pensioners, blind pensioners, mother's allowance recipients and their children, relief recipients and their children, making a total at the present time of 81,000 adults and 21,000 children, a brief was submitted suggesting types of service for each group and an estimated cost. The estimate was presented on a per capita per month basis. Further discussions have been held with representatives of the department and the matter is under advisement. (The brief presented appears as Appendix A to this report.)

3. Rural Areas in need of Dental Services.

Many requests have been received for dental service from rural areas throughout the province. Effort has been made to induce men to locate in these districts and through the Secretary's office dental service has been supplied. The Committee views with alarm the number of municipalities still without dental service. It is sincerely hoped that many new graduates will seek the advantages of locating in small centres.

4. The Adoption of a Suitable Case History Chart.

The Committee recognizes the necessity of the use of a uniform case history chart especially designed for recording dental health

treatment services for children. The Committee recommends that this Board adopt the submitted chart.

5. Planning the Establishment of Dental Treatment Service in Particular Areas.

Through the facilities of the Red Cross a dental coach has been made available to supply a dental service for children in remote areas of Northern Ontario. In cooperation with the representatives of the Red Cross a service and itinerary for the coming summer has been planned.

May I, in conclusion, extend my thanks to the representatives of the Ontario Dental Association for their splendid cooperation on this committee.

All of which is respectfully submitted.

FRANK MARTIN
R. P. LOWERY
J. H. DUFF
S. A. MacGREGOR
G. H. CAMPBELL
H. L. FIELD
S. J. PHILLIPS
E. W. PAUL
HARVEY W. REID, Chairman

APPENDIX A

To: Hon. Mr. W. A. Goodfellow,
Minister of Welfare,
Ontario Government.

RE DENTAL BENEFIT FOR WELFARE RECIPIENTS

It is our desire to bring to your attention the need for dental services for welfare recipients of your department.

During recent years medical services have been gradually extended to Old Age Pensioners, Blind Pensioners, Mother's Allowance Beneficiaries, and those on Unemployment Relief. At the same time these beneficiaries have been in need of dental health services. The relation of dental diseases to general body diseases is a well-known pathological condition which often exists. The dentist is called upon to fulfill his function in the treatment of the oral condition. At present his position is embarrassing in that no provision is made for his necessary services.

It is our opinion that particular effort should be expended to retain the mouth health of children at every opportunity. We therefore recommend that under the health benefits for welfare recipients an emergency dental service be provided for adults and a preventive dental service be instituted for children.

PROPOSED SERVICE

For Adults—It is proposed that emergency services be made available for adults, namely: the extraction of teeth and the repair of existing dentures, when necessary.

For Children—A preventive service to include prophylaxis, insertion of plastic fillings (amalgam and silicate) and extraction of teeth.

ADMINISTRATION

The service to be administered by a Dental Welfare Board appointed by the Board of Directors of the Royal College of Dental Surgeons of Ontario. Payment for the services to be made upon the following fee schedule:

Prophylaxis	2.00
Surgery	
Local anaesthetic	1.00
General anaesthetic (N ² O)	5.00
Extraction (each tooth)	1.00
Single tooth restorations	
Amalgam (one surface)	2.00
Amalgam (two surfaces)	3.00
Amalgam (three surfaces)	4.00
Silicates	3.00
Repair to Dentures	
Acrylic resin	5.00
Vulcanite	3.00
For each tooth added	1.00
Bedside Calls	
House or hospital under five miles	3.00
House or hospital over five miles	5.00

COST OF SERVICE

For Adults (repair of dentures and extraction of teeth)—To the best of our knowledge there is no existing data to give guidance in estimating the cost of the proposed service for this age group. As a result, estimate must be without detailed calculation and to be later proven by experimentation.

For Children (preventive service to include prophylaxis, plastic fillings and extractions)—Numerous surveys have established fairly accurately the incidence of dental caries among large groups of children. It will be realized that a sizeable back-log of dental need exists among the children in this group owing to neglect. Undoubtedly a few of these children are receiving dental service either through school dental clinics, where they exist, or perhaps in isolated cases in private offices but we believe this number to be small. However, it is believed that 90% plus of these children will be found in need of dental service so that the whole group must be considered as potential patients.

Careful study has been given to the probable cost of this proposed service but owing to the great number of variables and the non-existence of data concerning any comparable service it is impossible to make estimate with any degree of accuracy. It is therefore, felt that in fairness to all parties concerned certain experimentation is necessary in order to establish a fair and equitable basis. As representatives of the profession we are prepared to undertake this service on a basis of ten cents per welfare recipient per month. It is understood that this rate is subject to review within the period of one year from the date of initiation when such revision as found necessary may be arranged by mutual agreement.

May 8th, 1947.

Respectfully submitted,
DON W. GULLETT,
Registrar-Secretary, R.C.D.S.

Motions: "That whereas the dental conditions prevailing among the children of the Welland-Crowland Area as revealed by the

survey undertaken by the Red Cross under the supervision of Dr. Lee Honey constitute a matter of extraordinary concern, the Board of the R.C.D.S. recommend to the Public Relations Committee that additional dental personnel be secured on a temporary basis and that the Committee be empowered to take such steps as may be deemed necessary to procure same, and organize for such personnel housing and financial facilities." Carried.

"That this Board approve the Brief of 'Dental Benefit for Welfare Recipients' to be sent to Minister of Welfare by the Public Relations Committee." Carried.

"That the Pedodontic Case History Chart compiled by the Dental Public Health Committee of the Ontario Dental Association be approved by this Board." Carried.

"That the exploration of a scheme of scholarships and bursaries be undertaken by the Public Relations Committee with the object of obtaining service to outlying districts of this province and report at the next meeting of the Board." Carried.

"That the report of Public Relations Committee be adopted." Carried.

THE LIBRARIAN'S ANNUAL REPORT, 1946-47.

Mr. Chairman and Gentlemen:

I beg to present the annual report for the year ending April 30th, 1947.

The extension of the library facilities to a constantly growing number of dentists practising in Ontario is reported with particular pride by the Librarian. The increase in the number of loans of books and journals made by the library over the last year is remarkable and may be an indication of the trend of the times whereby increasing numbers of dentists are now attempting to keep abreast of their professional literature.

A comparison of recent circulation figures with last year reflects the increase in student registration in the Faculty of Dentistry. During the year, a total of 12,023 books and journals were loaned out as compared with 9,345 for the previous year.

This circulation increase reveals to some extent two of the main problems confronting the library staff during the present session: Namely, the inadequate reading room facilities now available to undergraduate students and secondly the problem of making suitable provisions for graduate students engaged in specialized studies. There are still many considerations to be faced before a satisfactory solution to these problems can be reached.

The library added 65 new books to its collection during the year, of which 23 were purchased by the Harry R. Abbott Fund. Six new periodical subscriptions were added to the list and several early editions of dental works were placed with the historical collection.

Through the medium of the Medical Library Association exchange service the library was able to exchange duplicate books and journals with thirty-nine medical and dental libraries in Canada and the United States.

Special interlibrary loans were made with McGill University,

University of Western Ontario, University of Alberta and Harvard University.

The library is now preparing for publication a catalogue of the dental books in the library collection and it is hoped that the booklet will be ready for publication and distribution in the near future.

The pamphlet collection which has grown considerably over the last several years, is now being arranged so that the valuable material it contains will be made available to all borrowers.

The library acknowledges with gratitude the donation of gifts to the museum from Dr. G. C. Cameron, Dr. W. E. Willmott, and Dr. F. P. Moore; and the reception of books and journals from Dr. A. R. Snell, Dr. A. W. Lindsay, Dr. C. A. Corrigan, Dr. A. D. Mason, Dr. S. A. MacGregor, Mr. N. M. Seccombe and Mrs. A. V. Summers.

This report is respectfully submitted with the recommendation that for the ensuing year a grant of \$150.00 be made.

E. W. PAUL, Librarian,
Harry R. Abbott Memorial Library.

Motions: "That the Secretary be instructed to request an annual report from the University Librarian pertaining to the disposal of the Harry R. Abbott Fund income." Carried.

"That the report of the Librarian be adopted." Carried.

"That Dr. Paul be appointed the Librarian of this Board." Carried.

REPORT ON DOMINION DENTAL COUNCIL

To the Board of Directors.

Gentlemen:

Your representative to the Dominion Dental Council begs leave to report—

In May, 1946, an executive meeting of the Council was held in Toronto, and the following were elected,—

President —Dr. A. E. Proctor, Winnipeg, Manitoba.

1st Vice President—Dr. H. L. Freeland, Calgary, Alberta.

2nd Vice President—Dr. F. C. Bonnell, St. John's New Brunswick.

Many changes were made in the by-laws and new copies were ordered to be issued.

The financial standing of the Dominion Dental Council as set forth in the auditors report as to December 31, 1946, is quite a satisfactory one, showing a surplus of assets at that date of \$20,806.83. This is a decreased amount to that presented in your last report, due to the fact that the executive meeting was held last May, the expenses of which together with arrears of outstanding liability, and a grant to the Research Committee of the Canadian Dental Association, necessitated operating at a deficit of approximately \$3500 in 1946.

In July last, thirty-nine candidates wrote complete examinations, and seven wrote supplementals, of whom two failed again.

Of thirty-nine candidates in full examination, three candidates failed in one paper each, one of these also failed on his clinical pass mark.

Six candidates failed to make pass average and will be required to re-write all papers below sixty per cent.

One candidate failed in one paper, but wrote a special supplemental examination and passed.

Shortly after the meeting in Toronto, the Board of British Columbia notified the Dominion Dental Council, that they were withdrawing from the Council. This move was made possible by a change in the Dentistry Act of that province, and was deemed necessary because of the excessive registration of Dominion Dental Council Certificates in British Columbia during the war years.

While the remaining agreeing provinces regretted this move on the part of that province, the action can only emphasize the desirability and advantage of a set up which enables any province to so regulate additions to its professional personnel. The Dominion Dental Council has many strong friends in British Columbia who hope and expect that province will soon again be a member of the Council.

In October of 1946, a meeting of the Educational Committee of the Canadian Dental Association was held in Montreal, and the matter of establishing a national examining board in connection with that body was voted. A sub committee was appointed to report on the advisability of such a move, which report will no doubt be presented at the next meeting of the Educational Committee to be held in June next. With a view of obtaining the opinion of the boards of the agreeing provinces as to this matter, provincial representatives of the Dominion Dental Council have presented this problem to their various boards for consideration. Two questions are asked as follows,

1. How satisfactorily has the Dominion Dental Council served its purpose in this Province? Are there any complaints regarding its activities? Are there any suggestions to be offered toward its improvement?
2. Is it thought that an examining board in connection with the Canadian Dental Association would be an improvement? Would it attract the other two provinces rather than the present set-up? For what reason might it be more desirable?

The D.D.C. was as you know originally created by the Canadian Dental Association and has always functioned in the closest harmony with that organization. The Council has at all times sought by every power within its means to make its activities national in scope. It has always been most ready to accept and establish any recommendations toward the improvement of its functions. It has been zealous in protecting and enhancing the prestige and well-being of Dentistry, and willing to co-operate with any of the provinces in disciplinary measures.

As your representative on this Council I beg leave to suggest that the Board of the Royal College of Dental Surgeons of Ontario, go on record as favourable to a National Examining Board which protects the autonomy of each and every province as the Council does, and that if changes and adjustments may be found necessary to accomplish the desired end of making it truly national in scope, that the long experience, strong financial standing, and considerable number of certificate holders of the Dominion Dental Council be used as a foundation on which to re-build, rather than that an entirely new organization be created.

All of which is respectfully submitted,

G. H. CAMPBELL.

Several suggestions were made for improving the Dominion Dental Council in answer to the questions raised in the report.

- (1) Reciprocal representation with the Canadian Dental Association.
- (2) Annual meeting of the Dominion Dental Council.
- (3) Rigid enforcement of high examination standards.
- (4) Theoretical examination by Dominion Dental Council and practical examination by provincial board in which he desires to practise.
- (5) The thought that an examining board be created by the Canadian Dental Association has not been officially considered, hence this Board has no opinion at present. If that is the only way for creating and maintaining uniform standards of dental education—yes.

Motion: "That the report of the representative to the Dominion Dental Council be adopted." Carried.

REPORT OF REPRESENTATIVES TO CANADIAN DENTAL ASSOCIATION

To the Board of Directors.
Royal College of Dental Surgeons.
Gentlemen:

At the last annual meeting of this Board, your representatives to the Canadian Dental Association reported the completion of a successful National Convention of Canadian Dentists in Toronto. Not only was developed a new name, but also a new and more complete method of co-operation between the National Association and the Provincial Associations in furthering a truly National Convention. This first venture on this financial basis netted the Canadian Dental Association the sum of \$831.15.

Of the many and various matters before the Canadian Dental Association during the year, we shall report briefly a few of the more important items.

1. The establishment of a permanent peace-time Dental Corps has been slow and the securing of personnel difficult. Your association vitally interested that the Corps should be one of which the profession would be proud, made representation to the Minister asking that professional pay be re-established, short term commissions be introduced, and that the age limit be increased in the case of professional men. One of these have been implemented and there is hope that the others may yet receive favour. The Association has had splendid co-operation from the officers of the Corps and is proud to have a part in the formation of the Royal Canadian Dental Corps—a name that has been granted as a reward for the splendid service given by the members of the profession in the Armed Forces during the War just ended.

2. The Department of Veterans Affairs has, as in the past, worked in close harmony with the Canadian Dental Association. The arrangement has been, we believe, mutually beneficial and the means by which the dental profession in Canada has supplied a very large and satisfactory service to the discharged personnel of our Forces. The Association continues to make recommendations in order to improve the service and is deeply grateful to the Minister and members of his department for the consideration with which these are received and the gracious manner in which the representatives of the Association have been treated.

3. The Department of Federal Health and Welfare is rapidly expanding its dental division. More funds are being made available for dental public health education and opens a tremendous field for this Association to distribute educational material practically free of cost to the Association. Of one pamphlet supplied by the Association to the Department over 86,000 copies have been distributed. All educational film is being prepared at the present time in co-operation with the profession and at the expense of the Dental Division.

4. The Council on Dental Education is making a great contribution and has been very active throughout the year. Their efforts toward raising the standard of teaching in all the dental schools in Canada, toward uniform entrance requirements, more uniform curricula and eventually a National Examining Board, are most commendable and will certainly benefit the profession greatly.

5. The question of federally employed dentists being sent to provinces other than those in which they are registered has received the attention of your Association. A meeting was held by representatives of the Association with representatives of the Department of Health and Welfare, Department of Justice, Department of Veterans Affairs and Department of Defence. A solution was evolved and it is hoped that it may be initiated in each of the departments represented.

6. A study of dental personnel in Canada has been carried out by the Federal Government and will be published shortly. Most of the material was found in the office of the Secretary of the Association.

7. The Canadian Dental Association Journal has been successfully carrying on through very trying times. A severe shortage of paper and two 20% raises in printing costs within a year have made the duties of all concerned with the Journal extremely difficult. They are to be commended for a very fine effort on behalf of the profession.

8. At the Canadian Dental Association Executive Meeting in February a resolution was passed agreeing to share the time and salary of the Secretary on the same basis as before with this Board and to increase the salary of the Secretary to \$8000, if this Board agreed. A mail vote was taken of the Governors of the Association and it was unanimously agreed. Ratification of the agreement will be necessary by this Board at this meeting.

The work of your National Association continues to expand and it is more and more becoming a necessary part of our national dental life. It is, perhaps, appreciated more in the other provinces than in Ontario as evidenced by the increases in the grants by some of the provinces and the desire of others to do so when all others do likewise. A decent capital fund in keeping with a national organization is an urgent need. Organizations like individuals are judged by their Bradstreet rating. Your representatives hope that this Board will be generous in their grant.

All of which is respectfully submitted.

FRANK BLATCHFORD
SYD. W. BRADLEY
G. HARROLD CAMPBELL
HARVEY REID.

Motions: "That this Board renew the agreement with the Canadian Dental Association as to sharing of the services and remuneration of the Secretary and that his salary be on a basis of \$8000. annually." Carried unanimously.

"That the report of the delegates to the Canadian Dental Association be adopted." Carried.

REPORT OF DENTAL REFEREE TO WORKMEN'S COMPENSATION BOARD

Board of Directors.

Gentlemen:

Since reporting to you one year ago, your referee to the Workmen's Compensation Board has given assistance in the adjustment of a number of claims. In some instances examination of the claimant was made in the writer's office, in others the records on file were reviewed and a written report made and in others again advice or opinion given to officers of the Board by telephone. In all cases under review an amicable relationship has been maintained almost without exception between members of the profession and the officials and staff of the Board.

During the year a few problems have presented and for your information some situations that have arisen might be mentioned—

Occasionally a report is received where emphasis is placed on the material to be used in the recommended restorative appliance, and whenever this occurs the fee is always considerably above the usual tariff. The Board is very quick to question the need of these special appliances when the fee asked is higher than the usual schedule for similar replacements.

Again many Dentists, being very conscientious about the needed care of their patient, make recommendations covering all the needed treatment to place the patients teeth in health. This is a commendable idea but the Board has pointed out many times that according to the Act under which it operates, it can only assume responsibility for service made necessary as a result of the accident; the claimant must assume responsibility for any other treatment necessary and should be so advised by his Dentist.

Further, sometimes a Dentist in his desire to get on with the service will proceed without proper authorization and then of course difficulties arise. It should be remembered that the Board may not agree to service performed without authorization. There are two exceptions to this which are (1) emergency treatment (2) X-rays needed for proper diagnosis and treatment planning.

Another situation frequently occurs and is perhaps on the increase. The Board have a printed dental form which is always sent to the claimant who has suffered a dental injury. He should take this to the Dentist of his choice who should complete the form in accurate detail, so that the officers of the Board will be able to appraise the claim fairly. Inadequate reports result in delay and more delay.

In the matter of the fee schedule for dental service, there are few serious complaints in spite of rising costs of dental practice. There are, however, two exceptions to this attitude in respect to Extractions and X-ray: It has been suggested in the case of,

Extractions	(a) where one or several teeth are to be removed in one quadrant of the mouth the fee for anaesthetic	1.00
	and for each tooth	1.00
	(b) if however a tooth requires extraction in other quadrants of the mouth a second or even third anaesthetic fee be allowed in addition to the extraction fee.	
	X-Rays one film only	2.00
	each additional film	1.00
	complete upper or lower (7 films)	6.00
	complete mouth survey (14 films)	10.00

In the matter of contacts with the Board, the writer works with Mr. C. G. Cameron, Director of Medical Aid with whom very cordial relations continue to exist. Mr. Cameron is always a friendly, courteous and fair officer, efficient in his duties yet willing to consider the just representations of every claim.

In closing, the kindly assistance given your referee during the year by members of your Board throughout the province and by your Secretary, Dr. D. W. Gullett, is gratefully acknowledged. Further your continued confidence in the service rendered by your representative is sincerely appreciated.

Respectfully submitted,

Motions: "That report of the representatives to the Workmen's Compensation Board be adopted." Carried.

"That the report of the Dental Referee be approved and that — — be re-appointed and the thanks of this Board extended to him." Carried.

1947

DENTAL PUBLIC HEALTH COMMITTEE REPORT
to

Board of R.C.D.S.

Mr. Chairman and Gentlemen:

At the close of 1946, the Dental Public Health Committee had submitted to the Management Committee of the Ontario Branch of the Red Cross a brief requesting their support in a dental health educational project in the Welland-Crowland Health Unit. A budget necessary to carry out this work was submitted in the brief.

Some weeks after the 1946 report had been submitted, the Management Committee of the Red Cross unanimously passed our budget and requested the Chairman of the Dental Committee to engage the services of a D.D.P.H. graduate. Dr. S. L. Honey, D.D.S., B.Sc., D.D.P.H. was engaged in September 1946. The Committee felt that before Dr. Honey commenced work in this new field, it was necessary to devise chart forms that could be used in every community, thus standardizing through the province our system of dental public health education. A survey chart and treatment chart were designed and have been approved by the Board of the Ontario Dental Association and by the Dental Division of the Ontario Department of Health. The treatment chart, drawn up in collaboration with Dr. R. G. Ellis is now authorized in the Department of Pedodontics, University of Toronto. The Committee as a whole is thoroughly convinced that if we ever hope to get anywhere in dental public health education, we must standardize the type of survey that is done throughout the province. Our statistics will mean more and too, we will all be talking the same language. We as a Committee are not in any sense of the word stating that the above mentioned charts are complete to date. We do feel, however, that if we all start with the same records and then in a few years hence get together, we can take from and add to as we see fit. When we have reached that goal, we will have a united front and uniform pattern throughout the province. The survey chart and cards were designed to last the child throughout his primary and secondary school courses. From the charts and cards the examiner is able to draw conclusions as to where we might be falling down in our health project. If the health

of the community is not improving, he is in a fair position to decide whether it is lack of education on the part of the parents or the dentists or whether it is because of economic reasons in the community. Statistics mean nothing if they do not tell us what to do and where to do it in our follow up.

Dr. Honey commenced work on September 16, 1946, and the first two weeks were spent in organizing. He contacted the local dentists, the Mayor, Protestant and Catholic clergy, the Red Cross executive and members of the Council and Board of Education. The survey was commenced on September 27, 1946, and after working for one month a report was submitted to our Committee. Dr. Honey found that there were a number of factors with respect to the survey that needed clarifying and requested that a group of specialists be asked to spend a day with him in Welland. This request was complied with and the charts and system used were approved by the Committee. Dr. Honey has given us an interim report and the conditions are indeed alarming but it is felt advisable not to publish any figures until the project has been in operation one year. The Public Relations Committee also received this interim report and they in turn, after studying it, requested the Welland dentists to meet with them in Hamilton. At present the Public Relations Committee is studying ways and means of taking care of the back-log treatment in the area.

Dr. Honey has worked diligently on education and has received splendid co-operation from the local dentists. Dr. Ken Phillips reported at the Hamilton meeting that the dentists of Welland were now averaging seven child patients per day. This alone demonstrates the co-operation we have received from the local dentists. Dr. Honey has lectured to the Kinsman Club, Registered Nurses Association, Home and School Association and the Lions Club. He also submitted several articles to the local press. Dr. Harry Thomson spoke to the inspectors and teachers of the community in October, 1946.

The organization chairman, Dr. H. A. Swales, having got the Welland project off to a good start then turned to the cities of St. Catharines and Niagara Falls. The local Public Health Committee, as in the Welland unit, was set up in Niagara Falls under the chairmanship of Dr. Don Johnstone. This committee met with Dr. Swales and Dr. MacGregor and discussed their approach to the local problem of dental health education. The local committee approached the Board of Education of Niagara Falls and received a grant to carry out a survey in the Primary and Secondary Schools. Dr. W. Smeaton was engaged to carry on the work. Dr. Smeaton has been doing a splendid piece of work. The local committee organized a dinner meeting of all the service clubs in Niagara Falls. The Kiwanis Club sponsored the dinner and the Chairman of the Dental Public Health Committee spoke on the subject, "Your Child and Mine". Dr. Harry Thomson spoke to the Home and School Association and Dr. Frank Kohli, for the Department of Health, was at the meeting and explained matters pertaining to the grant for treatment. Dr. Mitton and the chairman met with the dentists of the community and assisted Dr. Smeaton in acquainting the local dentists with the system used in making the survey.

The Committee met with Dr. Lon Morrey, Director of Public Relations for the American Dental Association and discussed the latest methods of education. Dr. Butler and Dr. Mitton visited the Northern Ontario Dental Association and outlined our provincial plan of dental public health education. The Chairman attended the Eastern Ontario Dental Association on a similar mission. Dr. Skilling

in December delivered an illustrated lecture to the Kiwanis Club in Galt. He stressed the need of pre-school education and outlined the work being done in this respect in East York. Dr. Mitton, Dr. Swales and Dr. McIntosh visited Brantford and assisted in organizing a local Public Health Committee. This Committee sponsored a night on Pedodontics for the local Dental Society and the Faculty of Dentistry supplied a speaker on the subject. The North Toronto Dental Society devoted one of their meetings to the subject of education. A panel discussion was held on the subject, "What Lies Ahead for Dentistry." Dr. Gullett discussed the subject from the standpoint of the Dominion, Dr. G. Agnew from a world viewpoint, Dr. E. Jackson as seen by an Australian and Dr. Cloke as he viewed it from an English standpoint. Dr. Honey discussed the subject as one working in dental public health in a community. Dr. Harry Thomson and Dr. McLean gave their views as individuals who have seen dentistry go through many changes over a period of years.

The West Toronto Dental Society held a similar night on dental education. Dr. Mitton and Dr. Skilling discussed the subject of records as well as prevention in the pre-school child. Dr. Harold Skilling, Director of dental activities in East York adopted our survey and treatment charts and much is being accomplished both from an educational and treatment standpoint. Dr. Swales and Dr. Mitton visited Guelph on behalf of the Dental Public Health Committee and our survey and treatment charts were adopted and Dr. Ralph Connor is successfully bringing dentistry to the fore in this community.

Mrs. A. C. McKenzie, Chairman of the branch programs for the Ontario Red Cross has been more than enthusiastic over our work and is endeavouring to get as many local branches as possible to make dental surveys and dental educational projects their peace time work. In April, 1947, the chairman of the Dental Public Health Committee in the capacity of a Red Cross executive visited Beaverton Branch and spoke to a representative group from the community. The standardized plan was adopted and at present Dr. J. Devine of Beaverton is contemplating taking up the work. Sunderland, Leamington, Preston and Morrisburg local branches have requested help for the organization of a local dental health survey. In April, 1947, Dr. Graham Hudson of Ottawa Dental Society approached our committee for a clarification of our provincial plan. Dr. Hudson was given every assistance possible and Dr. Swales is to attend a meeting in Ottawa in the near future to discuss still further the consideration of a school survey project in Ottawa. A local Dental Public Health Committee has been set up in Peterborough and one night was devoted to the subject of Pedodontics. Dr. Swales and Dr. MacGregor are attending a meeting called by this committee on May 12, 1947. Dr. J. Craig notified the Central Committee that there will be a dinner of one hundred people representing all walks of life in the community. During the year correspondence was received from Dr. Jenkins and Dr. Hart in Sault Ste. Marie requesting advice re a dental survey in the schools. Our secretary contacted the Sault Dental Society offering our assistance by sending Dr. Keenan up to discuss the provincial plan of education. A copy of this letter was sent to Dr. Jenkins and Dr. Hart. Dr. Keenan visited the Sault Ste. Marie Society but to date the provincial plan has not been adopted. Sudbury has also asked for assistance but as yet the committee has not had time to deal with the matter.

Dr. Hugh McLaren, D.D.P.H. has been carrying on splendid work in Windsor and although our committee has not given Hugh as much assistance as we would have liked, we know that Windsor is in good

hands and in the early fall we hope to concentrate on that area. In April, 1947, Dr. H. Thomson, Dr. F. Kohli and Dr. P. Lowery visited Haliburton and Dr. Thomson spoke to the service club on dental education.

When our Central Dental Public Health Committee enters any community, we would appreciate the backing of the local R.C.D.S. Board member, not only in spirit but by his attendance at the meeting. We realize that you represent a large territory yet we feel that this is really an important work that needs your local support. We would also like to recommend that in the future when any community is considering either plan or personnel in respect to dental health education that they discuss the matter fully with the Central Dental Public Health Committee. Only in this way will we be able to keep a uniform picture. Lastly, we request that this, the Board of the R.C.D.S. join with the Board of the Ontario Dental Association and the Dental Division of the Department of Health in approving our method of standardizing dental public health education through the use of standardized dental public health survey charts.

In closing, let me draw your attention to the fact that the statistics already gathered in the Welland area are startling and indeed a challenge to the dental profession. To my mind, Gentlemen, such conditions are typical of probably every community not only in Ontario but throughout the Dominion. It behooves the leaders of dentistry to recognize the urgency of this situation and to stand united not only to fight this the most common disease in man, but also to maintain the respect of other health organizations.

Respectfully submitted,

DR. S. A. MacGREGOR,
Chairman, Ontario Dental
Public Health Committee.

April, 1947.

Motions: "That this Board officially adopt the Public Health Dental Chart as submitted by the Dental Public Health Committee, and compliment that Committee on the completeness of said chart." Carried.

"That the report of the Dental Public Health Committee as presented by Dr. Harold Swales be adopted, and that the appreciation of this Board be extended to all members of the Committee for their untiring and whole-hearted effort in promoting Dental Public Health education." Carried.

REPORT OF MEETING OF AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Report of the Sixty-third Annual Meeting of the American Association of Dental Examiners, held in the McAllister Hotel, Miami, Florida, October 12th and 13th, 1947.

Gentlemen,—

Let me first express to this Board my appreciation for making it possible for me, together with our Secretary, to attend this meeting. It was a real inspiration, and while it is impossible to give a detailed report of all that transpired, I will try to give you some of the highlights of the more important reports and papers presented,—

(1) The President's Report,—

- (a) Only 10% of ex-service personnel interested in communities of 5000 and under.
- (b) U.S. Standing Army requires 2000 dentists.
- (c) 2500 graduates annually next 10 years.
3000 freshmen in all schools.
- (d) Present rush of work for dentists means increase in public consciousness of dental needs and will last.
- (e) Federal Licensure in U.S. not a dead issue, as an alternative State Boards should seriously consider reciprocity, without lowering their standards. Acceptance by States of the National Examining Board can go a long way towards answering the demand for federal licensure. (Canadian Medical Council, example)
- (f) One new school established (Washington). Three prospective ones (Utah, California, Florida).
- (g) Since publication of the list of Accredited Schools, Council on Dental Education has temporarily suspended Columbia. Harvard not on the list, has not been examined for accreditation. Recognized Baylor and Creighton.
- (h) Two Schools have announced courses for dental technicians as experiments (Temple, etc.)
- (i) Several states consider licensure for technicians.
- (2) Report of A.D.A. Committee on Legislation
 - (a) Two groups hinder enforcement of dental laws:
 1. Men outside profession.
 2. Men inside profession of which the latter group are the most difficult to handle (relationship of Dentist and Technician). There should be an effective campaign of education among members of our own profession on dental laws.
 - (b) In three states dental technicians' laws were defeated through the action of dental societies.
 - (c) Six states now have a law respecting licensure of specialists, which they believe is the only way to protect the public in this matter.
 - (d) 35 states now license dental hygienists.

Paper by Horner, Secretary Council on Dental Education (read aims and purposes of the Council on Dental Education).

In accrediting schools the following points are considered:

- (a) University Relationship
- (b) Financial Management and Support
- (c) Physical Plant
- (d) Enrolment
- (e) Promotions and Graduation
- (f) Library
- (g) Admission
- (h) Instruction
- (i) Hospital Relationship
- (j) Faculty
- (k) Curriculum
- (l) Statement of General Policy.

All accredited schools must have two years of Liberal Arts and Science as predental requirement (2-4 plan).

In all cases this is taken under university discipline. In a few cases it is taken in Junior Colleges under university discipline.

Three schools plan to remain on the accelerated plan, all others are to return to regular plan.

University officials were agreeably surprised that a professional body would bear the whole expense of an accrediting agency and offered splendid co-operation.

Adequate financial support is the greatest weakness of schools today.

Forty-seven State Boards recognize the accredited schools.

Results of survey indicates that it is no longer necessary to have state restrictions.

Report on Dental Hygienists

16 schools are giving courses for Dental Hygienists

8 are one year courses

8 are two year courses.

Recommendations sent to Council on Dental Education that a uniform standardization of education be established.

A definition of the duties of a Dental Hygienist is badly needed.

The term prophylaxis is too wide in meaning to use.

Recommendation that Boards only accept graduates from schools giving two-year course.

J. F. GIFFEN.

Motion: "That the report of Dr. J. F. Giffen be approved and we express our appreciation for such a fine report from our representatives." Carried.

DENTISTS EMPLOYED AT TORONTO CITY HALL

A delegation representing the members of the profession employed by the City of Toronto met the Board and discussed their problems in relation to the trade union of city employees. The matter was thoroughly discussed with the Solicitor for the Board.

Motion: "That the Secretary be instructed to advise the members of the Department of Health of the City of Toronto that this Board does not approve of any member of the College joining a Trade Union and will exert every influence in order that (1) there may be no interference with the employment of any said member; (2) no member shall be compelled to join a Union; (3) that negotiations will be commenced with city officials to have members of the College excluded from the terms of the existing Collective Bargaining agreement when up for review on April 1st next. These negotiations will be carried on in conjunction with the other professional groups concerned." Carried.

The Secretary was instructed to inform these dentists of the attitude of this Board toward the whole matter.

1. That our legal advice is that the Board has no control over voluntary contributions.
2. That such contribution might be incriminating.
3. That the bargaining power of the whole group is best understood by those in authority.

Motion: "That Doctors Reid and Gullett be authorized to represent this Board in further negotiations concerning Dental Employees and Labour Unions." Carried.

COLLECTIVE BARGAINING—PROFESSION

The following resolution was passed with instructions that it be forwarded to the proper authorities.

Motion: "Be it resolved that 'Whereas the Profession of Dentistry

is a health profession for the governing of which the laws or rules of ordinary business are not appropriate', and 'Whereas the Profession of Dentistry has its own Associations to which all dentists contribute membership fees', and 'Whereas the qualifications to practice the Profession of Dentistry necessitate many years of intensive study with high matriculation requirements'—it is the carefully studied opinion of this Board that compensation of and working conditions for those members of the Dental Profession who are employed on a salary basis should not be subjected to control or negotiations through any Labour Union, but that such employees either directly or through the intervention of persons possessing professional dental training, and that if necessary representation should be made with a view to having the appropriate legislation amended accordingly." Carried.

COMPLAINTS RESPECTING RENDERING OF DENTAL SERVICES

The increasing number of complaints from the public respecting the rendering of services by members of the profession has given the Board much concern and the subject was discussed at length.

Motion: "That in view of the many complaints received from patients as to the services rendered by dentists, that this Board of the R.C.D.S. establish a panel of referees to examine these cases and make confidential report to this Board." Carried.

COMBINES INVESTIGATION COMMISSION

Copy of a communication from the Chairman of the Combines Investigation Commission respecting the existence of a combine in the Canadian Dental Trade Association was presented. A statement on the subject was requested by the Chairman of the Commission from the representatives of the dental profession in this province.

Motion: "That through lack of information of the internal working of the Canadian Dental Trade Association this Board is not in a position to make a statement at the investigation being held under the Combines Investigation Act." Carried.

FEDERALLY EMPLOYED DENTISTS

The Secretary presented the matter whereby dentists employed by the federal government will find it necessary to render dental service for wards of that government in any part of Canada.

Motion: "That this Board favours having dentists employed by the Federal Government maintaining their registration in good standing with their Provincial Board as a condition of their employment; and that this Board favours a harmonious arrangement entered into by all Provincial Boards with the

Federal Government whereby they may be permitted to perform their duties for wards of the Federal Government, in, if necessary other provinces than that in which they are registered." Carried.

RECOMMENDATION TO PRESIDENT OF UNIVERSITY OF TORONTO RESPECTING THE APPOINTMENT OF A NEW DEAN

Desirable qualifications for a dean were discussed and decision made to submit the following:

1. Modern dental education calls for the full-time service of a man with an expectance of fifteen to twenty years of active service.
2. A dental dean should have a dental degree. He should be a man of pleasing personality and whose professional prestige is of the highest and one who enjoys the confidence of his confreres. It is desirable that he should have had experience in teaching and in general practice.
3. He should be equipped to take his place with deans of other professional schools—the broader his education and experience the better.
4. It is imperative that he have administrative ability and the capacity for independent thought and action, resourcefulness and a spirit of intelligent inquiry.

INDUSTRIAL DENTISTRY

It was pointed out that there existed some variation between the regulations of the Board and those of the Canadian Dental Association which led to some confusion. The regulations were studied.

Motion: "That this Board adopt the recommendations for Industrial Dentistry of the C.D.A. in lieu of those set up by this Board in 1940." Carried.

AMENDMENT TO REGULATIONS FOR SPECIALISTS

Study of the present regulations was made in order to provide for the speciality of Pedodontics.

Motion: "That section 4 of the Rules and Regulations for the certification of specialists be amended by adding the word "Pedodontics" after the words "Dental Oral Surgery" and the word "Pedodontist" after "Dental Oral Surgeon." Carried.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedures or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions, etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO
1947-1948

RESOLUTION

That it is with profound regret that we record the passing of our late member Dr. James Franklin Giffen.

After graduating from the Royal College of Dental Surgeons in 1920 he began practice in London where his professional skill and sincerity of purpose soon gained for him an enviable reputation among his confreres and patients. His ability soon brought demand for his services as a clinician.

Always active in the activities of his local society and interested in all professional organizations, he was the logical choice to represent his district on the Board of the Royal College of Dental Surgeons and was elected in 1940. In this capacity he gave unstintingly of his time and talents and made a contribution that will serve as a lasting monument. His sane judgment, his patient delving for all facts, his sincere understanding and his determination at all times to advance his beloved profession were attributes that were apparent in all deliberations of the Board. His service on the Council of Dental Education of the Canadian Dental Association was outstanding and will redound to the benefit of dental education in this province.

That recognizing the great loss this Board and the Profession in Canada has sustained, we do appreciate the irreparable loss sustained by Mrs. Giffen and Jim in the taking away of a devoted husband and father and that we do express to them our heartfelt sympathy.

SECRETARY'S REPORT RE BY-ELECTION

To Board of Directors.

Due to the death of Dr. J. F. Giffen, Representative on this Board for District No. 6, a by-election became necessary. Under the provisions as laid down in By-law No. 12, Section 25, an election was held in District No. 6.

Nominations were called for on January 20th, 1948, and as a result valid nominations were received for the following:

Doctor Harold James Dickson, St. Thomas.

Doctor James Frederick Murton Kennedy, London.

Ballots were prepared and mailed to all eligible electors of the district on February 20th with necessary instructions.

The report of the Scrutineers herewith appended shows the election of Doctor James Frederick Murton Kennedy.

The ballots as sealed by the Scrutineers are herewith presented and should be disposed of by direction of the Board.

DON W. GULLETT, Secretary.

SCRUTINEERS REPORT OF ELECTION

To the Board of Directors

Royal College of Dental Surgeons.

Gentlemen:

According to your request to act as Scrutineers of the by-election of the Board of Directors of the Royal College of Dental Surgeons of Ontario, we attended at the Board Room of the College this fourth day of March, 1948.

After we had made the required declaration of secrecy, your Secretary handed us the envelopes marked "Ballots, Royal College of Dental Surgeons". There being a by-election in District No. 6 we report as follows:

Number of ballots received 150

Number of valid ballots 147

Number of invalid ballots 3

Reasons for declaring ballots invalid—

one (1) too late

one (1) unsealed

one (1) unsigned

The 147 valid ballots were marked as follows:

For Dr. Harold James Dickson 58

For Dr. James Frederick Murton Kennedy 89

Showing a majority of 31 for Dr. Kennedy.

We hereby certify that the above statement regarding the ballots handed us by Don W. Gullett, Secretary of the Royal College of Dental Surgeons of Ontario and the disposition of them is correct for District No. 6.

R. GORDON McLEAN,

A. T. LAIDLAW,

Scrutineers.

March 4, 1948.

PRESIDENT'S REPORT

Gentlemen:

Since our last annual meeting it has been our misfortune to lose one of the members of this Board. It is with a feeling of deep personal loss that I express the great loss sustained by this Board in the passing of Dr. Frank Giffen. His contribution was large and so unselfishly given that time brings into bolder relief his many fine qualities of heart and mind. Frank was our youngest member and many avenues of service to the profession he loved, were just opening up for him when his career was cut short. His example will always be a guiding light for the members of this Board who were privileged to serve with him.

I am happy to welcome Dr. Fred Kennedy whose particular qualifications of having successfully completed a second professional education should qualify him to make a valuable contribution. I wish for you, Fred, a happy sojourn on the Board and may you find with us a satisfying means of service to the Profession of Dentistry.

During the year, changes were made in the Dentistry Act, chief of which is giving to the Board of the R.C.D.S. the responsibility for setting up and regulating the education and control of Hygienists. Study continues as to the best method of implementing these responsibilities.

Dr. Phillips and his Committee with the assistance of the Executive Committee have done a great deal of work on by-laws and the setting up of machinery for the institution of Board examinations both theoretical and practical. These changes, although onerous, will I feel react most favourable to the benefit of the profession in this Province.

We welcome to our discussions Dean Roy Ellis who now directs the Faculty of Dentistry in the University of Toronto. His predecessor, Dean Emeritus A. D. A. Mason, for many years a member of this Board, laboured constantly to keep in close harmony the policies of the Faculty and this Board. I know that it is the desire of Dean Ellis to further this desirable co-operation. To him we pledge our support in his endeavours to raise even higher the standards of undergraduate dental education in this Province. It is hoped that at a very early date a more complete program of graduate education may be instituted in this Faculty. It would be welcomed I believe, by graduates in all parts of Canada and especially the other Canadian Dental Schools. We trust that the time is not too far distant when he may have the facilities of a new building. To Dean Mason we wish many years of healthful enjoyment of his well won leisure.

To all members of the Board and to our Secretary may I express my thanks for their generous support and assistance throughout the year.

HARVEY W. REID.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board:

The biennial election for the Board occurs this fall. It will be necessary for Scrutineers to be appointed at this meeting.

As far as can be discerned at this time there will be a large number of applicants for entrance to the dental course again this fall. The Faculty has limited the number to be admitted to seventy which will mean selection of those to be accepted.

In October last the Legislature amended the Dentistry Act giving the Board power, subject to the approval of the Lieutenant-Governor in Council, to pass by-laws for the establishment, development, regulation and control of dental hygienists. At the same time, the Act was amended to permit increase of the Annual Licentiate Fee from a maximum of \$10.00 to a maximum of \$25.00.

In respect to the introduction of dental hygienists, the question has been asked in several instances as to the attitude of the Board toward the registration of dental hygienists who have graduated from satisfactory schools in the United States.

The economic situation in respect to dental practice has changed noticeably. Whereas, one year ago in the case of older established practises appointment books were filled two or three months ahead, it is now reported that in most cases appointments are taken up two or three weeks in advance. Younger men, who have recently taken up practice in the larger urban centres, are reported to be not overcrowded.

An exceedingly large number of inquiries is being received from dentists of European countries respecting the requirements for practice in Ontario.

CHANGES IN REGISTER

As of April 30th, 1948, the number on the Active List was as follows:

Annual Fee Paid	1953
Honorary fifty year list	62
Fees unpaid on above date	4
Total	2019

Changes during the year have been as follows.

Added to Active List

New Graduates	44	
D.D.C. Certificates Registered	3	
Licentiates from Ontario	4	
Licentiate from Manitoba	1	
Licentiate from Michigan	1	53

Transferred to Inactive List

Died	26	
Out of practice in Ontario	37	63
Loss		10

For the second year in succession a loss in the number of Ontario licentiates is reported. Owing to the accelerated program in the Faculty during the war only one undergraduate is in the present graduating class. Of the graduates from schools of other countries taking the final year in the Faculty it is anticipated that only two or three at the most will take up practice permanently in Ontario. This means that through death and retirement a sizeable loss in personnel will appear again in this report for next year.

The loss through death and retirement for the year amounts to 3.2%. An observation may be made in that the age groupings of the practitioners in the province will be a factor to be considered for at about the turn in the century an increase in the size of graduating classes occurred. It follows that we can perhaps predict an increased loss in numbers for future years. In turn this gives rise to the number of additions needed to render necessary services.

For the immediate future it now appears that there would be approximately a balance between additions and losses on the active list for the year 1949 and sizeable increases in 1950 and 1951. This estimate is based upon the number of undergraduates in the faculty at the present time.

EXTRAMURAL AND EXTENSION LECTURE SERVICE

A list of the lectures and clinics under the Extramural and Extension Lecture Service arrangement is presented for your information. These services are greatly appreciated and many letters of appreciation have been received during the year.

EXTRAMURAL LECTURES AND CLINICS

Society and Place	Date 1947-48	Speaker	Subjects Presented	Number Present
Bay of Quinte Belleville	Oct. 15	McIntosh	Periodontia in General Practice	22

We have sustained a great loss during the year in the death of Doctor J. Frank Giffen whose work as a member of the Board was of the highest calibre. While he has passed away his sage advice and determined efforts to better the profession will have their effect through future years.

The ready assistance of every member of the Board has facilitated the work of this office and I wish to thank each member for all the personal courtesies extended during the past year.

Yours faithfully,

DON W. GULLETT, Registrar-Secretary.

Motions: "That Dr. Gordon McLean and Mr. Laidlaw be our Scrutineers for the fall elections 1948." Carried.

'That Honorary Membership Certificates be sent to the following members eligible for Honorary Registration:

J. W. Armstrong
W. H. Bowles

C. M. Reeves
L. F. Riggs
F. S. Watson
P. P. Winn
E. L. Zinkan

Carried.

"That this Board adopt the Secretary's report." Carried.

REPORT OF TREASURER

Mr. Chairman and Members of the Board:

A detailed statement of the revenues and expenditures of the past year will be found in the auditor's statement herewith presented.

LICENTIATE FEES

First fee notices were mailed out on December 1st, 1947; second notices were mailed on January 15th; Drafts were issued upon those who had not paid on February 2nd, and on April 5th the remaining number who had not paid were placed in Division Court for collection. As a result of these actions 1343 paid after the first notice; 437 paid after the second notice; 178 paid by draft. Four namely Doctors H. Winkler, Toronto, B. L. Washburn, Toronto, H. R. Stewart, Barrie, C. Nicholson, Hamilton were not paid on April 30th and their cases are in Court. All other licentiates are accounted for with the exception of Dr. R. M. Carruth whom we have been unable to trace.

INVESTMENTS

As instructed at the last annual meeting bonds were purchased as follows.

10,000 Dominion of Canada
25,000 Province of Ontario
5,000 Hydro-Electric Power Commission.

It will be observed by the financial statement that these bonds bear an interest rate of 2¾ % and that the market value has depreciated considerably since purchase.

HARRY R. ABBOTT MEMORIAL FUND

The receipts from the Harry R. Abbott Memorial Fund for the year were \$400.53 and the expenditures were \$500.00. Owing to lowered interest income, the bank balance of this fund is depreciated, there being \$328.27 at the end of the year which is \$99.47 less than last year.

A motion adopting the auditor's statement will be in order and auditors for the ensuing year should be appointed at this meeting.

DON W. GULLETT,
Treasurer.

Motion: "That the Treasurer's report be adopted." Carried.

REPORT OF EXECUTIVE COMMITTEE

Gentlemen:

Owing to the death of our confrere Dr. J. Frank Giffen in December '47, it has been necessary to hold several meetings to set up the necessary rules and regulations for the new Board Examinations to practice in this province.

Dr. Stanley J. Phillips kindly consented to take on the onerous duties of Chairman of the Examiners and Petitions Committee providing that the Executive would sit in with him.

The Executive Committee held five meetings: February 4th all day, February 25th all day, March 9th 7 p.m., March 23rd 7 p.m., and March 30th 7 p.m.

Studies were made of a great many examination systems, culled from all over the continent, and an effort was made to pick out the best points in each one.

The rules and regulations as suggested by this Committee will be found in the report of the Examiners and Petitions Committee, and we trust that they will meet with the approval of the Board.

Credit must be given to Doctors Phillips and Gullett for the great amount of work done in correlating the large amount of information into proper form.

No doubt there will have to be changes in these regulations, and after the experience of the Examiners on May 5th and May 6th much helpful information should be forthcoming.

During these four meetings certain matters were dealt with by the Executive Committee beside the major task of setting up the Board Examinations.

1. Dr. Paul, due to a very serious illness, was unable to attend any of the meetings, and sent his regrets.
2. Dr. S. J. Phillips was appointed Chairman of the Examiners and Petitions Committee.
3. Dr. H. L. Field was appointed to that Committee.
4. Dr. C. M. Purcell was appointed to the Discipline Committee
5. Dr. Phillips was appointed as one representative to the Faculty Council.
6. That the final date for Applications for the Spring Board Examinations to be April 15th, 1948.
7. That the date of the Spring Clinical Examinations be May 5th and May 6th.

The Executive met with Doctors Lowery, Swales and Grose. Dr. Lowery asked for closer co-operation between the O.D.A. and the Board of the R.C.D.S. Dr. Swales presented the needs of the Committee on Dental Public Health.

Recommendation — That this Committee recommend to the Board that assistance be given to the O.D.A. for the support of a dentist with a D.P.H. diploma, who would be employed in directing D.P.H. activities in this province.

Applications for Registration

- A. That we recommend to the Board that in the case of Alfred Bayley, By-law No. 8, Section 1 (a) be suspended and that he be granted his D.D.S. certificate.
- B. That in regard to application of Madame Unger, she be required to complete the final year in the Faculty of Dentistry, U. of T., and comply with the other requirements of this Board.
- C. That in the case of Peter Chlebowycz he be required to complete the final two years in the Faculty of Dentistry, U. of T., and comply with the other requirements of this Board.

That Dr. H. L. Field be appointed as a representative to the Canadian Dental Association.

On the request of the Deputy Minister of Health the following names were submitted from which two will be selected for appointment to the Departmental Committee on Dental Care for Relief Recipients. Doctors R. P. Lowery, V. H. Large, G. V. Morton, J. L. Chalmers.

Resulting from the discussions appertaining to the subject of the approval of certain dental schools, revisions were made to be recommended to the Board respecting the regulations for registration.

Motion — That the dental schools of the United States which are fully approved by the Council on Dental Education of the A.D.A. be deemed approved schools by this Board and be recognized as such when evaluating the credentials of graduates making application for license in this province.

Motion — If the applicant is a graduate of an approved school of the British Isles, Australia or New Zealand, to have successfully completed one year in the Faculty of Dentistry, U. of T., and to have passed such examinations as the Board may direct. This to be No. 6 in the regulations.

Doctors Ellis and Godfrey were present from the Faculty by request to give their valuable advice.

Examiners

Doctors Ellis and Godfrey recommended the following as Examiners:— Dr. P. G. Anderson and Dr. J. Kreutzer in Operative, and Dr. R. J. Godfrey and Dr. Frank Martin in Prosthetics.

The following Examiners were appointed:

Dr. S. J. Phillips, Chief.

Dr. P. G. Anderson — Faculty (Operative)

Dr. Harvey W. Reid — Board (Operative)

Dr. R. J. Godfrey — Faculty (Prosthetic)

Dr. H. L. Field — Board (Prosthetic)

Fees to Examiners — \$30.00 per day plus time spent in preparation when necessary in clinical, and in theoretical examinations \$5.00 for setting each paper and \$2.00 for marking each paper, with a minimum of \$5.00 per paper.

In the case of any appointed Examiner being unable to act, the President and Secretary shall have power to appoint.

Discussion took place in a broad way as to instructions to Examiners and the basis of marking for clinical examinations.

The Committee expresses thanks to Doctors Ellis, Godfrey and Anderson for their valued advice, and trusts that the Board will sanction all that is embodied in this report and that of the Committee on Examiners and Petitions, both of which dovetail considerably and which should be considered together.

Respectfully submitted,

H. L. FIELD,
Chairman.

Motions: "That with regard to the suspension of By-law No. 8, Sec. 1 (a) to allow Alfred Bayley his D.D.S. certificate, the recommendation of the Executive Committee be approved." Carried unanimously.

"That the actions taken by the Executive Committee since last meeting be ratified and that report be adopted." Carried.

REPORT OF DISCIPLINE COMMITTEE

Mr. Chairman and Members of the Board:

Your Discipline Committee is pleased to report that its labors during the past term have been limited to two cases of questionable conduct by College members.

In December last a photograph of one of our men together with an eulogistic report of his accomplishments appeared in the public press. When written to, this confrere readily offered the explanation that this was done entirely without his knowledge or consent, so your Committee would recommend that no further action be taken.

More recently, information of molestation of an assistant by her dentist employer was brought to the attention of the Committee, and an explanation was asked for. As no explanation was forthcoming, further investigation as to the truth or seriousness of this occurrence is being carried on and your Committee begs leave to continue.

Several cases of advertising by means of circulars and directories are herewith reported.

Regarding infringement of the Act or irregularities of minor importance the report of our investigator, Mr. Monahan, which follows will deal in detail.

All of which is respectfully submitted.

G. H. CAMPBELL, Chairman,
Discipline Committee.

Motions: "That the Secretary write Doctors— — — informing these dentists that they are infringing By-law No. 11 and any future occurrence of this kind will be dealt with by the Discipline Committee." Carried.

"That the report of Discipline Committee be adopted." Carried.

INSPECTOR'S REPORT

To the President and Members of the Council of the
Royal College of Dental Surgeons of Ontario.

Gentlemen:

I have the honour to report for your information the following investigations and prosecutions made from April 30, 1947, to April 30, 1948.

(1) Graydon Tyrrell, Seaton Avenue, Toronto, (Dental Mechanic) practising dentistry illegally;

The accused pleaded guilty and was fined \$500.00 and costs or three months in jail. He served his time.

(2) L. W. Atkinson, 242 Bloor Street W., Toronto, (Optician) practising dentistry illegally;

The accused was fined \$100.00 and costs and given a period of time to pay his fine.

(3) John Staden, 697 Mortimer Avenue, Toronto, (Dental Mechanic) practising dentistry illegally;

The accused pleaded guilty and was fined \$100.00 and costs and returned the money paid him for teeth.

(4) John Leishman, 1947 Dufferin Street, Toronto, (Dental Mechanic) he was practising dentistry illegally;

The accused pleaded guilty to one charge although there were two charges preferred against him. He was fined \$500.00, and returned the money we paid him for both sets of dentures. He has served his sentence.

(5) John Regan, Huntsville, Ontario (Dental Mechanic) practising dentistry illegally;

The accused pleaded guilty and was fined \$100.00 and costs. He was given a period of time by the Magistrate to pay his fine. There

is a bench warrant for his arrest for non-payment of his fine.

(6) E. M. Chinn, Timmins, Ontario, (Dental Mechanic) practising dentistry illegally;

The accused, through the efforts of Mr. Allen of Allen's Investigation Service, Timmins, Ontario, has been charged twice and was fined \$100.00 and costs for the first offence and \$200.00 and costs for the second offence.

(7) Abraham J. Frohman, 52 Chatham Street, Windsor, Ontario (Dental Mechanic) practising dentistry illegally;

The accused pleaded guilty and was fined \$500.00 and costs.

(8) Miss Nellie Stansell, 1079 Pierre Street, Windsor, Ontario, (Dental Mechanic) practising dentistry illegally. The accused pleaded guilty and was fined \$100.00 and costs.

(9) Basil Shea, 744 Park Street W., Windsor, Ontario, (Dental Mechanic) practising dentistry illegally. The accused was convicted and fined \$100.00 and costs.

(10) Stanley R. Housen, Ducharme Street, Roseland, Ontario, (Dental Mechanic) practising dentistry illegally. The accused was convicted and fined \$100.00 and costs.

(11) Roy Andrews, 18 Horticulture Street, Toronto, (Dental Mechanic) illegally practising dentistry. This case is pending.

(12) On a request I inspected the office of Dr. — — — Toronto. I instructed him to have his place of business cleaned up. I called at a later date and there was a wonderful improvement from the first visit. My report is on file.

(13) On request I inspected the office of Dr. — — — Toronto. My report is on file.

(14) I have reported fifteen different cases of Doctors having "X-Ray" on their places of business. I have not re-checked to date to find out if "X-Ray" has been removed.

(15) I interviewed Dr. — — — re a complaint that there was a Dental Mechanic working in or around ——— who was practising illegally. When this information is obtained, action will be taken to stop him.

(16) I have again visited the office of Dr. — — — Toronto. My report is on file.

My expense account has been submitted for the audit.

I wish to take this opportunity to thank the Council for the increase in salary, I assure you it was appreciated.

Respectfully submitted,

INSPECTOR.

Motion. "That the Inspector's report be adopted." Carried.

REPORT OF THE FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO AS PRESENTED AT THE FALL MEETING

To the Board of Directors,
Royal College of Dental Surgeons of Ontario.
Gentlemen:

The registration in the Faculty of Dentistry as of November 1, 1947, is as follows:

	Ex-service	Civilian	Total
Predental Year	56	25	81
First Dental Year	129	31	160
Combined First Dental and Second Dental... 16			16
Second Dental Year	118	43	161
Third Dental Year	27	48	75
* Fourth Dental Year		24	24
Dental Nursing	1	24	25
D.D.P.H.	3	1	4
Other Diploma Courses	2	2	4
B.Sc. (Dent.)		2	2
Occasional students	5	3	8
Totals	357	203	560

* The majority are ex-service men.

Students in the Fourth Dental Year originate from the following countries:

Australia	18
England	3
Scotland	1
New Zealand	1
Canada	1
	24

The Applications and Memorials Committee of the Faculty selected the 81 Predental Year students from approximately three times that number of applicants. The method of selection was based on a definite policy established by the Committee and in conformity with general University policy with respect to admissions.

The principles followed were:

- (1) That as instructed by Council (and approved by the Board of Governors) the class be limited to 80.
- (2) That in accordance with the Faculty Calendar (paragraph 54, on page 22), no permissions be granted to repeat the year in session 1947-48, unless definite commitments shall have already been made in this regard.
- (3) That the "exceptional circumstances" mentioned in paragraph 9 on page 16 of the Calendar be construed as limited to war service, and that except in such cases, no candidate over 30 years or more, be admitted.
- (4) That, otherwise than the acceptance of six papers for matriculation as opposed to the nine required for civilians (see paragraph 19 on page 18 of the Calendar) no preference be given to ex-service personnel over civilians. It was agreed, however, that in the case of equal claims, the ex-service candidates would be accepted.
- (5) That having regard to subjects taken, those candidates who have taken some instruction in an Arts Course at a University and secured high standing be given preference over the Grade XIII candidates.
- (6) That none but Ontario candidates be accepted.
- (7) That having regard to the preceding principles all applicants be graded on their academic standing and provisional acceptances made accordingly.

On October 29th a special meeting of the Applications and Memorials Committee was held. By invitation President Sidney Smith, Dean MacFarlane of Medicine, Mr. A. T. Laidlaw, Assistant Registrar, Dr. Harvey Reid and Dr. J. F. Giffen attended the meeting. The purpose of this special meeting was for review of the Committee's policy adopted in the selection of Predental Year students for the

1947-48 session, and consideration of suggestions for 1948-49. While no definite recommendations were forthcoming from the deliberations, the Committee felt it had profited by the free exchange of ideas expressed during the conference.

As indicated in the registration table above, there are four graduates registered in the course leading to a diploma in Dental Public Health, Two students (one woman) are registered in the graduate course in Periodontia and two in the course in Orthodontics.

The Faculty is studying carefully the content and duration of these courses. Instruction in Histology and Paediatrics is included in the curriculum for the 1947-48 session. It is considered very necessary and advisable to lengthen these courses in the future. The Faculty has adopted the following principles with respect to these courses.

That candidates for admission to the Graduate Diploma Courses shall, before acceptance, be required to present evidence of the completion of one of the following:

- (a) three years in the practice of dentistry;
- (b) three years of service in an approved dental clinic;
- (c) two years of full-time service in an approved clinic;
- (d) forty-eight consecutive weeks' indentureship with a regularly qualified specialist approved by the Faculty;
- (e) two school years as a demonstrator or clinician in a dental school approved by the Faculty;
- (f) other experience considered by the Faculty to be of equal value.

(Amended by Council 7 July 47 to take effect session 1948-49)

That commencing with session 1947-48, any candidate for a Graduate Diploma shall be required to pass all examinations of the course at one examination session; that failure to pass the clinical phases of the course shall necessitate the repetition of the course and all examinations. (Amended by Council 7 July 47 to take effect session 1948-49.)

That in accordance with a suggestion from the Royal College of Dental Surgeons, in this regard, in session 1947-48 and thereafter, candidates for diplomas in Dental Surgery and Anaesthesia, Orthodontics and Periodontology be required to obtain in their final examinations a minimum of 66% in their major subject (i.e., the subject of their specialty) both clinical and written, a minimum of 50% in each of their minor subjects and a minimum average of 57% on the whole examination.

That all accepted candidates for these three diplomas be notified of the Royal College of Dental Surgeons requirement regarding qualifying certificates.

Staff

Many changes in the staff of the Faculty became effective with the 1947-48 session.

The following members of the staff retired on June 30, 1947:

Dr. A. D. A. Mason, Dean

Dr. F. J. Conboy, Professor of Dental Praxis

Dr. G. H. Coram, Associate in Dentistry

Dr. C. A. Corrigan, Professor of Orthodontics

* Dr. S. M. Richardson, Associate Professor of Radiography

Dr. F. E. Risdon, Associate Professor of Oral Surgery.

The following resigned as of June 30, 1947.

Dr. W. L. Hugill, Associate in Dentistry

Dr. L. A. Kilburn, Associate Professor of Dental Praxis.

* It is with deep regret that we record the death of Dr. S. M. Richardson on July 15th, 1947.

Staff Promotions

The following promotions of staff members became effective July 1st, 1947:

Dr. A. D. A. Mason	Dean Emeritus
Dr. R. G. Ellis	Dean
Dr. P. G. Anderson	Professor of Operative Dentistry
Dr. J. Kreutzer	Professor of Preventive Dentistry and Assistant Director of the clinic
Dr. F. L. Cole	Associate Professor of Prosthodontia
Dr. H. Halderson	Assistant Professor of Orthodontics (and Acting Head of the Department)
Dr. H. S. Thomson	Associate Professor of Dental Public Health
Dr. M. R. Culbert	Assistant Professor of Orthodontics
Dr. E. P. Downton	} Associates in Dentistry
Dr. E. B. Hooks	
Dr. G. W. Johnston	

New Staff Appointments

Because of the large classes in the early years of the courses, and because of the re-organization made necessary following so many retirements, twenty new appointments have been made recently.

Further additions to the staff will be required before the 1947-48 session ends.

Teacher Preparation

Several members of the staff are away on extended graduate courses in the United States. Dr. Harry Hunter is completing his second year in the study of Pathology and Bacteriology at the Zoller Memorial College in Chicago. Dr. A. W. S. Wood is at the Dental School at the University of Illinois on a W. K. Kellogg Foundation Fellowship taking graduate instruction in the field of pedodontia and allied basic sciences. Dr. J. B. Macdonald proceeded recently on a Fellowship to study under Drs. Isaac Schour, Orban, and Maury Massler at the Dental School of the University of Illinois. A second Kellogg Fellowship made available to the Faculty for the 1947-48 academic session will permit us to further expand a vigorous program of teacher preparation.

An extensive program of re-decorating and some alterations were completed in the Dental Building during the summer months. The cooperation of the University authorities in this respect was greatly appreciated. The telephones were re-organized and placed on the University switchboard (ML 6611) and a public address system was installed in the clinical departments.

The degree of Fellow of the American College of Dentists was conferred upon three members of the staff of the Faculty of Dentistry by the American College of Dentists at its annual meeting in Boston in August. Those honoured were:

Dr. P. G. Anderson

Dr. E. A. Grant

Dr. G. V. Fisk (Postponed from previous date)

At the Annual Meeting of the American Association of Dental Schools held in Chicago in June 1947, Dr. A. D. A. Mason, Dean Emeritus, was elected President of the Association. An invitation was issued to the Association to hold its 1949 meeting in Toronto.

Post-Graduate Continuation Courses

During the week of September 15-20, another intensive one week course in Periodontology was held. Those registered in the class came from Minneapolis, Cleveland, Rochester, Vancouver, Port Arthur and Toronto.

Many enquiries have been received from members of the dental

profession concerning similar continuation courses contemplated for the future. These include requests for one day a week courses over an extensive period in Orthodontics, Root Surgery, Pedodontics and Periodontia.

Attendance at Summer Courses

Miss E. M. Bradley, B.A., B.L.S., Assistant Librarian, attended a summer course of six weeks' duration on Medical-Dental Library administration at Columbus University.

Dr. M. A. Cox, Professor of Preventive Dentistry, attended the "Inservice Training Course for the Evaluation of Dental Caries Control Technics" sponsored by the School of Public Health, or the University of Michigan, September 8-13th, representing the Faculty of Dentistry, University of Toronto. The program included lectures given by renowned research workers in the field of caries control and dependent subjects, integrated with group discussions.

Research Studies Among Indians and Eskimos

Dr. W. G. McIntosh accompanied a group of medical scientists to the coast of James Bay (August 15—September 1) and carried out periodontal studies among the Indians in the groups residing in that area.

Dr. R. J. S. Tickle returned to Aklavik, N. W. T., during July and August, and rendered service to the Eskimo and white inhabitants of that community.

The Faculty is most anxious to acquaint its graduates with the highlights of the activities within the Faculty. A monthly staff letter has been inaugurated. While its primary purpose is to keep the staff informed of all items of Faculty interest, this letter will serve also as a record of the year's activities, from which reports to the dental profession may be prepared from time to time. Such reports to the profession are already appearing in the Canadian Dental periodicals.

May I take this opportunity, as I present my first report, to express to the Board of Directors of the Royal College of Dental Surgeons, my earnest desire to help maintain the cordial relationship which has been established through the years between the Faculty and the Board.

All of which is respectfully submitted.

ROY G. ELLIS,
Dean.

Motion: "That the report of the Faculty as presented by the Dean be adopted; that the Dean be complimented on such a comprehensive report; that the Board commends the teacher training program and again re-iterates its satisfaction with the close co-operation between the Faculty and this Board." Carried.

REPORT OF THE FACULTY OF DENTISTRY

University of Toronto AT SPRING MEETING

To the Board of the Royal College
of Dental Surgeons of Ontario.

Gentlemen:

This has been a year of transition in the Faculty of Dentistry. It has been a rugged year for every member of the Staff. I am deeply conscious of the heavy responsibility accepted by one and all, and especially the senior members who in many instances have responded beyond the call of duty. I shall be forever indebted to my colleagues for their enthusiasm and loyalty during the session, made difficult not only by the many changes in personnel, but also by the

problems created through overcrowding in the pre-clinical years. The latter situation will be extended to the clinical years in session 1948-49, and therefore, there is little relief in sight from the pressure experienced in the past year.

In a report to the dental profession published in the Journal of the Ontario Dental Association (February issue, 1948) we endeavoured to acquaint the profession with our thoughts relative to present trends in dental education. We tried to reduce these ideas to a practical basis for this Faculty. In the report we stated, "Our professional status is bound inevitably to our education and not merely to our skill in technique". Preventive and Public Health concepts are surging to the forefront.

In any review of dental education it should be emphasized that a well balanced program must be founded upon a tripod of undergraduate instruction, graduate continuation courses and scientific investigation. I am sure it is true to say that no professional school in a University can maintain satisfactory undergraduate scholarship and inculcate the highest professional attitude in its new graduates if they are not surrounded by continuous graduate and research activities. This Faculty must expand in both these directions, if it is to keep abreast of the most progressive dental schools on this continent. A dental faculty which is limited to undergraduate instruction only, cannot hope to rise above a state of mediocrity.

However, present limitations of physical accommodation will not permit the necessary enlargement of these vitalizing activities. Under the circumstances, two alternatives seem natural for the future, namely:

- (1) either, that we recognize the limitations and curtail the size of the classes, until we have no more than fifty students in each of the Third and Fourth (Clinical) Years. Reduction in the present clinical and laboratory facilities would be permitted accordingly. The space relinquished in this process could then be re-arranged to meet the requirements of the graduate and research activities.
- (2) or, that enlarged facilities (a new building preferably) accommodating eighty undergraduate students in each class be provided, and in addition adequate space for graduate continuation courses and investigation.

Present indications are that before the second alternative can be realized, a long range program of effective public relations must be undertaken and vigorously pressed to fruition. Perhaps we have no one but ourselves to blame for the present rather discouraging and yet not hopeless situation relative to the prospects for being provided with a new building. Future efforts must commence at home, i.e., with the dental profession, and ultimately envelop all sections of society. Stress on public health is most important. Two years of relentless effort might be necessary following which, the logical step would be to crystallize the presentation of our needs into the form of blueprints.

It is suggested that consideration be given either to the revival of the joint Committee established by the Board of Directors of the Royal College of Dental Surgeons on November 25, 1944, or to the establishment of a new committee for the purpose of pressing forward with this objective. The availability of finances for the purpose of engaging the help of people trained in the preparation of material for lay use and later an architect for the preparation of preliminary blueprints would be most desirable.

A modest beginning has been made with the public relations program, firstly, through the work that was carried on between November 1944 and December 1945 by the Joint Committee and secondly, during this session. The preparation of the monthly faculty staff letter was designed to keep all staff members acquainted with the faculty's activities. Excerpts from these letters appeared in the Canadian dental periodicals for the information of the profession and as a further attempt in this direction, a leaflet was prepared and made available at the Ontario Dental Association Convention (May 17-19) entitled, "Did you know". Other information was also available at the Convention, relating to extramural lectures, graduate continuation courses proposed for 1948-49 and a reprint of an article entitled "Elbow Room for the Dentist", appearing in the June issue of the Varsity Graduate which is circulated to approximately forty-four thousand graduates of the University.

Gentlemen, in November last I reported to you on many items of mutual interest, not the least of which were figures on registration. I shall not repeat the figures given then, but it is interesting to note at this time that in the First Dental Year, dentists' sons number 12.8% of the total enrolment of that class. For the 1948-49 session the Board of Governors of the University has authorized a limitation of 70 students to be admitted to the Predental Year.

In addition to the new appointments to the staff reported in November I am happy to advise you now of some further appointments.

Dr. D. W. Gullett (Associate) succeeded Dr. F. J. Conboy. He gives the lectures on "The History of Dentistry, Ethics and Jurisprudence".

Dr. R. P. Lowery (Associate) succeeded Dr. L. Kilburn in Dental Economics.

With the kind co-operation of Dean MacFarlane of Medicine and Professor R. M. Janes (Professor of Surgery) the lectures given previously by Dr. Fulton Risdon in Oral Surgery, are now delivered by the following special lecturers:

Dr. C. L. Ash; Dr. Stuart Gordon; Dr. Harold Wookey; Dr. Ralph Ireland; Dr. Philip Botterell and Dr. D. M. Tanner.

A signal honor has been bestowed upon Dr. Harold K. Box. The Jarvie Fellowship Gold Medal was presented to Dr. Box by the New York State Dental Society on May 10, 1948, in Syracuse, N.Y. This medal is awarded "to the individual who has contributed outstandingly to original research or whose high attainment and professional career has been of such a character as to have materially advanced the science and art of dentistry". Only one other Canadian has won the medal since its inception in 1905. The late Dr. Albert E. Webster received the award in 1932. The list of the recipients of this award since 1905 in which the year Dr. G. V. Black was honored, is a roster of the great names in dentistry of the last half century. We offer our sincere congratulations to Dr. Box, who has again brought honor to himself, to this Faculty and to the University.

In addition to those staff members reported in November who are away on extended graduate study and teacher preparation programs, I now report that Dr. J. E. Moser (Demonstrator in Radiography) proceeded to the University of California in February to study under Dr. G. M. Fitzgerald, majoring in the Department of Radiology. Dr. Moser was awarded a W. K. Kellogg Foundation Fellowship, the second made available to this faculty for the 1947-48 session. Dr. Nikiforuk (Demonstrator in Pedodontia) was recently advised that he has been awarded a Graduate Fellowship offered by

the University of Illinois, and tenable at that University during the 1948-49 session. Dr. Nikiforuk will leave in September to proceed with his studies.

New Scholarships, Fellowships and Awards include the following:

- (1) The Julius J. Levine Memorial Bursary (gift of the Alpha Omega Fraternity).
- (2) The Academy of Dentistry, Toronto, War Services Rehabilitation Fund Bursaries (available for ex-service graduates proceeding toward research and teacher training).
- (3) Prosthodontia Essay Prize (Gift of Dr. F. L. Cole).
- (4) Endodontia Essay Prize (Gift of Dr. L. J. Fenech).
- (5) Prosthodontia, First Year Prize (Gift of Dr. A. M. Hord).

In addition to the above, the Canadian Red Cross Society, at the instigation of its Dental Committee, have provided for two, five hundred dollar bursaries for the 1948-49 session, for the purpose of encouraging applications for the course leading to the Diploma in Dental Public Health. This generous provision is part of a magnificent donation of \$10,000.00 made available to the University by the Red Cross for the establishment of a demonstration unit within the Department of Public Health in the Faculty of Dentistry. All these magnificent gifts and donations are sincerely appreciated. They give encouragement because they evidence a continuing interest by graduates of the faculty and an awareness on the part of others that the dental profession provides an important health service.

Once again we report that the extramural lectures arranged in co-operation with the Board have been much in demand. A total of 27 meetings were held in 21 different Ontario centres with approximately 700 dentists in attendance. Dr. J. Wallace Graham, Associate Professor of Medicine in Dentistry, has just returned from a very successful visit to the Societies in Northern Ontario. These meetings were held conjointly with the Medical Societies in each centre. Dr. Graham chose for his discussion (1) Heart Diseases and Their Relationship to Dentistry", and (2) "Diagnosis and Treatment of Rheumatic Diseases with Special Reference to Infection."

In addition to the Postgraduate Continuation Course reported in November (September 15-20 in Periodontology), a course in Orthodontics for the general practitioner was arranged for Wednesday afternoons for 10 weeks (March 3 — May 12). Ten graduates registered in the course. They came from Welland, Peterborough, Cooksville, Niagara Falls, Thorold and Toronto. The course was under the direction of Drs. G. V. Fisk and H. Halderson, with Drs. M. R. Culbert and W. K. Shultis and S. J. Lesco assisting. A second one week course in Periodontology was given during the week of May 3-8 under the direction of Drs. H. K. Box, C. H. M. Williams, with Drs. W. G. McIntosh, H. Wildfong, and D. S. Moore assisting. The twelve registrants included dentists from Cleveland, Ohio; Bristol, Indiana; Odessa, Texas; Chadron, Nebraska; Ontario (Windsor, Hamilton, Barrie, Ottawa, Prescott, and Toronto). Many other applications were received for this course but in order that those might receive maximum benefit from the instruction, the enrolment was limited.

The method of supplying the students with instruments has been changed. In the past, students have purchased their instruments from the Toronto Dental Dealers Association. Commencing with session 1948-49, the University through its purchasing department will call for tenders on the lists of instruments and the student will purchase these from the University.

This Faculty will be represented by Dr. R. A. Hugill (Demonstrator in Dentistry) at the next meeting of the International

Association of Dental Research which will be held in Rochester, N.Y., June 19 and 20, just prior to the meeting of the American Association of Dental Schools. Dr. Hugill will report on the progress made in the investigations he is engaged in under the direction of Dr. Harold K. Box.

The University of Toronto has launched an appeal for thirteen million dollars to support a program of expansion. Seven millions have been generously provided by the Ontario Government and the balance (six million) is being sought from private sources. As one Faculty in this great University we have pledged our utmost support in this effort.

On Wednesday, April 21st, a dinner was given by the Faculty honoring the members of the graduating class. The Principal of University College, Dr. W. R. Taylor, delivered a very inspiring message on the topic—"The Profession and the Community".

The Faculty gratefully acknowledges the financial assistance given by the Board during the session. The Board's contribution toward the Extramural Lecture Service and the Faculty Contingent Account provides very tangible evidence of the fine spirit of co-operation which exists between the Faculty and the Royal College of Dental Surgeons.

In conclusion I should like to take this opportunity of expressing to the dental profession through the Royal College of Dental Surgeons Board, my heartfelt appreciation for the generous expressions of goodwill and cooperation conveyed to me at the special function held on November 14, 1947. This was a memorable occasion presenting a challenge to me which I shall probably spend the rest of my life trying to meet. For the important part played by the Board on that occasion I am profoundly grateful.

All of which is respectfully submitted.

ROY G. ELLIS
Dean.

Motion "That the report of the Faculty of Dentistry as presented by Dean Ellis be adopted." Carried.

REPORT OF EXAMINATIONS—4th DENTAL YEAR AT MEETING OF JULY 9th, 1947

Dean Ellis met the Board by appointment and presented a detailed report respecting the marks obtained by each individual student who wrote the final examinations.

The report follows:

Passed with honours:

Frederick William Banford, James Renwick Fletcher, James Arnold Guest, Alvin Bruce Hord, Donald Manly McKee, Gordon Nikiforuk, Harry Craig Parrott, John Medwell Brown, Lancelot Maynard Clark, Ernest John Cloke, George Alexander Cuthbertson, Alton Stanley Jackson, Louis Karpin, Brian Duncan McCallum, Victor Plant Webb, Harold William Wigley.

Passed:

Julius Abrahamsen, Gordon Samuel Anker, Constandinos William Barootes, Edward Ralph Wood Bilkey, Laurence James Bogue, David Edmund Watt Boyd, Eleanore Alice Elizabeth Cornish, Victor Joseph Culotta, Lloyd Elvin Downey, Ruth Alvena Dundas, Wesley John Dunn, Malcolm John Gibson, Ralph Green, Bernard Hemrend, Bernard Joseph Hinch, Russell Alan Hugill, Sidney Jacobs, Helen Campion Klasen, Joseph Vincent Nelson LaFramboise, Joseph Andre Lemieux, Robert Douglas Leuty, Harvey Leslie Levine, Ronald Keith Lindsay, Leonard Rogers McBride, Harold Arthur McLean Mason, Samuel

Mednick, James Bruce Oldfield, Charles Louis Petrullo, John Alexander Reid, David Ritz, Donald Allan Sinclair, Harold Frederick Stevens, Robert James Stinson, John Henry Tripp, Ralph William Vandervoort, Norman Henry Vickers, Murray Ayearst Weaver, William Haig Bain, Owen Brierley Basil-Jones, Russell Thomas Frederick Boyd, Iain Stalker Cook, Richard Frederick Deakins, Deneb David Freeman, Bruce Godfrey Hyams, Robert Alfred Lawson, John Edward McGovern, Cyril Patrick Neeson, Theodore Neville Osborne, Gerald Holgate Roberts, Lorne MacIntyre Roxburgh, Joseph Lawrence Sertori, Edward Sewell Teiffel, Francis Xavier Watson, Ellice Marie Weir, Ernest Henry Williams, Edward Bellamy Hansen.

The following failed in one or more subjects:

Stuart McFaul Crouch Supplemental in Dental Surgery and Anaesthesia
 Alfred Bayley Supplemental in Medicine
 Leo Dault Supplemental in Periodontology
 Leo Dault Failed year

Scholarships and prizes:

First Oral Health Prize G. A. Cuthbertson (aeq.)
 I. S. Cook (aeq.)
 Second Oral Health Prize J. R. Fletcher
 Albert E. Webster Memorial Scholarship F. W. Banford
 Wallace Seccombe Memorial Scholarship Nikiforuk by reversion
 to Hemrend
 Dental Students' Parliament Prize W. J. Dunn
 Harold Keith Box Medal Gold Nikiforuk to Fletcher
 Silver Fletcher to Parrott
 First Henry Thompson Scholarship G. Nikiforuk
 Second Henry Thompson Scholarship J. A. Guest
 Academy of Dentistry Prize E. R. W. Bilkey

The details respecting the examinations were thoroughly discussed.
 Motions: "That the following having fulfilled the requirements of the Board be granted registration in the R.C.D.S.—
 J. Abrahamsen, G. S. Anker, F. W. Banford, C. W. Barootes, E. R. W. Bilkey, L. J. Bogue, D. E. W. Boyd, E. A. E. Cornish, V. J. Culotta, L. E. Downey, R. A. Dundas, W. J. Dunn, J. R. Fletcher, M. J. Gibson, R. Green, J. A. Guest, B. Henrend, B. J. Hinch, A. B. Hord, R. A. Hugill, S. Jacobs, H. C. Klasen, J. V. N. LaFramboise, J. A. Lemieux, R. D. Leuty, H. L. Levine, R. K. Lindsay, D. M. McKee, H. A. M. Mason, S. Mednick, G. Nikiforuk, J. B. Oldfield, H. C. Parrott, C. L. Petrullo, J. A. Reid, D. Ritz, D. A. Sinclair, H. F. Stevens, R. J. Stinson, J. H. Tripp, R. W. Vandervoort, N. H. Vickers, M. A. Weaver, W. H. Bain, R. T. F. Boyd, J. M. Brown, E. J. Cloke, I. S. Cook, G. A. Cuthbertson, R. F. Deakins, D. D. Freeman, B. G. Hyams, A. S. Jackson, L. Karpin, R. A. Lawson, B. D. McCallum, J. E. McGovern, L. M. Roxburgh, J. L. Sertori, F. X. Watson, V. P. Webb, H. W. Wigley, E. B. Hansen." Carried.

"That Stuart McFaul Crouch be granted his L.D.S. certificate after fulfilling his academic requirements." Carried.

"That in the case of L. R. McBride he be granted registration in the R.C.D.S. on fulfilling all the requirements of this Board." Carried.

"That in the case of Basil-Jones, Clark, Osborne, Roberts, Teiffel, Weir and Williams, By-law No. 8, Section

1 (a) re citizenship be waived, and upon successfully completing their course in the Faculty of Dentistry, U. of T., and after signing a covenant to practise ethically and to maintain the dignity and honour of the profession and having fulfilled all the requirements of this Board, be granted registration in the R.C.D.S." Carried.

REPORT OF EXAMINATIONS — DIPLOMA COURSES

Dean Ellis presented a detailed report of the marks obtained by those writing examinations for the diploma course.

Passed:

Dental Surgery and Anaesthesia P. T. Smylski
Periodontology D. S. Moore

Failed in one or more subjects:

Dental Surgery and Anaesthesia
J. F. Methven Supplemental in Medicine
Orthodontics
D. A. Campbell Supplemental in Anatomy
Supplemental in Medicine
W. K. Shultis Supplemental in Anatomy
Periodontology
C. T. Peterson Supplemental in Anatomy

Motions: "That Dr. Smylski be granted a specialist certificate in Dental Oral Surgery and Anaesthesia.

"That Dr. D. S. Moore be granted a specialist certificate in Periodontology." Carried.

"That on successfully completing their academic requirements, J. F. Methven be granted a specialists certificate in Dental Oral Surgery and Anaesthesia, D. A. Campbell and W. K. Shultis be granted a specialists certificate in Orthodontics when they fulfill the requirements as laid down by this Board for qualifying as such specialists." Carried.

"That on successfully completing his academic requirements, C. T. Peterson be granted a specialists certificate in Periodontology." Carried.

REPORT OF EXAMINATIONS AT ANNUAL MEETING, MAY 1948

Dean Ellis proceeded to present the examination results for the third dental year, fourth dental year and the diploma courses.

Fourth Dental Year

The results of the final year were presented as follows:

Passed with honours:

Frank Allott, Brian Douglass Foote, David Harvey Jenkins, Gordon Carlyle Marshall, Bryan Thomas Martin, James Dick Oddy, David Glendenning Watt.

Passed:

Reginald Kevin Barnes, George Horwood Cossins, Brian James Dupree, Walter Douglas Fairlie, John Victor Fletcher, Frederick Harold Froud, Ian Gibson, James Eric Gregory, Kelvin Sandford Hutchinson, Alexander Bruce Lang, Norman Newnan, Brian Joseph O'Meara, Harry Reich, John Alfred Sagar, Leslie Solomon Sampson, James Anthony Whitty, Alan David Willington.

Awards:

Oral Health Theses Prizes:

First D. H. Jenkins
Second K. S. Hutchinson and H. Reich
H. K. Box Medals: Gold H. Reich
Silver G. C. Marshall
Academy of Dentistry Prize J. D. Oddy

Diploma Courses

Orthodontics

Passed: Riddols, L. E.
Webb, V. P.

Periodontology

Passed: Brown, R.
Whitney, J. C.

Dental Public Health

Passed: Kapusta, M.
Mitton, G.
Windrim, H. L.
Supplemental: Sutherland, A. B.

Bachelor of Science in Dentistry

Passed: Willa Lin
William L. C. Hsu

Consideration of Examination Report of Faculty

Motion: "That the examination report as presented by the Dean
be adopted." Carried.

APPLICATIONS

Granting L.D.S. Certificates

Motion: "That when all requirements of this Board have been met
that L.D.S. certificates be granted to the following:
Allott, F.; Barnes, R. K.; Cossins, G. H.; Dupree, B. J.;
Fairlie, W. D.; Fletcher, J. V.; Foote, B. D.; Froud, F. H.;
Gibson, I.; Gregory, J. E.; Hutchinson, K. S.; Jenkins, D. H.;
Lang, A. B.; Marshall, G. C.; Martin, B. T.; Newnan, N.;
Oddy, J. D.; O'Meara, B. J.; Reich, H.; Sagar, J.; Sampson,
L. S.; Watt, D. G.; Whitty, J. A.; Willington, A. D.; and that
where necessary the terms By-Law 8, Sec. 1 (a) be waived."
Carried unanimously.

Board Examination

Motion: "That having successfully passed the examination sub-
scribed by this Board and having fulfilled all other require-
ments of this Board, George MacDougall be granted L.D.S.
certificate." Carried.

Granting Privilege of Specialist Registration

Motion: That L. E. Riddols and V. P. Webb in Orthodontics, and
R. Brown and J. C. Whitney in Periodontology be granted,
upon application, certification in the specialty designated,
when all the requirements of the Board are fulfilled."
Carried.

For Certification as a Specialist

John Thomas Crouch

Motion: "That John Thomas Crouch be granted certification as a
Specialist in Orthodontics." Carried.

William Kenneth Shultis

Motion: "That William Kenneth Shultis be granted certification as
a Specialist in Orthodontics." Carried.

For Registration

Peter Frederick Foote

Motion: "That in the case of Peter Frederick Foote, Regulation No. 1 in Regulations Respecting Registration as a Member of the R.C.D.S. be waived." Carried unanimously.

John Phillips

Motion: "That the application of John Phillips for examinations as set by this Board be accepted, and if successful he be granted his L.D.S. certificate." Carried unanimously.

For Re-instatement

F. N. Regan

Motion: "That no action be taken at the present time in the case of Dr. F. N. Regan." Carried.

COMMITTEE ON EXAMINERS AND PETITIONS

To the Board of Directors,

Royal College of Dental Surgeons of Ontario.

Gentlemen:

At the last meeting of the Board of Directors held in the fall of 1947, it was decided to set up provincial examinations for certain applicants who applied for licence to practice Dentistry in the Province of Ontario.

To do this the Board intended to set up at the annual meeting in May 1948 the necessary by-laws, rules, regulations and forms, but in the meantime Dr. Don W. Gullett, Registrar-Secretary of the Board, received an application to try these examinations in May, before the regular meeting of the Board.

It became immediately necessary for this Committee to proceed with the work of providing the machinery to give these examinations.

This Board suffered a great loss in the death of the Chairman of this Committee Dr. J. Frank Giffen, who had given thought, time and had experience in the affairs and needs of this Committee. So, with your approval, a new Chairman was named.

The task was so great that this Committee asked Dr. H. L. Field, Chairman of the Executive Committee along with his Committee of Dr. Harvey W. Reid, Chairman of the Board, Dr. Harold Campbell, Representative to the D.D.C. and Dr. Don W. Gullett, Registrar-Secretary, to assist us in the preparation of regulations and forms. For my committee, I, hereby acknowledge our grateful thanks to them.

The following meetings of the Committee of Examiners and Petitions were held in the Board Room, 211 Huron Street, Toronto on:-

- (1) February 25th, 1948, at 9.30 a.m.
- (2) March 9th, 1948, at 7.00 p.m.
- (3) March 23rd, 1948, at 7.00 p.m.
- (4) March 30th, 1948, at 7.00 p.m.

under the Chairmanship of Dr. H. L. Field of the Executive Committee for the purpose of preparing plans, rules, regulations and forms.

All of which is respectfully submitted.

FRANK BLATCHFORD,
EDGAR W. PAUL,
STANLEY J. PHILLIPS,
Chairman.

Motion: "That the report of Committee on Examiners and Petitions be adopted." Carried.

REPORT OF COMMITTEE ON GOVERNMENT AND LEGISLATION

Board of Directors of R.C.D.C.

Gentlemen:

This committee was asked to bring in a report on Dental Hygienists for the annual meeting in May. The following is a summary of information from the files of Dr. Don W. Gullett and several of the States of the United States:-

Report of the Committee on Auxiliary Services of C.D.A.

1. In submitting this report, which is merely a continuation of that given last year, your committee wishes to reaffirm the opinion expressed then that the profession must assume a large part of the responsibility for the situation which exists today in the relations between the profession and Auxiliary Services. This responsibility has developed a direct reaction in that now, where some control legislation is proposed, it is actively endorsed or sponsored by professional legal bodies in the respective legislative areas.
2. This is, in itself, only proper but it does indicate that, admitted or not, the profession does recognize that the onus for developing these services has been on it and that the maintenance of correct relations and the proper correction of these conditions is also in the hands of the profession. There are, of course, varying opinions as to how such controls may be initiated or imposed, but, in the main, opinion seems to favour legislation, with a minority believing that the profession holds the remedy in its own hands by not patronizing labs. that step outside the bounds of proper technical operations. However, results to date show strongly that legislation for protection of all concerned is, ultimately, the more effective means.
3. Still, the numbers employed in all these Auxiliary services is increasing rapidly, more particularly since the discharge of dental Corps personnel both in Canada and the States and, presumably, in other countries as well. One of the latest and certainly one of the most comprehensive regulating Acts is that of 1945 from South Africa. This Act is too long to quote here but, basically, it establishes "a dental mechanic's Board" of seven members appointed by the Minister, the mechanics and the dental governing body. Provision made that all meetings, procedures, committees, appointments of officers, revenue, keeping of registers, definition of persons entitled to be registered, the holding of examinations, contracts for apprenticeship, etc., shall be under control by this Board, and defines the precise operations performable by dentists and technicians and also provides suitable penalties. A copy of this act is attached to and forms part of this report.
4. New York State also approved an act along similar lines in 1945 but this was vetoed by the Governor so never became effective.
5. So far as we have been able to find out one State in the U.S. has enacted Legislation defining the activities of dental laboratories. This is South Carolina. This Act, not nearly so comprehensive but along general lines, sets up an examination under the State Board of Dental Examiners, defines who may work as a dental mechanic and the limitations, provides for registration and imposes due penalties. This was enacted in April 1946. The operations of Dental mechanics and approval of their qualifications is entirely under control of the State Board of Examiners. A copy of this Act also forms part of this report.
6. That commercial dental laboratories have increased very considerably during the past year is apparent in every city in the country. Casual surveys in some sections indicate that a considerable proportion of these labs. are not being patronized to any considerable

degree by resident dentists. It must be assumed then that they are carrying on black market or illegal operations. This is a difficult situation to contend with, since public opinion, ignorant of the extent of the damage that may be done by these men, supports their plausible contentions. Unfortunately, complicating the problem, a great many ex-service men, partially trained in the Dental Corps yet lacking sufficient training to satisfy most professional demands, prefer to resort to such activities rather than return to their previous occupations, if any.

7. With respect to dental hygienists though, the picture is entirely different since 36 States have established laws regulating the work of dental hygienists. All of these follow more or less the same pattern in that they prescribe the training that must be attained, the scope of operations and other activities though these vary considerably from State to State. Most of these acts limit hygienists to removing stains and deposits from the teeth of patients; in a few they may examine the teeth and, in four States, they may even, presumably after proper instruction, administer general anaesthetics. A summary of these regulations form part of this report.

They are, however, too long to detail here. The Act which defines the Dental Hygienists status most precisely is that of Indiana and incidentally has the most stringent penalties.

The value of this report lies not so much in the report itself but in the proper study and understanding of the appended legislation. This should be of great value to any dental technicians. No attempt has been made to detail the information since it would add nothing and only make this summary cumbersome.

Dental Hygienist Law ILLINOIS

Section 1. Sections 3 and 7 of "An Act to regulate the practice of dental surgery and dentistry in the State of Illinois, and to repeal certain acts therein named", approved June 11, 1909, as amended, are amended, and Sections 3b, 4b, 4c, 4d, 17b, 20, 21, 22, 23, and 24 are added thereto, the amended and added sections to read as follows: Section 3b. The department shall demand that every applicant for a certificate of registration as a dental hygienist shall:

1. Be a citizen of the United States or have first papers for naturalization.
2. Be a graduate of or have fifteen units of high school work from a high school or secondary school approved by the department.
3. Present satisfactory evidence of having received two years of credit in a college of dental hygiene, each year's work to consist of at least thirty-two weeks in a college reputable and in good standing by reference to a compliance with rules established by the department.
4. Submit for the files of the department a recent picture duly identified and attested.
5. Pass an examination given by the department in the subjects usually taught in a reputable college of dental hygiene approved by the department, which examination shall be such in the judgment of the department as will determine the qualifications of applicants to perform the operative procedure of dental hygiene.

Section 4b. The department shall issue a certificate of registration to every applicant who passes the examination for registration as a dental hygienist, under which certificate he shall be entitled to perform the operative procedure of dental hygiene as a certified dental

hygienist, unless and until such certificate shall be suspended, revoked, or forfeited as provided in this Act.

Section 4c. Licensed dentists may employ or engage the services of registered dental hygienists, hereinafter set forth in this act, to remove stains or concretions (accretions) from the exposed surfaces of the teeth, such an operative procedure hereinafter referred to as dental hygiene, but shall not diagnose any condition of or perform any other operation on the human teeth or tissues of the mouth or jaws. However, it shall be unlawful for a person registered as a dental hygienist who is not also licensed to practice dentistry under the laws of this State to perform the operative procedure of dental hygiene except under the supervision of a licensed dentist and in one of the following places:

- (a) The office of a licensed dentist.
- (b) A state or municipal institution.
- (c) A public school.
- (d) A public clinic operating under the supervision of a hospital or of a state, municipal or other public institution.

The number of dental hygienists employed in the office of a licensed dentist or a public clinic operating under the supervision of a hospital or of a state, municipal or other public institution shall not exceed the number of licensed dentists practising in such office, institution, school or public clinic. A dental hygienist employed in the office of a licensed dentist shall display his certificate of registration in a conspicuous place in such office.

Section 4d. Any person registered as a dental hygienist shall cause his certificate of registration to be registered with the county clerk in each county in which he desires to be employed prior to beginning to perform the operative procedure of dental hygiene in such county and the county clerk shall charge therefore a fee of twenty-five cents. A failure to so register such certificate in any county shall constitute a forfeiture of such certificate and no certificate shall be restored except upon payment to the department of ten dollars.

Section 7. The department may refuse to issue the license provided for in this Act, or may revoke or suspend any license now in force or that shall be hereafter given, if, issued to an individual who has, by false or fraudulent representations, obtained or sought to obtain money or any other thing of value, or has practised under a name other than his or her own, or for any other improper, unprofessional, or dishonorable conduct in the practice of dentistry, or is convicted of a felony, or when the license is found guilty of any of the following acts or offenses:

The Department of Registration and Education may refuse to issue or may suspend or may revoke any license now in force or that shall be hereafter given for any one or any combination of the following causes:

1. Fraud in procuring license.
2. Habitual intoxication or addiction to the use of drugs.
3. Wilful or repeated violations of the rules of the Department of Public Health.
4. Acceptance of a fee for service as a witness, without the knowledge of the court, in addition to the fee allowed by the court.
5. Division of fees or agreeing to split or divide the fees received for dental services with any person for bringing or referring a patient, or assisting in the care or treatment of a patient, without the knowledge of said patient or his legal representative.
6. Employing, procuring, inducing, aiding or abetting a person not licensed or registered as a dentist to engage in the practice of

dentistry; provided, that the persons practiced upon shall not be deemed an accomplice, employer, procurer, inducer, aider, or abetter within the meaning of this Act.

7. Making any misrepresentation of false promises, directly or indirectly, to influence, persuade or induce dental patronage.
8. Professional connection or association with, or lending his name to another for the illegal practice of dentistry by another; or professional connection or association with any person, firm, or corporation holding himself, themselves, or itself out in any manner contrary to this Act.
8. Obtaining or seeking to obtain practice, money, or any other thing of value by false or fraudulent representations.
10. Practicing under a name other than his own.
11. Improper, unprofessional or dishonorable conduct.
12. Conviction of a felony.
- 12½ Permitting a dental hygienist under his supervision to perform any operation not authorized by the provisions of this Act.
- 12¾ Permitting more than one dental hygienist to be employed under his supervision except as authorized by this Act.

The department may upon its own motion and shall upon the verified complaint in writing of any person setting forth facts which if proven would constitute grounds for refusal, suspension or revocation as hereinabove set forth, investigate the actions of any person holding or claiming to hold a certificate. The department shall, before refusing to issue, suspending or revoking any certificate, at least ten (10) days prior to the date set for the hearing, notify in writing the applicant of the holder of such certificate of any charges made and shall afford such accused person an opportunity to be heard in person or by counsel in reference thereto. Such written notice may be served by delivery of the same personally to the accused person, or by mailing the same by registered mail to the place of business last heretofore specified by the accused person in his last notification to the department. At the same time and place fixed in the notice, the Examining Committee designated by the Director of Registration and Education as provided in this Act, shall proceed to hearing of the charges and both the accused person and the complainant shall be accorded ample opportunity to present in person or by counsel, such statements, testimony, evidence and argument as may be pertinent to the charges or to any defence thereto. The Committee may continue such hearing from time to time. If the Committee is not sitting at the time and place fixed in the notice or at the time and place to which hearing has been continued, the department shall continue such hearings for a period not to exceed thirty (30) days.

The entry of a decree by any court of competent jurisdiction establishing the insanity of any person holding a license under this Act operates as a suspension of such license. Such person may resume his practice only upon a finding by the Examining Committee that the licensee has been declared to sanity by a court of competent jurisdiction and upon the Committee's recommendation to the Director that such licensee be permitted to resume his practice.

Section 17B. Any persons who perform or offers to perform the operative procedure of dental hygiene in this State without a certificate of registration or who, having a certificate of registration, performs the operative procedure of dental hygiene in a manner or place not permitted by the provisions of this act shall be fined not less than one hundred dollars (\$100.00) nor more than five hundred dollars (\$500.00).

Section 20. It is unlawful for any person other than a licensed dentist to perform the operative procedure of dental hygiene, as a registered dental hygienist with a certificate of registration as a registered hygienist, issued by the Department of Registration and Education.

Section 21. The Department of Registration and Education shall exercise, but subject to the provisions of the Act, the following functions, powers and duties:

1. Conduct examinations to ascertain the qualifications and fitness of applicants for certificates of registration as dental hygienists.

2. Prescribe rules and regulations for a method of examinations of candidates.

3. Prescribe rules and regulations defining what shall constitute a school, college, or university or department of a university, or other institution, reputable and in good standing by reference to a compliance with such rules and regulations; provided that no school, college or university, or department of a university or other institution that refuses admittance to applicants, solely on account of race, color, or creed shall be considered reputable and in good standing.

4. Establish a standard of preliminary education deemed requisite to admission to a school, college or university, and to require satisfactory proof of the enforcement of such standard by said school, colleges and universities.

5. Conduct hearings on proceedings to revoke renewal of certificates of persons applying for registration or registered under the provisions of this Act and to revoke or refuse such certificates.

6. Formulate rules and regulations when required in any Act to be administered.

None of the foregoing functions, powers, or duties enumerated shall be exercised by the Department of Registration and Education except upon the action and report in writing of the Examining Committee as provided in Section 3a of this Act.

Section 22. Every person who desires to obtain a certificate of registration as a dental hygienist shall apply to the Department of Registration and Education, in writing upon blanks prepared and furnished by the Department of Registration and Education. Each applicant shall contain proof of the particular qualifications required of the applicant, shall be verified by the applicant, under oath, and shall be accompanied by the examination fee of \$15.00.

Section 23. The Department of Registration and Education shall hold examinations of applicants for certificates of registration as dental hygienists at such times and places as it may determine.

The examination of applicants for certificates of registration as registered dental hygienists may include both practical demonstrations and written and oral tests and shall embrace the subjects usually taught in schools of dental hygiene, approved by the Department of Registration and Education.

Section 24. The Department of Registration and Education may refuse to issue or may suspend or revoke any certificate of registration as a dental hygienist for any one or any combination of the following causes:

1. Fraud in procuring certificate.
2. Performing any operation not authorized by the provisions of this act.
3. Practicing dental hygiene other than under the supervision of a licensed dentist as provided by this Act.

The provisions of this Act relating to proceedings for the suspension and revocation of a license to practise dentistry shall apply to proceedings for the suspension or revocation of a certificate or registration as a dental hygienist.

The Department of Registration and Education may either refuse to issue, or may refuse to renew, or may suspend, or may revoke, any certificate of registration for any, or any combination of the following causes.

(a) The wilful violation of, or the wilful procuring of, or knowingly assisting the violation of, any Act which is now or which hereafter may be in force in this State relating to the use of habit forming drugs;

(b) The obtaining of, or an attempt to obtain a certificate of registration, or practice in the profession, or money, or any other thing of value by fraudulent representation;

(c) Gross negligence in performing the operative procedure of dental hygiene;

(d) Continued employment by a person knowingly having an infectious, communicable, or contagious disease;

(e) Habitual drunkenness, or habitual addiction to the use of morphine, cocaine, or other habit forming drugs.

Section 2. There is appropriated to the Department of Registration and Education the sum of two thousand dollars (\$2,000.00), or so much thereof as may be necessary, for the purpose of administering the provisions of this amendatory Act.

Approved, July 25, '45.

DENTAL QUALIFICATIONS

C—Qualifications

D—Examination

Some of the Provisions:

AlabamaC—Character

Age.

1 year as Dental assistant before taking course.

D—Anyone who employs a Dental assistant and wants permit to employ as specified person. That dentist must submit all necessary information and Dental Assistant must submit to exam.

ArkansasC—Must be graduate of some recognized Dental dispensary, infirmary or school.

D—If coming from another state must submit to examination and pay fee of \$25.00 for license.

CaliforniaC—18 years of age.

Moral character.

Fulfil requirements of predental education.

D—Shall write examination as follows and pay fee.

Written

Inorganic chemistry

Physiology

Anatomy, Bacteriology, Anaesthesia, X Ray,

Materia Medica, Histology, Nursing, Hygiene

Practical—for removal of deposits and polishing exposed surfaces.

ColoradoC—Board shall have power to:-
Grant, suspend, revoke licence to practice.

Connecticut ...C—(a) 4 years successful high school education.
(b) Graduate of an institution teaching dental hygiene.

D—The Board shall make all rules and regulations.

DelawareC—Must be a female person.

D—If not a graduate of state, must produce all necessary information and write examinations as set by Board, and pay necessary fee.

ColumbiaC—Graduate after 1 year in Dental School.
Fee \$100.00. Photograph.

FloridaC—21 years of age. Good moral character. Graduate of Dental School of at least 1 year duration.

IllinoisC—(1) Must be citizen. (2) Grade XIII graduate.
(3) 2 years credit from Dental School. (4) Comply with rules established by Board.

D—Written and oral tests shall be given by Board each spring and fall.

IndianaC—5 years as Dental Assistant and 1 year at approved Dental School, or, Two years in Dental School, or, One year of internship in a Dental Clinic in Hospital and one year at Dental School, or, One year as a teacher in a school teaching dental hygiene and one year in Dental School.

Other provisions found in regulations of other states.

1. Licence must be posted in full view in Dental office.
2. If coming from another state her application must be signed by two dentists from whence she came.
3. 2 separate academic years of at least 32 weeks of 5½ days per week.
4. Age.
5. High school standing.
6. Pass examination.
7. Pay fee.
8. Proof of age.
9. Character reference.
10. Number of subjects.
11. Oral and written exams.
12. Note New York—other than dental may be legally incorporated registered heretofore by the regents that maintain proper standard and equipment may establish for women students a course of study in oral hygiene.
Applicants shall meet requirements of education law.
13. Persons not addicted to use of intoxicating liquor or narcotic drugs—penalty loss of licence.
14. Most States state female.
15. 65% to pass written exams. 75% to pass chemical demonstration.
16. Practical exam. 1. Sealing for removal of tartar.
2. Polishing of teeth.
3. Instruction of patient in home care of mouth.
4. Instruction in use of tooth brush.

SUMMARY OF STATES

Provisions	Place of Activity
1. Under direction of Dentists	36 States
2. In a Dental Office	29 States
3. Public Institutions	19 States
4. Employee of Dentist	17 States
5. Public schools	13 States
6. In clinics	7 States
7. School authorities	7 States
8. Private schools	6 States

STANLEY J. PHILLIPS,
Chairman.

Motion: "That interim report of the Committee on Government and Legislation be received, and that Committee proceed with the drafting of rules and regulations for the training and control of Dental Hygienists." Carried.

LIBRARIAN'S ANNUAL REPORT — 1947-48

Mr. Chairman and Gentlemen:

I beg to present the annual report for the year ending April 30th, 1948.

It is with great pleasure that your Librarian notes the ever growing increase in the use of the Library by graduates and dentists practising in Ontario as well as many other parts of the country. The number of books and journals mailed under our special postal rates has increased considerably over last year, while an examination of the types of material most frequently requested shows that interests vary widely but usually have some bearing on the location and type of practice.

A comparison of the circulation figures for the last five years has been appended. The steady rise in the use of the Library can be readily seen by a glance at these figures. Worthy of comment also is the large increase in the number of journals borrowed during the year. Gradually, dentists are becoming more aware of the fact that reports and discussions of any new development or advancement in dentistry may be studied in their dental journals.

This year a daily record was kept of the use of the reading room by the students, with a view towards a solution of the problem of lack of space and equipment. From this record it was noted that the facilities of the library are entirely inadequate for the number of students seeking to read or study in the Library. This figure rose steadily from January to April which means that many students were forced to study elsewhere during the preparation for examinations. One means of alleviating this condition was to extend the Library hours by adding a half hour morning and evening. During the term the Library was open daily from 8.30 to 5.30 p.m.

The Library added 66 new books to its collection during the year, 26 of which were purchased through the Harry R. Abbott Memorial Fund. Subscriptions were placed for 8 new periodicals, which brings the total number of journal subscriptions to 118. Several interesting items were purchased and placed in the museum collection.

During the past summer, the Assistant Librarian was privileged to attend a six weeks course in Medical-Dental Library administration at Columbia University, New York. The course was designed to give practical aid to those engaged in Medical or Dental library work and covered thoroughly such subjects as the organization, administration and special problems connected with a medical or dental library. Visits were also made to many outstanding libraries such as, The New York Public Library and the Medical Library of the Medical Centre, Columbia University.

The Library has gradually recognized over the last few years an increasing interest and need for a collection of local historical and biographical material. With this in mind, it has recently decided to compile a portrait and biography file of dentists who have been or are in practice in Ontario. As the interest and the need grows, it has planned to expand this file to include biographical data of all outstanding Canadian professional men. In this connection, the Librarian will shortly make an appeal to all dentists in Ontario who may have any interesting material or facts available, to send them

to the Library where they may be included in the file which is now being planned.

The Library acknowledges with gratitude, the donation of gifts from Dr. I. H. Ante and Dr. A. J. Vince, and the reception of books and journals from Dr. A. D. Mason, Dr. C. A. Corrigan, Dr. G. V. Fisk, Dr. L. T. Smith, Dr. G. C. Cameron and Dr. C. D. Levy.

This report is respectfully submitted with the recommendation that for the ensuing year a grant of \$150.00 be made.

CIRCULATION STATISTICS

Year	Faculty	Students	Graduates	Periodicals
1943-44	544	5940	402	2304
1944-45	442	5484	468	2320
1945-46	455	6480	559	1869

E. W. PAUL,
Librarian.

Motions: "That the Librarian's Annual Report be adopted." Carried.

"That Dr. J. H. Johnson be appointed the Librarian for the Board with an honorarium of \$200.00." Carried.

REPORT OF DOMINION DENTAL COUNCIL

Mr. Chairman and Members of the Board.

Owing to the fact that no meeting of the Dominion Dental Council has been held since the last meeting of this Board, this report will deal principally with an account of examinations held and their results.

In July, 1946 —39 wrote (10 class D) 6 failed and wrote supplements, 2 failed to make a pass average.

In May, 1947 —17 wrote, 3 failed to make pass average.

In July, 1947 —9 wrote, 3 failed, 1 low average.

1948 —8 are writing in Halifax
16 are writing at Edmonton.

The matter of revising our system of examinations and enlarging the field of eligibility of candidates are two of the important items for discussion at the next meeting of the Dominion Dental Council to be held in conjunction with the Canadian Dental Association meeting at Murray Bay in June and important developments are expected.

The financial condition of the Dominion Dental Council is strong and satisfactory, and it is the pronounced policy of the Council to aid other dental organizations within our country in worth while efforts to improve our profession generally.

All of which is respectfully submitted.

G. H. CAMPBELL,
D.D.C. Representative.

Motion: "That the report of Dominion Dental Council be adopted" Carried.

REPORT OF COMMITTEE ON PUBLIC RELATIONS

Gentlemen:

This Committee, made up of representatives from the Ontario Dental Association and this Board has had two major activities with which to deal this year. (1) Dental Service in the Health Areas. (2) A plan for supplying a dental service to certain recipients of assistance from the Provincial Government.

(1) Dental Service in the Welland Health Area.

After the Dental Health Officer in this area had been on duty for some months the dentists of the area reported that they were unable to supply service to all the children applying and asked for assistance. The Committee met with the dentists of the area and arrangements were made for two graduates to spend the summer months in Welland and to work for children in the office of one of the Welland dentists. All service was performed at the prevailing fee schedule in the area and proved quite satisfactory to the two operators and the owner of the office. Dental service for a large number of children was completed and gave the resident dentists a big lift in this initial service demand.

(2) Plan for Supplying a Dental Service to Recipients of Mother's Allowance and their Children, Old Age Pensioners, Relief Recipients and their Children, Blind Pensioners.

For some years an effort has been made to arrange a more satisfactory method of dealing with the problems of dental service for the above group. After lengthy study, a plan (printed in last years proceedings) was presented to the provincial authorities whereby a grant would be made for this purpose. This money would be supervised by a Dental Committee set up for the purpose and paid to the members of the profession supplying the service on a proposed fee schedule. At the last session of the legislature approval was given to this plan and it is hoped that the Department of Welfare will after the election be ready to proceed with this Committee in working out the details of operation.

All of which is respectfully submitted.

G. H. CAMPBELL

E. W. PAUL

H. L. FIELD

R. P. LOWERY

H. W. REID, Chairman

Motion: "That the report on Public Relations be adopted." Carried.

REPORT OF REPRESENTATIVES TO CANADIAN DENTAL ASSOCIATION

Gentlemen:

Since the last meeting of this Board the Annual Meeting of the Canadian Dental Association was held at Digby. The meeting of the Board of Governors and the Convention proved to be highly successful in forwarding the advancement of dentistry in Canada. A very instructive and entertaining program was arranged and admirably executed by the committee in Nova Scotia.

During the year many important matters have received the attention of the Association, a few of which are listed briefly for your attention.

1. The Council on Dental Education has held two meetings and much study has been given to raising the standard of dental education in Canada. Already evidence of the work of the Council is shown in the changes in the curricula of the different schools. It is predicted that further revisions will be made in the near future as a result of the studies now under way. Plans are being formulated by the Council for the accreditation of dental schools for the establishment of a national examining board which would be acceptable to all provinces and the development of a curriculum for the training of dental hygienists as well as several other matters relating to dental education.

2. Following the annual meeting last year the Association took action against the inclusion of dentists in the National Labour Code. This matter has been watched closely and at the time of writing this report a new bill has been introduced into the house specifically excepting members of the dental profession.

3. Effort has been continued to procure more equitable treatment for members of the dental profession in the matter of income tax returns. Recently concession was obtained for men on salary to deduct the amount of their annual licence fee. It is hoped to be able to secure further concessions respecting deductions of expenses for attendance at scientific meetings and graduate study courses, also certain allowances for automobile expenses.

4. Representation to Ottawa has been made by the Dental Services Committee relative to more satisfactory arrangements for dental services for Indians.

5. As a result of a demand for specifications relating to hospital dental services a committee has been actively studying the matter and will report at the forthcoming annual meeting.

6. Following two twenty percent raises in printing costs the Journal has had to absorb another increase of over twenty percent following the strike in the printing trade. In spite of these difficulties those responsible for the Journal have produced a publication that is a credit to the profession and should be commended for their efforts.

It is impossible to cover the work of the twenty-three committees that are actively engaged in various phases of Association's activities. Individual reports of all these committees will appear following the annual meeting.

The Association continues to give leadership and is more and more being recognized as the authoritative voice of dentistry in Canada. The accomplishments of the Association have received favourable recognition well beyond the confines of the Dominion.

All of which is respectfully submitted.

S. J. PHILLIPS,
H. L. FIELD,
G. H. CAMPBELL,
H. W. REID.

Motion: "That the report of Representatives to Canadian Dental Association be adopted." Carried.

REPORT OF THE REPRESENTATION TO THE WORKMEN'S COMPENSATION BOARD

Gentlemen:

Your representatives met with Mr. Cameron of the Workmen's Compensation Board in November 1947, to discuss revision of certain items in the fee schedule pertaining to our profession.

Considerable delay in arriving at a solution may possibly be attributed to the fact that no appointment has yet been made to fill the vacancy due to the death in 1947 of Mr. Wm. Morrison, K.C., Chairman.

Appended is copy of order of the Board dated May 5th, 1948.

Copy of Order of Board — May 5th, 1948.

The Board approves of changes in Schedule of Dental Fees adopted by order of March 1, 1944, as follows:

Item 16 Change "Synthetic porcelain fillings" to "Silicate porcelain fillings with cement base".

Item 20 "Complete upper or lower vulcanite" to be deleted.

Item 22 "Partial denture service. . . \$20.00 to \$35.00" to be changed to read "\$25.00 to \$40.00".

Item 23 "Partial lower—gold bar with two clasps, \$45.00" to be changed to read "\$55.00".

Item 25 To remain as it is at present but to be reconsidered if and when any change is made in radiologists' fees.

It will be noted that item No. 25 is left unchanged. Dental radiography is a very small item, compared to the great amount of general radiography, entailed in accident cases. To revise upwards these fees would add considerably to the costs of the Board and it can be easily seen why this required vast consideration before taking action. However, Mr. Cameron has promised that when revision is made, Dentistry will be consulted, and taken care of.

Respectfully submitted,

STANLEY J. PHILLIPS,
HERBERT L. FIELD.

Motion: "That the report of the representatives to the Workmen's Compensation Board be adopted." Carried.

REPORT OF DENTAL REFEREE TO WORKMEN'S COMPENSATION BOARD

Board of Directors,
Royal College of Dental Surgeons of Ontario,
Toronto, Ontario.

Gentlemen:

Once again it is the privilege of your consultant to the Workmen's Compensation Board to account for his stewardship for another year. This report of necessity follows a pattern of other years in that the work naturally has a similarity of problems continually presenting. During the year closing May 1 last your referee has submitted some thirty written plans of adjustment for as many claims as well as making a number of clinical examinations and giving assistance to Mr. Cameron, the Medical Aid Officer of the Board in telephone consultation on a number of occasions. Looking back over the year, there has been an excellent spirit of cooperation shown between all parties concerned which has been exemplified by a willingness to compromise in difficult situations.

Problems that have arisen have usually centred around—

1. The dentist making incomplete reports of dental conditions before and after the accident.

2. The dentist proceeding with services other than emergency services before authorization by the Board.
3. The dentist including in his proposed treatment dental services needed by the compensation claimant but not resulting from the injury incurred in the accident.
4. Claimant dissatisfied with the services of a dentist returns to the Board demanding satisfactory care. The Board is often called upon to pay a further fee for repeating or adjusting the services in the first instance. Your Board's suggestions relative to matters of this kind would be appreciated by the Workmen's Compensation Board and your comments might be appended to this report.

In all such matters as well as every other occasion the Board has been most amenable to a fair settlement.

As your Board is aware a special committee had a conference with Mr. C. G. Cameron, relative to an increase in fees for various items of service out of line because of rising costs. The recommendations of the Committee have been acceptable to the Board with the exception of two items viz.; the fee for complete dentures remains the same and also that for dental radiographs. Further your committee on the suggestion of Mr. Cameron requested your referee to prepare a letter explaining procedure that a dentist should follow when an injured workman presents at his office for dental care. A copy of this letter is attached.

It was a unique privilege for your referee to be invited to read a paper before the International Convention of the Compensation Commissions in September of last year. This was published in the Journal of the Canadian Dental Association in January 1948 and also in the minutes of the Convention.

Throughout the year my work has been facilitated by the continued cordiality and friendliness shown by Mr. Cameron in all our discussions. He seems quite proud of the good relations existing between his Board and the members of the dental profession as is evidenced by his fairness in dealing with the just representations of every claim for dental aid.

In closing your referee desires to express his grateful appreciation of kindly assistance given to him by members of your Board, particularly your Chairman Dr. Harvey Reid and your Secretary Dr. Don W. Gullett and Dr. H. L. Field, Chairman of your Compensation Committee.

Respectfully submitted.

Motions. "That the report of the Dental Referee to the Workmen's Compensation Board be adopted." Carried.

"That the thanks of this Board be expressed to Dr. — — —, Dental Referee to the Workmen's Compensation Board and that he be congratulated for his excellent work on behalf of profession, also that Dr. — — — be re-appointed as Dental Referee." Carried.

"That the suggested letter of direction to the dentists as amended re compensation cases be sent to the members of the profession in Ontario." Carried.

REPORT OF THE DENTAL PUBLIC HEALTH COMMITTEE

Mr. President and Members of the Board:

With the appointment of a dentist holding a Diploma in Dental Public Health to carry on educational work, on a half-time basis, under the direction of the D.P.H. committee of the Ontario Dental Association we would recommend:

1. That the salary be three thousand dollars per year with an allowance for travelling expenses.
2. That the board of the R.C.D.S., by donation or otherwise, underwrite the costs.
3. That the educational policy as adopted by the Canadian Dental Association and approved by the Board of the R.C.D.S., be carried out under the guidance by the Dental Public Health Committee of the Ontario Dental Association.
4. That a flexible and completely harmonious arrangement be worked out with Dean Ellis regarding time-tables etc. at the faculty.
5. His duties throughout the province to be a follow up on educational work in areas already organized and do the ground work in communities where organization of local Dental Public Health Committees is desirable. Other duties may be found necessary as the project enlarges which will have to be taken care of by an appointee.

Dr. H. A. SWALES,
Chairman,
O.D.A. Committee on Dental
Public Health.

Motion: "That the report of the Dental Public Health Committee be adopted." Carried.

REGULATIONS RESPECTING CERTIFICATION OF SPECIALISTS

The regulations respecting specialists and specialization were reviewed.

Motions: "That applicants for specialists certification be required to obtain a minimum of 66% in the examinations, both clinical and written, in the subject designated as their specialty, and a minimum of 50% in each of the other subjects with a minimum average of 57% on the whole." Carried.

"That the Committee on Examinations and Petitions be requested to review the curricula and regulations of the specialists courses and report to the Board at the Fall Meeting." Carried.

"That beginning Fall 1948, applicants for qualification as specialists must produce evidence of having had three years in general practice or the equivalent thereof, before proceeding to their specialists certificate. This motion rescinds the statement contained in the Report of Examiners and Petitions Committee under "The following recommendations" Section 1 dealing with taking a post-graduate course immediately following graduation from the Faculty of Dentistry, in pro minutes of June 1946." Carried.

"That any licentiate desirous of proceeding to a specialists certificate shall be required to obtain a qualifying certificate from the Registrar of the R.C.D.S. before commencing his course." Carried.

REPORT OF REPRESENTATIVES TO MEETINGS OF AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Dr. Giffen presented the following report:

REPORT OF THE SIXTY-FOURTH ANNUAL MEETING OF THE AMERICAN ASSOCIATION OF DENTAL EXAMINERS HELD IN THE STATLER HOTEL, BOSTON, MASS. AUGUST 2 and 3, 1947.

1. Foreign Colleges,—

- (a) Two years required of graduates of foreign schools.
- (b) Canadian Schools not considered as foreign.
- (c) Recommend survey of Dental Schools to be extended to Canada.

2. Hygienists,—

Requirements—4 years of high school or equivalent,
2 years academic course.

Course to include,—

General Anatomy
Physiology
Histology Introductory
Chemistry Study
Bacteriology
Pharmacology
Pathology
Clinical Dental Hygiene
Dental Prophylaxis
Preventive Dentistry
Tooth Brushing
Dental Health, Diet, etc.
Nutrition
First Aid
Dental Health Education (schools etc.)
Public Health
Ethics and Economics
Speech (good voice etc.)
Sociology

Total course not to exceed 2000 clock hours.

35 States provide licensure for Hygienists.

3. Legislation,—

- (a) Mail order dentistry completely out,
Traynor Law stood all tests.
- (b) Dental Research Bill includes,—
Proper environment for dental research.
Erection of Dental Research Building at Bethesda, Maryland, cost \$2,000,000—\$700,000 to carry on work.
- (c) Promotion Bill, setting up system of Promotions in Dental Corps. Four Rear Admirals etc.
- (d) Pay Bill,—
Increase pay of dental officers \$100 a month (to increase prestige).
- (e) Federal Health Bill,—
Department of Federal Health to give money to individual states to carry on health work.
- (f) Majority in House not in favour of Compulsory Health Legislation.
- (g) A.D.A. Legislation Committee recognized as powerful agent by congress.

Important that any Bill regarding Dentistry have the endorsement of Organized Dentistry.

No Technician Bill has become law if Organized Dentistry opposed it.

Controlling factor should be the State Dental Board.

If any State Bill is created it should be presented to National Committee of A.D.A., so that a more uniform type of legislation may be developed across the country.

4. Council on Dental Education,—

(a) Dental Students register

1st year 2974

2nd year 1458

3rd year 1698

4th year 2157

Total 8287

41.8 per cent Two years of Arts and Science

24.3 per cent Three to four years

27.6 per cent Bachelor or other degrees

64 enrolled from Canada.

They want more schools in strategic areas.

(b) Aptitude Tests,—

Inaugurated plan Sept. and Oct., 1946, to discover skills and to prepare Manual.

Test is not a condition of admission, it is considered to be in experimental stage.

(c) Training Dental Technicians,—

Previously all were qualified by apprenticeship with dentist.

Council recommends,—

Two years high school

Two years academic.

One dental school conducts courses for technicians, two others are considering it.

(d) National Board of Dental Examinations,—

2000 on national register.

Only 33½ per cent were successful in 1947.

Recognized by 16 States.

5. Round Table Discussions.

HARVEY W. REID,
DON W. GULLETT,
J. FRANK GIFFEN.

Motion. "That the report of the Representatives to the American Association of Examiners be adopted." Carried.

Legislative Amendment Respecting Establishment of Dental Health Officers in Health Units

Motion: "Whereas recent provincial legislation has provided for the establishment of Health Units for communities of this province, and whereas dental health is of very great importance in any such programme, and whereas it is the studied opinion of this Board that any public (dental) health activity can be best administered and directed by specially trained dentists, be it resolved that the Department of Health be approached with the object of having the proper steps taken to provide for a dental health officer with a D.P.H. diploma in every such Public Health unit." Carried.

HONOUR TO DR. H. K. BOX

Motion: "That the Board of the R.C.D.S. express to Dr. H. K. Box their appreciation of the honour conferred on him in the presentation of the Jarvie Fellowship Gold Medal. It is felt that this recognition is richly deserved and the Members of the Board desire to express their congratulations."
Carried.

AMENDMENTS TO BY-LAWS

The following by-laws were given three readings for adoption:

BY-LAW No. 74

A By-Law To Amend By-Laws Nos. 6, 8, 9 and 11.

By-Law No. 6.

Sec. 1 (b) Delete all following the words "or its equivalent" and insert the following:

"In all cases a student must have successfully completed beyond Ontario Grade XII two years of Arts and Science in a recognized university, or its equivalent, which course must have included the following subjects: English, Chemistry, Physics and Biology. (In no case shall less than the concluding two academic years be taken in the said Faculty of Dentistry.)"

Sec. 1 (c) In first line delete the words "attended at one session" and insert the following words in their place "completed his third year".

By-Law No. 8.

Sec. 1 (f) Delete entire sub-section and insert the following:

"If graduates in dentistry of an approved school—the Board will require the applicants to pass written examinations in the subjects, as specified by the Board of Directors from time to time, and to satisfy the examiners in Clinical Dentistry, by Oral and Practical examinations taken in the presence of the Examiners."

By-Law No. 9.

Delete all following the words "by the President" and insert in their place the words "and Registrar-Secretary".

By-Law No. 11.

Sec. 1 (b) In line 7 insert the word "certified" immediately preceding the word "specialty".

Sec. 1 (c) (5) In line 3 delete the words "or the restriction of his practice."

Sec. 1 (c) (6) To be added as new sub-section as follows:

"Mail to, only, his patients and/or confreres, announcement of the restriction of his practice".

Sec. 1 (e) (8) In line 2 insert the word "Pedodontist" immediately following the word "Orthodontist,". In line 3 delete the word "qualified" and insert in its place the word "certified".

BY-LAW No. 75

A By-Law To Amend By-Law No. 10.

Sec. 1, line 5—Delete the words "ten dollars" and insert in their place the words "twenty dollars".

MEMBERS NOT IN PRACTICE

Decision was made to allow members not actually in dentistry to continue their membership in the College upon the payment of a fee of ten dollars annually.

Motion: "That whereas a number of the members of the College who are not actively engaged in Dentistry in Ontario

desire to retain their connection with the College and participate in the activities of the C.D.A., be it resolved that these members be retained in good standing with our College on payment of a fee per annum of ten dollars." Carried.

AMENDMENT TO THE DENTISTRY ACT

1. The Dentistry Act is amended by adding thereto the following section:

10a. The Board shall have power, subject to the approval of the Lieutenant-Governor in Council, to pass by-laws,—

- (a) providing for the establishment, development, regulation and control of an ancillary body to be known as dental hygienists;
- (b) providing for the delegation to dental hygienists of the performance, under the direct control and supervision of a member of the College, of the services of cleaning and polishing teeth and the giving of instructions and demonstrations in oral hygiene and mouth care;
- (c) Prescribing other specific dental duties of a minor nature that may be similarly delegated for performance by dental hygienists;
- (d) Regulating the conditions and prescribing the qualifications for admission to such body;
- (e) prescribing the admission and annual fees payable by members of such body; and
- (f) generally for the defining, regulating and controlling of the practice of dental hygiene.

2. Subsection 1 of section 19 of The Dentistry Act is amended by striking out the symbol and figures "\$10" in the fifth line and inserting in lieu thereof the symbol and figures "\$25", so that the said subsection shall now read as follows:

- (1) Every member of the College engaged in the practice of dental surgery in Ontario shall, on or before the 1st day of January in each year, pay to the treasurer, or to a person deputed by him to receive the same, such annual registration fee, not exceeding \$25, as may be prescribed by by-law of the Board, and such fee shall be recoverable by suit in the name of the Royal College of Dental Surgeons of Ontario in the division court of the division in which the member in default resides.

3. Section 20 of the Dentistry Act, as amended by section 3 of The Dentistry Amendment Act, 1942, is further amended by adding thereto the following subsection:

- (1c) No work, service, advice or assistance that is part of the practice of dental hygiene and that is undertaken, performed or given by any dental hygienist in the office or clinic of a member of the College and under his supervision and control, shall be deemed to be a contravention of this section.

4. The third paragraph of Schedule A to The Dentistry Act is amended by inserting after the words "Thunder Bay" in the third line the word "Cochrane", so that the said paragraph shall now read as follows:

Electoral District No. 3 shall consist of the following counties and districts. Algoma, Kenora, Manitoulin, Nipissing, Parry Sound, Rainy River, Sudbury, Thunder Bay, Cochrane and Temiskaming.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only unilluminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on"

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practise. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITING ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO
1948-1949

SECRETARY'S REPORT RE ELECTION

To the Board of Directors,

Royal College of Dental Surgeons of Ontario.
Gentlemen:

In accordance with the provisions of the Dentistry Act and the By-laws of the College, an election of the Board of Directors for The Royal College of Dental Surgeons of Ontario was held from October to December, 1948.

On the twentieth day of October, nominations were called for by circular letter addressed to each member of the College resident in Ontario.

Valid nominations were received as follows:

- District No. 1 — C. M. Purcell, Pembroke.
- District No. 2 — S. J. Phillips, Oshawa.
- District No. 3 — M. V. J. Keenan, Sudbury.
T. H. Hutchinson, Port Arthur.
- District No. 4 — Harvey W. Reid, Toronto.
C. H. Avery, Toronto.
- District No. 5 — G. H. Campbell, Orangeville.
M. C. G. Bebee, Owen Sound.
- District No. 6 — F. J. Furlong, Windsor.
J. F. M. Kennedy, London.
- District No. 7 — R. O. Winn, Kitchener.
- District No. 8 — W. J. McEwen, Hamilton.

As a result the representatives for Districts Nos. 1, 2, 7 and 8 were elected by acclamation and elections in Districts Nos. 3, 4, 5 and 6 were necessary. On November 26th ballots were mailed to all qualified electors in Districts Nos. 3, 4, 5 and 6 with necessary instructions.

The report of the Scrutineers herewith submitted shows the election of M. V. J. Keenan for District No. 3, Harvey W. Reid for District No. 4, M. C. G. Bebee for District No. 5 and F. J. Furlong for District No. 6.

A communication received from the Secretary of the Faculty of Dentistry, University of Toronto, states that at a meeting of the Faculty Council, R. J. Godfrey was elected as representative of the said Faculty.

Therefore, the members of the Board for the ensuing biennial term are:

- District No. 1 — C. M. Purcell, Pembroke.
By acclamation.
- District No. 2 — S. J. Phillips, Oshawa.
By acclamation.
- District No. 3 — M. V. J. Keenan, Sudbury.
By election.
- District No. 4 — Harvey W. Reid, Toronto.
By election.
- District No. 5 — M. C. G. Bebee, Owen Sound.
By election.
- District No. 6 — F. J. Furlong, Windsor.
By election.
- District No. 7 — R. O. Winn, Kitchener.
By acclamation.
- District No. 8 — W. J. McEwen, Hamilton.
By acclamation.

Faculty Representative — R. J. Godfrey, Toronto.

The ballots as sealed by the Scrutineers are herewith presented and should be disposed of by direction of the Board.

April 29th, 1949.

DON. W. GULLETT, Secretary.

SCRUTINEERS' REPORT OF ELECTION

To the Board of Directors,

Royal College of Dental Surgeons of Ontario.

Gentlemen:

According to your request to act as Scrutineers of the biennial election of your Board of Directors of the Royal College of Dental Surgeons of Ontario, we attended at the Board Room of the College this eighth day of December, 1948.

After we had made the required declaration of secrecy, your Secretary handed us the envelopes marked: "Ballot, Royal College of Dental Surgeons". There being an election in four districts, we report as follows:

District No. 3.

Number of ballots received.....	109
Number of valid ballots.....	109
Number of invalid ballots.....	None
Reasons for declaring ballots invalid — none.	
The 109 valid ballots were marked as follows:	
For Dr. Thomas Harry Hutchinson.....	40
For Dr. Michael Vincent Joseph Keenan.....	69
Showing a majority of 29 for Dr. Keenan.	

District No. 4.

Number of ballots received.....	285
Number of valid ballots.....	277
Number of invalid ballots.....	8
Reason for declaring ballots invalid —	
Late	6
Blank	1
Fee not paid.....	1
The 277 valid ballots were marked as follows:	
For Dr. Clarence Hambly Avery.....	60
For Dr. Harvey Wilson Reid.....	217
Showing a majority of 157 for Dr. Reid.	

District No. 5.

Number of ballots received.....	102
Number of valid ballots.....	101
Number of invalid ballots.....	1
Reasons for declaring ballots invalid —	
Late	1
The 101 valid ballots were marked as follows:	
For Dr. Milton Clarence Gunn Bebee.....	56
For Dr. George Harrold Campbell.....	45
Showing a majority of 11 for Dr. Bebee.	

District No. 6.

Number of ballots received.....	148
Number of valid ballots.....	146
Number of invalid ballots.....	2
Reasons for declaring ballots invalid —	
Late	2
The 146 valid ballots were marked as follows:	
For Dr. Francis Joseph Furlong.....	73
For Dr. James Frederick Murton Kennedy.....	73
In accordance with By-law Number 12, Section 18,	
Dr. Furlong was chosen by lot.	

We hereby certify that the above statement regarding the ballots handed us by Don W. Gullett, Secretary of the Royal College of Dental

Surgeons of Ontario, and the disposition of them is correct for Districts Nos. 3, 4, 5 and 6.

Signed,

R. GORDON McLEAN,

A. T. LAIDLAW,

Scrutineers.

December 8th, 1948.

PRESIDENT'S REPORT

Mr. Chairman and Members of the Board of Directors:

The past year has brought extensive changes in the personnel of this Board. Our Vice-President, Dr. Field, was stricken last May and although he has made some progress, his health would not permit him to continue his duties and he has retired. He was intensely interested in the work of this Board and made a valuable contribution to its activities.

Three members who served this Board well for many years have retired. Drs. Blatchford, Campbell and Paul brought to this Board a wealth of previous experience in other organizations of the profession and their influence in other deliberations and decisions of the Board was very great: the profession owes them much and to them I extend our grateful thanks for years of faithful service.

Dr. Kennedy filled out the term of the late Dr. Giffen and in the short time with us showed a keen appreciation of the problems facing the profession of dentistry.

During the past term the Board Examinations designed after much study and effort were put in operation and worked very smoothly. Some minor changes will be presented for your consideration but in the main it has been a very forward step.

The excellent co-operation of Dean Ellis and the members of the Faculty with this Board is much appreciated. The additions to the staff and the extensive plans for teacher training augur well for the place to be held by this Faculty in the field of dental education. It is regretted that plans are not more concrete and prospects more cheering for a new building.

Further negotiations for the supplying of a dental service to recipients of benefits from the Department of Welfare, have been continued. Progress has been slow but funds have again been included in the budget and it is hoped that definite plans will be concluded at an early date. This will be an opportunity for the profession to prove whether it can administer such a service economically and efficiently. It could have far reaching effects in the broader Federal field.

The great increase in complaints from the public relative to unreasonable fees demands the careful consideration of the members of this Board. It is my considered opinion that the continued effort of members of the profession to collect fees beyond the ability of patients to pay, will, more than anything else, hasten the introduction of a state sponsored and rigidly controlled type of service.

My sincere thanks, I wish to extend to the members of the Board, the Registrar-Secretary and members of Joint Committees, for their loyal support and unselfish service during my term of office. It has been a privilege to serve as your President.

Respectfully submitted,

HARVEY W. REID,

President, R.C.D.S.

Motion: "That the report of the President be received and adopted." — Carried.

REPORT OF THE REGISTRAR-SECRETARY

Mr. President and Members of the Board:

An increased number of foreign graduates are applying for registration in Ontario. A considerable number of these applicants are now resident in the province and engaged in various vocations. Appointments have been made for a selected number of these applicants to appear before the Board at this meeting.

Distribution of personnel continues to be a problem. The fact that no class graduated from the Toronto Faculty last year increased the difficulty. It is indicated that this year's graduating class will supply dental service to some areas where need is great but it will probably be another year before the demand will be met.

According to present indications it is doubtful if a course for dental hygienists will be established this fall in the Toronto school. Inquiries continue to be received from two main sources: (1) members in private practice, (2) those both engaged in dental public health service and those planning such programmes for the future.

Verbal information has been given that the Provincial Legislature will be in readiness to enter into an arrangement in respect to dental services for relief recipients in the near future.

Under the federal health grants the legislature has set up an Advisory Committee with a sub-committee on dentistry. This dental committee is presently engaged in a study of all matters relative to dental service within the province. A report is to be published early in the new year, which will set forth the present position of dentistry. Such questions as to the need for dental service, the demand for dental service, the sufficiency of dental personnel, the training facilities for dental personnel, the establishment of dental public health programmes and all other matters relating to the dental profession will be dealt with. This office is co-operating with the government committee in furnishing statistical data and this Board is at liberty to present statements to the committee upon any phase of the study. Since the last meeting of the Board the President, upon request, appointed a representative to the government committee.

As noted below, a loss of dental personnel is reported. This is the third year in succession that a loss has been reported. A moderate increase should occur in the coming year. The loss through death during the past year is low when compared with recent years.

CHANGES IN REGISTER

As of April 30th, 1949, the number on the Active List of the Register was as follows:

Annual Fee Paid.....	1921
Honorary Fifty Year List.....	74
Fees unpaid on above date.....	2
Total	1997

**Changes During Year
Added to Active List**

New Graduates	8	
D.D.C. Certificates Registered.....	3	
Licentiates from Quebec	1	
New York	1	
Ontario	4	
Manitoba	1	
		18
Transferred to Inactive List		
Died	19	
Out of Practice.....	21	
		40
Loss		22

For your information details respecting the Extramural and Extension Lecture Services, a list of those to whom Honorary Registration is granted, and a list of those who have died during the year is appended. A resolution will be necessary in order to grant honorary registration to the list named who have completed fifty years of practice this year.

The co-operation of all members of the Board has been readily given. In many instances personal sacrifices have been made in order to serve the profession. With such splendid assistance the work of this office has been facilitated.

All of which is respectfully submitted.

Yours faithfully,

DON W. GULLETT,
Registrar-Secretary.

1939	McPherson, Kenneth Marvin	Toronto Oct. 19, 1948

Out of Practise in Ontario:

1895	Skinner, Harry Clarke	Guelph May 6, 1948
1898	Bannerman, Harvey J. M.	Owen Sound Apr. 5, 1949
1905	Henry, Earl Heber	Toronto May 29, 1948
1906	Gordon, Margaret Donald	Toronto Mar. 22, 1949

Motions: "That honorary registration be granted to those named above who have completed fifty years of practice this year." Carried.
"That the report of the Secretary be received and adopted." Carried.

REPORT OF TREASURER

Mr. Chairman and Members of the Board:

The auditor's statement containing details of revenues and expenditures for the year is herewith submitted.

Licentiate Fees

Following the regulations as set forth by the Board the fee notices were sent out. Approximately 1400 paid after the first notice; 352 paid after the second notice, and 169 paid by draft. Two Doctors namely W. C. Kelly, Windsor and A. E. Hilliker, Toronto, were not paid on April 30th and these cases are in court for collection.

Investments

No change has been made in the securities held by the Board during the year. The securities now held are listed in the accompanying statement.

Harry R. Abbott Memorial Fund

The receipts from the Harry R. Abbott Memorial Fund have been lessening owing to lowered interest rates and as a consequence \$400.00, instead of \$500.00 as formerly, was used for library purposes this year.

A motion adopting the auditor's statement will be in order and auditors for the ensuing year should be appointed at this meeting.

DON W. GULLETT, Treasurer.

Motions: "That the report of the Treasurer be received and adopted." Carried.

"That the Auditor's report be adopted and that Thorne Mulholland, Howson and McPherson be appointed auditors for the ensuing year." Carried.

AUDITORS' REPORT

We have audited the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1949. All our requirements, as auditors, have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1949.

REPORT OF EXECUTIVE COMMITTEE

Board of Directors,

Royal College of Dental Surgeons.

Gentlemen:

A meeting of the Executive Committee was held on Wednesday, March 30th, 1949, in the Board Room, 211 Huron Street, Toronto.

As a result of this meeting the Executive Committee beg to recommend to the Board of the Royal College of Dental Surgeons —

- (a) That a resolution urging the University of Toronto to establish a two-year pre-professional course be forwarded to the proper authorities.
- (b) That By-law No. 8, Section 1 (g) be deleted and that the following be substituted: "If the applicant is a graduate of a school of the British Isles, Australia, or New Zealand, holding a University degree in dentistry and recognized by this Board — to have successfully completed one year in the Faculty of Dentistry, U. of T., and to have passed such examinations as the Board may direct." and that the regulations be changed accordingly.
- (c) That the Secretary revise the regulations re examinations in some minor details as discussed.
- (d) That the Secretary be asked to select from the applicants of European graduates five or six of the most favourable cases for personal interview with the Board at the annual meeting.
- (e) That a Dental Referee be secured to investigate the case of Mrs. Radcliffe in connection with services rendered by Dr. Nicholson.
- (f) That Dr. V. A. Armstrong be required to appear before the Board at the annual meeting to answer a report of investigation made by Inspector Monahan.

Information was presented that the grant to Welfare Recipients for dental care was contained in the budget of the legislature for the coming year.

All of which is respectfully submitted.

S. J. PHILLIPS, Chairman.

Motion: "That the report of the Executive Committee be adopted and that the actions of the Executive Committee be ratified." Carried.

REPORT OF DISCIPLINE COMMITTEE

Mr. President and Members of the Board:

Specific actions which have been taken by the Discipline Committee during the year will be found in the Inspector's Report.

Several matters have given the Committee concern during recent months. Complaints respecting services have been settled whenever possible by our Secretary. In certain cases where the complaint appeared to be of a serious nature, the patient has been referred to an independent referee for report. One or two cases are pending at the present time but this method, which was devised by the Board last year, has proven effective.

The Committee has had to deal rather stringently in respect to one or two cases where exorbitant fees were charged. The Committee views with alarm the increasing number of complaints of this nature being received. While complaint is not justified in most cases, on the other hand some cases have shown good and sufficient reason for complaint.

G. H. CAMPBELL, Chairman.

Motion: "That the report of the Discipline Committee be received and adopted." Carried.

REPORT OF INSPECTOR

To the President and Members of the
Royal College of Dental Surgeons of Ontario.
Gentlemen:

I have the honour to report for your information the following investigations and prosecutions made from April 30, 1948, to April 30, 1949.
(1) Mrs.——, Toronto, reported that Roy Andrews, 18 Horticultural Avenue, Toronto, had made her a set of dentures and charged her \$45.00. This case has been standing since 1946.

(2) Mr.——, Windsor, complained to the Windsor Police Department that he had given Roy Andrews money for extracting seven teeth, and supplying a set of dentures that he had not received.

On learning that Roy Andrews was in the Don Jail on another charge I interviewed him. I had the charge at Windsor transferred to the Toronto Court where the accused pleaded guilty, first to Mrs.——'s charge, then to the —— charge. On Mrs.——'s charge he was fined \$200.00 and costs. On the —— charge—it being his third offence \$500.00 and costs. He took the jail sentence.

(3) Mr.——, Mimico, Ontario, reported that Mr. Fred Dunphy, 486 Lakeshore Road, was making dentures illegally in the evenings.

I endeavoured, by several different methods, to get an Operator in to have a set of dentures made by Mr. Dunphy, but to no avail. I found it necessary to watch this place until sufficient evidence was gathered to obtain a Search Warrant.

In company with a member of the Mimico Police Department, we saw Miss—— go into the house. We entered shortly after and found Miss—— in the kitchen having her dentures fitted. I preferred a charge against Mr. Dunphy, he pleaded guilty and was fined \$100.00 and costs.

(4) Information was received regarding D. R. Perrin, a technician, formerly from around Lindsay, Ontario, wanted by the Police for nonpayment of a fine for making dentures illegally.

I notified the Chief of Police and the Provincial Police, also the Crown Attorney at Lindsay, Ontario, that D. R. Perrin had left the West and was headed for either Toronto or Haliburton and that he was driving a green Lincoln Zephyr, 12 cylinders, with British Columbia License J-7-48.

(5) Complaint was received that —— a technician at —— was making dentures illegally.

I interviewed —— regarding this complaint. Apparently the information he gave me was not specific, for when I went to Mr. —— with the story to get my plate repaired I was told to go and see a dentist as he was only a technician. My full report on this case is on file.

(6) Dr.——, Kirkland Lake, reported that Charles Donald Wertman, 66 First Street, Kirkland Lake, had made a set of dentures for a person living at Kirkland Lake and that this person would go to Court as a witness.

On interviewing Dr.—— I learned that the witness and his wife had moved to Windsor, Ontario. After interviewing the Crown Attorney, I preferred a charge. The Chief of Police instructed the Police Officer who was serving the summons to tell Mr. Wertman that the Inspector was in Kirkland Lake and if he wished to settle this out of Court it could be arranged the same day, which would save bringing the witnesses from Windsor and the Inspector from Toronto.

Mr. Wertman went before the Magistrate and pleaded guilty. He was fined \$100.00 and costs.

(7) A report was received that Dr.— — — was permitting a woman who was not registered with this body to practise dentistry in his office during the evenings. My report is on file regarding this investigation.

(8) A complaint was received that Dr.— — — was permitting a person not registered with this body to work for him.

Having investigated a similar complaint at this same address in connection with Dr.— — — I sent an Operator to the office of Dr.— — — who had been operating an office for Dr.— — —. The Operator informed me that this office was now vacant and Dr.— — —'s equipment had been moved to Dr.— — —'s office. Also that changes were being made on the interior of the building. I thought it advisable to wait until these changes had been made. I left word with a very reliable person so as to learn exactly what was going on.

(9) Dr.— — — reports that he has some information regarding — — —, a technician in Hamilton making dentures illegally.

(10) All fines in former cases have been paid or the accused person has served his sentence.

(11) I have checked all the Doctors places of business formerly reported for displaying the wording X-ray. This wording has been removed. My report of February 14, 1949, is on file.

(12) Many other complaints have been investigated some of which are under surveillance.

GAVIN A. MONAHAN, Inspector.

Motion: "That the report of the Inspector be received and adopted."
Carried.

**REPORT OF THE FACULTY OF DENTISTRY
UNIVERSITY OF TORONTO
PRESENTED AT THE FALL MEETING**

At Fall Meeting

To the Board of Directors,

Royal College of Dental Surgeons of Ontario.

Gentlemen:

With the total registration in the Faculty of Dentistry over the 600 mark, we are under great pressure from all sides. The interruption of power was an additional crippling blow to a teaching schedule already at the breaking point. Were it not for the tolerance of the staff and students, and the co-operation of all concerned, the effect of the various disturbing influences with which we have been contending might well have been more serious.

A petition was prepared and submitted to the University authorities, drawing to their attention our plight resultant from power interruptions. We are anxiously awaiting word relative to the request made on our behalf, to the Hydro Commission, that this building be accorded the status of a hospital, in that we are providing a public health service, and the only clinical training facilities for a very large number of ex-service students, and thereby being provided with continuous power.
Registration for 1948-1949.

The registration in the Faculty of Dentistry as of November 23, 1948, is as follows:

	Ex- service	Civilian	Total
Predental Year	14	61	75
First Dental Year	50	32	82
Combined First-Second Dental Year.....	2	---	2
Second Dental Year	127	23	150
Third Dental Year	128	41	169
Fourth Dental Year	33	42	75
Dental Nurses	3	21	24
Diploma Courses			
Orthodontists	3	1	4
Dental Public Health	3	1	4
B.Sc. (Dent.)	1	6	7
M.Sc. (Dent.)	2	1	3
Occasional Students	2	4	6
Totals	368	233	601

As previously anticipated, a marked falling-off occurred in the number of applications which were received from ex-service personnel for the 1948 Predental class. A comparison of the ex-service and civilian students by classes is presented on a percentage basis below:

	Ex-Service	Civilian
Predental	18%	82%
First Dental	61%	39%
Second Dental	84%	16%
Third Dental	76%	24%
Fourth Dental	44%	56%

Only two overseas students were admitted to the final year in September, 1948, both were from England, holding English qualifications. Both these graduates came to Canada desirous of practicing dentistry in this country. Many inquiries and applications are being received from graduate dentists from all over the world seeking admission to this Faculty, but all are being advised that owing to our crowded clinical facilities, we are unable to accommodate them. This narrow, provincial policy is regrettable and will inevitably reflect upon the future reputation of the school.

It might not be out of place to record at this point the growing concern of the Faculty with reference to the displaced persons (graduate dentists) who inquire, many of them in person. These people have emigrated to this country and seek to prepare themselves for the practice of their profession. They are all referred to the Royal College of Dental Surgeons regarding the license to practice, but sooner or later they inquire again in the hope of proceeding with the educational requirements of this Board, only to be advised that we have no accommodation for them at the present time, and that it is unlikely that they can anticipate being accommodated before September 1950 or 1951, and and then only a few at a time. Many telephone calls are received on their behalf from Canadian citizens in all walks of life.

The pressure in this respect is increasing; there are serious implications accompanying this problem.

Another serious situation with respect to admissions may be referred to as evident in the number of applications received for admission to the Predental and First Dental Years in September, 1948. From approximately 200 applications for Predental Year, 75 were accepted, all from Ontario. Actually, there was a drop in the total number of applications received for the Predental Year comparing them with 1947 figures. On the other hand, 187 applications were received from all over the Dominion for the First Dental Year, from which number only 8 could be accepted

because only 8 places were available. (The First Dental Year capacity is normally about 80).

Approximately 25% of the 187 applicants had graduated in Arts or Science; of the balance, a goodly number had gone beyond the prescribed two years of Arts and Science requirements, a few failed to present the necessary certificates. Furthermore, approximately 25% had applied once or twice previously to enter dentistry.

An observation may be germane at this point, namely, that while the number of applications received for the Predental Year fell off in 1948, an increased number of applications at the first dental year level, showing a greatly increased educational standing were received and this trend may be expected to continue for a year or two. To offset this situation the Faculty may be well advised to recommend a further reduction in the number of applicants (Ontario) to be admitted into the Predental Year in September, 1949 and provide for an increase in the number to be admitted at the First Dental Year level subsequently.

The general policy followed in the selection of students in September, 1948, was similar to that employed in 1947, with slight modifications.

Dental Public Health

Dr. Glenn T. Mitton, D.D.P.H., was appointed Associate Professor, on a half-time basis, to succeed Dr. Harry S. Thomson, to Head the Department of Dental Public Health. Among other things, under this department, a Child Health Conference has been initiated to provide instruction for the undergraduate student on a practical basis of methods used in public health education. The instruction takes the form of a Seminar, with 508 students in attendance, to hear the instructor discuss with a mother the dental health of her child (age 6-12 months). The child is present preferably and may be accompanied by other children in the family. After each group has listened to this discussion presented to three parents individually during the course of one afternoon, and through other lectures and group meetings, we believe each student should graduate capable of conducting an important program of dental public health education in his own office and to groups in the community. The further development of this program is an urgent need in view of the increasing awareness of the people generally to health measures.

Seven dental graduates applied for the course leading to the Diploma in Dental Public Health; five were accepted, one withdrew before registration day. Two of the four men in the course are from Ontario, one from each of the provinces of Quebec and New Brunswick. We are pleased to advise you also that representations were made to the Ontario Department of Health on behalf of the applications from the two Ontario men in the course for a grant-in-aid for training of public health personnel. Both men are now receiving assistance provided under the Dominion Government's health programme.

Post-Graduate Courses

In addition to the four men registered in the Dental Public Health Course, four are also registered in the course leading to the Diploma in Orthodontics.

It is interesting to note that these men hail from scattered points; one coming from each of Toronto, Barrie, Niagara Falls and Australia.

This course has been increased in length to approximately 18 months. No applicants were accepted for either the Course in Periodontia, or Dental Surgery and Anaesthesia.

Staff

It is with profound regret that we record the death of Mr. William V. Byrne. He passed away suddenly on Tuesday, September 14th, while actively engaged in the performance of his customary duties as technician in the Department of Prosthodontia. Mr. Byrne has served the Faculty in this capacity for more than a quarter of a century. He was closely

associated with Dr. W. E. Cummer when the latter was Professor of Prosthetic dentistry in this Faculty.

The following members of the staff retired on June 30, 1948, after long and distinguished service:

Dr. E. W. Paul — Professor of Dental Surgery and Anaesthesia.

Dr. L. F. Krueger — Associate Professor for Dentistry.

Dr. H. S. Thomson — Associate Professor of Dental Public Health.

The following resigned as of June 30, 1948:

Dr. E. A. Grant — Associate Professor of Dental Public Health.

Dr. J. D. Purves — Associate in Dentistry.

Miss F. A. Cook, Secretary to the Dean, who has served efficiently and faithfully in this capacity through the regime of four Deans, resigned because of ill health.

Staff Promotions

The following promotions of staff members became effective on July 1, 1948:

Dr. J. Kreutzer — from Assistant Director of the Clinic to Director of the Clinic.

Dr. J. C. Gray — from Lecturer in General Surgery, to Associate Professor in Surgery.

Dr. G. C. Hare — from Associate in Dentistry to Assistant Professor of Operative Dentistry in charge of Endodontia.

Dr. S. A. MacGregor — from Associate in Dentistry to Assistant Professor of Operative Dentistry in Charge of Pedodontia.

Dr. E. P. Downton — from Associate to Assistant Professor of Prosthodontia.

Miss H. Chitty — from Assistant Secretary to the Dean to Secretary to the Dean.

New Staff Appointments

Dr. G. T. Mitton — Associate Professor in Dental Public Health.

Dr. H. A. Hunter — Associate Professor of Dentistry.

Several additional appointments have been made to the staff of demonstrators.

Honors to the Staff

Dr. Harold K. Box has been elected to a Fellowship in Dental Surgery by the Royal College of Surgeons of England. This further recognition of Dr. Box's outstanding contributions to dentistry brings honor to his "Alma Mater".

Dr. Frank Martin, in September of this year was made a Fellow of the International College of Dentists.

Teacher Preparation Programme

The programme of granting leave to staff members to facilitate them with proceeding elsewhere for a year or two of graduate study and research is being pressed forward with the utmost vigor and enthusiasm.

Dr. H. A. Hunter, who accepted a fellowship in 1946 awarded by the Zoller Clinic of Chicago, returned to the staff in September. During the two years of study and research he has concentrated on courses in Histology, General and Oral Pathology. We are also pleased to announce that Dr. A. W. S. Wood has returned after a year of post-graduate work in the dental school of the University of Illinois. Dr. Wood was granted leave of absence from the Pedodontia Department in order to accept a fellowship made available to him by the W. K. Kellogg Foundation.

Four members of the staff are away at the present time. Dr. J. B. MacDonald, who has been at the University of Illinois for a year, studying Bacteriology, received the M.S. Degree from that institution a few days ago. He is now at Columbia University where he is studying under Dr. Rosebury, one of the outstanding authorities in the field of Bacteriology.

Dr. J. E. Moser is at the University of California studying in the Department of Radiology. Dr. G. Nikiforuk accepted a graduate fellow-

ship offered by the University of Illinois and is studying at that institution while Dr. R. D. Coleman is studying in the Department of Dental Medicine at the University of California under Dr. Herman Becks.

Alpha Omega Presentation

At a meeting of the Toronto Alumni Chapter of the Alpha Omega Fraternity on September 16, this Faculty was presented with a magnificent gift of \$2500 for the purchase of Cephalometric equipment, thus making the Faculty one of the very few dental schools in North America to possess this particular type of equipment. This is not the first instance of the Fraternity's generosity, for it will be recalled that the Alpha Omega members donated a mobile dental unit to the Royal Canadian Dental Corps for use in World War II. In expressing our sincere thanks to this group for their magnanimous action, we do so, not only for having made available a valuable instrument for research and graduate study, but also because of the example to the dental profession. We have great need for similar gifts in order to provide other much needed equipment for study, teaching and research, particularly as more of our staff return from postgraduate study.

Post-Graduate Continuation Courses

It is with considerable satisfaction that we report and acknowledge the receipt of further generous financial support from the W. K. Kellogg Foundation for this phase of the work in the Faculty. A total grant of approximately \$23,000 has been made available for a three-year period. In July, 1948 an announcement was prepared and distributed to every dentist in Canada, outlining nine short courses. Two of the nine courses, organized on a half-day-a-week basis, have been completed very successfully. For the balance of the course which will be conducted in the spring term of 1949, registration has been very encouraging. One or two of the courses are completely filled.

To date the total number of men registered for all courses is 58; applications have been received from California, British Columbia and many widely scattered parts. Where possible, we have attempted to bring in outstanding clinicians to support our own capable staff. Among the visitors are Dr. L. Grossman of Philadelphia; Dr. Carl Miller of Cleveland; Dr. L. Schultz of Ann Arbor; Dr. John R. Thompson of North-Western; Dr. L. E. Fosdick of North-Western; Dr. F. F. Tisdall of Toronto; Dr. A. H. Chute of Toronto, and Dr. Bernard G. Wakefield of Buffalo.

Series of Lectures

"Oral Diagnosis and Cancer Control"

The Faculty of Dentistry announces a series of lectures on the subject of "Oral Diagnosis and Cancer Control," which has been arranged in recognition of the growing importance of dentistry in this expanding sphere of Public Health Service. It is hoped that, as a result of these lectures, dentists will be enabled to make new and substantial contributions to the efforts currently in evidence for the prevention of oral disease. The lectures as planned for this series are as follows:

**Wednesday, January 12, 1949, at 8 p.m. Room 135 Physics Bldg.,
University of Toronto**

Opening Remarks: President Sidney Smith,
Dr. O. W. Warwick: Executive Director of the
Canadian Cancer Society.

Subject: "Differential Diagnosis of Oral Lesions"

Speaker: Dr. Hamilton B. G. Robinson, Professor Oral Diagnosis
and Pathology, Ohio State University.

Wednesday, January 19, 1949, at 8 p.m.

Theatre of the Royal Ontario Museum,

(Academy of Dentistry Second General Meeting for 1948-1949)

Subject: "Diagnosis and Treatment of Lesions of the Oral Mucous Membrane, with Special Reference to Malignancy."

Speaker: Dr. Don H. Bellinger, Surgeon-in-Chief, Division of Dental Surgery, Henry Ford Hospital, Detroit.

Wednesday January 26, 1949, at 8 p.m. Room 135, Physics Bldg.,

University of Toronto

Subject: "Radiological and Pathological Consideration of Oral Tumours".

Speaker: Dr. W. L. Robinson, Professor of Pathology and Associate Director of Applied Pathology, University of Toronto.

Dr. H. M. Worth, Lecturer in Radiology, University of Toronto, Consulting Radiologist, Wellesley Hospital, Toronto.

Wednesday, February 2, 1949, at 8 p.m. Room 135 Physics Bldg.,

University of Toronto

Subject: "Surgical Treatment of Oral Malignancy"

Speaker: Dr. Harold Wookey, Associate Professor of Surgery, University of Toronto.

This program has been planned in collaboration with the Academy of Dentistry of Toronto. The second lecture, with Dr. Don H. Bellinger as guest speaker, will be under the auspices of the Academy and will constitute its Second General Meeting.

Members of the dental profession Academy of Medicine, Senior Medical students and senior Dental students are invited to attend. It is our sincere hope that these lectures will serve not only to bring important information to each person who attends, but also to stimulate further co-operation between the medical and dental professions on common ground.

Open House Day in the Dental Building

In co-operation with the students organization of this Faculty, and with the support of the Dental Alumni Association and this Board, an "Open House" was held in the Dental Building on Sunday, November 14, from 3-5 p.m. This was one of the features throughout the University arranged by the Blue and White Society of the Students' Administrative Council, in connection with "Homecoming Week End" — November 12-14. A large number of graduates and parents of students now in attendance were present on this occasion and the function was an outstanding success.

Appointments to Senate and R.C.D.S.

The Faculty Council has recommended the following appointments: Representatives on the Senate of the University: Drs. T. Cowling, R. J. Godfrey, H. A. Hoskin, J. H. Johnson, G. V. Morton.

Representative to the Board of the Royal College of Dental Surgeons: Dr. R. J. Godfrey.

Indentureship

At a very recent meeting of one of the Faculty Committee the long-standing policy of requiring "a student to spend three months indentureship, with a duly qualified ethical practitioner," in lieu of six weeks of the faculty clinic, between the third and fourth dental years, came under consideration. The Committee expressed its intention of recommending the abolishment of the practice referred to above and require all students to spend the six weeks in the Faculty Clinic, when the opportune time arrives.

General

The Faculty has continued to hold staff conferences once a month for the purpose of reviewing the teaching programme. The staff letter is also appearing at the beginning of each month. Ten extramural lectures have been given so far during this session and members of the staff have received and accepted many invitations to address dental society meetings in the United States. Most noticeable in this latter connection was Dr. C. H. M. Williams' appearance before the California Annual Seminar on Dental Medicine held at Palm Springs, California, during October 18-22.

The question of the feasibility of attempting to establish a course for hygienists is receiving consideration. However, if early commencement of such a course is not undertaken, the primary reason for postponement of the matter will be one of physical accommodation under present circumstances.

Many other phases of faculty activity could be reported on, but I realize you have many other reports to consider.

May I again express to the Board of Directors of the Royal College of Dental Surgeons the deep appreciation of the Faculty for the advice and co-operation which we receive both from individual members of the board privately and also as a collective group.

All of which is respectfully submitted,

ROY G. ELLIS, Dean

At Annual Meeting

To the Board of Directors,

Royal College of Dental Surgeons of Ontario.

Gentlemen:

In November a total registration for the session 1948-49 of 601 students was reported. At this time we present for your consideration the breakdown of those figures under two categories. Firstly, by provinces, secondly, rural and urban distribution for the Predental and First Dental Years.

Distribution by Provinces: The table which follows gives a comparison of the provincial distribution for 1947-48, and 1948-49.

	1947-48	1948-49
Ontario	435	453
Nova Scotia	2	1
New Brunswick	1	1
Prince Edward Island	0	0
Quebec	2	2
Manitoba	20	21
Saskatchewan	36	32
Alberta	7	8
British Columbia	25	29
United States	1	1
Elsewhere	31	5

Rural and Urban Breakdown for Predental and First Dental Years

Careful examination of the class lists for the Predental and First Dental Years discloses a distribution of the registrants coming from the province of Ontario, as follows:

Predental Year

Enrolment — 74

From communities of up to and including 2,000 contributed 16% of enrolment,

From communities of 2,000 to 10,000 population contributed 19% of enrolment,

From communities of 10,000 and over contributed 65% of enrolment.

First Dental Year

Enrolment — 81

From communities of up to and including 2,000 contributed 15% of enrolment,

From communities of 2,000 to 10,000 population contributed 16% of enrolment,

From communities of 10,000 and over contributed 68% of enrolment.

Students residing in York County comprise 51% of the enrolment, (most reside in Toronto). The average per county for all Ontario, excluding York County, is 4.4. The average for the counties of Northern Ontario is 4.1.

The following observations might be appropriate in respect to these figures.

- (1) The Committee on Admissions has always regarded with favour the applicant from the rural area.
- (2) An applicant selected from the rural area is frequently reluctant to return to the rural area to practice his profession after four or five years of city life.
- (3) The cost of dental education is high. It would seem that a much more vigorous policy of providing scholarships to rural students should be planned.

In the fall report we referred to the fact that the number of applications received for the Predental Year fell off in 1948, and that at the same time the applications for the First Dental Year increased. It was suggested at that time that the Faculty might be well-advised to recommend a further reduction in the number of applicants to be admitted to the Predental Year in September, 1949, thus providing for an increase in the number that could be admitted the following year at the First Dental Year level. After careful consideration the Council of the Faculty of Dentistry recommended that the Predental Year registration in September, 1949, be limited to sixty students. This recommendation was approved by the Board of Governors on January 27, 1949.

Graduate Division

(a) **Graduate Facilities:** A recommendation has been made to the President, that the area of the fourth floor in the dental building which has previously been used by the Department of Chemistry in the teaching of this subject to dental students be rehabilitated for use by the Graduate Division of the Faculty. The alterations planned would provide separate facilities for graduate students (those proceeding to degrees and for short continuation courses). If the alterations which we have asked for are approved, we will then be provided with a new seminar room, three clinic rooms, a clinic of 14 chairs, and other much needed accommodation.

(b) **Graduate Courses:** As the 1948-49 session draws to a conclusion, we will examine one candidate for the Master of Science degree in Dentistry, three candidates for the Bachelor of Science degree in Dentistry, four candidates for the Diploma in Dental Public Health, and four candidates for the Diploma in Orthodontics. The latter group will continue with their clinical assignments until December.

The Graduate Studies Committee has already had before it four applications for the Dental Public Health Course for the session 1949-50, and one application for the Periodontia course. It is expected that applications will be received for the course in Orthodontics. Numerous applications have been received also from overseas graduates seeking admission to advanced standing, and from displaced European persons for similar reasons. Because of serious overcrowding in the clinical facilities at the present time we are unable to accept any from either group.

(c) **Continuation Courses:** An extensive series of continuation courses of one-week's duration were scheduled in this Faculty for the 1948-49 session. This series has included courses in Endodontia, Radiography, Periodontia, Orthodontics, Minor Dental Surgery, Operative Dentistry, and Pedodontia, and will conclude on Saturday, May 28th. All of these courses were completely enrolled and resulted in approximately 90 graduates having benefited by this program of continuation study. Approximately 25% of those registered for the courses came from the United States.

In addition to the magnificent contribution made by the staff of our own Faculty, and other departments in the University, we have been fortunate in having such outstanding guest lecturers and clinicians as: Dr. Louis Grossman of Philadelphia; Dr. Hamilton B. G. Robinson of Ohio State University; Dr. Louis Schultz of Ann Arbor; Dr. Carl Miller of Cleveland; Dr. Frederick Henny of the Ford Hospital, Detroit; and Drs. Fosdick and Thompson of the Northwestern University Dental School. These men have made an important contribution to the program of postgraduate education, which has been assisted financially by the support of the W. K. Kellogg Foundation.

At the special request of a group of dentists from Detroit, members of the Detroit Periodontia Study Club, a short three-day course in Periodontia has been arranged for May 26-28.

Visitors during the Academic Session

Dr. A. LeRoy Johnson, formerly Dean of the Harvard Dental School, visited the Faculty of Dentistry in November as an independent observer interested in dental education. In January we were fortunate to have visits from Professor F. C. Wilkinson, Dean and Director of the School of Dentistry, University of Manchester, England, and from Professor Robert V. Bradlaw, Dean and Director of the Dental School, King's College, Newcastle-on-Tyne, University of Durham. Dr. Bradlaw is also Dean of the Faculty of Dental Surgeons, Royal College of Surgeons, England. During March we received Dr. J. P. Walsh, Dean of the Dental School, Otago University, New Zealand. In addition to these leaders in dental education, we have had visits from many other distinguished members of the profession.

Film and Slide Library

The Board of Directors of the Ontario Dental Association was instrumental one year ago in providing the Faculty of Dentistry with financial assistance to initiate the creation of a motion picture film library and a coloured slide division within the Dental Library. The latter project provides for a duplicate set of the slides used in lectures given by the staff to undergraduate and graduate students. With the set of slides there is an accompanying legend for each slide. A student (undergraduate or graduate) may enter the Library, receive on loan for use within the Library only, the set of slides and the legend. He may then project these slides in a suitable place provided, and study them with the accompanying legend.

The importance of this contribution cannot be over-emphasized for it makes possible the establishment of a project which will have far-reaching effects in the future in the teaching of dentistry both to undergraduate and graduate members of the profession. We again express our sincere appreciation to the Ontario Dental Association for their continuing interest in the Faculty of Dentistry.

With the assistance provided under this project, during the present session we have purchased two motion picture films, one entitled: "Habits in Action," and the other "Silicate Cements." During the course of the summer months, five sets of 2" x 2" coloured slides will be duplicated and placed in the Library in the fall along with the accompanying legend.

Special Advisory Committee re Dental Building

Following the spring meeting of the Board of Directors of the Royal

College of Dental Surgeons in 1948, a letter was received from the Secretary relaying the resolution passed by this Board, namely, "That whereas the Board of the Royal College of Dental Surgeons is greatly interested in the movement to secure more adequate facilities for the teaching of dentistry, in the University of Toronto, be it resolved that Dean Ellis be asked to appoint a joint committee to endeavour to secure the fulfillment of this object." In compliance with this resolution, the following members have been named to this Committee: Dean Ellis, Chairman; C. C. Rous, Secretary; P. G. Anderson, T. Cowling, E. P. Downton, J. R. Fletcher, R. J. Godfrey, J. W. Graham, J. H. Johnson, G. T. Mitton, G. V. Morton, J. D. Purves, C. H. M. Williams, O. J. Yule, and M. R. Culbert.

At my request, the following bodies named a representative on the Committee, from the Dental Alumni Association Dr. J. C. Fullerton; from the Ontario Dental Association: Dr. W. K. Prendergast; from the Royal College of Dental Surgeons Dr. H. W. Reid. No nomination has been received from the Academy of Dentistry, as yet. The first meeting of the Special Advisory Committee was held in the Dean's Office on Thursday, April 21, 1949. A review of the history of the movement to obtain better accommodation for this Faculty was presented to the Committee.

Two sub-committees were named: one to deal with public reactions, the other to prepare a building plan. These sub-committees will be the active bodies and prepare for and present to the main Committee the results of their deliberations. It is not anticipated that the large Advisory Committee would meet frequently but it is expected that the sub-committees will prepare their memoranda and report as quickly as possible.

C.D.A. - O.D.A. Convention 1950

The Council of the Faculty of Dentistry issued an invitation to the Joint Committee planning the May Convention in 1950 to include in their program a half-day Clinical At-Home in the Dental Building. The seventy-fifth anniversary of the founding of the dental school under the auspices of the Royal College of Dental Surgeons of Ontario will be celebrated in 1950, and it was thought that an excellent opportunity presents itself for us to welcome the members of the profession to the dental building on this occasion.

Dental Hygienists

The resolution passed by this Board at its meeting in November respecting dental hygienists, namely, "that the Faculty of Dentistry, University of Toronto, be requested to establish a course for the training of dental hygienists in the aforesaid Faculty," was received and taken to the Executive Committee of the Faculty for consideration. The Executive Committee appointed a sub-committee under the chairmanship of Dr. Glenn Mitton to bring in a report respecting the establishment of a course for dental hygienists.

While the Faculty recognizes the importance of establishing a course for dental hygienists, as soon as possible, nevertheless the problem of accommodation at the present time and the expenditure involved for teaching staff and facilities appear to make it unlikely that we will be able to commence this course in the fall of 1949. The sub-committee has gathered a great deal of material relative to the course and has held many conversations with departments of the University which might co-operate with us in providing instruction in this course. It is believed that the valuable preliminary work which has been completed will facilitate rapid progress on this project in the session 1949-50. The action of the Council on Dental Education relating to hygienists has also been noted with interest, and will assist us in our efforts.

Stan

I am pleased to report that the President of the University announced,

on April 5th, the appointment of Dr. Robert E. Moyers, presently associated with the Department of Orthodontics at the University of Iowa, as Professor of Orthodontics, and head of the Department in this Faculty, as of July 1, 1949. Dr. Moyers is a young man, and as intimated by the President in his announcement, "one of the most promising of the younger dental scientists in the United States." He had a brilliant record in the United States Army Dental Corps during the recent war and is very highly regarded by members of the staff of the University of Iowa (both dentistry and physiology departments). Dr. Moyers is already well-acquainted with the members of the staff of the Orthodontic Department of this Faculty and there is every indication that there will be the greatest co-operation between Dr. Moyers and his staff. His enthusiasm and initiative in the scientific field and the clinical background of the other members of the department augur well for the future of the Orthodontic Department in this Faculty.

Dr. J. E. Moser returned on February 1st after one year of post-graduate study at the University of California. Dr. Moser's studies were undertaken in the Department of Radiology. He has returned to the Faculty staff to work with a group of men who have developed a magnificent spirit of team-work under the leadership of Dr. O. J. Yule and Dr. H. M. Worth. Alterations which are being made in this Department at present and additional equipment which will be added will provide us with one of the best equipped Departments on this continent.

It is expected that Dr. J. B. Macdonald will return from his studies at Columbia University in September, 1949. Dr. Macdonald has spent this session studying under Dr. Rosebury, one of the outstanding authorities in the field of Bacteriology.

Research

At a full day meeting of the Research Committee of the Faculty, held in January, reports were presented by the workers on a number of eleven projects which are now under investigation in the Dental Building. In addition to these eleven projects which are being conducted in the dental building, there are three projects in which members of the staff of the Faculty of Dentistry are co-operating, and six other projects which are not directly connected with this Faculty, but in which members of the Faculty are unofficial consultants.

Students Present Clinics

At the ninth Annual Children's Dental Health Day sponsored by the Cleveland Dental Society on February 7th, Mr. Edward A. Coney and Mr. Richard E. Cline, members of the senior class, presented table clinics. These presentations were well received and reflected most favorably on the instructions given by the Department of Pedodontics.

On March 14th, two members of the Fourth Dental Year, Mr. George E. Burgman, and Mr. James G. Hall, presented table clinics at the First Annual Children's Dental Health Day under the auspices of the Ottawa Dental Society.

It is anticipated that students will present clinics on the subject of Pedodontics at the Ontario Dental Association Meeting in May.

The Canadian Dental Association War Memorial Scholarship

Ten essays were submitted by students of the final year in competition for the Canadian Dental Association War Memorial Scholarship. The subject for the 1948-49 competition was "The relation of the endocrines to dental development and oral health." From the ten essays submitted the Faculty referred to the Chairman of the Committee the three best, which will be in competition with the best from other Canadian dental schools. The subject for the 1949-50 competition is "The control and elimination of pain in dental procedure."

Prizes, Scholarships and Awards

In an effort to publicize the prizes, scholarships and awards available in the Faculty of Dentistry, a leaflet was prepared at the beginning

of the session and distributed to every student registered in the Faculty. The information contained in this leaflet was classified under headings of the various years. In all, twenty-eight awards are listed on this leaflet. One new award has been added to the list this session, namely, the Christina Arkle Dental Anatomy Prize, which is available to the dental nurses. Action in respect to other awards is pending.

Staff Attended Courses

The University of Toronto provided some assistance for the following members of the staff who attended short courses in other universities during the present session:

Dr. J. H. Johnson, University of Montreal — Oral Surgery and Anaesthesia (October 4-9)

Dr. D. H. J. MacDonald, University of Buffalo — Anaesthesia (November 8-19)

Dr. J. E. Moser, University of Detroit — Radiology (February 27-March 4)

Dr. G. W. Johnston — University of Michigan — Dentistry for Children (February 28-March 12)

Dr. E. P. Downton, Ohio State University — Full Denture Prosthesis (May 9-13)

Dr. D. S. Moore, University of Pennsylvania — Oral Medicine Seminar (May 22-27)

Calendar Content

During the present session a Committee was appointed by the Faculty Council to study the content of the Calendar of the Faculty of Dentistry. A careful survey of the calendars of 35 other dental schools revealed that the average number of pages in these calendars was 42, whereas the Faculty of Dentistry of this University has today a calendar of 118 pages. The cost of printing a large calendar is mounting and it was recommended that the total number of pages in the Faculty Calendar be materially reduced. Many other recommendations were made, and it is anticipated that the Committee will report at a later date respecting amendments to the Calendar.

Extramural Lectures

We are pleased to report that the Extramural Lecture program has been very popular again during the 1948-49 session. A total of 33 meetings in 25 different centres, has been held, with 18 speakers, taking part in the programs, and approximately 850 dentists attending the lectures.

Numerous other items which were referred to in the November report have not been repeated in this report.

In concluding this report may I take the opportunity on behalf of the Faculty of Dentistry to express our sincere appreciation to the Board of Directors of the Royal College of Dental Surgeons for their continued moral and financial support. The fine spirit of team play which exists between the Board and the Faculty of Dentistry is exemplified in such projects as the Extramural Lecture Service, Research, and other undertakings such as the "Homecoming Weekend," which brought our two organizations into partnership with the Dental Alumni Association and the Students' Parliament.

All of which is respectfully submitted.

ROY G. ELLIS, Dean.

May 3, 1949.

Motions: "That the report of the Faculty of Dentistry as presented by Dean Ellis be received and adopted." Carried.

"This Board wishes to express its appreciation to the Faculty for their cooperation and untiring efforts for undergraduates. We are keenly aware of the tremendous work entailed, especially at this time because of the overcrowded conditions. Graduate continuation courses were very much appreciated by the profession and the quality was unexcelled.

This Board believes that this continuing education is an effective factor in raising the standing of the profession at large." Carried.

REPORT OF EXAMINATIONS

Faculty Examinations

Dean Ellis met the Board by appointment and presented a detailed report respecting the marks obtained by each individual student who wrote the final examinations of the Faculty.

The members of the Board considered the report and took the following action:

Motion: "That the following, having fulfilled all requirements of this Board, be granted their L.D.S. certificate — Donald Lorne Anderson, Peter Matthew Beck, Ernest Guy Charles Bilkey, John Carmichael Brick, Maurice Charles Brown, George Edward Burgman, Milton Nelles Bye, Harvey John Chartrand, James Graham Clark, Richard Emmet Cline, Maurice Clifford Cole, Frank Howard Compton, Edward Alexander Coney, Jack Cooper, Lawrence Velvin Crowley, John Cameron Derbyshire, Nicolaas Philippus de Wet, William Alan Dinniwell, William George Egan, Howard Allan Ferguson, Ross Hunter Finlayson, Edward Peter Fogel, Harry Laurie Gelfont, John David Gliddon, George Raymond Goodine, William George Hastings, Allen John Hicks, John Elton Hughson, Paul Orest Hutzulak, Everett Jack Kennedy, Ray Stewart Knight, Jack Alan Langmaid, Herbert Grover Lightford, Elmer William Paul Luxford, Robert George McKee, Dalton Albert Martin, Giacomo James Martino, Robert Allan Meharry, Glen Franklin Mumford, Eugene Leo Paquette, Frank James Fraser Phillips, Burton Wallace Pickering, Leonard Ross Pierce, Allen Clair Robinson, William George Robinson, Morley Roger Shuckett, Ernest John Solomon, John Edward Speck, Alva Edison Swanson, Paul Kenzie Takahashi, William Rae Thompson, Norman Paul Truemner, Helene Unger, Albin Stanley Urban, Thorpe Vandemark, Robert John Vince, Albert Earl Wells, Alan Addison Wheatley, Arthur Rex Whitely, John Royal Williams, Petter Edmon Willson, Leo Wolfson, Harris Solomon Wood, Jack Lionel Yampolksy, Walter Yurkie-witch." Carried.

Motion: That Donald Edward Gifford and Barney Seetner be granted their L.D.S. certificate when they have completed their academic requirements." Carried.

Board Examination

One candidate, Dr. Nicholas Anthony Mancini, a graduate of the University of Buffalo, took the Board Examination during the year.

Motion: "That the report of the Examination Board on the examinations of Nicholas Anthony Mancini be approved and that he be granted his L.D.S. certificate." Carried.

REPORT OF LIBRARIAN

Mr. Chairman and Gentlemen:

I have pleasure in presenting the annual report of the activities of the Harry R. Abbott Memorial Library for the year ending April 30th, 1949.

The Library has continued to be an effective teaching agency, as witnessed by the gratifying increase in the use of the Library by the staff and students of the Faculty of Dentistry and as shown by the circulation figures appended to this report. However, there has been a rather surprising decrease in the number of books borrowed by graduates during the past year, a fact that is accounted for by reason of the fewer requests from dentists residing in the City of Toronto. Out of town borrowings have been the highest on record.

During the year 137 books and 7 journal subscriptions were added

to the Library collection, 18 of these being purchased with Harry R. Abbott funds. Sixty-six of the books ordered during the year are still outstanding, 13 of these being carried over from 1947 and 1948. This unfortunate condition is due in part to the enlarged student registration in the University and the abnormally heavy demands on the University Library, on whom we depend for the purchase of our books. The University Library was designed to serve 4000 students, but recently has been overwhelmed by almost five times that number. This has occasioned long delays in the Order and Cataloguing departments through lack of staff and space for them to work. Materialization of the proposed extension to the University Library should rectify this situation.

Examination of the journal subscription list has shown that 54 of the 125 journals now received in the Library are paid for with Harry R. Abbott funds. This situation seems to extend back to the inception of the fund, but is not altogether in conformity with the deed of gift. On the expiration of the present subscriptions, it is proposed to transfer the journals indicated to the University appropriation, leaving the Harry R. Abbott Fund to be disbursed in accordance with the original intention. Our Library appropriation from the University was increased for the past year, and it is anticipated that our large registration will necessitate a further increase next year.

Six library tables were purchased from War Assets during the year, more than doubling the seating capacity of the Reading Room which now seats 64 and is rapidly approaching the standard Library requirements for student Reading Rooms.

To relieve the acute shortage of space in the Stack Room, the University is installing fixed shelves along the entire north wall of the Reading Room. These shelves will be used to house the bound collection of journals, which at present are scattered in various sections of the Library, and will provide at least temporary relief for the congested conditions of the stacks. The installation of the shelves will necessitate the removal of several of the museum cases to another location.

The portrait and biography file of Canadian dentists which was begun last year, although a long range project has already been a ready source of information on various occasions. The Journal of the Ontario Dental Association has kindly instituted a monthly page for our Library news, where shortly will appear an appeal for information or photographs of the early history of dentistry in Ontario. Several old photographs have been reproduced and framed for protection but to date we have been unable to locate a picture of the first college located on Church Street, or the second site at Richmond and Victoria Streets. The only photograph we have of the Louisa Street School is poor and in bad repair, while the photograph of the building at 93 College Street has had to be reproduced from an old calendar cut. Efforts are continuing to close many of the existing gaps, and thanks are due to Mr. T. A. Reed and the York Pioneer and Historical Society for their kindly interest and assistance. Several interesting items have been received by the Museum during the year, but lack of space makes proper organization and display a complete impossibility. All such items are being catalogued and stored with their history, in the hope that more favourable circumstances may permit their display in the future.

Visitors to the Library during the year included Dr. G. DeMontigny, Librarian of the Faculty of Dentistry, University of Montreal, and Miss Hilda Rankin, Librarian at the School of Dentistry, University of Michigan.

The Library acknowledges with due thanks all donations of books and Museum specimens received during the year. Grateful appreciation is expressed to the Honourable Mr. Justice Dalton Wells, and to Drs. E. W. Paul, S. R. Moore, G. Booth, A. J. Vince, C. Moses, G. W. Spinks, and Mr. Posen for donations to the Museum and to Drs. W. Garard, C. S. Watters, T. Cowling, C. D. Levy, P. W. Arkle, for their generous

donation of books and journals. A complete set of the original works "Contributions to the Natural History of the United States," by Louis Agassiz, has been secured and placed in the Historical and Rare Book collection.

CIRCULATION STATISTICS

Year	Faculty	Students	Graduates	Periodicals
1945-46	455	6480	559	1869
1946-47	448	8737	894	1944
1947-48	508	7502	990	2727
1948-49	626	8439	669	3288

The assistance received from the Board and the Library Committee is gratefully acknowledged and this report is respectfully submitted with the recommendation that the customary grant be made for the ensuing year.

J. H. JOHNSON,
Librarian.

Motions: "That the report of the Librarian be received and adopted." Carried.

"That Dr. Johnson be appointed Librarian and that an honorarium of \$200.00 be supplied in the budget." Carried.

REPORT OF REPRESENTATIVE TO THE DOMINION DENTAL COUNCIL

At Fall Meeting

Board of Directors,
Royal College of Dental Surgeons.
Gentlemen:

Your representative to the D.D.C. begs leave to report a most successful year's activities of that organization.

Examinations were held in several centers resulting as follows:

Alberta—13 wrote. 2 Failed (low average). Rewrote in September, Passed.

Halifax—9 wrote. 1 Failed (low average).

1 wrote in September for Maritime Registration. Passed.

The regular biennial meeting of the Council was held this year at Murray Bay, Quebec, in conjunction with the Canadian Dental Association Convention. All the agreeing provinces were represented.

The entire examination set up was studied, and in several sessions at which the Deans of all the Canadian Dental Faculties were present was very considerably altered and we believe materially improved. The report of the Council on Dental Education of the C.D.A. was an important factor in this work and it will be a matter of interest and satisfaction to this Board to know that the scheme adopted follows very closely the pattern of the examination evolved and adopted by this body recently as the Provincial Examination for Ontario.

The standard of marking however, is higher, as in Technical subjects the examiners are being asked to require an honor mark for a pass. This together with the fact that the Examiners chosen are men of outstanding ability and integrity should tend to elevate the prestige of this exam throughout Canada. In this connection we are pleased to announce that Dr. C. H. M. Williams of Toronto has consented to conduct the examination in Oral Medicine.

The Council has shown enthusiastic interest in the projected scheme of inspection and evaluation of the Canadian dental faculties to the extent of voting a contribution of \$1000 toward this work, if and when completed.

For some years the D.D.C. has been endeavouring to make this organization truly national in scope and character and has frequently contacted the two provinces not associated with it in an effort to overcome any difficulties in the way of union. For this reason several significant changes have been made in our regulations. British Columbia

being so geographically situated that it is probably more closely associated socially with some United States faculties than with Canadian institutions felt that her native sons, many of them sons of dentists, graduating from these should have the right to take our examination since distance and the congested condition of Canadian schools made it practically impossible to obtain a dental education here. To meet this obviously reasonable demand the D.D.C. will now accept as candidates Canadian citizens who are graduates of any faculty on the list of schools approved by the A.D.A. The matter too of the type of course to be taken was of some concern to both this province and also Quebec so our regulations now require that all candidates writing a class A exam must have taken a Two-Four year course.

The situation regarding Quebec however presents a further problem. Having two faculties within that province, it is well able to educate sufficient or even more dental recruits than are needed locally. For some years a constant pressure has been exerted on the D.D.C. to accept as candidates for its examinations graduates of these two faculties but, most incongruously, no suggestion has ever been made that a D.D.C. Certificate will ever be recognized in that province. In a genuine effort to meet the situation however, a resolution was adopted at the Murray Bay meeting reading as follows:—

“That for a period of four years commencing September 1st, 1948, the graduates in those years from the Faculties of Dentistry in the Universities of McGill and Montreal who have resided for five years immediately previous in one of the agreeing provinces be accepted as candidates for D.D.C. examination providing they meet all other requirements of this Council.”

Another resolution was adopted that should it be necessary an examination be arranged in French to facilitate French speaking candidates.

Sometime subsequent to the adoption of these resolutions a resolution was presented by the representative of Alberta which had been passed by the Board of the Alberta Dental Association asking that the clause (who have resided for the immediate previous five years in an agreeing province) be deleted from the resolution. Representatives from several of the provinces opposed this suggestion and consequently the original resolution still stands.

A discussion of this point is desired so that the representative of this board may have guidance in case of further developments.

A revised edition of the Constitution and By-laws is in the press and copies will be forwarded to all Board Members on issue.

Among the changes made—

By-law 11

Class C eliminated.

Class D Amended to read—

Any holder of any valid and unforfeited certificate which has been registered in any of the agreeing provinces and who produces proof of having had predental education equal to two years of liberal arts and science in any recognized university of any of the agreeing provinces and has graduated from a dental school in any of the agreeing provinces, and who has been in regular, legal and ethical practice of dentistry in any of the agreeing provinces of Canada for a period of at least five years prior to the date of application for examination may make application to take the D.D.C. examination; provided his legal, ethical and moral standard is vouched for and that he pay the fee of \$150.00.

A new class to be known as Class E to cover graduates from Quebec in next four years.

By-law 19 Two new subsections added to read —

- (B) The examinations shall be held annually, commencing on the second Monday of June. In case the executive committee find the above date conflicts with College or Provincial examinations it is granted power to vary such date as may seem expedient.
- (C) That a special examination may be provided during the fall months if required, at a time to be determined by the Executive Committee.

In conclusion I wish to thank all the members of the Board and Faculty who have so willingly assisted me in this important branch of our responsibility through a very trying period, and trust that you will accord to whoever may carry on that full measure of loyal support.

All of which is respectfully submitted,

G. H. CAMPBELL.

At Annual Meeting

Gentlemen:

As no meeting of the Dominion Dental Council has been held since the last meeting of this Board and consequently few activities, your representative begs leave to make a report of the general situation and the trend of opinion both within and without this body. The organization of the Council, in the early part of this century was no doubt brought about with the idea of accomplishing for the Dental profession what the Medical profession hoped to accomplish for themselves in organizing the Medical Council of Canada in 1902. Since the names associated with its organization are largely the same as those connected with the Canadian Dental Association of that time it might well be inferred that the Dominion Dental Council was the concrete result of the thought of this latter body. Organized in Montreal with an attendance of representatives from practically every province the promoters laid a splendid foundation on which to build a National examining body which has functioned fairly satisfactory for almost fifty years. It is true many changes have been made in the examination process itself, but the constitution and administrative by-laws are basically the same as originally. The report last fall contained something of the changes made in examination procedure at Murray Bay in June and while several details will have to be readjusted, we believe as a whole, it will prove acceptable to all provinces. Pre-dental and dental training requirements too have been put on a high standard and will be rigidly adhered to. Thanks for extremely valuable advice is due to the Deans of all Canadian Dental Faculties and to the Council on Dental Education of the Canadian Dental Association.

It has been suggested, in fact urged, from some quarters that to add strength and dignity to the Dominion Dental Council, it should proceed to incorporation. Recently a small committee has been appointed to study and report on a reorganization of the Council and the matter is of such vital importance to this province that your representative on the Council should have the advice and expressed opinion of this Board to guide him in this very important duty. The example and experience of the Canadian Medical Council should be a great help in this work and while the conditions and circumstances of medical practice are dissimilar in many respects to ours the point of prime importance — ability to practice in any province in Canada, is identical in both professions.

Certainly representation on the council of Canadian Dental Faculties is an essential point but, should not become preponderating. Considering the extremely valuable service the Canadian Dental Association is rendering to our profession throughout Canada and the closeness of the relationship between the two bodies, that organization should also be represented preferably possibly by an appointee of the Council on Dental Education. The present set up calls for one representative from each of the agreeing provinces and, the matter of a more proportionate repre-

sentation might well be explored. When it is considered that Prince Edward Island with approximately thirty dentists and Ontario with over two thousand and the other provinces in between have equal voices in the government of the Council it appears manifestly unfair. There might be some danger of lack of stability in such unequal representation and the fact that only four of the nine provinces have faculties and one of those provinces having two faculties with the possibility of a third in the near future might be points well worth considering. However, this point was fought out in Parliament during the debate on incorporation of the Canadian Medical Council and is an inconsistency impossible to overcome. A possible solution to this problem might be in the appointment of faculty and Canadian Dental Association representatives. The unfortunate fact too that several provinces practically depend on the Dominion Dental Council for provincial purposes might prove an unstable element in the present form of representation.

To counter balance these points the fact that the provinces without a faculty have a much higher percentage of dentists practising under Dominion Dental Council Certificates might be of some significance.

At the next meeting of the Dominion Dental Council a new Secretary-Treasurer will be appointed us. Doctor A. J. Brett of Regina, who has held that position for many years has decided to terminate his work at that time. Great care should be given to the selection of his successor as the success of such an organization depends largely on the integrity and sound judgment of such an official. Possibly the duties of this office might be performed to greater advantage by one who is not a member of the Council.

The examinations being held throughout Canada at the present time will be watched with more than ordinary interest since graduates of McGill, The University of Montreal, and from approved colleges of the United States are being admitted as candidates for the first time. In Toronto fifteen graduates of University of Toronto, one class D and four graduates from United States are writing. In Edmonton seven graduates and one United States candidate have already applied and it is expected about ten more will be writing. McGill has fifteen graduates applying for examinations and the University of Montreal three. Six are expected to write at Dalhousie.

The financial affairs of the Dominion Dental Council are in excellent condition and with the increase in demand for an interprovincial certificate should improve materially. In closing allow me to thank the Board of the R.C.D.S. for the unvarying support they have given me during a very trying time in the history of the Dominion Dental Council. You have constantly indicated that you believe the Dominion Dental Council with its past experience, financial standing, and large number of certificate holders can well be moulded into what its organizers and council members have ever hoped it to be, a Dental Examining Board truly National in every respect.

All of which is respectfully submitted.

G. H. CAMPBELL,
Representative.

Motion: "That the report of the Representative to the Dominion Dental Council be received and approved." Carried.

REPORT OF COMMITTEE ON PUBLIC RELATIONS

Mr. President and Members of the Board:

Since the last meeting of this board two meetings of your committee have been held.

1. To discuss with Dr. Kohli, Director of the Dental Division, Department of Health, proposals as to how the Federal Health Grants might be utilized to inaugurate a dental programme in Ontario. After lengthy

discussion of submitted proposals to institute fluoride treatments for all pre-school children the following resolutions, which are self-explanatory, were passed:

- (a) That it is the considered opinion of the dental profession that top priority in the use of government financial assistance for the improvement, extension and development of public health services should be given to the establishment of a Dental Public Health Officer in each Health Unit throughout the province as personnel becomes available.
 - (b) That until a D.P.H. Officer is established in health units, that second priority for the expenditure of government funds be the provision for the services of a dentist, who will be associated with the well baby clinics and who would provide parent dental health education.
 - (c) Recognizing that it is still in the experimental stage and being deeply interested in the value of the topical application of sodium fluoride solution on the teeth of children we would recommend that such treatment as suggested in suggestion No. 1 of Dr. Kohli's presentation (above) be established under the government health scheme wherever Dental Health Officers in Health Units can supervise and report the same.
2. (a) To consider requests for dental service. Sparsely settled communities in Northern Ontario where a dentist cannot be economically supported—the committee suggested to those inquiring that arrangements be made with dentists in nearby centres to set aside a definite portion of their time for treatment of the children of the area. In such an arrangement financial assistance would be available from the provincial government.
- (b) Two suggestions were made for supplying dental service in large sparsely settled areas. First, that the government supply a modern equipped office and second that hospitals being built in these areas plan for a dental office. In both arrangements personnel to be obtained among new graduates, to whom the offices would be made available at a nominal fee for a term of years.
 - (c) In view of the expressed intention of the government to incorporate the dental programme, which has been under demonstration, as an integral part of public health units, the present status of the program was reviewed. The statistics now available having shown definite trends in the prevention of dental diseases through the medium of sustained health education the following motion was adopted:

The committee on Public Relations would strongly recommend that Dental Health Education be extended and intensified in every Public Health Unit.

Serious consideration must be given to treatment services in public health units. **If members of the dental profession in private practice do not desire to supply this service to children other means must be found. If this opportunity is lost it could be the first step in the deterioration of private practice.** Further consideration of this problem will be given at a meeting to be held in the near future.

- (d) Consideration was given to the distribution of personnel throughout the province and the following resolution was passed:

That this committee recommend to the Board that they urge the Faculty Council to consider the matter of encouraging the members of the staff to emphasize the matter of opportunities for practice in the smaller communities in order to improve the dentist distribution.

All of which is respectfully submitted.

HARVEY W. REID,
Chairman.

Motion: "That the report of the Public Relations Committee be received and adopted." Carried.

REPORT OF REPRESENTATIVE TO THE CANADIAN DENTAL ASSOCIATION

Mr. President and Gentlemen:

Soon after the Annual Meeting of this Board, the Board of Governors met at the Manoir Richelieu, Murray Bay, Quebec. Amid these beautiful surroundings and under the capable chairmanship of Dr. Carver of Montreal, a very fine meeting was held for four days previous to the Annual Convention.

Reports of twenty-eight Committees were presented, studied and discussed and recommendations made. These were excellent reports and represented the work of a great many men across Canada. Your representatives feel keenly that every Dentist in Canada should read the report of the proceedings of the 1948 Board of Governors meeting in order that they might have some conception of what is being accomplished by their National Association.

The C.D.A. Journal continues to rank very high among the Dental Journals of the world. Many difficulties have had to be faced due to the enormous increases in the cost of printing. It is hoped that these may have reached a maximum. The editorial staff have worked hard to reach and maintain the high standard of the contents of the Journal and richly deserve our commendation and thanks.

Health Insurance and Dental Public Health on the National level are very live topics. The granting of large sums of money by the Federal Government to the Provinces for health surveys, training of public health personnel and professional personnel and public health research is the first stage in a compulsory Health Insurance scheme. Through the C.D.A. Committees on these subjects Provincial Committees have been activated to the urgent necessity for dentistry to play its part in this planning stage. Much has been accomplished but more remains to be done.

Last summer the Association asked Dr. Gullett to proceed to Great Britain to study first hand the British plan of socialized Health Services. Dr. Gullett spent some five weeks there and returned with a very comprehensive report on the whole plan. He has outlined it to most of the dentists from coast to coast in his annual visit to them. The American Dental Association carried it in a special supplement. The Profession on this Continent appreciate highly the accurate picture that Dr. Gullett has brought to them.

The Convention following the Board of Governors Meeting was a very delightful affair. The scientific program was excellent and the cordiality and warmth of welcome of our French speaking confreres was a great boon to "bon entente". One could not help but feel proud, as he moved about that great hotel, that he was a Canadian Dentist.

The Annual Meeting this year will be held in a few days at Saskatoon, Saskatchewan. In 1950 the Association meets in Toronto with the Ontario Dental Association. Committees are already at work on plans for an outstanding meeting. We trust that this Board will be generous in its support.

C.D.A. Headquarters is urgently in need of more space. Some assistance for Dr. Gullett is long overdue but with present facilities additional personnel is out of the question. The Advisory Committee have been studying this problem and representatives of same will appear before you at this meeting with suggestions as to a remedy for the situation.

All of which is respectfully submitted.

G. H. CAMPBELL
R. P. LOWERY
S. J. PHILLIPS
H. W. REID

Motion: "That the report of representatives to the Canadian Dental Association be received and adopted." Carried.

REPORT OF DENTAL REFEREE TO WORKMEN'S COMPENSATION BOARD

Board of Directors,
Royal College of Dental Surgeons of Ontario,
Toronto, Ontario.

Gentlemen:

Your appointed Consultant to the Workmen's Compensation Board of Ontario is pleased to report to you on his services to this organization together with observations arising therefrom during the year ending April 30, 1949.

During the period under review some thirty written reports have been submitted to the Medical Aid Officer, Mr. C. G. Cameron including some, which have necessitated the examination of the Board's claimants. Other duties performed include many telephone conferences both with the Medical Aid Officer and members of the dental profession. It is a pleasure to state that in most instances there has been a fine spirit of co-operation among all concerned and a willingness to compromise on both sides when a difference of opinion has occurred. However mention should be made that complaints have been uttered respecting certain inadequacies in the present fee schedule and a growing resentment is apparent to the restriction in the services permitted by that schedule.

As intimated in a letter to the Secretary of your Board, Dr. D. W. Gullett, a few weeks ago, the time seems to be at hand when the schedule of dental services and fees should be re-examined. With this in mind some suggested changes in the Workmen's Compensation Tariff is submitted herewith as a basis for discussion. In perusing these one need not remind you that unfair remuneration to the dentist means a tendency to inferior service which in turn results in dissatisfaction to all concerned. Conversely a reasonable and fair remuneration demands honest service. There is another point—This tariff is applicable all across the Province in both large and small centres and to all types of dental practices. A fee schedule should be determined on a basis that is economically practical to render good service and should not be set to conform with the fees of any particular type of practice.

Again during the year some criticisms have been made to the Workmen's Compensation Board which infer resentment to any restrictions in the scope of service allowed, particularly pertaining to types of appliances. It is true restrictions do exist because the Board which pays the fees and administers the Compensation Act takes the attitude that it is interested only in a good dental service that will give satisfaction. Its members realize, as every dentist does, there is usually alternate ways of dealing with a dental restoration problem in a satisfactory manner. However in case of disagreement the case is usually referred to your Board or your representative who may intercede on behalf of the practitioner concerned but he must show the necessity for any deviation from the regular schedule of services or fees. The complaint seems to be mostly in connection with

partial dentures and a desire is expressed for permission to use cast metal appliances.

In the course of the year many problems have arisen but very few have presented serious difficulty, thanks to the mutual confidence existing between the Workmen's Compensation Board and the Board of the Royal College of Dental Surgeons.

In closing your representative would again like to acknowledge the very cordial relationship which exists with the Medical Aid Officer, Mr. C. G. Cameron and to express his appreciation of good counsel from Chairman Dr. H. W. Reid and Secretary Dr. D. W. Gullett, and finally to tender a grateful thank you for the privilege of serving your Board in this work during the year.

Respectfully submitted,

Motions: "That the report of the Workmen's Compensation Board be received and adopted and the representatives of this Board be instructed to confer with the Workmen's Compensation Board in an endeavour to get the adoption of this revised list of fees." Carried.

"That Dr. _____ be re-appointed as our referee to the Workmen's Compensation Board and that this Board convey to Dr. _____ our appreciation of his actions on our behalf." Carried.

REPORT OF DENTAL PUBLIC HEALTH COMMITTEE

Mr. Chairman and Members of the Board of the R.C.D.S.:

The Dental Public Health Committee of the O.D.A. has again completed a year, successful we feel, in the further promotion of dental health for the people of Ontario. Much of the success has been due to the generous financial assistance given to us by your Board. As you are aware, with your grant, Dr. Glenn Mitton was engaged as field secretary, halftime, by our committee and his work has been of inestimable value. Your secretary has received the reports of Dr. Mitton's activities which I am sure are available to each of you for perusal.

It was decided that each area in Ontario which had shown any direct interest in our Dental Public Health program should be visited. This was carried out by Dr. Mitton and an analysis of the progress being made in each area was noted, to enable our committee to give the type of help necessary to assist the local committees in the different communities. Generally speaking, the project still seems sound after starting our third year in operation. Most difficulty seems to be due to lack of personnel, that is D.D.P.H. graduates and one of the auxiliary services type, let us say a Dental Public Health nurse, for want of a better name. The other noted weakness in areas is lack of education of the dentists as to his responsibility for the success of the plan. Time is necessary to overcome each of these shortcomings but with the government action on health, lay groups awareness, committee members are near the panic state for a solution.

In an effort to solve the first problem we sent letters to each M.O.H. in health units throughout the province to gain knowledge as to units reaction regarding employment of a dental officer. The replies were very favourable, the only objection being financial problems which we feel is due to lack of education, in the area, to show the need. This difficulty may be overcome by government aid directed towards the health units. Evidence of action by Government, of this type, was verbally expressed by the Hon. Russell Kelly during an interview. Further interest in our cause was expressed by the minister's willingness to write to health units regarding employment of dental officers.

This action, of writing letters to the health units, was undertaken to have something at hand to interest dentists in registering for the course to receive a diploma in dental public health. The educational

program within the profession and other groups must be carried on with increased vigor and resolve.

I mentioned earlier in the report increased interest by government in public health generally and D.P.H. particularly. This is evidenced by renewed interest in our Welland project for statistics, etc. In order to be able to show a sound record by a health unit that has employed our program, accepted by and participated in by this Board, much time was necessary to make sure, records would stand up under close scrutiny. It was found necessary to devote much of our field secretary's time as well as the time of other statisticians, in the Welland area. We feel quite certain that the Welland area is now working so smoothly and showing such good results it can stand up under examination from any source. Much of this is due to the leadership given by the dental director, Dr. S. Lee Honey, under the wonderful co-operation by the M.O.H., Dr. Leo Sturgeon, who has been a great friend to dentistry.

We are equally proud of the work that is being carried on in Ottawa under Dr. Geo. Clarke and in Sudbury by Dr. Bruce Sutherland. Valuable information will be coming from these areas as well as the excellent service that is being given to the population in the community. Too numerous to mention are the communities where local dentists have organized D.P.H. committees and are carrying on the program of dental education up to and including a survey of the school children, in some cases including pre-school. This latter group is felt, by many, to be of major importance. The health units employing a Dental Officer seem to come in for mention more frequently but a great deal of credit is due to the dentists from these organized communities who along with a busy practice devote time to this work. I am sure our committee members who know what these dentists are doing would want me, in this report, to especially express our thanks to these members of our profession who have taken the time and shown the interest to carry on this very important work.

Finally, gentlemen, I wish to thank each and every member of the D.P.H. committee for help given the chairman. The time taken for many meetings, and also willing response to speaking engagements all over the province. Members of this Board know but still many dentists apparently do not know that time is given freely, just because we believe in the cause and are willing to make the sacrifice.

This report would not be complete without again mentioning the great debt dentistry owes to the Red Cross for the advancement of our programs. The financial aid is appreciated but the growing interest in our efforts is of great importance. I trust this can and will be expressed by organized dentistry to Red Cross as they march on helping dentistry at every turn.

These are very important times for our profession in moulding our future, threats of health insurance including dentistry and many new cures for dental disease flooding magazines for lay consumption. Dental Public Health in Ontario is trying to hold to a straight course not to be swayed or stampeded until all avenues are explored. We look to sound research projects and governing bodies such as this Board for guidance and direction. We trust that our behaviour still warrants your support, guidance and blessing.

Our grant last year was \$3,500.00 and I would request the same amount be put in this year's budget.

Respectfully submitted,

HAROLD A. SWALES,

Chairman, Dental Public Health Committee.

Motions: "That the report of the Dental Public Health Committee be received and adopted." Carried.

"That the Board of the R.C.D.S. is sincerely appreciative of the financial aid which enables dentistry to demonstrate its ability

to serve the people in the public health field, and is fully cognizant that the growing interest in our efforts is in the main due to this opportunity, and we are most thankful to the Ontario Division of the Canadian Red Cross." Carried.

"That the thanks of this Board be expressed to the Chairman and members of the Dental Public Health Committee of the O.D.A. Their untiring efforts, in the application of sound dental health principles in all their educational projects, are bearing fruit. The acceptance of the principles of the C.D.A. plan by increasing numbers of governmental authorities is in no small measure due to the demonstration so ably directed by this Committee and the Ontario Division of the Canadian Red Cross." Carried.

REPORT OF THE SIXTY-FIFTH ANNUAL MEETING
of the
AMERICAN ASSOCIATION OF DENTAL EXAMINERS
held in
Sherman Hotel, Chicago, Illinois,
September 11-12, 1948.

Board of Directors of
Royal College of Dental Surgeons of Ontario,
Toronto, Ontario.

Dear Sirs:

Your Secretary, Dr. Don W. Gullett, and myself had the privilege and pleasure of attending the Annual Meeting of the American Association of Dental Examiners at Chicago. May we express our appreciation to you for making it possible to attend this meeting.

Dr. Henry A. Swanson, President, presided and brought greetings to the many members of examination boards across United States and Canada.

The problems of examination boards were discussed by many outstanding United States educators. Some of whom were Doctors Horner, Timmons, Beck, Schwartz, Blauch, Robinson, Birkbeck, and many others.

The first session held on September 11th consisted mostly of papers, discussions and committee reports, while Sunday, September 12th, was given over to Round Table Discussion on the subject "The Inclusion of Oral Medicine and Diagnosis in Licensure Examinations."

We feel that it is of great value to this Board to be represented at these meetings. It is impossible to present in a report, such as this, all the papers and discussions that took place but following are sentences that are high lights of some of the papers that we hope may convey to you the ideas, thinking, and spirit of the Annual Meeting.

1. One purpose of this Association is to promote ethical professional conduct. I believe too little time is given to "Dental Ethics" on our curriculum of Dental Schools. Ours is a specialized service on a high ethical basis carried out in a professional manner.
2. Educationalists claim that the teachers in elementary and secondary schools know better the methods of the "teaching art" than do the teachers or professors in our Dental Schools.
3. The program of aptitude testing is a very helpful confidential aid in student selection.
4. It was announced that the United States Federal Government had passed legislation to provide one million dollars for a program of demonstrations in application of topical fluoride. Demonstration to be made in each State with staff of 1 dentist, 2 dental hygienists, and 1 clerk.
5. It will take 5-7 years in order to prove that additions of fluorides to water supply is of value.

6. "Each man here sets an examination and evaluates it. We should be experts in measurement tests and examinations. I am in favour of a seminar to give instructions in measurement tests and examination.
7. "We live in a mechanical age and our greatest scientific developments and progress has been in last twenty years. Education has now reached the status of a science.
8. "Students are much better educated in the basic sciences than we were. I don't believe the Dental Examiners have kept up with this knowledge and we are not as capable as we should be to test and examine candidates. It is our responsibility to re-educate ourselves.
9. "Contents of Dental Education in the curriculum of Dental Schools haven't kept abreast of changes in other education schools therefore I am in favour of addition of Oral Medicine to our curriculum.
10. "I believe it is the applicant's hard luck if his state college doesn't teach certain subjects. To me the only way State Boards can advance and keep up with the rest of science is to expect this knowledge and then Dental Faculties will soon teach it. Therefore I am in favour of addition of Oral Medicine to dental curriculum.
11. "State Boards exert a direct influence on teaching—good or bad. Boards have lain emphasis upon prosthetic and operative dentistry with the results that a large part of the curriculum is arranged to meet this demand less graduate fail and school is discredited, oral diagnosis and relation of basic sciences to actual practices are not emphasized by Boards, hence neglected in schools. Therefore I am in favour of addition of Oral Medicine to dental curriculum.
12. Two examinations yearly, spring and fall, should be held by all State Boards. While these exams cannot be held at the same time for each State, each State should have set date.
13. "Prophylaxis is to me a health service. It is more difficult to do than a gold foil. It is preventive dentistry.
14. "I believe our job is to evaluate whether candidate is qualified and safe to practice dentistry.
15. "Most Boards agreed that they should not supply patients.
16. "I believe that applicants are well prepared in the theory of Dentistry but it is the practical side where student is falling down—in particular the preventive side."

Report on Reports—Those of interest to us.

- A. Aptitude tests approved on 5 year basis.
 - B. Recommended that A.D.A. Council on Dental Education obtain an evaluation of Canadian Schools.
 - C. Dental Laws—Accepted recommendation of Committee "that Canadian graduates be accepted by Boards on same basis as U.S., and be considered separate from other foreign countries."
- All of which is respectfully submitted.

DON W. GULLETT,
S. J. PHILLIPS.

Motions: "That the report of the representatives to the American Association of Dental Examiners be received and approved." Carried.
"That Doctors Phillips and Gullett be our representatives to the American Association of Dental Examiners." Carried.

CERTIFICATION OF SPECIALISTS

Dr. Percy Lyness Nesbitt—Ottawa

Motion: "That Dr. P. L. Nesbitt, Ottawa, be granted his certificate as Specialist in Dental Oral Surgery." Carried.

Dr. Arthur William Stephen Wood—Toronto

Motion: "That Dr. A. W. S. Wood be granted a certificate of Specialization in Pedodontics." Carried.

FOREIGN GRADUATE APPLICANTS

A considerable number of graduates from European schools presented applications for registration during the year. Consideration was given to the existing regulations for registration and a study was made of the general qualifications of those making application. The whole matter of dealing fairly with Displaced Persons from European countries, who are graduate dentists, was discussed fully. It was decided that the graduates need, in order to meet the Ontario requirements, at least two academic years of training, (1) a year made up of the subjects lacking in the course they have taken, (2) the regular final year of the dental course. Dean Ellis explained the difficulty of setting up such a course in the Faculty under present crowded conditions.

Motion: "That whereas the Board of Directors of the R.C.D.S. at their Annual Meeting have interviewed several of the Displaced European Dental Graduates who have applied for license in this province, and whereas this Board is highly sympathetic to the plight of these graduates, and whereas this Board is fully cognizant of the problem facing the staff of the Faculty with the two extremely large classes comprised mainly of veterans that overtax the physical facilities of the Dental Building and that make thorough instruction extremely difficult—be it resolved that the Faculty of Dentistry, U. of T., be requested to design a course of instruction in harmony with the regulations of this Board for these Displaced European Dental Graduates to be commenced as soon as facilities permit and that such courses be made available to a small group of these Displaced Graduates selected on qualifications and aptitude, satisfactory to the Faculty and this Board." Carried.

AMENDMENTS TO BY-LAWS

(By-laws No. 76 and 77 which deal with the regulations for Dental Hygienists are withheld from publication pending approval by the Lieutenant-Governor in Council.)

By-law No. 78

By-law No. 8, Section 1(g) is deleted and the following words substituted—

"If the applicant is a graduate of a school of the British Isles, Australia, or New Zealand, holding a University degree in dentistry and recognized by this Board—to have successfully completed one year in the Faculty of Dentistry, U. of T., and to have passed such examinations as the Board may direct."

APPOINTMENT OF EXAMINERS FOR 1949-50

Motion: "That the Board's Examiners in Clinical Dentistry be —
Chief Examiner—Dr. S. J. Phillips.
Operative—Dr. P. G. Anderson, Dr. H. W. Reid.
Prosthetic—Dr. R. J. Godfrey, Dr. R. O. Winn."

Carried.

DENTAL SERVICES FOR WELFARE RECIPIENTS

For a considerable period the Board has been in the process of negotiating a contract with the Provincial Legislature in respect to dental services for relief recipients. It is anticipated that this agreement will be completed in the near future, at which time the members of the profession will be given full information.

RECOGNITION OF PAST PRESIDENT REID

Motion: "That this Board congratulate most heartily our retiring President, Dr. Reid, upon the most deserving recognition of his great contributions to the profession by the Royal College of Surgeons of England in conferring a Fellowship upon him." Carried.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only unilluminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on"

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITING ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO

1949-1950

PRESIDENT'S REPORT

Mr. Chairman and Members of the Board of Directors:

Another year has come and gone and our annual meeting brings with it several problems for this Board to consider and solve.

But before I bring them to your attention may I express the appreciation of this Board to Dean Roy Ellis and his Staff, for their excellent co-operation during the past year.

Since our last annual meeting, two members of our Board have been highly honoured. On July 15th, at the annual meeting of the Royal College of Surgeons of England, Dr. Harvey W. Reid, Past President of this Board, received a fellowship from that body for distinguished services to his beloved profession, both in Ontario and Canada. The other honour goes to Dr. Don W. Gullett, our Registrar-Secretary, he was made an Honourary Life Member in the British Dental Association, an honour bestowed upon very, very few.

Dr. Roy Ellis, Dean of the Faculty of Dentistry, University of Toronto, has been invited to participate in the program as a guest essayist and clinician at Sydney, Australia in August, 1950. Several items of mutual interest to the Dental Faculty and this Board will be considered by the Dean, such as:

- (1) Post Graduate Students from New Zealand and Australia.
- (2) The Dental Nurse—Technician.
- (3) Exchange of Research and Teaching Personnel.
- (4) A Study of the Australasian Health Insurance Program.

Further negotiations for the supplying of a Dental Service to relief recipients have been continued. Progress has been very slow, but funds have again been included in the estimates of the Budget of the Provincial Government in session, in March, 1950. It is now hoped that definite plans for the administration of same, will be concluded at an early date.

As I write this report, the regulations to regulate Dental Hygienists, is still before the Provincial Government. Many changes have been made since our first presentation.

One of the most pressing problems facing this Board, also the Canadian Dental Association, is the consideration of ways and means of supplying Housing Headquarters for Dr. Don W. Gullett and his Staff. The time has come when some very definite and progressive steps must be taken to provide a Dental building for Dentistry in Canada. As the Canadian Dental Association meets just prior to our Board Meeting, I have every reason to believe that a definite proposal will be ready for your consideration.

As I close, I wish to express my sincere thanks to all members of this Board, to the Registrar-Secretary, Dr. Don W. Gullett, and to all Chairmen of Committees, for their loyal support and hearty co-operation during the past year. I appreciate the honour and privilege to serve as your President.

Respectfully submitted,

STANLEY J. PHILLIPS,
President, R.C.D.S.

Motion: "That the report of the President be received and adopted".
Carried.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board:

The biennial election for the Board occurs this fall. It will be necessary for Scrutineers to be appointed at this meeting.

Arrangements have been made for a few European graduates, now residing in Canada, to be accepted for a special course of training this fall. The names of those who have applied for registration have been submitted to the Faculty.

The work of the Health Survey under the Federal Grant has continued during the year. The sub-committee on dentistry has studied all matters related to dental service and it is expected a report will be published in the course of a few months.

Considerable discussion has taken place respecting the establishment of a course for dental hygienists in the Toronto Faculty this coming fall, but it appears doubtful if the course will begin this year.

CHANGES IN REGISTER

As of April 30th, 1950, the number on the Active list of the Register was as follows:

Annual fee paid	1919
Honorary Fifty Year list	85
Fees unpaid on above date	6

Total 2010

The following changes in the list have occurred during the year:

Added to Active List	58
D.D.C. Certificates Registered	3
Board Examination	1
Licentiates from Inactive to Active List	4
	66

Transferred to Inactive List:

Died	41
Retired	12
	53

Gain 13

The population of Ontario has increased considerably in the years since the war. Comparative figures setting forth the ratio of dentists to population for several years follow:

Year	No. of Dentists	Ratio to Population
1911	1127	1/2239
1921	1377	1/2130
1931	1800	1/1906
1941	1890	1/2003
1948	2019	1/2075
1949	1997	1/2152
1950	2014	1/2190

The above ratio figures are based upon the number of dentists reported upon the active lists as of April 30th each year. However, the true situation is not represented by these figures. During recent years the number of dentists who have accepted salaried positions has increased. In addition, there are a considerable number of dentists on the lists who are not actually practising dentistry in Ontario, consisting of part of those having honorary membership and those retaining membership, but not practising. An estimated total of 150 dentists are in the above categories. For this reason, the ratio for earlier years taken from the number on the list more accurately represented a true ratio. The deduction of this estimated number, not actually engaged in clinical practice, produces a ratio of one dentist to 2366 of the population.

The graduation class at Toronto for this year consists of 170 members of which it is indicated that approximately two-thirds will be taking up practice in Ontario. It is to be noted that a large proportion of this class are locating in smaller centres of population. The graduation class of 1951 will be slightly less in number. For the years following 1951, graduating classes will consist of a maximum number of 80 which means, according to past experience, that approximately 45 to 50 will take up practice in Ontario each year, provided that classes continue to be filled. This means that there should be some betterment of ratio during 1950 and 1951. The situation for the years following 1951 will depend upon any increase in the number of new graduates, a continued increase in population of the province and the rate of loss of dental personnel by death and retirement.

Some study has been given to the age groupings of dental personnel. As of December 31, 1948, out of 1920 on the list—

- 213 were 65 years of age or over
- 120 were 60 to 64 years of age
- 196 were 55 to 59 years of age
- 424 were 50 to 54 years of age
- 295 were 45 to 49 years of age
- 191 were 40 to 44 years of age
- 147 were 35 to 39 years of age
- 162 were 30 to 34 years of age
- 133 were 25 to 29 years of age
- 31 were 20 to 24 years of age
- 8 age not obtained.

It will be observed that almost exactly 50% were over fifty years of age. 37.4% were in the 45 to 54 age group, which is abnormally high when compared to other age groups. This factor will affect the rate of loss by death and retirement in future years.

Extramural Lectures and Clinics

Following is a detailed report of the Extramural Lecture Service during the past year. The number of lectures given shows an increase where compared to recent years. An unusually large number of letters, expressing appreciation of the service, have been received during the year.

EXTRAMURAL LECTURES AND CLINICS

The splendid co-operation in the work, so readily given by every member of the Board, has made the work pleasurable and I desire to sincerely thank each one of you for all personal courtesies and assistance.

Yours faithfully,

DON W. GULLETT, Secretary.

Motion: "That the Executive Committee be asked to study the problem of Dental Personnel and to report at the next meeting." Carried.

Motion: "That Dr. A. D. A. Mason and Mr. A. T. Laidlaw be scrutineers for the forth-coming Board election." Carried.

Motion: "That Honorary Membership be granted to members eligible as of January 1st, 1951, listed by the Registrar." Carried.

Motion: "That the Report of the Registrar-Secretary be received and adopted." Carried.

REPORT OF TREASURER

Mr. Chairman and Members of the Board:

The auditor's statement containing details of revenues and expenditures for the past year is herewith submitted.

Licentiate Fees

Fee notices were sent out in accordance with the regulations and the fee has been received from all members except the following. L. Ballantyne, J. M. Sharpe, W. E. Smart, and G. A. Watson. These accounts were placed in court for collection on April 6th, 1950.

Investments

No change was made in the securities during the year. It will be noted by the auditor's statement that \$5,000.00 Province of Nova Scotia Bonds will mature September 2nd, 1950.

Harry R. Abbott Memorial Fund

The receipts from the Harry R. Abbott Fund for the year amounted to \$352.85, whereas \$400.00 was paid out reducing the bank balance. Some direction should be given as to future action respecting this trust fund.

The appointment of auditor's for next year is necessary.

DON W. GULLETT, Treasurer.

Motion: "That Thorne, Mulholland, Howson and McPherson be appointed Auditors for the ensuing year." Carried.

Motion: "That the report of the Treasurer be received and adopted." Carried.

AUDITORS' REPORT

We have audited the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1950. All our requirements, as auditors, have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1950.

REPORT OF EXECUTIVE COMMITTEE

Board of Directors,
Royal College of Dental Surgeons.
Gentlemen.

During the past year a meeting of the Executive Committee was held in the Board Room on Wednesday, February 8th, 1950.

Dr. G. V. Fisk, President and Dr. R. P. Lowery, Vice-President of the C.D.A., met the Executive to discuss and ask clarification of the intent of the resolution respecting the grant of this Board toward the establishment of C.D.A. Headquarters passed at our last Board meeting. Both Dr. Fisk and Dr. Lowery spoke requesting that we provide leadership in releasing the stated amount agreed on, without qualifications.

Discussion of the resolution brought out that the feeling of the Board was that as soon as the C.D.A. had established agreement on the matter with the other provinces, the Ontario grant would be ready, but we considered in order to save any misunderstanding that consent of the provinces should be obtained.

A letter was read from the Workmen's Compensation Board stating their approval of the fee schedule agreed upon by this Board at our fall meeting.

A communication from President Smith of the University of Toronto stated that the establishment of a course for hygienists depended upon finding sufficient funds for the purpose.

The secretary was directed to advise Dr. Hiroshi Akaye—a graduate of Kansas City Western Dental College, University of Kansas City, that he would be permitted to take our Board Examinations.

On resolution, Dr. Aaron Louis Posen, was granted a certificate as a specialist in Orthodontics.

Dean Ellis met the committee by appointment and it was agreed that on the application of Dr. S. D. Brigel for certification, the Faculty would conduct an examination.

Dean Ellis stated that a course for Dental Hygienists was not possible for the 1950-51 term due to lack of finances, but that the Faculty Council had approved the admittance of a limited number of Displaced Person Dentists for this coming fall.

A motion was unanimously carried that the Dental Nurses Register be discontinued.

Dr. Phillips reported no progress with officials of the Government respecting the plan for welfare recipients.

A letter to the Profession respecting the relationship of dentists to laboratories was approved and a copy ordered mailed to all Ontario Dentists.

Respectfully submitted.

ROY WINN, Chairman.

Motion: "That the report of the Executive Committee be received and adopted." Carried.

REPORT OF DISCIPLINE COMMITTEE

Mr. President and Members of the Board of Directors:

During the past year there have been many matters brought to the attention of the Committee. Effort has been made to deal effectively with these matters.

There is evidence of an increase in illegal practice. The Inspector has investigated all reported infractions and has been successful in securing convictions in several cases. The obtaining of suitable operators and willing witnesses is still extremely difficult. Changing economic conditions may force even more men, with some knowledge of this vocation, to attempt illegal practice. Any information that will assist in prosecution of these individuals will be appreciated by the Committee.

Complaint has been received concerning the unsanitary condition of several offices. These offices were inspected and orders given to have the conditions remedied. On return inspection these offices were found to be in satisfactory condition in each case.

It is alarming the number of complaints received from the public daily, concerning the treatment received from dentists. It is not only the lack of courtesy expected of a professional man of which they complain, but in many cases the use of profanity, and even force in evicting them from offices. The supplying of necessary post-operative treatment and adjustments that are the responsibility of the dentist are being refused in many cases. These instances too often are brought to the attention of other authorities before being directed to the attention of this Committee. The Board takes a very serious view of this unprofessional conduct and will take drastic action against offending members, who lower the prestige of the profession by their unseemly conduct.

Consideration was given to some disputes between members of the College. The Board was instrumental in obtaining amicable settlement in each case.

The usual number of complaints respecting signs, notices, etc. have been received, in each instance the Board has received fine co-operation from members of the College.

The Inspector has been very efficient in carrying out the instructions of the Committee and has been of great assistance.

R. J. GODFREY
F. J. FURLONG
M. V. J. KEENAN
C. M. PURCELL
HARVEY W. REID, Chairman.

Motion. "That a letter be sent to each member of the College pointing out their responsibility to their patient from an ethical point of view." Carried.

Motion: "That the report of the Discipline Committee be received and adopted." Carried.

REPORT OF INSPECTOR

To the President and Members of the Board.
Gentlemen:

I have the honour to report for your information the following investigations and prosecutions made from April 30, 1949 to April 30, 1950:

John Leishman

(Practicing Dentistry) Fined \$ 500.00 and costs or 3 months in jail.
Basil Shea

(Practicing Dentistry) Fined \$ 200.00 and costs or 3 months in jail.
Abraham Frohman

(Practicing Dentistry) Fined \$ 500.00 and costs or 3 months in jail.
Abraham Frohman

(Having Equipment) Fined \$ 100.00 and costs or 1 month in jail.
The total amount of Police

Court costs in these cases \$ 105.00

Total \$1405.00

20 Dentists have been reported for displaying the word "X-ray".
These have been rechecked and the wording removed.

1 Dentist was notified to obtain his license for 1949.

1 Dentist was notified to remove 3 of the 6 signs he was displaying.

3 Dental offices were inspected for cleanliness. Several calls have been made to these offices to see that they continue to keep their offices clean.

I have visited the following cities:

2 Brantford, Ontario.

3 Windsor, Ontario

1 Paris, Ontario

4 Hamilton, Ontario.

936 miles have been travelled by car.

Respectfully submitted,

INSPECTOR FOR THE R.C.D.S.

Motion: "That the report of the Inspector be received and adopted."
Carried.

REPORT OF THE FACULTY OF DENTISTRY UNIVERSITY OF TORONTO

At Fall Meeting

To the Board of Directors,
Royal College of Dental Surgeons.

Gentlemen:

The overall registration in the Faculty of Dentistry for 1949-50 has changed very little from the figure of 601 reported for 1948-49. The total for 1949-50 (583) is detailed below:

	Ex-Service	Civilian	Total
Predental Year	6	54	60
First Dental Year	16	61	77
Second Dental Year	49	31	80
Third Dental Year	130	22	152
Fourth Dental Year	126	44	170
Dental Nursing		25	25
D. D. P. H.	2	4	6
B. Sc. (Dent.)	4	2	6
M. Sc. (Dent.)	2	2	4
Occasional Students		3	3
	335	248	583

A slight decrease was evident in the number of applications received in September 1949 for admission to the Predental Year, but the number applying for admission to advanced standing (First Dental Year) increased. The level of scholarship of the applicants in both groups continues to show improvement.

In accordance with the recommendation of the Faculty Council, the Board of Governors of the University approved a limitation of 60 students for the Predental Year. The Committee accepted only Ontario applicants for the Predental Year and gave preference to the student from rural areas, where possible. The following detail refers to the origin of the Predental class:

Toronto 36; Niagara Falls, Windsor, Ottawa and St. Thomas each 2; and one from each of: Sarnia, London, Sioux Lookout, Hamilton, Peterborough, Hagersville, Port Colborne, Brampton, Ballinfad, Sault Ste. Marie, Welland, Kitchener, St. Catharines, Owen Sound, Guelph and Timmins.

Some financial aid is available to students through the several sources which follow:

Dominion-Provincial Student Aid Bursaries; University of Toronto General Bursaries; W. K. Kellogg Foundation Loan Fund; Student Veterans Loan Board. Two of these provide Loans as distinguished from Bursaries, and the first three are available to civilian students

as well as ex-service. It is anticipated that the need for assistance in the future will increase among the civilian students. Dental education is an expensive form of education.

The assistance and encouragement provided to students through scholarships and awards is an important additional factor when considering this matter. Two new awards become available for competition during the 1949-50 session, bringing the total number to thirty.

We take this opportunity to acknowledge with grateful thanks the generosity of Dr. Francis J. A. Daly (1923; U. of T.) in establishing the Mary Adele Daly Scholarship in memory of his wife. This valuable scholarship (\$200 and an accompanying key) will be awarded to the Fourth Dental Year student who meets the required standards of scholarship, and who stands highest in the Fourth Dental Year subjects pertaining to Dentistry for Children, both clinical and theoretical.

The Alpha Omega Fraternity, a continent-wide dental fraternity has made available to this Dental Faculty and others on the continent, an award to be known as the Alpha Omega Scholarship Award. A silver medal mounted on an ebony base, with a small certificate, framed and attached to the above plaque is offered as an award to the student who stands highest in his class throughout the four dental years. No restrictions are placed on membership in the fraternity. We again express our deep appreciation for this further evidence of the generosity and interest of the Alpha Omega Fraternity.

The problem of admission of displaced persons is no less acute than at the time of my last report. An interview is held with at least one of these applicants every week.

Recently a survey of the Faculty records was made for the purpose of examining the relationship of the origin of dental students and the present location of those same individuals as graduates. It was drawn up on a Province by Province basis and covered the period 1926-1948 (23 years). See the table which follows:

Tabulation showing origin of dental students and their present location as graduates, by provinces:

1926-1948						
Period of 23 years — 1201 students						
	Origin of Student			Present Location		
	Total	Average per year	%	Total	Average per year	%
Ontario	757	33.0	64.0	768	33.1	64
Saskatchewan	101	4.4	8.0	41	1.8	3
Manitoba	102	4.4	8.0	61	2.6	5
British Columbia	33	1.4	2.7	69	3.0	6
Alberta	22	1.0	1.9	34	1.5	3
Maritimes & Que.	25	1.1	2.0	12	.5	1
U. S. A.	30	1.3	2.5	54	2.3	4
Empire	131	5.7	10.9	167*	7.3	14

* Empire, deceased, unknown.

It will be noted that for this period (1926-1948) the average class is 52 students, of which 33 (63%) originated and remained in Ontario. Of the students who originated in Manitoba, Saskatchewan and the Maritimes, approximately one-half returned to their home province while British Columbia, Alberta and the United States gained in the same proportion.

The table for 1949-50 which appears below, indicates that the Ontario representation has risen to 84%:

Students Registered in Faculty **1949 - 1950**

Origin of Student	Total	Percentage
Ontario	442	84.0
Saskatchewan	34	6.3
Manitoba	26	4.8
British Columbia	24	4.4
Alberta	7	
Maritimes and Quebec	3	
U. S. A.	3	
Empire *	0	
	539	

The average class today 108 students.

* None accepted during sessions 1949-51.

Overcrowding in the Clinic:

With 170 students in the Fourth Dental Year, and 152 in the Third Dental Year, it was found necessary to limit active clinical practice in the Clinic to the Fourth Dental Year for the time being. The Third Year students have been assigned to observation and to assist the Fourth Year students wherever possible. A few departments for example, Radiology, have been able to provide the Third Year students with a few clinic assignments. Several laboratory courses which are given in the Third Year were scheduled for the Christmas Term. It is anticipated that the transfer of responsibility in the clinic from the Fourth to the Third Dental Year will take place about the end of February. With the number involved, this transfer may take several weeks.

Staff:

Very few changes are recorded with the commencement of the new session. Dr. H. H. Cummer retired on the 30th of June 1949, after many years of faithful service.

Dr. Robert E. Moyers' appointment as Professor of Orthodontics and Head of the Department, became effective on July 1st, and Dr. J. B. Macdonald, Assistant Professor of Bacteriology returned to the staff on a half-time basis after two years of postgraduate study and research in the field of Bacteriology.

Staff promotions included: Dr. Owen J. Yule from Associate in Dentistry to Assistant Professor; and twelve members of the staff from Demonstrators to Associates in Dentistry as follows: C. E. Aho, J. L. Chalmers, M. J. Gibson, A. E. Hobden, W. R. Jackson, D. H. J. MacDonald, D. S. Moore, J. E. Moser, F. T. Pearson, M. N. Rockman, H. J. Wildfong, and A. W. S. Wood.

Appointments as Demonstrators in Dentistry have been accepted by Drs. Charlotte Whitney, R. Brown, G. R. Goodine and A. C. Robinson.

Building Alterations:

Alterations in the building during the summer months have included much-needed additional bookshelves space in the Library; consolidation of the limited space available in the Radiology department, including the installation of a Broadbent-Bolton Cephalometer, Higley Cephalostatic equipment, and a Hodge's maxillofacial unit; major alterations on the fourth floor to provide separate quarters for the expanding program of post-graduate, graduate and continuation courses; and new headquarters for the Orthodontic Department.

Continuation Courses:

A series of twelve short continuation courses for graduates in dentistry has been included in the 1949-50 program of continuing dental education. Financial assistance from the W. K. Kellogg Foun-

dation has been continued and the teaching staff for each course includes outstanding visiting lecturers and clinicians.

The first course, "Applied Anatomy for Dentists" was completed successfully September 14, 15 and 16, under the direction of Dr. J. C. Watt, Professor of Anatomy, University of Toronto, with six dentists enrolled. The enrolment of 12 graduates for the course in Periodontia, (September 26-30) included eight members of the dental profession from the United States. Both these courses were eminently successful. The remainder of the program for this session includes: Endodontia, December 5-9; Operative Dentistry, February 13-17; Radiography, February 27-March 3; Partial Denture Prosthesis, March 6-10; Crown and Bridge Prosthesis, March 27-31; Orthodontics, April 17-21; Minor Dental Surgery, April 17-21; Pedodontia, April 24-28.

Conference—Dental Public Health:

During the three days November 10-12 the conference arranged by the Department of Dental Public Health was attended by 41 members of the profession who are interested in or actively engaged in Dental Public Health. The wide distribution of enrolment is indicated as follows: Toronto 16; Hamilton 3; Ottawa and Niagara Falls, each 2; and one from each of the following: Owen Sound, Grimsby, St. Catharines, Willowdale, Kitchener, Welland, Cannington, Belleville, Milton, Sudbury, London, Peterborough and Lucknow. In addition the six men registered in the Dental Public Health Course attended most of the sessions. These graduate students represent the provinces of British Columbia, Saskatchewan, Ontario and Quebec.

Guest lecturers on the program included Dr. Harold Hillenbrand, Secretary, American Dental Association; Dr. E. W. McHenry, Professor of Public Health Nutrition at the School of Hygiene and Mr. D. B. W. Reid, Assistant Professor of Biometrics, School of Hygiene and Connaught Laboratories. The Director of the School of Hygiene, Dr. R. D. Defries, Dr. H. W. Reid, Dr. R. R. Butler, Dr. H. Thomson, and Dr. W. J. Dunn assisted six members of the staff of the Faculty of Dentistry in the Conference program. The subjects discussed during the course of the Conference included: "Definition and policy as it relates to Dental Public Health programs", "Statistical methods and a consideration of dental records", "Review of United States programs and policies", "Program planning in the field", "Nutrition education as it relates to dental public health", "A consideration of preventive or control measures from the viewpoint of the periodontist, orthodontist and general practitioner", and "Educational methods in dental health programs". Ample opportunity for discussion was provided those in attendance, throughout the conference and toward the end of the Conference, certain resolutions were introduced concerning matters related to Dental Public Health problems.

Telephone Extension Course:

The lectures being broadcast by telephone from the University of Illinois have been picked up and made available to members of the staff, as a project in continuing education for the staff. The topics for discussion are as follows:

Recent Advances in Caries Control

Pain in Dentistry

Nutrition in Dentistry

Dentistry for Children

The Masticatory Mechanism in Reconstructive Dentistry

Oral Diagnosis and Cancer Control

The first two programs are complete at this date. The reception in our lecture room was highly satisfactory.

Open House in the Dental Building:

On Sunday afternoon October 30th, during the second annual celebration of Homecoming Weekend in the University, the Dental

Building was open to dental graduates, parents and families of students, and members of the staff. Through the cordial co-operation of the Dental Alumni Association, the Students' Parliament, the Royal College of Dental Surgeons and the members of the Faculty, 475 people visited the building. Members of the graduating class provided capable guide service for tours of the building, and the student nurses in training assisted with refreshments which were provided by the organizations co-operating with the Faculty.

Celebration of 75 years of Dental Education:

The invitation of the Faculty to the Committee planning the joint C.D.A. - O.D.A. Convention, May 15-17, 1950, to hold the Wednesday afternoon session in the Dental Building was accepted. Mr. John Fisher, of C.B.C. fame has accepted an invitation to address the luncheon on Monday, May 15th, on the subject of "75 years of Dental Education in Canada".

It is hoped that a very large group of graduates of this Faculty will avail themselves of this opportunity to return to their Alma Mater.

Dental Hygienists:

As reported in May 1949, the difficulties encountered in providing space for a course for dental hygienists made it impossible to commence such a course in September 1949. Little improvement in the situation has been experienced so far and I am not able to give any assurance at this date when the training of hygienists can begin.

Indentureship:

In the report submitted one year ago it was intimated that the Faculty contemplated recommending discontinuance of the policy of accepting "three months indentureship with a duly qualified ethical practitioner" in lieu of six weeks in the faculty clinic between the Third and Fourth Dental Years.

An expression of opinion from this Board on this proposed change would be welcome at this time because such a policy will be submitted to the Faculty Council at an early meeting. It is planned that preliminary notice of this change, if it is approved by the Council, would be announced in the next issue of the Faculty Calendar, and to become operative in the summer of 1951.

General Items:

Distinction has been brought to the Faculty of Dentistry by members of the staff who have been honoured since our last report to this Board. Dr. W. G. McIntosh was selected to accompany a team of dental teachers who visited Europe during the past summer under the joint auspices of the International Refugee Organization and the Unitarian Service Committee. They conducted a course in Hamburg, for displaced dentists in Europe who had been denied continuing dental education during the past ten years.

Dr. G. Vernon Fisk was elected President of the Canadian Dental Association, and Dr. R. P. Lowery was chosen as Vice-President for the ensuing year. Dr. S. A. McGregor was admitted to Fellowship in the International College of Dentists.

The helpful assistance and co-operation of the Board of Directors of the Royal College of Dental Surgeons is always deeply appreciated by the members of the Faculty.

All of which is respectfully submitted.

ROY G. ELLIS, Dean.

Motion: "That the report of the Faculty of Dentistry as presented by Dean Ellis be received and adopted." Carried.

REPORT OF THE FACULTY OF DENTISTRY UNIVERSITY OF TORONTO

At Annual Meeting.

To the Board of Directors, R.C.D.S. of Ontario.

Gentlemen:

At the Fall meeting of this Board the report from the Faculty of Dentistry included registration figures; a summary of new prizes and scholarships; the results of a survey for the period 1926-1948 showing the origin of dental students and their present location as graduates; staff changes for the present session; the report of a Conference on Dental Public Health, and other items of interest to this Board.

It is with deep regret we record the passing of Miss F. Cook on December 2, 1949, who for many years served very efficiently as Secretary to the late Dean W. Seccombe; the Dean Emeritus Arnold D. Mason, and for a brief period the present incumbent of the Dean's Office.

The sudden death of Assistant Dean Thomas Cowling on April 16, 1950, shocked his colleagues and removed from our midst one who had served his profession and dental education with distinction for 37 years. Dr. Cowling will be greatly missed by students and staff, but his many contributions to dentistry will remain as living memorials to his good works.

With a class of approximately 170 students, (including three women), graduating this spring and a limitation of 65 to be admitted to the Predental Year, and making allowance for those who will be admitted with advanced standing to the First Dental Year, it is presently anticipated that the total registration of 583 (1949-1950), will drop to approximately 500 for the 1950-1951 Session.

Reference to the subject of prospective student registration for next Session, presents an opportunity to introduce two situations which might affect the total registration next fall. The Council of the Faculty, at its regular meeting on March 6, 1950, deliberated upon, and recommended that a few displaced European dentists be admitted to the Faculty in September, 1950, and that a course for Dental Hygienists be established to commence next fall.

Displaced Dentists:

With the action of the Council on Dental Education of the Canadian Dental Association in mind, and after due consideration of all the factors involved, the Council of the Faculty of Dentistry passed the following resolution on February 6.

"That a limited number of Displaced Persons be admitted to the Faculty in Session 1950-1951."

The first year of this minimum two-year course which these students will be required to complete will comprise a combination of the subjects of the regular second and third Dental Year. The primary considerations governing the choice of subjects to be included in the first year were, (1) To provide fundamental preclinical training in the subjects of reparative dentistry; (2) To provide enough of the basic biological subjects to test the often-repeated claim that these graduates have adequate knowledge in these subjects; (3) To provide complete courses in certain subjects in which it is believed their previous training would be very limited, e.g. Periodontics and Orthodontics.

The tentative outline of the content of the first year of the course is as follows:

UNIVERSITY OF TORONTO
FACULTY OF DENTISTRY
Combined Second-Third Year Dentistry

Prepared tentatively for Graduate dentists from European areas

Subjects to be included	Lecture	Laboratory	Total	Grade
Second Year				
Operative Dentistry		210	210	Term Mark
Prosthetic Dentistry		210	210	Term Mark
Pharmacology	8	45	53	Final Exam Paper
Biochemistry	36	30	66	Final Exam Paper
Nutrition	15		15	
Dental Surgery	14		14	
Third Year				
Periodontology	7		7	
Orthodontics	15		15	
Periodontology	15		15	Final Exam Paper
Preventive	20	5	25	Final Exam Paper
General Surgery	12		12	Final Exam Paper
Radiology	5	6 /- (15c)	26	Term Mark
Orthodontics	14	56 /- (c)	70	Final Exam Paper
Dental Surgery	14	5 (c)	19	Final Exam Paper
	175	582	757	3 Term Mark 7 Final Exam

Subjects Omitted

- Second Year — Applied Chemistry
- Second Year — Bacteriology
- Second Year — Physiology
- Third Year — Medicine (a course given in Fourth Year)
- Third Year — Pathology
- Third Year — Applied Physics
- Third Year — Prosthetics and Operative (courses in Fourth Year)
- Third Year — Ceramics (could take in Fourth Year)
- Third Year — Crown and Bridge (could take in Fourth Year)

Dental Hygienists:

Pursuant to the many requests and inquiries of this Board and other health organizations, for the establishment of a course for Dental Hygienists, the Council of the Faculty at its meeting on March 6 discussed a proposal submitted by the Executive Committee of the Faculty for action in this matter. The following resolution was adopted and subsequently submitted to the Secretary of the Senate of the University for consideration by that body.

Proposed Two-Year Course Leading to a Diploma in Dental Hygiene

The Council of the Faculty of Dentistry at a meeting held on March 6th, 1950, passed the following recommendation:

1. That a course for Dental Hygienists be established in the Faculty of Dentistry, beginning in the session 1950-1951.
2. That the course extend over a period of two academic years, with the award of a diploma upon the successful completion of the course.
3. That the requirements for admission be:
 - (1) The candidate for admission shall have passed her eighteenth birthday by October 1st of the year in which she is admitted.
 - (2) She shall submit with her application for admission the Ontario Secondary School Graduation Diploma in the General Course (Grade XII) showing credit in the compulsory subjects and in at least four of the optional subjects.

- (3) She shall submit certificates for the following subjects of Grade XIII (or equivalent certificates).

ENGLISH

MATHEMATICS (two of Algebra, Geometry, Trigonometry)

SCIENCE (two of Botany, Chemistry, Physics, Zoology)

One of FRENCH

GERMAN

GREEK

ITALIAN or SPANISH

LATIN

One of HISTORY

MATHEMATICS (a paper not already chosen)

MUSIC

SCIENCE (2 papers not already chosen)

A second foreign language (2 papers)

4. That the content of the course be as follows:

FIRST YEAR		SECOND YEAR	
Subject	Hours	Subject	Hours
Anatomy (Microscopic, Gross Oral)	215	Diet and Nutrition	100
Bacteriology	108	Physiology	120
Chemistry (Inorganic, Organic)	60	Dental Public Health	105
Dental Technology	90	Office Assistance	90
Dental Public Health	105	Dental Pathology	75
Oral Prophylaxis	180	Pharmacology	15
Psychology	60	Oral Prophylaxis	225
English	90	Psychology	60
		Radiology	120
		English	30
	908		940

In view of the fact that this resolution requests the establishment of a new diploma, it must pass through a committee stage and therefore it has not yet reached the Senate for action. Details respecting course content of the two-year programme have been advanced as far as the present status of the establishment of the course will allow, and further action must await approval by the Senate and the Board of Governors of the University. A list of prospective applicants for the course is being maintained to expedite action if the course should be approved in time to commence it in September, 1950.

Curriculum Changes:

A study of the dental curriculum has been in progress for two years. Following a two-day meeting of the Heads of Departments on December 19, 20, a recommendation respecting certain changes affecting the Predental and First Dental Years for the Session 1950-1951 was submitted by the Executive Committee to the Council on February 1. After considerable discussion, the Council approved the following revision of these two years:

Predental Year—

- (1) That the subject of Organic Chemistry, presently taught in the First Dental Year be moved back to the Predental Year.
- (2) That in accordance with the recommendation of the Department of Zoology, Comparative Dental Anatomy, which is included in the Zoology course of the Predental Year, be moved to the First Dental Year.
- (3) That the length of the Predental Year be reduced to approximately 25 weeks to conform to the practice of the Faculty of Arts.

First Dental Year—

(1) That the curriculum of the First Dental Year be as follows:

	Lecture	Laboratory	Total
Anatomy, Gross	60	180	240
Anatomy, Microscopic	60	120	180
Anatomy, Comparative Dental	15	36	51
Anatomy, Oral	60	120	180
Dental Metall'y and Techn'y	30	120	150
Clinical Orientation		60	60
Physical Education			60
TOTALS	225	636	921

(2) It will be noted that the subjects of Preclinical Operative Dentistry and Preclinical Prosthetic Dentistry have been eliminated from the curriculum but within the content of the subject of Dental Metallurgy and Technology the basic principles relating to these two important subjects will be included.

Staff Notes—

During the present Session, the staff of the Faculty numbered 125. This figure comprises 12 full-time members, 7 half-time; 72 part-time; 9 office and library personnel; 15 nurses, and 10 technicians. There are 12 members of the teaching staff who have had one or more years of graduate training in other universities, and three members are away this session proceeding with advanced study in preparation for a career in teaching and research. Those who are away at the present time include Dr. G. Nikiforuk (studying Biochemistry at the University of Illinois); Dr. J. Paynter (Anatomy at Columbia); and Dr. R. D. Coleman (Oral Medicine at California).

In a report submitted recently to the W. K. Kellogg Foundation on the subject of "Fellowships for Teacher Training", we stated that during the four-year period September 1946 to June 1950, seven members of the Staff have held fellowships totalling in all, 11 years (four men each held a fellowship for 2 years). Five of these fellowships have been provided by the W. K. Kellogg Foundation, and at the request of the Foundation, our submission included details of a projected five year programme commencing September, 1950, which indicated we could recommend at least two members of the staff for Fellowships during each year of this period. It is with satisfaction we note a comment by President Smith in his Annual Report to the Governors and Senate of the University of Toronto for the year ending June, 1949. The President says, "I commend to you a perusal of Dean Ellis' report, in which he describes the benefits of his programme of teacher preparation. The selection and postgraduate training of first-class graduates to fit them for places on the teaching staff are redounding to the progress of the Faculty".

The influence of the men who have had postgraduate training should soon be reflected in both the number of research projects under investigation by members of the staff, and in the number of papers which are appearing in the dental literature emanating from the staff. A review of the records in relation to these two criteria indicates that research projects reported to be 9, four years ago, number 19 today, and papers published have risen from 4 to 26. (While the war period may have influenced the first figure, the latter was subject to a period of extreme pressure with overcrowded classes.)

A recent study of the relationship of the teaching load carried by the part-time teacher versus the full-time teacher was compared with Harlan H. Horner's study of 28 dental schools in the United States. A summary of the results appear below:

United States**Toronto****Clinical**

Full time 60%
Part Time 40%

Full time 30%
Part time 70%

Basic Courses

Full time 40%
Part time 60%

Full time 30%
Part time 70%

While it is a very debatable point as to the ideal policy respecting the division of the teaching load, it would appear that a 50-50 distribution between full time and part time would assure continuity and co-ordination of teaching, and a strong measure of realistic application to clinical practice.

Services for Graduates:

(1) Consultation Service. Up to the time of preparation of this report, 141 formal requests for advice and consultation on difficult or unusual cases were received. In addition to these many direct consultations are held with members of the staff, and these cases do not appear in the official records. Dental Pathology attended to 76 requests for a report on biopsy specimens; the Orthodontics Department aided in 26 cases, Radiology in 10 and the balance of requests were distributed among the departments.

(2) Library. The librarian will be reporting on this aspect of Faculty activity, but we encourage graduates to use the services of the library.

(3) Extramural Lectures. 36 lectures (an increase of 3 over 1948-1949) were arranged and given in co-operation with the Royal College of Dental Surgeons in 27 different Ontario centers, with approximately 1047 dentists in attendance.

(4) Continuation Courses. An active programme of short courses for graduates during the session included 11 courses with a total registration of 196 graduates from all over the United States and Canada. Visiting clinicians who took part in the instruction in these courses included Dr. Ralph E. Sommer, (Endodontics December 5-9); Drs. L. C. Shultz and E. C. Miller (Operative February 13-17); Drs. Clarence O. Simpson, Keith Bonner, and J. P. Coupland, (Radiology February 27-March 3); Drs. L. B. Higley and H. Broadbent (Cephalostatic techniques April 13-15); Drs. Reed Dingman and F. W. Clement (Oral Surgery, April 17-21); Dr. Burdette L. Gainsforth, (Orthodontics April 17-21); Dr. Philip Jay, (Pedodontics April 24-28); Dr. Hermann Becks (Nutrition May 18-20). The staff of the Faculty ably supported these men, to provide a series of very successful concentrated courses.

A comprehensive schedule of similar courses is planned for the 1950-1951 session.

Honours to Staff

Dr. H. K. Box was honoured recently, this time by the American Academy of Periodontology. Dr. Box's selection as the sixth honorary member of this important body provided further recognition of his outstanding contributions to the science of Periodontology. Dr. R. E. Moyers was the winner of the \$500 Research Prize awarded by the American Association of Orthodontics. This signal honour was made for his work on muscle physiology.

Miscellaneous Items:

Following a recent decision of the Faculty Council, an application has been made for the establishment in this Faculty of a Chapter of the Omicron Kappa Upsilon Honour Society.

Upon the conclusion of the 1949-1950 series of round-table discussions sponsored by the University of Illinois, and broadcast by telephone, the Staff of this Faculty decided not to subscribe for the 1950-1951 series.

The Calendar of the Faculty for the coming Session has been radically revised in keeping with economy requirements. A separate brochure embracing all forms of dental education beyond graduation is being prepared.

This Faculty was privileged to act as host to the Council on Dental Education of the Canadian Dental Association at the meeting held on January 16 and 17. The discussions were informative and will contribute much to the formulation of constructive educational policies for Canadian dentistry.

Students from the Toronto school participated again in the Children's Dental Health Day programmes in Cleveland and Ottawa during the session. The introduction of student table clinics on these programmes has apparently proved to be very successful.

A total of 69 students received financial assistance through Scholarships, Bursaries, Loans, etc., during the 1949-1950 Session.

At a meeting of the Faculty Council on February 6, 1950, the following resolution respecting indentureship was adopted, "that commencing with the summer of 1951, indentureship with a practicing dentist be not accepted in lieu of the required six-week period in the Faculty clinic during the summer months."

Fortnightly research Seminars were introduced on Monday, December 12, initiating a programme designed to give members of the staff engaged in or interested in dental research an opportunity to discuss phases of their problems. Under the able leadership of Dr. J. B. MacDonald, the enthusiasm shown for these Seminars augurs well for the future programme.

In conclusion, on behalf of every member of the staff of the Faculty of Dentistry, let me express a very sincere "thank you" for continued moral and financial support. It has been said that, "a professional school needs the support of every alumnus if it is to survive". The example provided the members of the profession by the Board of Directors of the Royal College of Dental Surgeons is greatly appreciated.

All of which is respectfully submitted.

ROY G. ELLIS, Dean.

Motion: "That the report of the Faculty of Dentistry be received and adopted." Carried.

Motion: "We note with pride the continued and effective advancement in graduate and undergraduate education in the Faculty of Dentistry, University of Toronto, and desire to express our sincere appreciation to Dean Ellis and his colleagues and commend them for their efforts on behalf of the profession." Carried.

REPORT ON EXAMINATIONS

Faculty Examinations

Dean Ellis met the Board and presented a detailed report respecting the marks obtained by each individual applicant for registration.

The members of the Board considered the report and took the following action:

Motion: That the following having fulfilled all requirements of this Board be granted the L.D.S. Certificate: Agate, Thomas Elwood; Aggett, John Gilmore; Ainger, James Luxton; Allison, George McCoy; Anderson, Donald Robert; Andrews, Andrew George; Banting, William Arthur; Barts, Donald Vincent; Bates Paul Alfreda; Beierl, Charles Douglas; Bennett, Paul; Boland, William Lawrence; Boulton, Geoffrey; Bowie, Jack William; Box, Keith Fenton; Boyko, William Bradley, Edmund Philip; Brown, Irving Shipley; Brown, Thomas Alan;

Bugden, Herbert Chesley; Burgman, William Albert; Burt, William Ward; Callingham, John Roland; Campbell, William Frederick; Carefoot, John Miller; Caverly, Stuart Eric; Copeland, Gerald Palmer; Costigan, Roy Louis; Cowburn, Herbert Houston; Craig, Cameron Arthur; Crockford, Morley John; Cumberland, Thomas Joseph; Currie, Francis Vaughan; Davis, Donald Smith; Ditchoff, John Thomas; Donely, John Murray Alexander; Donnelly, Hugh Thomas Peter; Downer, Walter John; Dyer, John Carman; Epp, Benjamin; Evans, Richard Franklin; Farley, Charles Harry Henry; Fell, Robert Allen; Ferguson, James Allan; Fleming, William; Florence, Max; Fox, Saul; Galvin, John Maxwell; Gelmon, Abraham; Gill, Daphne Joyce; Glenn, Robert David; Graff, John Edward; Griffeth, William Hugh; Guenther, Robert George; Hague, William Patrick; Haldenby, Frederick James; Hannigan, Lionel Victor; Hare, Gordon Edgar; Harley, Blake Minor; Harris, Arthur John; Harris, Ralph Gordon; Hastings, Lionel Edward; Hellen, Harold Jack; Henderson, Harold Raymond; Herod, Bruce William; Herron, Vernon Alexander; Hollinger, John Malcolm; Holt, Patrick Ferguson; Horne, Robert Lorraine; Huffman, Christopher William; Hunter, William Stuart; Jackson, Bruce Madill, Jackson, Marjorie; Jarvis, Albert; Jones, Ewart Arthur; Jones, Stephen Harold; Joynt, Laird George; Kennedy, William Edward; Lamping, Joseph Donihee; Langdon, Ralph William; Lazarowich, Morris John; Ledlow, John Douglas; MacDiarmid, John Edward; MacDonald, Harvey William; McDonald, Donald Blair; McLay, Glenn Orison; McLean, John Duncan; McLean, William Mark; McLeod, Douglas John; McMillan, Russell Stewart; McNiece, Eric James; McQueen, Duncan Thomas; Macintosh, John George Stewart; Maclean, Margaret Winnifred; Mass, Bernard Philip; Mednick, Irving; Merritt, Ralph Allen; Mewha, Robert; Millar, James Ghent; Millar, Myron Russell; Milne, George Turnbull; Moore, Wesley Robert; Morris, Garfield Cameron; Mullen, William John; Muller, Sidney William; Mulvin, Robert Wallis; Munn, Patrick Van Allen; Nanos, Evan; Nesbitt, Frank Mortimer; Ng, Sui Ching; Nikiforuk, John; Norquay, John Scott; Oldfield, William Foster; Palmer, Donald Bradney; Peterson, George Aitken; Paterson, William Stanton; Patrick, William Robert; Pearson, Richard Cameron; Perdicaris, James; Perlmutter, Gordon; Peterkin, Stuart Tindale; Phillips, Lionel Rupert; Porterfield, Robert Donald; Pottinger, Edmund Newton; Pritchard, Wilmer John; Proctor, Donald Balster; Puterbough, Carl Cooper; Rasmussen, Roy Leon; Rife, Donald Logan; Routley, Keith Newton; Ryan, Richard Kenneth; Sanderson, Robert Miles; Scrutton, Alexander Vincent; Servos, Frederick James; Shaul, Norman William; Shaw, Robert McLean; Shore (Zaidman) Philip; Sills, Paul Sidney; Sim, James; Smelsky, Carl Metro; Smith, John Malcolm; Smith, Sydney Percival; Snidal, Marino James; Staite, Eric Kingsley; Starr, George Joseph; Stephens, Russell George; Stewart, George Hector; Svalestuen, Richard; Switzer, Franklyn Grey; Taylor, William Knarston; Temple, Findlay Alexander; Thompson, Donald Lloyd; Thompson, Kenneth MacDonald; Travers, Henry George; Vickery, John Charles; Wagg, Donald Arthur; Walker, Edward Stirling; Walker, Murney James; Watson, Stanley Herbert; White, Thomas Gordon; Whiteman, Duart Elmore; Whyte, John Alan; Wilson, James Walter; Wilson,

Robert George; Wolch, Marvin Edmund; Wood, Frederick Thomas; Woodger, Gerald Lorne; Woolidge, Roy Gordon; Zimbalatte, Rocci Stephen.

Motion: "That in the case of Sui Ching Ng, By-Law #6, Section I (f) be waived, and that he be granted an L.D.S. Certificate, provided he completes all other requirements." Carried.

Board Examination:

One candidate, Dr. Robert Edison Moyers, a graduate of State University of Iowa College of Dentistry, took and passed the Board Examination during the year.

Motion: "That Robert Edison Moyers be granted the L.D.S. Certificate". Carried.

Certification as Specialists

The following members of the College were certified as specialists during the year:

David Harvey Jenkins — as a specialist in Orthodontics
Reynold Albert Erickson — as a specialist in Orthodontics
Wilfred Bruce Malloch — as a specialist in Orthodontics
Aaron Louis Posen — as a specialist in Orthodontics.

LIBRARIAN'S ANNUAL REPORT

Mr. Chairman and Members of the Board:

I have pleasure in presenting the Annual Report of the activities of the Harry R. Abbott Memorial Library for the year ending April 30th, 1950.

Circulation figures for the past three years are appended to this report. Faculty borrowings for the year show a decrease, but undergraduate borrowings show a sizeable increase. Graduate borrowings remain constant, and in all, nearly fourteen thousand loans were made during the year. This is exclusive of the books borrowed for the use in the reading room, of which no record is kept, but which has shown a satisfactory increase. (

During the year, 100 new books were added to the Library, bringing most of our back orders up to date. There are still 74 books outstanding from this year's orders, but the wartime lag in supply has disappeared, and these should come to hand in due course.

Certain changes in internal policy have occurred during the year. At the request of the University librarian, we have assumed the responsibility of the annual stock-taking of the entire collection. The inventory of the University collection had formerly been taken by a member of the staff of the University Library. Also, through arrangement with the University Librarian, we will henceforth prepare and send our periodicals directly to the bindery, which should very materially facilitate our library procedures, and shorten the time that the journals are out of circulation.

I am pleased to report that the Faculty Library has received a very substantial increase in its appropriation, placing us on a much more satisfactory comparative basis on the campus. The interest and support of the University in this instance is deeply appreciated and herewith acknowledged.

Certain physical rearrangements have also been made. The addition of the book shelves on the north wall has not only improved library service, but has added materially to the appearance of the room. Due to previous changes in the stacks, the large counter in the library no longer fulfilled its original purpose, so that it has been removed, with sections of it being positioned against the south wall, thus gaining not only much needed floor space, but also aesthetic improvement. Carved oaken crests in high relief are also being

secured for placement on the panels on the north wall to emphasize the dual nature of the collection.

The Library acknowledges with thanks the many donations of books, periodicals and museum specimens that it has received. Special mention should be made of the donation of Mrs. Grieve of the valuable collection of the late Dr. George Grieve.

The above mentioned physical rearrangements have necessitated a serious curtailment in museum display space, resulting in some of the display cases and specimens being placed in storage. A permanent storage room has been secured on the mezzanine floor and from this central storage depot it is proposed to maintain a rotating exhibit in the Library until such time as better facilities are afforded.

The Assistant Librarian, Miss Bradley, is currently acting as Treasurer of the Special Libraries Association of Toronto and is presenting a paper on the programme of the Medical Library Association in Boston in June. Such contacts and activities are broadening and should be encouraged.

The assistance received from the Board and the Library Committee is gratefully acknowledged and this report is respectfully submitted with the recommendation that the customary grant for the ensuing year be made.

Library Statistics					
Year	Faculty	Students	Graduates	Period	Total
1947-48	508	7,502	990	2,727	10,727
1948-49	582	8,498	630	3,250	12,960
1949-50	494	8,818	634	3,114	13,060

J. H. JOHNSON, Librarian.

Motion: "That the report of the Librarian be received and adopted." Carried.

Motion: "That Dr. J. H. Johnson be re-appointed Librarian for the ensuing year." Carried.

REPORT OF THE REPRESENTATIVE ON THE DOMINION DENTAL COUNCIL

Mr. Chairman and Members of the Board of Directors:

At date of writing, no meeting of this Council has taken place since I have been appointed representative. Of necessity, all business has been transacted by correspondence and I am very free to admit that your member has found it a bit difficult to step into the position so ably held by your worthy representative, Dr. Campbell for such a long time.

In January, a meeting of the Council on Dental Education was held in Toronto, which I attended along with Dr. H. L. Freeland of Calgary, President of the Dominion Dental Council, and I herewith submit a brief summary of that part of the session as concerns the D.D.C.

Dr. Freeland did an outstanding piece of work in attempting to clear up some possible misunderstandings in regard to the attitude of the Dominion Dental Council in relation to the proposal of setting up a National Examining Board, and in his talk, quoted freely from the experiences which the Medical Council of Canada, an incorporated body, underwent before reaching their objective.

The D.D.C. have found that the source of greatest trouble in reaching a National Status, has been in connection with practical examinations. The matter of theoretical examinations presented no great difficulties that could not be readily handled.

In order to set up a National Board, Dr. Freeland presented written evidence from the Medical Council of Canada and recommended that we could not do better than profit by their experience

which, among other advantages has been that an independent examining authority tends to raise the standards of all teaching schools to an acceptable level.

The Medical Council of Canada does not conduct practical examinations of any kind, but leaves the power with each province to set up its own regulations in regard to that matter if they so wish. The result has been their ability to obtain the consent of all the provinces, and thus, incorporate. Let it be clearly understood that this new board will be purely an Examining Board and the licensing of any applicant is carried out by the statutory body of each province who in turn has no connection with the Examining Board.

I recommend to this Board the acceptance of the above principles for a new set-up to take the place of the D.D.C. as presently constituted and express the hope that all the provinces of the Dominion may do likewise.

I also request the privilege of adding an appendage to this report following the meeting of this Council, May 11th-13th.

Following is a summary of the 1949 Examinations—

53 wrote the Examination in the Spring.

Of these, 20 failed—

5 because of low averages

5 failed in their clinical

11 of the 20 that failed re-wrote and 5 took the clinical and passed

One man failed in the Spring, wrote a special supplemental and failed it. Re-wrote at the regular supplemental examination and passed. His marks were—39, 46, 83 in oral medicine.

At the Supplemental Examination in the Fall, besides the men writing supplementals, two other candidates wrote the entire examination and passed.

The financial report for 1949 shows the D.D.C. in a very favorable financial position. The past year showed a profit of \$1,078.78 as against a deficit for 1948 of \$4,825.10. However, this last amount contains a grant of \$1,000.00 to the Canadian Dental Association.

All of which is respectfully submitted.

ROY O. WINN, D.D.C. Representative.

APPENDAGE TO DOMINION COUNCIL REPORT

The following is a report of the meeting of this Council just concluded, held at the Royal York Hotel, May 11-15, 1950:

I would mention first the change in the name from Dominion Dental Council of Canada to Dental Council of Canada, this change being made for obvious reasons. Hereafter, I shall use the term D.C.C. instead of D.D.C.

Permit me to say that during a great part of our deliberations, a feeling of uncertainty prevailed due to the possibility of a National Examining Board coming into existence at a reasonably early date, thus, rendering the D.C.C. unnecessary and superfluous.

The acceptance by the C.D.A. of the recommendation of the Canadian Council on Dental Education, that an attempt be made to form such a Board to which all ten Provinces would subscribe and agree, thus enabling the formation of a corporate body, was always in the background and it proved rather confusing and frustrating to proceed with the alteration of many of our By-Laws, which we had in mind.

I wish however, to assure this Board that the attitude of the D.C.C. is and will be, to promote every effort and lend every support to the successful formation of a National Examining Body. The D.C.C. has striven for forty-eight years to attain this objective, and failed, possibly through fault on their part and possibly due to circumstances which only the passage of time will eliminate, and a broadening give and take attitude by all provinces surely facilitate.

The pages of history are replete with the trials and errors of really great men in their attempt to promote national and world unity, and many great advancements in our Education standards as they stand to-day, have only been accomplished by persistence and perseverance.

The D.C.C. still and always will, as long as it is in existence, strive to promote national unity in Dentistry in the ten provinces, whether it be through their own Council as presently set up, or through any other constituted group who believe they can accomplish what we have failed to do.

I trust that in these few remarks I have, with reasonable clarity, stated the position of the D.C.C. in regards to forming a corporate examining body, in any case I assure you we have acted with complete sincerity.

I now submit briefly to this Board, for their approval, the following resolutions, all passed unanimously, by the D.C.C. (a copy of all motions will be available to each board member within a few days.)

As of July 1st, 1950, all clinical examinations be eliminated, the applicant for a D.C.C. certificate be required only to pass a written examination. (the applicant must naturally pass the clinical examinations of the College granting him his license to practise Dentistry) Should this Board disagree in the above resolution, the Secretary of this Board is asked to provide the Secretary of the D.C.C. with a resolution registering our protest.

Section 11 (page 2) in the By-Laws of the D.C.C. be changed to read as follows:

The Dental Council of Canada is not a licensing body, but anyone who secures the certificate of the Dental Council of Canada by examination is registered on the Register of the Dental Council of Canada. This certificate entitles him to apply for registration to practise dentistry in any of the provinces entering into agreement under the regulations of the Dental Council of Canada.

TO WHOM CERTIFICATES OF QUALIFICATION SHALL BE GRANTED:

The following classes are eligible for certificates of qualification by meeting the standard erected for each as follows:

CLASS A

Canadian citizens who are graduates of dental schools of Canada or the United States of America which are approved by the Council on Dental Education of the Canadian Dental Association and who have complied with the following requirements:

- (a) The presentation to the Secretary of the Dental Council of Canada of an enabling certificate which he obtains from the Registrar of the legal dental body of the province in which he resides.

This certificate states that the candidate has complied with all the requirements relating to preliminary education (consisting of at least two years in arts and science, which includes physics, chemistry, biology, French or English), matriculation, dental curriculum and graduation, and his eligibility to write on the examinations for license to practise dentistry in that province.

- (b) A Class "A" candidate who does not complete his examination in five years shall automatically become a Class "D" candidate.

CLASS D

Any holder of any valid and unforfeited certificate which has been registered in any of the agreeing provinces and who produces proof of having had pre-dental education equal to two

years in arts and sciences, which includes physics, chemistry, biology, French or English, in any recognized University of an agreeing province and has graduated from a Dental School in any of the agreeing provinces and who has been in regular, legal, and ethical practice of dentistry in any of the agreeing Provinces of Canada for at least five years, immediately prior to the date of application for examination, may make application to take the Dental Council of Canada examination, provided his legal, ethical and moral standard is vouched for by other members of the profession and that he pay the fee of \$150.00. Candidates for examination under Class "D" will be required to pass the same examination as Class "A". Candidates applying for Class "D" examinations shall provide an enabling certificate provided by the Registrar of the legal dental body of the province in which he practises.

Fees

Class "A" Examination	\$100.00
Class "D" Examination	150.00
Special Fall Examination	125.00
Supplemental Examination at Regular Examination Time	20.00
	per paper
Special Supplemental Examination	25.00
	per paper
Fees for Clinical Supplemental Examination	50.00

CARRIED UNANIMOUSLY

Regarding Newfoundland—If, as and when, this Province expressed their desire to enter into the D.C.C., that—all those who on..... are holders of valid and unforfeited certificates of license in Newfoundland, prior to the above date, provided their legal, ethical and moral standard is vouched for by the governing body of that province and pay the fee of \$150.00, may be granted their D.C.C. certificate.

The election of officers resulted as follows:—

President — Dr. H. L. Freeland, Calgary, Alberta.
 1st Vice-President — Dr. Heath McIntyre, Charlottetown, P.E.I.
 2nd Vice-President — Dr. R. O. Winn, Kitchener, Ontario.
 Secretary — Dr. A. J. Brett, Regina, Saskatchewan.

All of which is respectfully submitted.

ROY WINN, Representative.

Motion: "That the report of the Representative of the Dental Council of Canada be referred to the Executive Committee for further study." Carried.

REPORT OF REPRESENTATIVES TO CANADIAN DENTAL ASSOCIATION

At Fall Meeting

Board of Directors,
 Royal College of Dental Surgeons.
 Gentlemen:

The Annual Meeting of the Canadian Dental Association was held in Saskatoon in June with President Dr. H. J. Merkeley, Winnipeg, presiding as Chairman. The meeting was held for four days previous to the joint meeting of the Canadian and Western Dental Associations.

As usual there was a tremendous amount of work done in studying, discussing and reviewing twenty-eight splendid reports. The dentists of Ontario owe a great deal to the dentists who prepare these full and well prepared reports. As each dentist received a report of the transactions of the Canadian Dental Association, they now can read and realize the many hours of thought and study that is necessary for each report.

Health Insurance Report:

The general opinion of the delegates was that this gigantic report was perhaps the most important to the profession of any presented at the meeting. Among other topics it outlined a plan already in operation in the Province of Alberta. The plan is set up for welfare recipients of the Province and it has been in operation for over two years. Under this plan the Alberta government makes monthly payments to the Alberta Dental Association on a per capita basis for each recipient. The dental association in turn makes payment to the dentists of the province on a fee schedule basis. The dentists of Alberta like the plan because of the fee schedule basis and the government is pleased because they say they cannot administer it as cheaply as the dental legal body. The Board of Governors went on record as favouring this type of dental health service for any government contemplating a treatment service with the following resolution:

"Whereas the first duty of a provincial legal body is to protect the public and ensure satisfactory dental health service, and whereas the Provincial dental legal body has disciplinary powers, and whereas the profession has demonstrated its ability to administer a dental service, and whereas in our opinion a dental health service can be administered more efficiently and economically by the profession, therefore, be it resolved that this Board of Governors recommend that in a Federal Government sponsored plan for dental health care the method of payment be on a per capita basis from the Government payable to the dental legal body of each Province who shall administer these funds to provide a basic dental health maintenance service."

Dentistry as a Career:

With the sole purpose of helping parents, youth and teacher-counsellors to appraise the field of dentistry, fairly, an informative booklet has been prepared by the Committee on Public Relations. The Canadian Dental Association is not engaged in recruiting students, nor in the mere increase of enrolment in the dental schools. It does believe, however, that enlightened society in the years ahead will greatly enlarge the dental service which the public now receives, and that young men and women with good health, proven scholastic ability, a genuine bend toward scientific endeavour, and the desire to serve humanity in a career which promises reasonable material rewards and great professional satisfaction, might well consider Dentistry. The Canadian Dental Association hopes that this brochure may help many young men and women to determine wisely the choice of a career.

It can be said here that the many articles which go to make up this pamphlet were prepared by the dentists in this province and arranged and sponsored by the Dental Alumni Association.

Finance:

The estimated revenue for the year 1949 is \$47,442.00 while the estimated expenditures amount to \$51,077.62. This is not a healthy condition for business organization. The rising costs of carrying on the established activities of the Association are forging ahead of the grants of the Corporate Members.

The draft of the report of the Finance Committee to C.D.A. Executive Committee is in the hands of your President. As this draft calls for the expenditure of sums of money of this Board the President would like to receive your direction.

The Canadian Dental Association is still hoping to have a headquarters that will reflect to some degree the importance of Dentistry. Some consideration was given to the need of an Assistant to Dr. Don W. Gullett. The Journal still holds a very high place among other Dental Journals and still has to face tremendous increases in the costs of printing.

These and many other problems came before your national organization.
All of which is respectfully submitted.

C. MURRAY PURCELL,
HARVEY W. REID,
R. PERCY LOWERY,
STANLEY J. PHILLIPS.

Motion: "That the report of the Representatives to the Canadian Dental Association be received and adopted." Carried.

"That commencing May, 1951, this board make a grant to the C.D.A. on the basis of \$15.00 per capita." Carried.

Motion: "Whereas it is the considered opinion of this Board that the early acquisition of a suitable headquarters building for the C.D.A. is urgently desirable, therefore be it resolved that a capital sum up to \$40,000 be made available by the R.C.D.S. Board for the aforementioned purpose as soon as all other corporate members agree to supply an amount on the same per capita basis." Carried.

At Annual Meeting

Board of Directors of R.C.D.S.

Gentlemen:

It is my pleasure to report on behalf of delegates to the Canadian Dental Association the meeting of the C.D.A. just concluded.

Headquarters Building

Most of the delegates felt that one of the most important problems to be solved at this year's meeting of the Board of Governors of the Canadian Dental Association, was the securing of a Headquarters Building and making provision for a larger staff to assist our Secretary. Three car loads of delegates from several provinces were taken on Friday, May 12th, to see a proposed Headquarters Building at 234 St. George Street, Toronto. A tour of the whole building was made and from the remarks, the delegates were very much pleased and impressed with the building.

In the discussions that followed, the following resolution was passed — "That as soon as there are sufficient funds in the 'Housing Fund' to take care of the immediate purchase of a National Headquarters Building, the Executive Committee be empowered to proceed with the purchase and establishment of said headquarters."

As I write this report, the Executive Committee of the C.D.A. are in session and so that we may take the necessary action, I wrote Dr. Vern Fisk, asking he and Dr. Percy Lowery to come to our Board sometime during our meeting and report; also send a report of the Executive Meeting in as far as it affected our Board.

Medical and Dental Services Advisory Board

Under the Department of National Defence a body known as the Medical and Dental Services Advisory Board has been formed. The purpose of the Board is preparedness in the event of an emergency. This will necessitate the keeping of up-to-date records respecting all available personnel and resources at all times. The records of the Canadian Dental Association have been made available for this purpose. It is pointed out that the age factor would reduce the number of dentists available, if emergency occurred during the immediate years ahead, as compared to the initiation of hostilities in 1939. The Association has taken the position of co-operating fully with all the health services in the work of this Board. Dentistry is represented on the Board by one representative from each of the following bodies: The Royal Canadian Dental Corps, The Defence Dental Association, and the Canadian Dental Association. Our Secretary, Dr. Don W. Gullett was named as one of the members. The different representatives to the C.D.A. were asked to present this to their provincial Boards and that each provincial Board acquaint each member of the College in his province.

Budget

- (1) This is to be based on a \$1500 per Capita Grant.
- (2) Note that provision is made for the payment in full of the salary of the Secretary-Treasurer. It is felt that this should be done as soon as agreement of the increased grant has been reached. However, the way should be left open to the Royal College of Dental Surgeons of Ontario to employ the part-time services of the secretary, in which case, such reimbursement should be to the Association.

Council of Dental Education

- (a) In reference to National Examining Board, our recommendation is that we do not approve of clinical examination, but we hope the following plan will be accepted by the several provincial boards:
 - i Written examinations.
 - ii Oral in clinical Dentistry.Any Provincial Licensing Body may conduct Clinical examinations if they so decide, but it is the hope of the Council that the Provincial Boards may eventually recognize the National Examination as sufficient.
- (b) Displaced Persons:

The problem of displaced persons will be with us for some time to come and complications are not made any lighter by the attitude of those who support them. It is difficult to understand why these people expect us to accept a lower standard from foreigners than we do from our sons who went overseas and fought our battles. Experience has shown that their pre-professional training is very hard to assess and that some of these people who are known as dentists in Europe have little more training than technicians. It is also known now that even the best trained, require a minimum of about two years training in order to reach our standards.

Hygienists

Prince Edward Island reports an amendment to their Act permitting the establishment of a Dental Hygiene body. In Saskatchewan, by-laws regulating hygienists have been approved by the Minister of Health and become effective April 1st, 1950.

In Nova Scotia, amendments regarding hygienists were introduced, but as yet, were still under consideration by the legislature.

Vocational Guidance — Dentistry as a Career

Included in this project a book on Dentistry for Vocational Guidance, was the appointment of Counsellors whose duty it would be to advise prospective dental students as to making Dentistry a career. We recommend that the C.D.A. representatives of each Province be requested to arrange with their Provincial Legal Bodies to appoint Counsellors and report to the next Board of Governors Meeting.

Ethics

One of the finest presentations was made by Dr. J. D. McLean on Ethics. May I suggest to you that when this report is published you read it very carefully. It is much too full to report here, but it covers such subjects as:—

- (a) Ethical Code.
- (b) The Provincial Acts regarding Ethics.
- (c) Duties of dentist to his Profession.
- (d) Duties of Dentist to his Patient.
- (e) Duties of Dentist to Himself.
- (f) Obligations to the Public in general.

Health Insurance

As our own Past President, Dr. Harvey W. Reid, is Chairman of this Committee, also as he is the Guest Speaker at the noon

luncheon on Wednesday, for that reason we will have him give a verbal report.

His Committee also presented (a) "A Charter for Dental Health", a booklet every dentist in Ontario should read; (b) Pre-payment plan for Dental Health Care, and the report concluded with a statement of Dental Health policy and a resolution by Governors to proceed with an experiment in several areas of a Voluntary pre-payment plan in Dental Services as a research project.

Notes

- (1) New Officers of Canadian Dental Association
Past President — Dr. G. V. Fisk
President — Dr. Percy Lowery
Vice-President — Dr. H. Cline
Secretary-Treasurer — Dr. Don W. Gullett
- (2) Meetings of C. D. A.
1951 — Ottawa, September 19-25.
1952 — Golden Anniversary at Vancouver, June 12-18.
1953 — Quebec College of Dentists.
- (3) Dr. Roy Ellis will visit Australia and New Zealand and on his return will present a report on the New Zealand Health Plan.
- (4) This meeting is unique in that for the first time, there were present representatives from Newfoundland.
- (5) The Hospital Dental Services Committee presented a booklet, "Procedures for the Admission and Treatment of Dental Patients in Hospitals."

All of which is respectfully submitted.

HARVEY W. REID
MURRAY PURCELL
PERCY LOWERY
STANLEY J. PHILLIPS.

Motion: "That this R.C.D.S. Board make an immediate grant of \$40,000 to the Housing Fund of the Canadian Dental Association." Carried.

Motion: "That the report of the Representatives to the C.D.A. be received and adopted." Carried.

REPORT ON DENTAL PUBLIC HEALTH

Mr. Chairman and Members of the R.C.D.S.

Activity in Dental Public Health was again carried to greater heights because of the extra work done by the Field Secretary, Dr. Mitton. The voluntary committee just could not keep up the sustained effort alone. Therefore, on behalf of the committee and Dental Public Health programs throughout Ontario, may I thank you for your financial aid.

Requests for program development have not been so numerous this year. Carleton Place, Barrie and Almonte have had preliminary meetings and some progress is showing at Carleton Place. The work has been improving and enlarging the areas established.

The Materials committee has really been revamped, out dated slides etc. scrapped, and new slides, film strips and films have been added. This change and increase has been necessary because of the demand from dentists, throughout Ontario, speaking to lay audiences.

A thought here for consideration is—should Health Units use our material, such as films, or should the Government grants meet this need. A voluntary committee can only go so far and we would like your opinions regarding further provincial assistance.

The Dental Public Health committee was invited to prepare a report known as the Ontario Survey Report. This is for the use of the Ontario Government committee, but it has brought out some

interesting facts. More will be heard of this report by this board later, but it was a tremendous lot of work. Dr. Mitton played a very important part in this effort, again proving his invaluable assistance in the work the Dental Public Health committee has to do.

Due to illness, Dr. MacGregor our Red Cross representative, was unable to be on call for their meetings. Dr. Mitton came to the rescue, and as well as going on speaking engagements, prepared the Dental Public Health report for the Red Cross meetings.

I expect to appear at your meeting to answer any questions not cleared in this report. I do request your consideration, when drafting your budget, that Dr. Mitton may be retained as Field Secretary, to carry on this important work.

Respectfully submitted,

H. A. SWALES, Chairman.

Motion: "That the report on Dental Public Health Committee as presented by Dr. H. A. Swales, be adopted and the Committee be commended for their untiring efforts on behalf of the profession." Carried.

REPORT OF DENTAL REFEREE TO THE WORKMEN'S COMPENSATION BOARD

Board of Directors,
Royal College of Dental Surgeons, of Ontario.

Gentlemen:

Your appointed representative appreciates this opportunity of reporting on his services to this organization for the year ending April 30, 1950.

As usual there have been a number of dental problems submitted in consultation by the Board's Medical Aid Officer, Mr. C. G. Cameron and his staff. There were 22 written reports made, a number of clinical examinations of claimants and several telephone conferences. All of these matters were terminated satisfactorily in a co-operative manner with due regard to fairness to all concerned.

In my report to you one year ago, mention was made concerning complaints that the tariff schedule was inadequate in some respects. Your Board saw fit to appoint a committee to study the schedule of services and fees allowed and to meet with the Compensation Board which it did in September 1949. The committee was given a very cordial reception and a promise was made to consider the recommendations very carefully. At a later date your committee were advised that the Compensation Board agreed to all submissions that had been made to it. To my mind this indicates satisfaction with the dental services rendered claimants by dentists all over the Province and also respect for the fairness of proposals submitted.

In brief the changes made were—

1. Fee of two dollars allowed the dentist for making a diagnosis and reporting to the Board on each case except fractured dentures.
2. Increase in fee allowance from \$6.00 to \$10.00 for complete dental x-rays and report when the service is performed by a dentist.
3. Reclassification of partial denture service and revised fee allowance.
4. Increase in fee allowance for complete upper or lower denture from \$40.00 to \$50.00.
5. Review of all fee allowances with revision in keeping with present day costs of rendering services.

This new arrangement became effective on January 1, 1950. Plans have been underway for some time to have the new schedule of services and fees printed and a copy mailed to each dentist in the Province.

Other matters that have been attended to by your representative

have been routine and have not raised any particular problem.

In closing may I express my appreciation of the helpfulness of your Committee particularly your Chairman, Dr. Stanley J. Phillips and your Secretary, Dr. Don W. Gullett. Finally I want to say thank you for the opportunity of serving your Board and the profession for another year.

Respectfully submitted,

Motion: "That the report of the Dental Referee to the Workmen's Compensation Board be approved and that Dr. — — — be re-appointed as Referee, and the appreciation of this Board extended to him." Carried.

FEE SCHEDULE OF

WORKMEN'S COMPENSATION BOARD

During the year a committee of the Board met with the Workmen's Compensation Board and obtained agreement to certain changes in the existing fee schedule.

The following schedule has been adopted by the Workmen's Compensation Board and approved by the Royal College of Dental Surgeons of Ontario, as of January 1st, 1950.

Treatment under the Act is limited to necessary repair or replacement of teeth damaged or removed as a result of the injury.

General Provisions

1. The fees under item 8 to 11 in this schedule are for the emergent treatment only.
2. The lump sum fees in this schedule covers supplies, appliances and necessary treatment.
3. In exceptional cases where complications arise, additional allowances may be made, dependent upon details justifying them being submitted to the Board first for approval.
4. Workmen receiving dental treatment are not allowed to change to another dentist without good reason and permission or approval of the Board.
5. Reports should be mailed direct to The Workmen's Compensation Board.
6. Approval of accounts by the Board will be based solely and finally on information given in the written reports and itemized estimates furnished to the Board.
7. Accounts are to be rendered promptly on close of treatment on Form No. 34 provided by the Board.
8. Emergent Treatment:
 - (a) Gum laceration:

First treatment	\$ 3.00
Subsequent treatment	1.00
 - (b) Repair of fractured denture 6.00 |
 - (c) Repair of broken facing according to type \$3.00 to 6.00 |
9. Examination, Diagnosis and Report 2.00 |
- (This fee will not be allowed in respect to the repair of dentures or broken facings.)
10. Administration of gas for extraction 5.00 |
11. Extraction per tooth (while under gas anaes.) 1.00 |
12. Extraction one tooth with local anaes. 3.00 |
- Each additional tooth at same sitting 1.00 |
- (Fee allowed in each case to cover post-operative treatment where necessary.)
13. Devitalization of pulp and filling of root canal 8.00 |
14. Gold inlay where specially indicated 12.00 |
15. Silicate fillings with cement base 4.00 |
16. Amalgam Fillings, simple or compound (specify) \$2.00 to 4.00 |

17. Cement lining	1.00
18. Crown restorations:	
(a) Gold with cast occlusal	15.00
(b) Richmond type	15.00
(c) Cast three-quarter or full	15.00
(d) Cast with silicate facing	18.00
(e) Cast with acrylic facing	20.00
19. Fixed bridge restorations:	
Abutment as per No. 18 (a), (b), (c), (d), (e) above.	
Pontic	12.00
Dentures	
20. Complete upper or lower acrylic	50.00
21. Partial denture service:	
Designs for all partial cases must be submitted justifying estimated fee.	
(a) Acrylic type with minimum of 2 gold clasps \$30.00 to 50.00	
(b) Upper or lower partials with cast gold bar and clasps with acrylic saddles	65.00
(c) Partial lower with gold wrought bar and 2 clasps	55.00
22. Rebase denture:	
(a) Complete upper or lower	20.00
(b) Partial denture	15.00
23. X-Ray Service:	
The following fees are for radiodontic examination made by a dentist. No fee will be allowed for x-ray films submitted that are of unsatisfactory diagnostic value. A written report accompanied by x-ray films must be submitted to this Board.	
(a) Single tooth area	2.00
(b) One quadrant of mouth	4.00
(c) Complete upper or lower	6.00
(d) Complete survey (minimum of 14 films)	10.00

**REPORT OF THE SIXTY-FIFTH ANNUAL MEETING OF THE
AMERICAN ASSOCIATION OF DENTAL EXAMINERS, HELD IN
MARK HOPKINS HOTEL, SAN FRANCISCO, CALIF.,
OCTOBER 15th-16th, 1949**

Board of Directors,
Royal College of Dental Surgeons.
Gentlemen:

It is a pleasure for me to present this report and to express my sincere thanks in making it possible for me to attend this meeting.

Dr. James J. Vaughn, President, Nashville, Tenn., presided and said in part: "From pride, at the honour you did me, came by deep realization that this position brought with it great responsibilities. May I express my deep appreciation and ask for your co-operation to carry out our very full program."

The session naturally divided itself into two parts, one dealing with the problems that yearly come before Dental Legal Bodies and the other "The Seminar" on "Measurement Testing as applied to Dental Licensure."

Some of the problems:

Compulsory Health Insurance:

The position taken by the Medical and Dental professions of United States is one of direct and wide open opposition to compulsory health insurance. It was advocated to create a Federal Department of Health under a voluntary, Government-run medical and dental program. The head of this Federal Department of Health would have Cabinet status and be established independently of welfare and educational agencies to co-ordinate all Federal Health services. This

Dental care should be available to all regardless of income or geographic location and urged that children be given a priority for dental health services in community programs.

It was estimated by Federal agency that the cost of a compulsory pay-roll tax health plan would be \$4,107,000,000 a year. The Dental Examiners felt that this figure was very low, at any rate it does show the Federal compulsory plan was not a "free" dental and medical service.

The dentists were warned if they wanted to ward off this compulsory health scheme they must present a constructive program of health services. One that will preserve the freedom of dental practice, one that will keep dentistry uncontrolled and unregimented by Federal Governments. This could not be done by simply denouncing socialization and taking standpat opposition and position.

Federal Aid to Education:

A bill was presented to the Federal Government asking for funds to provide for expansion of Dental schools, for new schools and grants-in-aid to professional education. In respect to receiving such funds, that they be accepted, provided that such funds should be accepted with the understanding that the government shall not exercise any control over, or provide any requirements with respect to the curriculum, teaching personnel or administration of any schools, or the admission of applicants thereto.

Dental Hygienists:

Under the Dental Practice Acts, there were 45 different laws to regulate Dental Hygienists. These should be made uniform. Much time was spent on proposed curriculums, and duties. They stressed three points; first all should be female, no credits be given for time in Dental Offices as Dental Assistants and lastly, that they should not be permitted to provide limited dental services for children after two years of training.

Laboratory Technicians:

The Dental Boards of many of the States found this a very grave problem chiefly because of poor Technician Acts or Bills.

Foreign Colleges:

There are 648 D.P.'s (dentists) now in the United States and these foreign professionals wished and have made application to practise in United States. To date the rule has been to accept them as juniors, provided they came from schools recognized in their country, but they have not been very successful with these students that have been taken. Most of them have been poorly educated and without much technical training; therefore, it is believed that the only just manner to accept these applicants is by an examination.

Council on Dental Education:

It was recommended to all Examining Boards that aptitude tests be used, as one of the measuring sticks for dental students in year 1951. They hoped that this would prevent wastage of predental students. 251 students failed in dental schools in United States in 1949.

Second Session—The Seminar

Measurements Testing as Applied to Dental Licensure—
Moderator, Dr. Henry A. Swanson.

Three papers were read on:

- (a) The Fundamental Principles of Measurement Testing.
- (b) The Application of Testing Methods in Dentistry.
- (c) How It Can Be Accomplished.

The membership was divided into three groups, each group had a Moderator (Dental Board Examiner), a dental teacher, and an expert in teaching. During the work shop the principles of testing were demonstrated by the evaluation and re-preparation of questions already in existence.

The three groups then met in conference and reported their findings, stating in the main that examination questions must be thoughtfully drafted. A key is absolutely necessary and value in marks must be set up from key. Dr. Swanson reported that it was decided to hold the next seminary in Chicago in February at the time of the meeting of the Chicago Dental Society and not at the time of the meeting of the American Association of Dental Examiners at Atlantic City in 1950. This was not well received by examiners for they claimed it would be impossible to attend both meetings.

All of which is respectfully submitted.

DON W. GULLETT
S. J. PHILLIPS

Motion: "That the report of the Representatives to the annual meeting of the American Association of Dental Examiners be received and adopted." Carried.

Resolution on Death of Dr. Thomas Cowling

It is with sincere regret that this Board records the passing from our midst of Doctor Thomas Cowling, a distinguished member of the College.

During his career, his ability as a teacher and speaker, his wide knowledge of dentistry and his vast contributions to dental literature, placed him among the foremost leaders in the profession.

While modest and unassuming, his broad understanding of human nature endeared him to his many friends and stimulated their interest in the higher things of life.

We know that he yet had much to give, and we are appreciative of the many splendid services that he rendered to his beloved profession. Carried.

1932	SAUL SIMON	1947	CHARLES HYMAN MOSES

SPECIALISTS' REGISTER

The following are registered as specialists in the specialty designated.

Date of Registration	Name	Address	Specialty
May 9, 1945,	Bliss, Horace Colton, D.D.S.	170 St. George St., Toronto	Orthodontics
Feb. 21, 1945,	Box, Harold Keith, D.D.S., Ph.D. 86 Bloor St. W., Toronto		Periodontia
Nov. 14, 1947,	Boyd, James Wesley, D.D.S.	47 King St. W., Kitchener	Orthodontics
May 9, 1945,	Bradley, Sydney Wood, D.D.S., M.D.S.	142 Laurier Ave. W., Ottawa	Orthodontics
Nov. 26, 1944,	Breslin, William Wolfe, D.D.S.	206 Bloor St. W., Toronto, Dental	Oral Surgery
June 11, 1948,	Brown, Robert, D.D.S.	455 Spadina Ave., Toronto	Periodontia
Sept. 26, 1947,	Campbell, Darrell A., D.D.S.	260 Queens Ave., London	Orthodontics
Feb. 21, 1945,	Cation, James Murray, D.D.S.	371 Keele St., Toronto	Dental Oral Surgery
Feb. 21, 1945,	Chalmers, William Logan, D.D.S. 1 Charles St. E., Toronto		Dental Oral Surgery
Nov. 26, 1944,	Coupland, James Percival, D.D.S. 142 Laurier Ave. W., Ottawa		Dent. Oral Surg.
Nov. 26, 1944,	Cowan, Margaret Irene, D.D.S. ..	2440 Bloor W., Toronto 9	Orthodontics
Feb. 21, 1945,	Crabbe, James Orval, D.D.S.	300 Bloor St. E., Toronto, Dental	Oral Surgery
Feb. 21, 1945,	Crich, William Aubrey, D.D.S.	Grimsby Beach	Dental Oral Surgery
May 28, 1948,	Crouch, John Thomas, D.D.S.	185 St. Clair Ave. W., Toronto	Orthodontics
Nov. 26, 1944,	Crouch, Stanley Stuart, D.D.S.	185 St. Clair Ave. W., Toronto	Orthodontics
May 9, 1945,	Culbert, Milton Richard, D.D.S.	86 Bloor St. W., Toronto	Orthodontics
June 21, 1950,	Currie, Margaret Mary, D.D.S.	170 St. George St., Toronto	Periodontia
Feb. 21, 1945,	Diprose, Robert Ellis, D.D.S.	280 Bloor W., Toronto	Dental Oral Surgery
May 9, 1945,	Dixon, Braithwaite, D.D.S.	Medical Arts Bldg., Ottawa	Orthodontics
Feb. 21, 1945,	Dormer, John Garfield, D.D.S.	186 Bank Street, Ottawa	Periodontia
Jan. 20, 1950,	Erickson, R. A., D.D.S.	170 Bloor W., Toronto	Orthodontics
June 19, 1946,	Ferguson, Duncan James, D.D.S., M.D.S.	195 Dundas St., London	Dental Oral Surgery
Nov. 26, 1944,	Fisk, George Vernon, D.D.S.	170 St. George St., Toronto	Orthodontics
May 9, 1945,	Foster, William Gibbon, D.D.S.	Medical Arts Bldg., Hamilton	Orthodontics
Nov. 26, 1944,	Frawley, Gordon Leigh, D.D.S.	86 Bloor St. W., Toronto, Dental	Oral Surgery
Nov. 26, 1944,	Furlong, Francis Joseph, D.D.S.	Medical Arts Bldg., Windsor	Orthodontics
July 11, 1946,	Gardiner, Allan, D.D.S.	7 Noel St., Apt. 2, Ottawa, Dental	Oral Surgery
Feb. 21, 1945,	Girvin, John Scott, D.D.S.	206 Laurier Ave. W., Ottawa	Periodontia
Nov. 26, 1944,	Halderson, Holly, D.D.S.	170 St. George St., Toronto	Orthodontics
June 17, 1946,	Hamilton, Ira Wilson, D.D.S.	Medical Arts Bldg., Ottawa	Orthodontics
Oct. 17, 1945,	Hendry, William Roy, D.D.S.	2 Bloor St. E., Toronto	Orthodontics

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on"

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practise. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITING ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO

1950-1951

SECRETARY'S REPORT RE ELECTION

To the Board of Directors of the R.C.D.S.
Gentlemen:

In accordance with the provisions of the Dentistry Act and the By-laws of the College an election of the Board of Directors for the Royal College of Dental Surgeons of Ontario was held from October to December 1950.

On the twentieth day of October, nominations were called for by circular letter addressed to each member of the College resident in Ontario.

Valid nominations were received as follows:

- District No. 1 — C. M. Purcell—Pembroke
- 2 — S. J. Phillips—Oshawa
- 3 — M. V. J. Keenan—Sudbury
- 4 — Harvey W. Reid—Toronto
- 5 — M. C. G. Bebee—Owen Sound
- 6 — F. J. Furlong—Windsor
- 7 — R. O. Winn—Kitchener
- 8 — H. M. Morrow—Hamilton

No valid nominations were received for opposing candidates and as a consequence the above named were declared elected by acclamation and so notified.

A communication received from the Secretary of the Faculty of Dentistry, University of Toronto, states that at a regular meeting of the Faculty Council, Dr. R. J. Godfrey was re-elected as representative of the said Faculty.

Respectfully submitted,

DON W. GULLETT,
Secretary.

REPORT OF PAST PRESIDENT

To the Board of Directors of the R.C.D.S.
Gentleman:

In this my final report to you, as President, I do not believe it is necessary or advisable for me to recall all the activities of the several committees; information concerning their activities will be presented at this meeting through the different committee reports. I shall however, comment briefly upon a few and draw to your attention some other matters that may not appear on any report.

Dental Relief

Further negotiations for the supplying of dental services to relief recipients have been continued, in fact I have done everything within my power and ability to bring to you a definite plan for the administration of dental relief and I am sorry to report "no progress".

For the past few years we have been able to secure the sum of one hundred thousand dollars as one of the items in the budget. However, the Provincial Government has been opposed to any legislation that will set aside money for dental relief, so no request was made to retain the money in this year's budget.

Bill for the Regulation of Dental Hygienists

It is a pleasure for me to report that on April 19th, 1951, by "Order-in-Council" these regulations became law.

New Dental Coach

Since 1931, the province has provided a railway coach travelling dental clinic to provide free dental service to pre-school and school children in the remote communities of the province which lie along the main and branch lines of the C.P.R. This service has proven to

be so valuable and effective that it is now proposed to institute a similar service for children located along the C. N. R. lines.

The service is essentially preventive, but since it is rendered only to communities where no dental services exist, the attention given in each case must be reasonably complete.

The C. N. R. have agreed to co-operate in the same manner as has the C. P. R., namely, to provide a coach with maintenance and haulage and the province undertakes to meet the cost of necessary conversion, equipment, living quarters, furnishings, and power heating plant.

The coach must be a complete self-sufficient unit providing clinic quarters, living quarters for the staff, and heating and power unit. The staff of a dentist and assistant move from community to community in an itinerary which in the case of the existing clinic has involved 25,500 miles of travel.

Dental Headquarters

One of the most important reports will be from Dr. Harvey W. Reid, on the establishment of a National Dental Headquarters. We all are greatly pleased that we have at last succeeded in securing a Dental Headquarters at 234 St. George Street. We all appreciate the fact that our Secretary has been operating under a serious handicap because of the increased demands upon his time and services and the impossibility of securing sufficient office personnel until such time as we could provide adequate office space. Now that we have the necessary headquarters, it is urgent that we secure the necessary personnel. It is partly the responsibility of this Board that some means of solution should be found at this meeting and that Dr. Gullett be given direction as to our wishes. I believe Dr. Percy Lowery, President of the Canadian Dental Association will be present at some time during our meeting and this matter will be discussed with him.

By-Laws

I believe it is my painful duty to remind this Board that we must immediately proceed in the matter of preparing, amending and adding to our By-laws to bring them up to date.

Honours to Dr. Don W. Gullett

At this year's meeting of the American Dental Association our Secretary was made an honorary member of the American Dental Association. There are only five honorary members in Canada, and I believe our Secretary is the only living dentist in Canada to whom that great honour has been accorded.

In conclusion may I extend my sincere thanks to all members of the Board and to the Chairmen of the various Committees for their valued co-operation and kind and helpful support during my term of office.

All of which is respectfully submitted.

S. J. PHILLIPS
President.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board:

The Board meets for the first time in the new headquarters which were occupied at the beginning of the present year. During the interval many members of the College have visited the offices of the Board, and without exception remarks have been made of a highly complimentary nature. Undoubtedly, the action taken by the Board in improving office facilities has been approved most heartily by the membership.

Since the last printing, the Dentistry Act has been twice amended and the By-laws have been amended considerably. It is hoped that a position has been reached when revised copies may be more available.

The supply of printed By-laws is exhausted, and for two years it has not been possible to supply new members with copies.

Considerable discussion has taken place during the year upon the subject of Specialists and Specialization. It might be advisable for the Board to review their position in this matter in the near future.

From information coming to this office it would appear that grave disturbances exist in the dental laboratory trade. Representatives of the dental laboratories are appearing before the Board at this meeting to inform you of their difficult position.

As stated elsewhere the regulations governing dental hygienists have been approved by the Lieutenant-Governor in Council. The required forms can now be prepared for the registration and licencing of dental hygienists. It is hoped that a course of training will be in operation this fall at the Toronto Faculty, but this matter is not fully determined as yet.

The number of inquiries from graduates of European dental schools continues to be relatively high. Difficulty has been experienced by the Toronto school in qualifying these individuals to meet equivalent standing as required for registration.

CHANGES IN REGISTER

As of April 30th, 1951, the number on the Active List of the register was as follows:

Annual fee paid	2044	
less deceased members who have paid fee	8 —	2036
Honorary Fifty Year List	87	
Less deceased members since January 1st,		
1951	7 —	80
Fees unpaid on above date		0
Total		2116

The following changes in the list have occurred between April 30th, 1950, and April 30th, 1951:

Additions

New Graduates	140	
D.C.C. Certificates registered	6	
Board Examination	2	
Transferred from Inactive	7 —	155

Deletions

Died	32	
Retired	17 —	49

Gain during year		106
------------------------	--	-----

The increase of 106 for the past year is due to the fact that the graduating class of 1950 was twice the normal number. Out of 152 in the 1951 graduating class at the Toronto Faculty, 148 have applied for registration, but this does not mean that this number will take up practice in Ontario. Owing to the size of the 1951 graduating class an increase in personnel undoubtedly will be reported for next year. For the next following years the graduating classes will not be greater in number than a maximum of 75 or 80.

Extramural Lectures and Clinics

Following is a detailed report of the Extramural service during the past year. Thirty-seven lectures were given in twenty-four centres. This service is appreciated as is evidenced by the letters of appreciation received at this office:

EXTRAMURAL LECTURES AND CLINICS

1901	McKay, W. S.	Galt
1901	MacKay, G. A.	Toronto
1901	Paul, E. W.	Toronto

Members eligible for Honorary Registration, January 1st, 1952, are as follows:

1902	Campbell, G. H.	Orangeville
1902	Cerswell, J. A.	Toronto
1902	Duprau, G. O.	Belleville
1902	Fleming, W. A.	Alliston
1902	Gibson, O. K.	Ottawa
1902	Hicks, A. A.	Chatham
1902	Mason, A. D. A.	Toronto
1902	Mills, G. K.	Tilbury
1902	McDowell, T. J.	Milverton
1902	Peaker, O. A.	Brampton
1902	Pickering, C. W.	Durham
1902	Robb, H. G.	Toronto
1902	Routledge, T. A.	Ridgetown

The ready assistance and cooperation of every member of the Board has facilitated greatly the work of this office. On behalf of the membership of the College, it is my desire to express appreciation for your efforts.

Yours faithfully,

DON W. GULLETT,
Registrar-Secretary.

Motion: That those members registered in the year 1902 be granted Honorary registration beginning January 1st, 1952 . . . Carried.

REPORT OF TREASURER

Mr. Chairman and Members of the Board:

Your attention is directed to the following matters:

Auditors' Statement

The Auditors' Statement for the year 1950-51 is herewith submitted for your consideration. The appointment of auditors for the current year is necessary.

Licentiate Fees

In accordance with the regulations fee notices and drafts were sent for the annual fee. Report is made with pleasure that all fees are paid and none entered in court for collection.

Securities

As directed at the last annual meeting, \$40,000 in bonds were sold during the year.

Revenue and Expenditures

Careful consideration should be given to the provision of sufficient funds for the current year, owing to the changes which have occurred since the last annual meeting.

Harry R. Abbott Memorial Fund

The receipts from the Harry R. Abbott Memorial Fund for the year amounted to \$354.53 whereas \$400 was paid out, leaving a bank balance of \$220.71 at the end of the year.

Respectfully submitted.

DON W. GULLETT, Treasurer.

Motion: That Thorne, Mulholland, Howson and McPherson be appointed Auditors for the ensuing year . . . Carried.

REPORT OF EXECUTIVE COMMITTEE MEETING

June 21, 1950

After considerable discussion a committee consisting of Drs. Phillips, Reid and Gullett was appointed to prepare two briefs, one to be presented to the Provincial Minister of Welfare re Dental Care of Relief Recipients and the other to be presented to the Provincial Minister of Health re Health Units.

With respect to the application of Dr. William Anthony McDonagh a graduate of McGill University (1923), and the holder of a Diploma in Dental Public Health (1950), the Secretary was instructed to notify Dr. McDonagh of the Fall Examination dates.

Provided she fulfils all requirements of the Board, Dr. Margaret Currie will be granted a Certificate in the Specialty of Periodontology.

Arrangements having been completed for the purchase of new C.D.A. Headquarters, it was recommended that the Board of the R.C.D.S. make request for two rooms for their own use in the new C.D.A. head office building.

The subject of an Assistant to the Secretary was considered, and direction was given the Secretary that an Assistant be engaged on a basis of assisting in the routine duties of the Board for which services this Board would make adequate contribution.

Study was given to facts relating to dental services in the province and a motion was adopted to the effect that the Board of the R.C.D.S. in view of the alarming state of dental personnel (e. g. age and number of dentists, in proportion to the rapidly increasing population of the province), take steps to increase the number of students being trained, and to urge the inception of the training of dental hygienists to assist present dental personnel in giving dental service to more people.

After a lengthy discussion on some of the proposed changes in the Dental Council of Canada's new By-laws, it was agreed that this Executive Committee recommend to the Board of the R.C.D.S., that in case of Class A candidates for D.C.C. certificates, they be accepted for licensure in this province without clinical examinations, but in case of Class D candidates, this Board reserves the right to require a clinical examination before registering the D.C.C. certificate.

Approval was given for the issuance of an Enabling Certificate for the purpose of qualifying applicants for the D.C.C. examinations; and the Secretary was empowered to prepare such a certificate and have copies printed.

The change made in the D.C.C. By-laws permitting graduates of schools in provinces not members of the D.C.C. to take the D.C.C. examination was discussed but no decision was made.

Respectfully submitted.

R O. WINN,
Chairman Executive Committee.

Motion: "That Doctors Reid and Godfrey be delegated to assist the Secretary, Dr. Don W. Gullett in the engagement of the Assistant to the Secretary, and that this Board assume financial responsibility up to one-half of the salary of said assistant." . . . Carried.

Motion: "That the Minister of Health and the Minister of Education be informed of the alarming shortage of dental personnel in this province, and urge that steps be taken to increase the number of students trained. That a resolution be prepared for submission to above Ministers, and that the Committee of Government and Legislation draft this resolution." . . . Carried.

REPORT OF DISCIPLINE COMMITTEE

At Fall Meeting

Mr. Chairman and Members of the Board:

In addition to the matters reported by the Inspector the following matters have received consideration:

1. Dr. — of — This individual moved from — in the spring of 1950. Early in July complaint was received to the effect that he was using various means of advertising his presence in —, including the following:

1. Announcements in the newspaper two columns wide, of his opening an office.
2. Prominent advertisements for an assistant.
3. Photograph with write up.
4. Signs in several prominent parts of the city stating that he had real estate for sale (Snap shots of these signs were submitted).

After consideration a letter was written to Dr. — pointing out his infringements of the regulations. Reply was received stating his surprise that complaints had been made and that the signs had been removed. Dr. — of — also wrote stating that he was certain Dr. — actions were unintentional.

Owing to previous experience of a similar nature while Dr. — was practising in — this matter was not considered lightly but in view of his expressed cooperation a letter was addressed to Dr. — thanking him for his attitude.

2. Dr. — on — On October 12th complaint was received that Dr. —, a 1950 graduate had taken over the office of Dr. — in — July but that Dr. — professional card continued to appear in the local paper and also that Dr. — signs appear on the office door and window. No sign or any indication appeared anywhere, that Dr. — occupied the office.

These matters were brought to the attention of Dr. —. Reply has been received from Dr. — stating that he has not taken over the office of Dr. —, but is an employee of Dr. —. He also stated that Dr. — returns regularly to — at intervals of two months when he actually practices there. He further states that he is acting in good faith under the By-laws of the College and arrangements are under way to exhibit a sign of his own. No further action has been taken.

3. Mr. — reported that an unfortunate incident had occurred at his laboratory. An employee had made full dentures for a patient and issued a receipt on a bill head of the firm. Mr. — was very apologetic and hastened to inform the Board of the discovery. It so happened that the employee was taking the examinations of the Technician's Board and we understand is being held up owing to this incident.

4. A considerable number of complaints received from the public have been dealt with through the Secretary's office.

5. Matters relating to illegal practice and other infractions of the regulations will be reported by the Inspector.

At Annual Meeting

To the Board of Directors of the R.C.D.S.

Gentlemen:

As instructed by the Board, a letter was sent to each member of the College calling attention to certain responsibilities of the dentist to his patients. This action was necessitated by the number of complaints received concerning dentists who were shirking these responsibilities. Many letters have been received from prominent members of the profession commending the action taken and pointing out that the letter was timely and necessary. Most of these letters expressed

the hope that the Board would take necessary action to deal drastically with members who are guilty of professional misconduct.

Numerous complaints have been received from patients stating that dentists refuse to give receipts for monies paid. In every case it has been pointed out that the dentist is legally obliged to give a receipt for any or all monies received in payment of accounts. The aspersions cast upon the individual and the whole profession are regrettable.

Illegal practice is definitely on the increase. While convictions are being secured against known offenders the work of enforcement of the Act could be improved if better cooperation were received from societies and individual members of the profession in supplying information and data to the office of the Board.

Respectfully submitted.

R. J. GODFREY,
F. J. FURLONG,
M. V. J. KEENAN,
C. MURRAY PURCELL,
HARVEY W. REID.

REPORT OF INSPECTOR

To the Board of Directors of the R.C.D.S.
Gentlemen:

I have the honour to submit for your information the following investigations and prosecutions from April 30, 1950 to April 30, 1951.

Arthur Akers, 77-24th Street, Long Branch, Ontario—a Dental Technician practising dentistry. On June 14, 1950, he pleaded not guilty before the Magistrate at Long Branch. The Magistrate dismissed the case; we appealed this Magistrate's decision. On September 25, 1950, he was found guilty in the Court of Appeal and was fined — \$100.00 and costs.

Rex Stanley Graham, 253 Pleasant Avenue, Newtonbrook, Ontario—a Dental Technician practising dentistry. He pleaded guilty and this being his first offence he was fined—\$100.00 and costs.

Edward Lee, 58 Fairview Blvd., Toronto, Ontario—a Dental Technician practising dentistry. He pleaded guilty and this being his second offence he was fined—\$200.00 and costs.

Gil Macher, 1545 Kingston Road, Toronto, Ontario—a Dental Technician practising dentistry. He pleaded guilty and this being his third or fourth offence he was fined—\$500.00 and costs.

Albert Milne, Cainsville, Ontario—a Dental Technician practising dentistry. He pleaded guilty in Police Court at Brantford, Ontario, and this being his first offence he was fined—\$100.00 and costs.

James Ross, 46 Dawes Road, Toronto, Ontario—a Dental Technician practising dentistry. He pleaded guilty and this being his first offence he was fined—\$100.00 and costs.

Thomas Staden, 598 Yonge Street, Toronto, Ontario—a Dental Technician practising dentistry. He pleaded guilty and this being his second offence he was fined—\$200.00 and costs.

Harry Yates, of the Nu-Dent Laboratory, 1555 Danforth Avenue, Toronto, Ontario—a Dental Technician practising dentistry. He pleaded guilty and this being his first offence he was fined—\$100.00 and costs.

I have checked the offices of three dentists to see that they are continuing to keep them clean.

I have checked two dentists for displaying too many signs and have seen that the extra signs have been removed. I am still checking for the displaying of X-ray signs.

Respectfully submitted.

Inspector for the R.C.D.S.

REPORT OF THE DEAN OF THE FACULTY OF DENTISTRY

UNIVERSITY OF TORONTO

At Fall Meeting

Mr. Chairman and Members of the Board:

The decrease in the overall registration in the Faculty of Dentistry for 1950-51 is approximately 100 students. This was anticipated by virtue of the fact that 170 students graduated in June 1950 as compared with approximately 70 students admitted at the Predental and First Dental Year level. The details of registration are given below:

Year	Ex-Service	Civilian	Total
Predental	2	58	60
First Dental	14	57	71
Second Dental	16	55	71
Third Dental	49	34	83
Fourth Dental	124	28	152
Dental Nursing	—	25	25
Diploma Courses:			
D.D.P.H	—	2	2
Dental Surgery	—	1	1
Periodontology	—	1	1
Occasional students	2	2	4
B.Sc. (Dent.)	3	3	6
M.Sc. (Dent.)	5	4	9
	215	270	485

Staff:

At the commencement of a new session we record certain staff changes. Dr. Gordon Nikiforuk returned during the summer after two years of graduate study at the University of Illinois. He majored in Biochemistry and was awarded the M.S. degree. Dr. Nikiforuk has accepted a full time appointment as Associate Professor of Pedodontics.

Promotions which became effective on July 1, 1950 included: Dr. J. E. Moser from Associate in Dentistry to Associate Professor; Dr. W. G. McIntosh from Associate in Dentistry to Assistant Professor; and six members of the staff from Demonstrators to Associates in Dentistry, as follows: G. A. C. Adams, E. R. W. Bilkey, M. G. Boyes, S. J. Lesco, W. O. Nursey, and W. M. Twible.

Appointments as demonstrators in Dentistry have been accepted by Dr. Margaret Currie, Dr. J. F. Methven, and R. G. Woolidge.

Dr. W. J. Linghorne and Dr. C. H. Moses accepted appointments as special lecturers.

Dr. M. J. Gibson, formerly Associate in Dentistry, commenced a two-year program of study in Dental Oral Surgery and Anaesthesia on June 1st, at the Henry Ford Hospital, Detroit, Michigan.

Honors to Staff

We record with pleasure the following honors conferred on members of the Staff at the Annual Meeting of the American Dental Association in October 1950: Dr. D. W. Gullett, Associate in Dental Praxis, who was made an honorary life member of the A.D.A.; the American College of Dentists conferred a fellowship of the College on Drs. W. G. McIntosh, Assistant Professor of Periodontology, and R. P. Lowery, Associate in Dental Praxis. A former member of the staff, Dr. T. R. Marshall was similarly honored.

Extraprovincial Lectures

The invitations extended to members of the staff to participate as lecturers and clinicians at dental meetings in the United States and Canada provide increasing evidence of the merits of the staff. Recent

engagements exclusive of the heavy program of extramural lectures, include:

- October 26-29: Dr. W. G. McIntosh — "Panel Discussion on the Treatment of Periodontal Pockets". (Annual Meeting of the American Academy of Periodontology — Atlantic City, N. J.)
 November 6: Dr. M. R. Culbert — "Biometric and Rational Therapy". (Northeastern Orthodontic Society — Washington, D.C.)
 November 20: Dr. R. E. Moyers — "Anatomical Landmarks in the Cephalometric Roentgenogram". (Great Lakes Orthodontic Society — Detroit)
 November 27-28: Dr. C. H. M. Williams — "Correction of Abnormalities of Occlusion by Grinding". (American Association of Orthodontists — central section — Cedar Rapids, Iowa)
 December 4-8: Greater New York Dental Meeting, New York City
 Dr. J. H. Johnson — "A Practical Review of the Central Practitioner's Problems in Oral Surgery".
 Dr. S. A. MacGregor — "The Child in General Practice".
 Dr. J. M. Sheldon — "Operative Procedures for Jacket Crowns".

Awards and Scholarships

We have learned with pleasure that the Dental Alumni Association intends to launch a campaign to raise funds for additional scholarships for students in the Faculty of Dentistry. Repeatedly, we have pointed to the need for providing assistance to worthy students. The cost of dental education, like all other costs, is rising and making it more and more difficult for many worthwhile young men and women to finance their course. Awards of the nature of the W. K. Kellogg Foundation Scholarships which were set up a few years ago, distributed on the R.C.D.S. electoral district basis not only provide financial assistance but also tend to attract worthwhile candidates to the profession from rural areas. Except for provision for one year in each of two districts, No. 4, and No. 8; the Kellogg Scholarships have now lapsed. Satisfactory interest was shown in these awards while they were available, and we can testify to the valuable contribution they made.

A summary of the awards available in the Faculty of Dentistry is tabulated below:

Year	No. of Awards	Cash Award	Total	Other Awards
Predental	1	\$ 30.00		. . .
First Dental	2	105.00		. . .
Second Dental ...	5	305.00		. . .
Third Dental	4	255.00		. . .
Fourth Dental ...	16	1,055.00		3 keys, 4 medals
All Years	4	750.00		. . .
Totals:	32	\$2,600.00		3 keys, 4 medals

Included in this list is the most recent award, namely, the Canadian Oral Prophylactic Association Medal, to "recognize interest and accomplishment in dental anaesthesia and at the same time commemorate Dr. Horace Wells". This award will be made for the first time at the end of session 1950-51, to the student in the final year who has demonstrated the most outstanding accomplishment in dental anaesthesia, embracing both local and general anaesthetics. We express our gratitude to the President and officers of the Canadian Oral Prophylactic Association for their wisdom not only in honoring one of the most illustrious men of dentistry, but this award will stimulate students to give increasing attention to an already important field in dentistry.

Research

A very interesting story of the expanding activity in the realm of research could be written at this time. For many years, the efforts

of Dr. Harold K. Box, and his technician, Mr. Frank Fenton, whose sudden passing in May 1950 was a severe blow to the Faculty, kept the flame of research strongly burning in the Faculty. There is no need for me to elaborate on the success of their efforts because the international reputation of this team redounds to their achievements.

During recent years the spirit of research has been further kindled by the members of the staff who have had postgraduate training elsewhere. This group of young men has now been joined by Dr. Russell Coleman who spent two years at the University of California, and the Hooper Foundation at San Francisco, under the direction of Dr. Hermann Becks. Dr. Coleman returned in October to work on a research project in Sunnybrook Hospital under a grant obtained from the Department of Veterans Affairs.

At the present time thirteen projects are in progress, supported by "grants-in-aid" totalling \$25,000 in addition to Dr. Harold Box's program which is supported primarily through the Faculty estimates and other projects supported by special Faculty research funds. The lack of space to house all this activity is giving us a great deal of concern and at present a committee of the Faculty is studying ways and means of revising the space available in the present building. The only answer is, of course, provision for a new building.

The opening seminar of the Faculty Research group held this fall was a joint meeting with the Toronto Section of the International Association for Dental Research. It is anticipated that the two groups will join forces, and become an active section of the I.A.D.R.

Courses for Graduates

In my report to the Board in May of this year it was indicated that a separate Calendar was being prepared embracing all types of courses for graduates. That Calendar is in use, copies of which are provided. As shown in the Registration table earlier in this report two students are registered in the Diploma in Dental Public Health course; one in each of the courses leading to the Diploma in Periodontology and the Diploma in Dental Oral Surgery; and six proceeding with advanced education in Orthodontics. The latter group is registered in the School of Graduate Studies and proceeding to the M. Sc. (dent.) degree. An average size group of candidates is proceeding to the B.Sc. (Dent.) degree.

The series of continuation courses shown on pages 10-13 of the Calendar is proceeding according to schedule with maximum registration in each course.

Miscellaneous items

The final steps for the establishment in this Faculty of a Chapter of the Omicron Kappa Upsilon Honour Society have been completed. The Toronto group is designated as Tau Tau Chapter.

The Faculty Council is considering the revision of the curriculum as it applies to the Second Dental Year. The revised curriculum for the Predental and First Dental Years is now in effect.

It is anticipated that a supplementary report will be made to the Board at this meeting relative to dental education in Australia and New Zealand, particularly as it affects the admission of overseas graduates to ad eundem standing in this Faculty.

Again we acknowledge the helpful assistance and co-operation of the Board of Directors of the Royal College of Dental Surgeons. At this time as the Board prepares to move to new headquarters, we express to you a sincere good wish for the future and the hope that the distance which will separate the dental building and the Board's new home will in no way disturb the cordial relationships which have existed between us in the past.

All of which is respectfully submitted.

ROY G. ELLIS, Dean.

At Annual Meeting

To the Board of Directors of the R.C.D.S.
Gentlemen:

Registration

At the December meeting of this Board, we presented details respecting registration in the Faculty of Dentistry for the 1950-51 session. At this time, a statement is submitted for your information on the relationship of the place of origin of the student and his location in practice after graduation. A study of the two most recent graduating classes was made, and the figures which appear below have been prepared from the records of those classes:

Figures showing the relationship of the **place of origin** of a dental student and the **place of location in practice** immediately after graduation.

Graduating Class 1948-49—Number in class: 75

- 37 or 49.3% of the class returned to practice in their home town.
- 15 or 20% of the class originated in Toronto.
- 10 of the Toronto students remained in Toronto.
- 12 or 15% of the total class located in practice in Toronto.
- 13 in the class of 75 originated in small rural towns and only one returned to his home town.

Graduating Class 1949-50—Number in class: 170

- 89 or 52.3% of the class returned to practice in their home town.
- 67 or 39.4% of the class originated in Toronto.
- 39 of the Toronto students remained in Toronto.
- 45 or 26.4% of the total class located in practice in Toronto.
- 11 in the class of 170 originated in small rural towns and only four returned to their home towns.

From the above figures, it will be noted that in the case of both these classes, approximately 50% of the new graduates returned to practice in their home town. Only a very small percentage of the students who came from a rural area returned after graduation to a rural area. In other words, "You can lead a horse to water, but you can't make him drink".

We frequently hear discussion relative to the high percentage of students admitted to the University from metropolitan Toronto. Throughout the University, great concern is expressed because, of those seeking registration in the University of Toronto, an increasing number originate from the Toronto area. This problem affects the professional faculties particularly. We have examined the figures relating to the applications received, and the applicants accepted from the eight electoral districts of this board for the Pre-dental class of session 1950-51. They appear below:

District No.	Applied	Accepted
1	8	4
2	8	5
3	16	10
4	60	24
5	2	1
6	11	5
7	2	1
8	17	10
	124	60

It is worthy of comment that these figures, which result from the deliberations of the Admissions Committee after many factors have been taken into consideration, reveal a distribution which gives some preference to those districts with the larger rural areas.

STATISTICAL REPORT
ON
STUDENTS REGISTERED IN THE FOUR DENTAL YEARS

Dental Year	Total No. Students	Average Age	Father's Occupation		Ex- Service- men	Grade XIII	Education		
			Dentist	Farmer			University		
							No Degree	B.A. or B.Sc.	Overseas
First	72	24	12	2	15	43	22	6	1
Second	71	24	15	5	16	54	7	9	1
Third	83	27	7	5	51	67	14	—	2
Fourth	152	29	16	8	129	122	20	8	2
Total	378	27	50	20	211	286	63	23	6

We do not believe that the problem of distribution of dentists between rural and urban areas can be controlled through the selection of students. The Admissions Committee has always regarded applicants from the rural areas with favor. The mounting costs of dental education will probably influence to an increasing degree the number of applications received from the rural areas.

Bursaries

A recent study of the distribution of Bursaries to students already enrolled in the Faculty shows that during the session 1950-51, University of Toronto General Bursaries were awarded to students on the following basis:

Students of urban origin — 13 Bursaries

Students of rural origin — 12 Bursaries

The University recognizes the increasing need for student aid, and it is presently anticipated that the amount provided for University Bursaries in the session 1951-52 will be doubled.

Hygienists:

On Friday, April 13, the Senate of the University adopted the recommendation of the Faculty of Dentistry "that a course for Dental Hygienists be established in the Faculty of Dentistry, and that the course extend over a period of two academic years, with the award of a diploma upon successful completion of the course prescribed". It will be noted that this recommendation does not specify the commencement date for the course. While the establishment of the course has been approved, it is subject to provision being made for financing such a course.

At its meeting on Monday, April 9, the Faculty Council approved the conditions of admission to the Course in Dental Hygiene which appear in appendix I to this report. At the same meeting careful consideration was given to the content of the curriculum for the first year, with general consideration of the second year. The details of the curriculum prepared thus far appear in appendix II to this report. It is confidently expected that the course for dental hygienists will commence in the fall of 1951, with a small enrolment in the first year.

Continuation Courses

As this report is being prepared, the last in a series of 12 continuation courses for graduates in dentistry is in progress. These courses have been very much in demand. In each case, we have had more applicants than we could accommodate. A total of 126 graduates from all over the United States and Canada have registered in the 12 courses. Outstanding visiting clinicians have taken part in the instruction in these courses. Firstly, a number of graduates are returning for one or more courses each year, and, secondly recent graduates are prominent among those who register.

Extra-Provincial Lectures

Since the December report was made, the following members of the staff have contributed in extra-provincial dental programmes:

- January 9: Dr. C. H. M. Williams at Evanston, Illinois (North Suburban Branch of the Chicago Dental Society).
- January 11: Dr. Stewart A. MacGregor at Detroit, Michigan (Detroit District Dental Society).
- February 5-8: Dr. C. H. M. Williams at the Midwinter Meeting of the Chicago Dental Society at Chicago, Illinois.
- February 19-21: Dr. Stewart A. MacGregor at the Minnesota State Dental Association at St. Paul, Minnesota.
- March 5: Dr. W. G. McIntosh addressed the Cleveland Dental Society, Cleveland, Ohio.
- March 13: Dr. M. R. Culbert addressed the Orthodontic Department, College of Dentistry, Ohio State University, Columbus, Ohio.
- March 20: Dr. C. H. M. Williams addressed the Philadelphia Academy of Stomatology, Philadelphia, Pennsylvania.
- March 27: Dr. S. A. MacGregor and Dr. G. Nikiforuk at Buffalo (Buffalo Dental Association).
- April 2: Dr. S. A. MacGregor at Dayton, Ohio (Dayton Dental Society).
- April 17: Dr. P. G. Anderson at Lockport, New York (Niagara District Society—New York State).
- April 27: Dean R. G. Ellis at New Haven, Connecticut (Connecticut State Dental Association).
- May 9-10: Dr. R. J. Godfrey and Dr. P. G. Anderson at Buffalo (83rd Annual Meeting of the Dental Society of the State of New York).
- May 8-10: Dr. W. G. McIntosh at Peoria, Illinois (The Illinois State Dental Association).
- June 7: Dr. R. G. Ellis at Chicago (Northwestern University Dental School Centennial Meeting).

The total extra-provincial engagements accepted by the staff for the academic year number 24. The increasing number of requests received each year by members of the staff, for papers and clinics, is eloquent testimony for the high regard in which members of the staff are held.

Specialty Courses

Great concern is being expressed for the future of the diploma courses in the specialty fields. Certain tendencies which are emanating from our present programme have brought us to the point where we feel it is necessary to review the entire training programme in the specialty fields. It is probable that during the coming academic session the matter will be given intensive study. Some discussion of this point at this meeting of the Board is felt to be desirable.

Extra-mural Lectures

The figures for the extra-mural lecture programme for the 1950-51 session compare very closely with those of the previous session. Thirty-seven lectures (an increase of one over 1949-50) have been given in 28 different Ontario centers, with approximately 1,052 dentists in.

attendance. During the present session questions have arisen from time to time which relate to the honorarium provided (particularly for the part-time clinician) and to the mileage allowance provided for travel by automobile. These questions have not been in the form of serious complaints, but have been enquiries on the part of a few of those participating in the programme and have been instigated by the increasing overhead costs in the dental office. If any revision of these allowances is considered advisable, we would recommend that they be applied not only to the part-time staff, but also to the full-time staff, who are equally affected by the rise of the cost of living.

Consultation Service

The graduate consultation service has shown a considerable increase over the previous session. For 1949-50, 141 formal requests for advice and consultation were received, whereas, during a similar period for the present session, 230 cases have passed through the various departments. In addition to those cases, the Department of Preventive Dentistry provides a service in the field of nutrition. This Department has processed approximately 900 patient dietary analyses for private practitioners. This service has grown to such proportions that it is highly probable that we shall have to add to our staff in the Department, and, at the same time, to underwrite this service to dental graduates, we may have to charge a fee.

Research

The staff are actively engaged in 12 research studies at the present time, and are acting as consultants in six projects under investigation in other areas of the University. A few years ago, the overall research programme was confronted with three problems, namely:

1. The lack of trained personnel.
2. The lack of funds for the support of research.
3. Limited physical facilities.

An active post-graduate training programme has alleviated, to a degree, the first bottle-neck. With the availability of trained personnel to conduct and direct research, the second problem, namely, the availability of funds, has also been modified. Applications for grants-in-aid made by adequately trained personnel are more likely to be accepted for assistance. This leaves us at the present time with the third bottle-neck as our chief problem in the research field, namely, the availability of adequate space. It brings us back to the old problem, and points up our need for a new dental building. However, in view of the fact that a new dental building does not appear on the horizon, we are compelled to ask for assistance to revamp our present research facilities. Thus, at the moment we are awaiting anxiously to hear the outcome of an application recently made to the President of the University for financial assistance totalling approximately \$50,000.00, which, if it becomes available, will be used during the summer of 1951 to revise and equip part of the 4th floor of the present dental building, the entire 5th floor, and the animal quarters.

I.A.D.R. Meeting

A very active Toronto section of the International Association for Dental Research has been formed, as was anticipated in the report made to this Board last December. At the recent annual meeting of the I.A.D.R., at which Dr. Gordon Nikiforuk presented a report on one of his projects, we were impressed by the wealth of material presented during the 100 and more reports made. It will be our aim at future meetings to have as many members of the staff as possible, who are actively engaged in research, present, both to represent this Faculty, and for the inspiration and education provided by these meetings. The Research Committee of the Faculty Council has therefore intimated that they would like to assign the financial assistance given for re-

search by the Royal College of Dental Surgeons, to a travel fund which would be used to aid men in their attendance at the I.A.D.R. meetings. We sincerely hope that the Board concurs with this recommendation.

One year ago we reported that Dr. R. E. Moyers was the winner of the \$500.00 research prize awarded by the American Association of Orthodontists. We are pleased to report at this time that, for a second consecutive year, a member of the staff of the Faculty of Dentistry has been associated with the winning of this valuable prize. Under the direction of Dr. C.H.M. Williams, Dr. David Watt was awarded this prize for his essay entitled: "The Effects of the Physical Consistency of Food on the Growth and Development of the Mandible and Maxillae of the Rat". As Dr. Watt has returned to his homeland (New Zealand), Dr. Williams will present the winning essay at the meeting of the American Association of Orthodontists in Louisville on April 23-26, 1951. We extend our sincere congratulations to both Dr. Williams and Dr. Watt for the honour they have received, which also reflects credit on this institution.

Consultation Practice

The Board of Governors of the University have approved provision for members of the full-time staff of the Faculty of Dentistry to engage in consultation practice, subject to certain conditions which appear in appendix III to this report. It is stressed, however, that there is no intention of urging full-time clinical teachers to enter into consultation practice.

New Building

In a recent interview with the editor of the Journal of the Ontario Dental Association, we outlined the academic programme which the Faculty of Dentistry has been following during the past few years. We concluded the interview with a statement of our hopes and aspirations, particularly as they applied to a new dental building. While the probability of these hopes being fulfilled in the near future may be remote, we cling to the belief that it is necessary, first of all, to know what we want, so that if and when the question is asked, "Well, what do you want?", we shall be in a position to act quickly and produce tangible evidence.

With the latter point in mind, and with the co-operation of the staff in the School of Architecture of the University of Toronto, two students of the graduating class of 1951 in that School were assigned the project: "A New Building for the Faculty of Dentistry" as their graduation design theses. As appendix IV to this report we submit photographs of the models prepared by Mr. G. F. Hamann and Mr. Roland Sider. Detailed drawings of the floor plans have also been prepared by these students.

Before Mr. Hamann and Mr. Sider could go to work, the staff of the Faculty of Dentistry had to complete a major research project of their own in formulating the requirements for each department. I take this opportunity to express sincere thanks to all those who contributed to this entire project. A tremendous effort has been put forward to bring this phase of the project to completion. We now have tangible evidence of our needs, our hopes and aspirations.

Honour to Dr. Mason

It is with a deep sense of satisfaction that we learned of the honour conferred on Dean Emeritus Arnold D. Mason by the Toronto Academy of Medicine. Dr. Mason's continuous efforts to bring about a closer liaison between the professions of medicine and dentistry have been recognized in the award of honorary fellowship in the Academy of Medicine. This honour has been bestowed on very few individuals. One is impressed by the select company of non-medical honorary fellows which Dr. Mason joins. We extend our most hearty congratulations to

Dr. Mason. We are confident that his kindly personality will do much to extend the cordial relationships between the medical and dental professions. We extend to the Academy of Medicine our sincere appreciation for the courtesy extended to one of our confreres. Dr. Mason has recently presented to the Faculty library his entire collection of clippings and dental records of the Dionne quintuplets.

Staff Notes

It is confidently expected that Dr. J. Paynter will return to the staff in September 1951, after two years of post-graduate study at Columbia University.

Dr. H. A. Hoskin, who has been associated with the staff of the Faculty of Dentistry for 31 years, will retire on June 30. He has given loyal and devoted service in the Examination and Diagnosis Department through his many years as a member of this staff.

Dr. Robert E. Moyers has been granted leave of absence to continue some research studies in Greece this summer. This study was commenced in 1944, at which time approximately 5,000 children from the remote parts of Greece were examined, and records made of their dental conditions. Dr. Moyers has obtained a grant from a source in the United States to re-examine these children this summer.

The Council of Dental Education of the Canadian Dental Association conducted a survey of this Faculty during the period March 28-29-30. The report of the Council following this survey has not yet been received.

In conclusion let me add that the privilege of presenting this report on the recent activities of the Faculty of Dentistry also provides an opportunity to express, on behalf of the Faculty, our deep sense of gratitude for your continued moral and financial support.

All of which is respectfully submitted.

ROY G. ELLIS, Dean.

APPENDIX I

DENTAL HYGIENISTS COURSE

Admission

1. Registration is offered in session 1951-52 in the first year of the course to approximately 10 women students, on the basis of:
 - (a) academic standing as evidenced by the certificates submitted
 - (b) character and fitness for the course.
2. A candidate for admission must have completed at least the seventeenth year of her age on or before the first day of June of the year in which she applies for admission. Only under exceptional circumstances will a candidate aged 30 years or more be admitted to the course.
3. An applicant must submit her application for admission in duplicate to the University Registrar at as early a date as possible, and not later than September 1st, together with a certificate of good character; the Ontario Secondary School Graduation Diploma in the general course, showing that credit has been obtained for four optional subjects; and the Ontario Grade XIII certificates or equivalent certificates showing that she has completed satisfactorily and obtained the required standing in the subjects prescribed.
4. Application must be made upon the official form, accompanied by photograph, physician's certificate of health, and testi-

monial of character and suitability for the course. Presentation of a dentist's certificate of dental health issued within two months prior to the date of registration will be required before registration will be permitted. An interview is desirable when possible.

5. Although no subjects are definitely prescribed for the Secondary School Graduation Diploma, credit must be shown in English and History and in four of the optional subjects.
6. Certificate for the following subjects of Ontario Grade XIII will be demanded:
 - (a) two papers in English,
 - (b) two papers chosen from Algebra, Geometry and Trigonometry-and-statics,
 - *(c) two papers chosen from Botany, Zoology, Physics and Chemistry,
 - (d) two papers in any one language chosen from Latin, French, German, Greek, Spanish and Italian, and
 - (e) one paper not already chosen from the options in clauses (b), (c), or (d).
7. The Faculty Council will consider applications for the recognition of certificates other than those mentioned, as occasion may require.
8. An applicant who has obtained her education elsewhere than in Canada must possess qualifications equivalent to those required of a Canadian applicant.
9. Communications relating to entrance requirements and admission are to be addressed to the Registrar, University of Toronto, Toronto 5; communications relating to standing, curricula, instruction and examinations in the Faculty of Dentistry, are to be addressed to the Dean, Faculty of Dentistry, 230 College Street, Toronto.

Probation

A student in this course whose class work, conduct, attendance or progress is considered unsatisfactory may, upon the recommendation of the Faculty Council, be dismissed from attendance by the Dean at any time during the session.

- * Although Chemistry and Zoology are not prescribed definitely, Secondary School study of the subjects is advised.

APPENDIX II

COURSE FOR DENTAL HYGIENISTS

FIRST YEAR

SUBJECT	TOT. HRS.	TRAINING AUSPICES
Anatomy Microscopic	55	Dept. of Histology
Anatomy Gross	45	Dept. of Anatomy
Anatomy Oral	120	Dept. of Dental Anatomy
Bacteriology	35	Dept. of Bacteriology (Dentistry)
Food Chemistry	45	Dept. of Household Science
Dental Public Health	30	Dept. of Dental P. Health
Hygeiology	30	Dept. of Physical and Health Ed.
Social Work	30	School of Social Work
Oral Prophylaxis	240	Dept. of D.P.H. and Dept. of Perio- dontics
Preventive Dent.	60	Dept. of Preventive Dentistry
Psychology	60	Dept. of Psychology
Oral Pathology	35	Depts. of Pathology and Dental Pathology
English	90	Dept. of English
TOTAL HOURS	875	

APPENDIX II

COURSE FOR DENTAL HYGIENISTS

SECOND YEAR

SUBJECT	TOT. HRS.	TRAINING AUSPICES
Preventive Dentistry	100	Dept. of Preventive Dentistry
Physiology (Oral)	30	Dept. of Oral Physiology (Dental Bldg.)
Dental Public Health D.P.H. Admin. Hygeiology Social Work First Aid	75	Deps. of D.P.H. Phys. & H. Education School of Social Work
Office Assistance & Administration	120	Dept. of Clinical Dentistry
Pharmacology	25	Dept. of Pharmacology
Oral Prophylaxis	325	Depts. of D.P.H. & Periodontics
Psychology	60	Dept. of Psychology
Dental Radiology	120	Dept. of Dental Radiology
English (Public Speaking)	45	To be arranged
Dental Materials	25	Dept. of Dental Materials
Food Chemistry II	45	Dept. of Household Science
TOTAL HOURS	970	

APPENDIX III

PROVISION FOR CONSULTATION PRACTICE

The following conditions have been approved:

1. That the time devoted to this type of practice should be such that it would be secondary to teaching and research within the Faculty of Dentistry.
2. That the time allotted to practice must be confined to two half-days during the week, if full-time status on the staff is to be retained, and that those entering into such an agreement accept the principle that the Dean of the Faculty of Dentistry shall exercise control over the time factor.
3. That the type of practice engaged in be limited to "consultation" practice, and that for this purpose "referred" is synonymous with "consultation". In further explanation, "referred" is interpreted as relating to patients who are referred by members of the dental profession.
4. That the patients accepted under this arrangement be seen only in the private office in which the "consultation" practice is conducted, and not in the dental building of the University of Toronto.
5. That the free Graduate Consultation Service established and conducted essentially by mail in the Faculty of Dentistry for the benefit of members of the profession, must not be interfered with by individual members of the staff participating under the provisions of this arrangement. The Faculty may review the Graduate Consultation Service and make announcements regarding it from time to time, if they deem it advisable.
6. That providing full-time members of the staff who elect to participate in a "consultation" practice accept and adhere to these conditions, they shall be retained on a full-time appointment in the University, but if they do not accept the measures for control set out above, they shall be re-classified as part-time members of the staff and they will then be subject to the salary schedule and other conditions pertaining to that classification.

APPENDIX IV

SCHOLARSHIPS IN THE FACULTY OF DENTISTRY UNIVERSITY OF TORONTO

Through the generosity of the W.K. Kellogg Foundation, there are available for competition for session 1951-1952, two scholarships of \$125 each, respectively in districts four and eight.

District four comprises the city of Toronto: district eight comprises the counties of Halton, Lincoln, Peel; Wentworth, Welland and York (except Toronto) in the Province of Ontario.

One of these scholarships will be awarded to a student in each of districts four and eight.

- (a) who has received his secondary school education in the district in question;
- (b) who has obtained an average of at least 66% at the Grade XIII examinations in those subjects prescribed for admission to the Faculty of Dentistry;
- (c) who registers in the Preclinical Year of the Faculty of Dentistry of the University of Toronto.

Proved need of financial assistance may be taken into consideration when making the awards.

Candidates for these scholarships should file applications with the University Registrar on or before May 1st on forms obtainable from his office.

REPORT ON EXAMINATIONS

Faculty Examinations

Dean Ellis met the Board and presented a detailed report respecting the marks obtained by those taking the final examinations of the Faculty.

The members of the Board considered the report and took the following action:

Motion: That the following having fulfilled all the requirements of this Board, be granted the L.D.S. Certificate: Adams, Alfred Maurice; Addems, Allan Harold; Anderson, Norman Franklin; Arshawsky, Israel Arthur; Austin, James Eli; Bannerman, John Allan; Belecky, Joseph Allan; Benson, Hugh Archibald, Birch, William Stanley; Birnbaum, Samuel; Blaney, Charles Henry; Booker, Richard Ernest; Bourgeois, Adelard Etienne; Boyle, Patrick; Braden, Donald Oliver; Braund, John Stanley; Brill, Robert; Campaigne, Robert Edward; Campbell, Frederick Albert; Capel, George Edward; Chalmers, Murray Arthur; Chapple, Alan Willard; Christilaw, John Stewart; Clemers, Rolfe Lewis; Coburn, Donald Grant; Coker, John Harrison; Coulis, Ambrose John; Crawford, Arnold Hart; Crawford, James MacIntyre; Crawford, Robert; Croley Walter Franklin; Dean, James Graham; Dean, William Howard; Denomme, Raymond Louis; Devine, Joseph Robert A.; Dryer, Joseph Maurice; Dubin, Carl; Emslie, Robert Brian; Fimio, Gordon Joseph; Gallagher, William Cecil; Gelley, Thomas Fraser; Gerhart, William Henry; Gilpin, George Earl; Goodfellow, Joseph Sterling; Goodman, Harvey Leonard; Goodwin, Harold William; Graham, Christopher James; Gray, Kenneth Charles; Gregus, Walter Joseph Vincent; Greig, William Robert; Hannah, James Robert; Harcombe, Arthur Frederick; Harper, Edmund Alfred; Hart, Daniel Alexander; Haryett, Rowland Dalton; Heit, Murray A; Hoffman, Elliott S; Hogg, Albert Edward Kordell; Hopkins, Judson Taylor; Hull, Leigh Graham Stuart; Irwin, Frank Arthur; James, John Miller Longman; Johnson, Cecil Elliot; Jolly, James William; Jones, Francis George H., Joslin, Thomas Douglas; Kamienski, Miet Andrew; Kearney, Leonard Joseph; Kerby, John Ray; Kerby, William Aaron; Lalonde, Denzil Anthony; Lampe, Arthur William; Lyon, John Dodd; Mackenzie, William Sutcliffe; McCracken, Joseph Hunter; McCullough, John Kenneth; McDougall Allan Fraser; Mclean, Alexander Duncan; McMichael, Daniel Gray; McNab, David Kenneth; McNab, Robert Gray; Matthews, John Jowett; Metrick, Lionel; Michell, Ralph; Middleton, Horace Drake; Milligan, Alexander Moore; Mitchell, David John Eric; Morris, Robert William; Mutart, Robert J.; Oldfield, Lorne Thomas; Paige, William Ronald; Penney, Donald Frederick; Peter, John Edward; Picard, Marcel Paul; Popovich, Frank; Powell, Cecil James; Pownall, Kenneth Franklyn; Rennick, Walter; Riley, Bernard Harold; Roher, Maurice William; Rondeau, Paul Lorne; Rowntree, Gideon Torrance; Russell, John Ray; Saunders, Max Wyman; Schiller, Lionel Joseph; Sedore, William Reginald; Seigel, Veldon Boyd; Shanks, Howard Walter; Shapera, Martin George; Shaunessy, Edwin Francis; Shugart, Charles Ross; Simmons, Kenneth Francis; Sivell, Charles Joseph; Skinner, Dennis Horace; Spence, James Bruce; Spence, William James; Stechishin, Walter Lew; Stitt, Gerald Allan; Storms, John Lyall; Taylor, Sydney; Teskey, Donald

Cuthbert; Thayer, Reginald Owen; Tokaryk, George; Tozman, Eugene; Tregobov, Harry; Treleaven, Willard Hilliard; Trowbridge, Norman Floyd; Turner, Thomas Charles Tim; Villard, Robert Louis; Vogt, David Donald; Waid, William Charles; Wainright, Robert John; Webster, Charles Edward; Weegar, Robert Croskery; White, Irwin Campbell; Wickens, Donald Charles; Williams, George Arthur; Williams, John; Williams, Paul Albert; Wolfman, Harold; Wright, Donald Vicars; Wright, William Clendennan Pedlar; Yaholnitsky, Stephen; Yeo, Douglas Jeffery; Zinn, William John.

Motion: That the following when they complete all requirements of this Board be granted their L.D.S. Certificate: Kennedy, Charles Judd; Sorenson, Colin Frank. Carried.

Motion: That in the case of Yu-leung Hsu, By-law 6. sec. (1) (c) be waived and he be granted his L.D.S. Certificate. Carried.

Motion: That Mr. Ulrich Beenfeldt be granted an L.D.S. Certificate and licence to practise dentistry in Ontario. It is understood that in doing so we waive By-law 6, sec. (1) (c). Carried.

During the year Harry Wineberg of the 1949-50 graduating class completed the requirements of the Board and was granted an L.D.S. Certificate.

Motion: That Harry Wineberg, having met the requirements of the Board of the R.C.D.S. of Ontario, be granted his L.D.S. Certificate. Carried.

Board Examination:

Two candidates, Dr. William Anthony McDonagh, a graduate of McGill University and Dr. Ernest Howard Hixon, a graduate of the University of Iowa, wrote and passed the Board Examination during the year.

Motion: That Dr. W. A. McDonagh having fulfilled all the requirements of this Board be granted his L.D.S. Certificate. Carried.

Motion: That Dr. E. H. Hixon having met the requirements of this Board be granted his L.D.S. Certificate. Carried.

Certification as Specialists

In respect to certification as specialists, the following actions were taken during the year on applications received from members of the College.

Motion: That inasmuch as Dr. Robert Edison Moyers has successfully complete graduate studies in Orthodontics and received the degree M.S. (Orthodontics), University of Iowa, he be granted a certificate as a specialist in Orthodontics. Carried.

Motion: That Dr. Robert Douglas Leuty having met the Board's requirements, be now granted a specialist's certificate in Orthodontics. Carried.

Motion: That Dr. Henry Bruce Squires, having met the requirements of this Board, be granted his Certificate in Specialization of Periodontics.

Motion: That when Dr. Alexander Austin Stewart meets the requirements of this Board, he be granted his Certificate as a specialist in Dental Oral Surgery. Carried.

REPORT OF LIBRARIAN

To the Board of Directors of the R.C.D.S.
Gentlemen:

It is my privilege to again present the Annual Report of the Harry R. Abbott Memorial Library for the year ending April 30th, 1951.

The circulation figures, which are appended hereto, show a substantial increase in all types of borrowing, inclusive of undergraduates, graduates and Faculty members. The increase in Faculty loans has been the greatest in the history of the Library. This increased activity speaks well for the Library as a functional teaching agency.

One hundred and fifty new books were ordered and delivered during the year, with fifty-seven book orders still outstanding. In addition, subscriptions were placed for twenty new journal titles. Our monthly acquisitions have been published in the Faculty News Letter, and this has proved to be an excellent medium through which to keep the Faculty informed.

During the year, the Library sent duplicate material to forty-three Libraries in Great Britain, South America, the United States, and Canada. In return the Library received material from more than thirty Libraries.

The display which the Library prepared for the Clinical Homecoming at the Faculty at the time of the Ontario Dental Association meeting last May, received much favourable comment, and a photograph of it was subsequently published in the Journal of the Canadian Dental Association.

The increased appropriation granted to our Library by the University last year, was maintained with a slight reduction this year, and this, in conjunction with the Abbott Fund has enabled us to purchase any book recommended to our Library Committee for acquisition. This financial support is deeply appreciated, and is herewith gratefully acknowledged. During the year, twenty journal subscriptions were transferred from the Harry R. Abbott Fund to the University account. This not only lightens the drain on the Abbott Fund from the standpoint of subscription cost, but also eliminates the cost of binding these journals.

The alteration in the physical arrangements noted in last year's report, and the installation of the carved crests on the panels in the Reading Room, has gained much favorable comment during the year. However, it should be noted that the expansion of Reading Room space has been obtained at the expense of the virtual elimination of the Museum Specimen cases, with a resultant deterioration of our Museum display. This is unfortunate, since the present state of inactivity of our Museum lessens its value as an instructive agency and is inimical to the encouragement of prospective donors. Lack of space is the governing factor, and at the present time much of our Museum material is in dead storage under anything but ideal conditions, in a small room on the mezzanine floor. Your Library Committee would welcome any constructive suggestions on the solution of this problem.

The Library acknowledges with thanks the many donations of books, periodicals and Museum Specimens that have been received. We are particularly indebted to Dr. A. D. A. Mason for his recent donation of his complete historical file on the Dionne quintuplets. The donation of Mrs. George Grieve from the collection of the late Dr. Grieve will shortly be installed in the Department of Orthodontics for the benefit of those engaged in graduate work in that Department.

Library Statistics

Year	Faculty	Students	Graduates	Periodicals	Total
1946-47	448	8737	894	1944	12 023
1947-48	508	7502	990	2727	11 727
1948-49	582	8498	630	3250	12 960

1950-51	605	9286	885	3201	13 977

The collective assistance received from the Board, the University, the Faculty Library Committee, and from the Assistant Librarians, Miss Bradley and Miss Smith, is gratefully acknowledged, and this report is respectfully submitted with the recommendation that the customary grant be made for the ensuing year.

J. H. JOHNSON, Librarian.

Motion: "That Dr. Johnson be re-appointed Librarian." . . . Carried.

REPORT OF THE REPRESENTATIVE OF THE DENTAL COUNCIL OF CANADA

To the Board of Directors of the R.C.D.S.
Gentleman:

Since my report to you a year ago on the activities of this Council, all business has been carried on by correspondence and no matters of major importance have arisen.

Dr. H. S. Crosby of Halifax has been appointed by the Province of Nova Scotia to succeed the late Dr. Oxner. The latter's sudden death so soon after retirement as an active and highly esteemed member of this Council for many years and a Past President, was a distinct shock to his host of friends from coast to coast, and particularly to those of us who had so recently sat with him at our bi-ennial meeting in Toronto last May.

The change in the name from the Dominion Dental Council of Canada to The Dental Council of Canada along with the alterations to our Constitution and By-laws necessitated a reprinting of all Forms pertaining to the business of the Council with the result that there now is available up to date copies of the following:

- Constitution and By-laws 1950
- Enabling Certificates for both Class A and D
- Application Forms for Annual Examinations
- Information for Candidates
- Declaration of Ethics

One of the major changes in the By-laws for Class A candidates has been the substitution of Oral examinations for Written. In this respect I believe that Ontario is particularly fortunate in the fact that two outstanding men, both connected with this Faculty of Dentistry in the persons of Dr. R. J. Godfrey and Dr. J. Kreutzer have consented to act as Oral Examiners for this province and I feel certain that any candidate who has successfully passed through their hands will be a worthy bearer of a D.C.C. certificate.

The financial statement for the year ended December 31st, 1950, shows a very healthy balance on hand even though the year ended with a deficit of \$2,247.00. This deficit was principally due to the expense of our meeting in Toronto along with the cost of printing new Forms and By-laws.

To date Newfoundland has not entered the D.C.C. as one of the agreeing provinces, but I believe that when certain matters are mutually ironed out that they will do so.

Your representative attended both the Council on Dental Education meeting held last January and the meeting of the "Provincial Licensing Bodies re National Examining Board" last February.

In the C.D.E. group a great deal of progress was made toward standardizing not only the Entrance requirements to the five different Faculties of Dentistry in Canada; but also in equalizing the number of hours of teaching in the various subjects. In this respect the report of the Survey Committee of Dental Schools should be not only interesting but very helpful.

With the exception of Prince Edward Island (and that by proxy)

all the provinces sent a delegate to the National Examining Board Assembly. A free and open discussion ensued with no holds barred.

Concession by some provinces on certain points and acquiescence by all on other points brought a full day's discussion to a happy ending and nearer the incorporation of all provinces into a National Examining Board than possibly every before.

The next meeting of the Dental Council is called for Vancouver in 1952. Only time will tell what the future holds in store for this Examining Board on which many of the members have served long and faithfully and with the highest integrity, in their attempt to raise the standard of dentistry in the agreeing provinces. Should a National Examining Board come into existence, this Council if called on, will lend every support and exert every influence within its power to assure its success.

All of which is respectfully submitted.

R. O. WINN

REPORT OF REPRESENTATIVES TO MEETING ON NATIONAL EXAMINING BOARD

To the Board of Directors of the R.C.D.S.

Gentlemen:

Your Committee begs to report the meeting of provincial representatives in reference to a national examining board, held in the Board Room at the National Headquarters on February 9th, 1951.

Dr. R. P. Lowery, President of the C.D.A. was Chairman of this meeting. He spoke briefly and asked the members to be prepared to give and take until all representatives could agree on common ground; to have faith in whatever policy was decided to be of mutual benefit to all provinces.

Dr. Don W. Gullett, Secretary of the C.D.A. reviewed the history of the D.C.C. and National Examining Board.

With this information and background the provincial representatives proceeded line by line to consider the recommendation for the establishment of a National Examining Board as presented by 1950 Transactions of the Canadian Dental Association.

The Council on Dental Education in session January 30th, 1951, passed the following resolution which was presented to the representatives for their consideration:

"WHEREAS, the Council on Dental Education has given detailed study directed toward the establishment of a National Examining Board the Council respectfully submits the results of the deliberations of this Council for your consideration; AND FURTHER recommends that in the interests of the further development of Canadian Dentistry every effort be extended toward an amicable solution of this difficult problem."

After a full day's consideration of this difficult problem, the following resolution was agreed upon by all provinces:

"That the Executive of the Canadian Dental Association proceed with the procedures of incorporation of a National Examining Board."

All of which is respectfully submitted.

R. J. GODFREY

H. W. REID

R. O. WINN

S. J. PHILLIPS

REPORT OF THE REPRESENTATIVES TO THE CANADIAN DENTAL ASSOCIATION

To the Board of Directors of the R.C.D.S.

Gentlemen:

Your Committee begs to report in part items for your consideration that have been discussed by the Canadian Dental Association, during the interval since the last meeting.

Death of Dr. J. K. Carver

Dr. Ken Carver died on January 28th, 1951, in Montreal after a short illness. The President and Secretary represented the R.C.D.S. Board at his funeral. Dr. Lowery, President of the C.D.A., made the following remarks which represent the feeling of each and every dentist in Canada in our deep loss and respect for Dr. J. K. Carver:

"The Executive of the C.D.A. in session February 12-13, 1951, in the Board Room of our new headquarters, 234 St. George St., have stood in silence and given voice in prayer, in memory and thankfulness for the privilege of knowing and serving with our confrere Dr. Ken Carver. His interest and untiring devotion will ever be a challenge to all those who will attempt to follow in his footsteps. To him we all owe much and to his memory we stand in respectful silence. To his widow and family we have forwarded a message and a flower token as a symbol of our thoughts and our prayers that she will be sustained in this hour of her great sorrow.

KEN WAS A MAN OF HIGH DEVOTION."

Ethics

In this Committee's report to the Board for the December 1950 meeting, it was pointed out that Dr. J. D. McLean, Chairman of C.D.A. Committee on Ethics, presented a very fine report. This report is to be found on pages 80-87 of the C.D.A. 1950 Transactions.

Now Dr. J. D. McLean writes our Secretary to ask us for our views on this proposed pamphlet. His letter speaks for itself and is as follows:

"The Committee on Ethics of the Canadian Dental Association is proposing the publication of a pamphlet on Ethics. For a preliminary outline of this pamphlet, I would refer you to your copy of the Transactions of the Canadian Dental Association Annual Meeting of May 1950, page 84, under the heading, "A Guide to Professional Conduct".

It is proposed that the publication be distributed to all dentists practising in Canada and to those entering the profession in the future.

In recent years there would seem to be a changing attitude in the minds of many members of the profession as well as the public, towards the functions of professional bodies and their members. In many minds, the health-professional bodies are no longer chiefly altruistic in form, but have become "glorified trade unions" and their members "merchants of health". While we may react violently against such criticism, it is not enough to protest our innocence. Some corrective measures ought to be taken. Perhaps this publication is one way in which we may be able to correct this attitude.

The Committee would appreciate the views of your Board on its proposed pamphlet. Do they feel that such a presentation would be of value? Do they agree with its form, and have they any recommendations as to changes, additions, or deletions from the text?"

Fiftieth Anniversary of the C.D.A.

It is proposed by the C.D.A. Public Relations Committee to publish a special issue of the Journal. This issue will cover the development of dentistry in Canada. Each Corporate Member is requested to submit an article covering the development of the organization in his respective province. It is hoped that in each case a concise summary will be prepared in order to produce a complete summary.

Statement re Rental Conditions

In respect to the rental basis for the rooms occupied by The Royal College of Dental Surgeons the following details are submitted:

Room No. 207 on second floor 16x14 — 224 sq. ft.

Room No. 206 on second floor 14x14 — 196 sq. ft.

Total 420 sq. ft.

Yearly rental at rate of \$3.00 per sq. ft. — 420x3 — \$1,260.00.

Monthly rental \$105.00 payable in advance.

It is understood that other facilities of the building are for the use of the Board under conditions agreeable to the Secretary of the C.D.A. One room in the basement (Room No. 5) has been set aside for storage purposes.

In order to avoid confliction in respect to meetings, all reservations will be made through the C.D.A. Secretary's office.

Caution will be exercised in respect to security.

The following rules will apply:

1. Doors will be opened at 8.45 a.m. and locked at 5.30 p.m. by the Janitor.
2. Evening meetings may be arranged for through the office of the C.D.A. Secretary.

At the termination of an evening meeting notification is to be given the Janitor.

It is desirable that effort be made to adjourn meetings at 11.00 p.m. in consideration of the Janitor.

The building will be closed all day on Saturday.

Arrangements respecting other matters will be settled by mutual agreement as they arise.

Survey of D.V.A. Fee Schedule

In Ottawa on February 26, 1951, the C.D.A. Dental Services Committee consisting of Doctors L. V. Janes, R. C. McLaughlin, C. W. Sheridan, L. A. Kilburn, H. K. Brown, C. B. H. Climo, and Don W. Gullett, met for the consideration of the revision of the D.V.A. Fee Schedule.

The Secretary presented three prepared tables as follows:

- (a) Comparison of the present D.V.A. Schedule with the reported average existing fee, by provinces.
- (b) Comparison of the present D.V.A. Schedule with existing Workmen's Compensation Board fee schedules.
- (c) Current laboratory prices.

Dr. Kilburn, Chief of Dental Services, Department of Veteran's Affairs, stated that through the district representatives, approximately 300 Schedules had been collected from all across Canada. As a result of this study it was determined that some revision was necessary.

The Secretary pointed out that when the last revision took place in 1944, the profession exhibited little interest, but became very interested a few months later, when re-habilitation services came into effect. While services by the dentists for D.V.A. are now at a minimum, any emergency might very quickly bring heavy demands upon the profession; and therefore, necessary revisions should be obtained.

Each item of the fee schedule was considered and a brief was prepared.

POLICY FOR DENTAL PROFESSION RESPECTING AN EMERGENCY

Discussion of this matter brought out the following points:

1. Where and how were dentists to be trained in emergency measures.
 2. Local societies should carefully survey dentists in local area.
 3. Allocation should be carefully arranged:
 - (a) Men liable for call in R.C.D.C. should not be given chief responsibilities.
 - (b) Men with special training should be placed to best advantage
 4. Dentists can probably best serve as part of a team with medics nurses, etc.
 5. Training in blood transfusion, anaesthesia, medical assistant, first aid (with training to take over a first aid station etc.) would probably be necessary.
 6. Dentists outside municipalities to be included in any training program as they may possibly be the most valuable in case of emergency.
 7. Intensive training by means of several courses necessary so dentist can act in various capacities.
 8. Emphasis will probably be placed on selected target areas where dentists will be required to take intensive training.
- All of which is respectfully submitted.

R. P. LOWERY
C. M. PURCELL
H. W. REID
S. J. PHILLIPS

Motion: "That this Board approve heartily the proposed pamphlet on Ethics as presented by the C.D.A. Committee on Ethics."
Carried.

Motion: "That the Board of the R.C.D.S. wishes to express their confirmation of the fee schedule which the C.D.A. has succeeded in having adopted by the D.V.A. and Dept. of National Defence. We wish our Secretary to convey to the C.D.A. an expression of appreciation for their efforts in this regard."
Carried.

REPORT OF HOUSING COMMITTEE

Mr. Chairman and Members of the Board:

One cannot sit for long as a member of the Board of the R.C.D.S. without being struck by the thought that the men who in past years sat about this Board table were wise and foreseeing men. Perhaps many of them dreamed of a day when the organizations representing dentistry would have a home of their own. Maybe they built better than they knew, for by their sagacious handling of Board funds they have built up a very sizeable surplus.

It was in this happy position that the present Board of Directors found themselves when it was intimated by each of the provinces across Canada that a Dental Headquarters building should be established in Toronto. After careful study by a committee an estimate was made of the funds that would be required to procure, alter and furnish such a building. It was accepted at the C.D.A. Board of Governors Meeting in May, and as a suitable building, 234 St. George St. An agreement was also reached among the Board of Governors that this building should be purchased and alterations commenced.

At the Annual Meeting of this Board, the sum of \$40,000 was voted to the Building Fund, being roughly the share to be assumed by this Board as a corporate member of the C.D.A. The other provinces are contributing as rapidly as their funds will permit.

Alterations are nearing completion and it is hoped that the building may be occupied by January 1st, 1951.

For some time the present Board quarters have been totally inadequate as to space and arrangement, and further space from the University is out of the question. In fact it has been mentioned by University authorities on more than one occasion that this Board was the last remaining outside organization occupying University property, and that the present space could be used to advantage.

Therefore, it is planned to move the office of the Board of the R.C.D.S. to 234 St. George St., where suitable space for files, storage, clerical help and registrar-secretary's office, etc., is available.

It is the earnest wish of the Members of the Board that every member of the College will visit their new headquarters and that they will be as proud of it as the Members of the Board are at having a small part in bringing it into being.

Respectfully submitted.

R. J. GODFREY
H. W. REID

Motion: "That this Board express to the C.D.A. their appreciation of the space allotted to the R.C.D.S. and the delightful surroundings under which we the members of this Board have been privileged to hold our Annual Meeting." Carried.

Motion: "That the Secretary be instructed to write the President of the University of Toronto recording our thanks for the accommodation provided in the Faculty of Dentistry building, and express the hope that the very cordial relations which have existed in the past will continue." Carried.

REPORT OF THE DENTAL PUBLIC HEALTH COMMITTEE

Mr. Chairman and Members of the Board of the R.C.D.S.

This Committee has proceeded with its work of Dental Health Education throughout the province. Eight regular meetings have been held since last September with a final meeting scheduled for June.

Following changes in the By-laws of the Ontario Dental Association, the Dental Public Health Committee now consists of nine elected members, an increase of three. The ex-officio members are unchanged. This enlargement of the Committee has been most helpful in meeting the increased demands on our time.

Sub-committees have been formed to facilitate the administration of our work. These include:

1. Materials Committee
2. Field work Committee
3. Convention Committee
4. Public Relations Committee

Much of our work can be conveniently reported through the activities of these Committees.

Materials Committee

One of our major efforts this year has been the production of a book on Dental Health Education. This book is designed to provide a fairly complete fund of dental information for all Health workers especially Teachers, Public Health Nurses, Hygienists, etc. We hope it will be of help to anyone who wishes to give talks or make up programs on Dental Education subjects. The demand for this type of thing

has grown steadily in recent years. We have not had suitable material to meet such increasing requests. It is hoped that the book "Your Child and Mine" will be the answer to this problem.

Many film, film strips, slides, pamphlets, etc., have been examined and evaluated during the last two or three years, in an effort to bolster one of our weakest points—a lack of modern materials. In this respect our position has improved considerably. However, there still is much work to be done.

Chairman, Dr. Arthur Wood is to be commended for his persistent efforts to improve our materials. His Committee has been most industrious. Dr. Mitton has given invaluable assistance in many of the time consuming details.

A copy of the pamphlet "Good Food For Your Child" was sent to every practising dentist in Ontario. The response for additional copies received by the School of Hygiene, University of Toronto, was beyond our fondest hopes.

Dr. Edgar White and his Toronto Academy of Dentistry Committee was responsible for another pamphlet, "Hidden Sugars" which was sent out in a similar manner. Requests for 25,000 of these pamphlets have been received to date by the Secretary of the O.D.A. It would appear that this is concrete evidence of increasing interest on the part of practising dentists in Dental Public Health needs.

Field Work Committee

An attempt has been made by this Committee to evaluate the various areas in Ontario with respect to the possibility of establishing D.P.H. programs. It should be pointed out that these programs once started, must be assisted from time to time, in order to be successfully sustained. The D.P.H. Committee, as a voluntary group of practising dentists, feels that far greater assistance should be forthcoming from the Dental Division of the Department of Health of the Province of Ontario. It is our experience that their subsidized treatment programs have been conspicuously inept. Their educational program has been passive, in fact almost non-existent.

Dr. McGowan and his Committee have been working in the Barrie and Uxbridge districts where attempts are being made to establish Dental Health Educational programs. Dr. Mitton does much of the preliminary work in our promotion projects.

Convention Committee

This Committee, under Dr. MacGregor, has arranged a very full program for the O.D.A. Convention. A permanent display framework has been designed and purchased. This will be shown at the Convention and may be used throughout the year. It will be available for use in Dental Health programs anywhere in the province.

Public Relations Committee

Dr. Harold Swales leads this Committee. Among other things they are interested in arranging television programs with the C.B.C. which, it is planned, will be ready for production early next year. This medium of dental education may have unlimited possibilities.

General

To attract a desirable type into the D.D.P.H. course, continues to be a vexing problem. The base-line salary for such graduates has been raised from \$5000. to \$5200. This is still decidedly unattractive to nearly all graduate dentists with at least three years experience in practice. It should be noted that the Province of British Columbia is paying \$5800. to recent graduates, men with no post graduate training or experience.

Your D.P.H. Committee recognizes in principle, the advantages that a Dental Health Officer with several years experience in practice, would have in his contacts with the dentists in his district. However, to ask a dentist to establish himself in practice, gradually assuming the various responsibilities that naturally become his lot, and then drop everything to return to University, is not practical. It would seem that the men most likely to apply for this course, would be the ones who had been the least successful in practice. Admittedly, there have been exceptions.

Therefore, it is our recommendation that the qualifications for the D.D.P.H. course be modified as suggested by the above discussion, in spite of the obvious objections. It is not only impossible to attract good men to this course, it has become impossible to retain the men already in the work. In effect, this chronic bottle-neck in D.P.H. work has become an acute problem.

The responsibility for guidance and to some degree supervision of dental activities in the Health Units, is being assumed by no official central body. The Dental Health Officers have attempted to guide their own destinies, in consultation from time to time, with the D.P.H. Committee and others. They have received little or no direction from the Dental Division of the Provincial government. Standardized requirements from this department would easily develop a co-ordination of effort and a uniformity of result which could not be obtained by unauthorized methods, or from other sources which are not able to act with any actual authority.

Because of the pressure of new demands caused in most part by world conditions, the Red Cross is withdrawing its financial support of the Dental Health Officers in both Welland and Sudbury. Other arrangements are being made in order to retain these services.

The Junior Red Cross of Ontario has transferred to the national body \$10,000, to be used for the dental program in Newfoundland.

Dr. Glen Mitton is investigating the possibilities of introducing Dental Seminars for dentists in Ontario.

It is suggested that Dr. Mitton's interim reports be carefully studied. To attempt to give the full details of his work this year would require time and space beyond the realm of this report. The ramifications of his work are many and varied. His efforts have consistently gone beyond the normal limits of his duties. Without his assistance, the Committee would be obliged to reduce its activities to a marked degree.

Our course for the coming year has been carefully considered and tentative plans have already been drawn up. It is our hope that this Committee will be able to proceed with its work of Dental Health Education throughout the province, with an increasing degree of success.

Respectfully submitted.

R. R. BUTLER

Motion: "That this Board recommends to the Dental Public Health Committee that they continue the study of post-graduate dental seminars, and that this Board appoint a committee of Doctors Reid, Godfrey and Gullett to discuss with the D.P.H. Committee the feasibility of inaugurating such a program." Carried.

Motion: "That the Committee of Doctors Reid, Godfrey and Gullett cooperate with the Dental Public Health Committee in an effort to implement the suggestions made by the Minister of Health in a recent interview with this Board." Carried.

Motion: "That this Board suggest to the Faculty of Dentistry, U. of T. that due to the urgent need and demand for dental graduates with D.P.H. diploma, that the Faculty consider the advisability of accepting students for the D.P.H. course who have not had experience in private practice." . . . Carried.

REPORT OF DENTAL REFEREE TO WORKMEN'S COMPENSATION BOARD

To the Board of Directors of the R.C.D.S.

Gentlemen:

It is again my privilege to report to you in connection with my activities on your behalf with the Workmen's Compensation Board.

At the outset I feel I should say that the Workmen's Compensation Board, through its officers and particularly Mr. C. G. Cameron with whom I have most contact, goes out of its way to co-operate in the settlement of claims. In the past year I have assisted in adjusting about 31 claims, rendering written reports in each case. In some instances clinical examinations were carried out, and in the others information in the Board's files were used as a basis for settlement. In many cases consultation by telephone with the dentist concerned helped greatly in dealing with various problems.

My experience in this work as your referee prompts me to make a few observations which may be of interest to you:

1. Some dentists dislike filling out forms, and because this is necessary for compensation files, it is done reluctantly and inadequately—resulting in delay in settlement of the claim. Those who do not mind filling out the claim forms do it well which expedites the settlement.
2. Some dentists seem to be over busy which makes them always hurried and critical. Others do not make any effort to understand three salient features of the Board's policy—
 - (a) The Board is responsible for dental care to an injured workman, but only to the extent caused by a given accident.
 - (b) The Board's approval must be given for service to be performed and the fee to be paid to the dentist before service is rendered with the exception of emergency care.
 - (c) There can be no private arrangement with a claimant as a patient when the Board is responsible for Compensation. If a dentist feels he has a case where the fee shown on the schedule does not cover the service needed adequately, then I would suggest taking the matter up with the Board before proceeding.

It is my opinion, if the dentist makes a good examination and report setting forth the facts of the case with a considered suggested treatment that is fair, the Workmen's Compensation Board, will lean backwards to be fair in settlement.

3. There are a few complaints being made to the Board respecting the inadequacy of its schedule. I believe it is only fair this should come to your attention, because the Board accepted without qualification the recommended schedule in 1948. Complaints therefore, should be referred to you as well as the Compensation Board. These complaints relate mostly to specialists fees, partial denture prosthesis, and root canal therapy. In all of these cases the Board does allow some leeway when it is made clear that the service to be performed merits increased compensation.

As a matter of interest a case has come to hand where root canal therapy was done by a well known Endodontist. His letter to Dr. D. W. Gullett, Secretary of your Board (a copy of which was sent to me) follows, together with a letter to him by Mr. C. G. Cameron setting forth the Board's policy.

To Dr. D. W. Gullett:

Last November a lad was referred to me for endodontic treatment following a grievous facial accident. After emergency treatment the pulps were kept under observation but in February it was found necessary to do complete root therapy on the upper left lateral and cuspid. I informed the workman that the fee allowed by the Workmen's Compensation Board would not even pay my expenses and told him that if he wished me to perform the operation that the fee would be \$25.00 for each tooth. He was quite happy and agreed to pay the difference of \$32.00

I find now that I was in error, and that I must keep to \$8.00 for each treatment. I enclose copy of my letter to Mr. Cameron for your records. How long is this archaic condition to persist? Just what is the use of trying to teach good dentistry when an organization of such widespread influence prints a fee list which holds preventive dentistry up to ridicule?

Not once, but several times in the past year, my phone has rung and recent graduates have asked me what they should do with these Compensation cases. I wonder what the ethical answer should be? Personally I do much dentistry, as do all men in practice, which satisfies the heart but depletes the pocket-book, but I do not think that an organization such as this Board should expect charity from the dental profession.

Sincerely yours

Mr. Cameron's letter to Dr. in question:

Claim 2760003

We have been informed by (the company concerned) that they have received a bill for \$32.00 from you covering dental treatment for this man in connection with injuries sustained as a result of the accident on November 9th, 1950.

It would appear that there is some misunderstanding in this case as the fees listed on the reverse side of form 34 are intended to cover full payment. Moreover, it will be noted in submitting the account, the dentist also signs a declaration to the effect: "The above is a correct statement of services personally rendered by me, that the fees are not more than would be properly and reasonably charged to the workman if he himself was paying the bill, and that I have received no payment therefore except as above stated". Under the Medical Aid regulations of the Act an injured workman is under no financial obligation for necessary dental treatment of a condition arising out of the accident, consequently, it would be illegal to collect a sum in addition to the fee allowed by the Board.

We trust that this will explain the Board's policy in this matter.

Yours very truly,
C. G. Cameron,
Medical Officer,
Workmen's Compensation Board

On investigation of this claim since receiving the above letters, I find the dentist concerned proceeded to treat the injured workman as a private patient expecting to apply the Compensation allowance towards his fee, and the patient agreed to pay the balance. When the service is complete and the patient receives the statement for services, he hands it to his employer who in turn goes to the Compensation Board and asks, "What about this?" Then things happen which I feel would not happen if dentists would only read the forms they fill out and sign.

A copy of my letter to the dentist concerned conveys some of the principles which if recognized would prevent similar occurrences.—

Dear Dr. _____

Thank you for sending me a copy of your correspondence with Dr. Gullett and Mr. Cameron of the Workmen's Compensation Board.

You realize now that you made a mistake when you made private arrangements as to fee with a patient who was a claimant of the Workmen's Compensation Board. If you had protested the fee allowance to the Board when you submitted your suggested treatment for approval, there is an excellent chance a satisfactory arrangement could have been made.

The fee of \$8.00 for root canal therapy was set up by a committee of the R.C.D.S. Board in 1948. I would be first to recognize it as inadequate for good root therapy following a technique such as you use, but any amount is too much for unsatisfactory root therapy where in a year or so extraction follows with consequent further expense for prosthetic restoration. The Workmen's Compensation Board would be willing I am sure to pay a fair fee for good root therapy treatment, but would prefer the extraction and prosthetic restoration in the first instance unless the root therapy is properly done. I shall bring your problem before the Board of Directors of the R.C.D.S., and they may have some suggestion in dealing with this problem.

In my experience in dealing with the Workmen's Compensation Board, I should like to state that their officers are always willing to co-operate with the dental profession, and they do not ask for any charity. Their officers are always prepared to receive for consideration fair minded suggestions and perhaps your letter will serve a very useful purpose.

Thank you again for bringing this case to my attention.

In closing this report I would be remiss if I did not acknowledge the good counsel of Dr. D. W. Gullett on many occasions; and to recognize the cordial relations and co-operation I enjoy with the Medical Aid Department of the Workmen's Compensation Board through Mr. C. G. Cameron.

Finally, I do hope I have been able to discharge my duties in keeping with dignity and fairness as becomes a representative of your Board.

Respectfully submitted.

Motion: "That Dr. _____ be re-appointed as the Dental Referee to the Workmen's Compensation Board." Carried.

Motion: That a letter be sent to Dr. _____ expressing our appreciation for the able manner in which he performs his duties as Dental Referee." Carried.

Discussion ensued upon the fee allowance for root canal therapy. Decision was made that the Workmen's Compensation Board would be very co-operative if the regulations were followed. The representatives to the Workmen's Compensation Board were instructed to give study to the points raised in conference with those concerned.

REPORT OF REPRESENTATIVES TO ANNUAL MEETING OF THE AMERICAN ASSOCIATION OF DENTAL EXAMINERS

• Board of Directors R.C.D.S.
Gentlemen:

The Secretary and I attended the meeting of the American Association of Dental Examiners on October 27-28, 1950 at Atlantic City.

May we again thank you for making it possible for us to attend and report this meeting to you. There are many every day problems which confront all Boards and at the meeting of this association, these subjects are discussed, you hear the viewpoint of other Boards and and you share in the solving of these disturbing matters. From this experience you are able to serve your own Board much better for the advancement and well being of your profession.

The program was much the same as the last two years, dividing itself into two main parts, one dealing with the many problems that arise from the reports of the committees and the other "Seminar on Testing Methods".

1. WAR SERVICES

At present they are calling 1160 Dentists into the Armed Forces of the United States, and for 1951 the number is expected to be 1400.

Shortages of Dentists are being felt in many parts of the United States and a resolution was passed and sent on to Washington asking that Procurement and Assignment Committees of the different states take over this task as they did in the last war.

II. STANDARDIZATION OF DENTAL LAWS

A. Charter of the United Nations supersedes the constitution of the United States and shall be the supreme law of the land. Laws that have been enacted years ago can be made void if the new interpretation of the Charter of the United Nations is correct. It effects the Dental Practice Acts in the first requirement which states, "that a dentist must be an American Citizen". What is the Status of the Dental Law that denies the American Dentist the right of Citizenship?

B. Governor Bowles—State of Connecticut

The Dental Board of this state is still unable to have Governor Bowles withdraw his "veto" in reference to Dental Technicians and the control of Dental Prosthetic may go from that of the Dentist to that of the Dental Technician. The trouble in most states is that their Dental Practice Acts are not well worded nor clearly defined, and now, when they try to strengthen their Acts, they find that some Governors, Judges and Organized Labour are against them and it is almost impossible to change the Act.

C. Massachusetts

The Act which gave the Department of Health the power to train nurses for two years to render Dental Services to children in this state has been repealed.

III. PROBLEMS OF PROSECUTION

It is the duty of the Dental Board to enforce the Dental Laws and one of the most difficult was dealing with the illegal practitioner. This Board knows very well how difficult it is to catch and convict anyone violating the law. Their problems seem just the same as ours and the burden of proof is on the Board. The law is a little different. A conviction of violating the Dental Act is not a crime in United States, but there civil penalties, 1st offence \$300.00, second offence \$1000.00, he pays the penalty and goes free. As here, the Board alone, suspends the licence.

IV. DENTAL HYGIENISTS

All states but two have legislation to regulate Dental Hygienists, but the several states have not agreed upon uniform rules and regulations.

V. FINANCE

The Finance Committee are spending more money each year than they are receiving in dues, and at the present rate of deficit all surplus funds will be used up in two years. The main reason for this extra expense is the "Seminar on Testing Methods". Some other method has to be found to finance this part of the association.

The second day, of the Annual Meeting, was spent on Testing Methods and Examination Questions. When the program for this year's Seminar was being formed, it was decided that the subject should be "Principle of Education Measurements Applied to Licensure Examinations" and out of the discussions and group workshops there could be prepared "a Manual on Questions" for the use of State Board Examiners.

A partial first draft for the Manual was commenced in which four major steps in the examination procedure were recognized.

1. Selecting the subject matter for the Question.
2. Construction of the Question.
3. Preparing a written Key of answers.
4. Scoring the answers and assigning grades.

Part I — Selecting the Subject Matter for the Question

A. The first step an examiner has to take in preparing subject matter for the questions, is to decide upon the ideas, principles, facts etc. he must use in his question and the choice of the value or marks placed upon these ideas and facts taking into consideration what the examiner wants to find out about the candidate.

B. The next step is to prepare a list of significant items, facts or procedures.

C. In deciding upon the ideas and procedures to be used, the examiner should ask himself. "Is this particular fact, or principle or process of enough importance in the practice of Dentistry to require the candidate to know or understand it before he enters into practice; will he render inadequate service or perhaps do harm to the patient if he does not comprehend it?"

D. Do I, as a member of the Board of Examiners, want to measure the **Possession of Knowledge** or do I want the examination to reveal the **Application of the Knowledge**.

Part II — Constructing the Question

- A. Essay Questions.
- B. Short answer Questions.
- C. Completion Questions.
- D. False or True Questions.
- E. Matching Questions.

Regardless of the type of question the examiner uses, it has to be stated clearly and in a language that will be understood by the candidate.

Part III — Preparing the Key

A Key consists of the correct answers to the questions. It serves the purpose of a measuring stick. In consideration of the Key you must refer to Part I of this manual in which you have the original list of items. To this list you must add correct ideas that appear from candidates' answers that had not occurred to the examiner. Then the answers must be graded, each being given the same weight or may have more score points assigned to some than to others.

Part IV — Scoring the Answer and Assigning Grades

These can either be a letter A, B, C, D, or percent 90, 80, 70.

Perhaps the most significant problem in assigning grades is to determine the "Cutting Score" the point which marks the difference between passing and failing.

We were now divided into work shop groups and given examination papers to prepare, answer, a Key, and finally to grade. For our guidance we had:

- A. **Chairman**—A Dentist and a member of the Board of Examiners.
- B. **A Secretary**—A Dentist and a member of the group.
- C. **Two Consultants or Experts**—I. A Dentist
II. Professor or member of the Teaching profession.

For the next two hours we proceeded to mark examination papers. Each group was examining the same questions and at 4P.M., we assembled in the main auditorium and compared the answers, Keys, and grades of each question. The Consultants presented a general evaluation of the program and everyone agreed that the third seminar was a success and that much had been learned in reference to measurement testing as applied to examination of State Boards.

All of which is respectfully submitted.

DON W. GULLETT
S. J. PHILLIPS

REPORT OF THE COMMITTEE ON GOVERNMENT AND LEGISLATION

Mr. Chairman and Members of the Board of the R.C.D.S.

Since the last printing of the By-laws of the Royal College of Dental Surgeons of Ontario, there have been a lot of Amendments made; there have also been some Amendments to the Act. These changes mean a revision of the Act and By-laws, plus the addition of By-laws respecting Dental Hygienists.

Since the last meeting of the Board, our Committee has studied the proposed Amendments and have incorporated them in a draft for the study and approval of the Board.

This matter should have been completed long ago, but we have been waiting for the Ontario Government to give its final O.K. to the By-laws respecting Dental Hygienists and this we hope to have any day.

Upon the Boards approval a final draft can be prepared and the matter of printing proceeded with.

Respectfully submitted,

F. J. FURLONG
S. J. PHILLIPS
R. J. GODFREY

BY-LAW NO. 80

A By-law to amend by-laws numbered 2, 8 and 10.

By-law No. 2 Section 5, Line 8

Delete the figures, "\$2000.00" and insert in their place the figures, "\$5000.00".

By-law No. 8 Section II

Following Section II add the following words in brackets "(As of

May 1950 the Dominion Dental Council of Canada was re-named the Dental Council of Canada. Certificates of the Dental Council of Canada will be recognized on the same basis as stated above for the Dominion Dental Council of Canada)".

By-law No 10

Section 1: In the last line-delete the words, "the sum of twenty dollars" and insert in their place the words, "a sum designated by the Board in accordance with the Act".

Section 3: In the last line-delete the following words, "(This shall not apply to Ex-Service Men's Loans)".

Motion: "That the Secretary be instructed to purchase 4,000 copies of new By-laws and the Act, printed separately. . . . Carried.

FACILITIES FOR EDUCATION

After due consideration of the present position of the profession the following resolution was presented:

Motion: WHEREAS, The population of Ontario has increased rapidly during recent years, and with every indication of further increase, and

WHEREAS, The demand for dental service by the public is greater than can be supplied by existing personnel, therefore be it

RESOLVED, That real need exists for the provision of greater facilities for the education of an increased number of dental students, and be it further

RESOLVED, That a copy of this resolution be forwarded to the Minister of Health and the Minister of Education of the Province of Ontario. Carried.

A copy of this resolution was forwarded to the President of the University of Toronto and the Dean of the Faculty of Dentistry, University of Toronto.

PRESENTATION OF GAVEL BY DR. G. H. CAMPBELL

Dr. George Harrold Campbell, a former member and President of the Board met the Board and congratulated them upon their surroundings. He presented the Board with a gavel of his own making.

The President made suitable reply thanking Dr. Campbell for his thoughtfulness and kindness in presenting the gavel. He stated that the gavel would be used and treasured by the Board.

Dr. Reid also spoke in complimentary terms of the contribution made to dentistry by Dr. Campbell over a great number of years.

Workmen's Compensation Board — Keenan, Furlong.

Faculty Library Committee — Gullett.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on"

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practise. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITING ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO
1951-1952

REPORT OF THE PRESIDENT

To the Board of Directors of the R.C.D.S.

Gentlemen:

The duties of this office during the past year have, in the main, been pleasant ones. On many occasions I have found it necessary to appeal to the Secretary for instruction and guidance and without exception, he has not been found wanting. To him, as well as to all Board members who have worked together so harmoniously, please accept my sincere thanks.

To view from a vantage point the panorama of the tremendous strides in the advancement of the dental profession is an experience one can never forget. In this regard I would particularly pay tribute to Dean Ellis and his Faculty who are working under, to say the least, restricted circumstances both as to space and financial facilities but who are abundantly provided with outstanding ability in their own sphere. To them must go our thanks and congratulations. Scarcely a letter is received from the Dean's office which does not announce the invitation to one or more members of the Faculty to take part in the advancement of Dental Education and dissemination of dental knowledge not only in near and distant parts of our own country, but in the United States as well.

When the heads of any teaching organization are of such high calibre it cannot help but reflect upon those who place themselves under their influence and this is well-evidenced in the comprehensive education and intensive training received by the graduates of our Faculty of Dentistry today.

As you all know, for the first time in Canada a two-year course for Dental Hygienists was established last fall and we look forward to the forthcoming report by Dean Ellis on the first year's operation in this pioneer work. Again must go our recognition of and thanks to the Dean and the Faculty for seeing to the provision of funds and facilities to make this course possible, to say nothing of the hours and days given to the assembling of teaching material necessary in this new field. The progress of students presently taking the course and of those to follow will be noted with more than passing interest.

Now to the other side of the ledger. We view with considerable alarm the number of letters arriving at the Secretary's office from patients registering complaint against members of the Dental profession for what may well be acknowledged as unfair and unethical treatment. I believe in this respect the Board has a duty to perform, to study these complaints carefully and, where in their judgment it may seem necessary, to take stern and decisive disciplinary action to prevent, if possible, a few offenders from becoming marauders of a trust supposedly well placed.

Too, the advocating by a certain very few of our confreres of the handing over to unskilled hands of what may justly be considered almost a specialized phase of dentistry, can be questioned as sound judgment at the present time. True we look forward to the day when a rapidly expanding program in research for the promotion of Dental Health may profoundly affect the scourge of dental caries and periodontal diseases, but to call for the dismissal of the Architect and Engineer before at least the superstructure is well advanced can hardly be considered wise counsel.

Finally, a word financially. Each year with ever-rising costs and increasing supplications for financial aid and assistance to worthy and worthwhile projects and with practically static receipts, we find it more difficult and indeed impossible to operate with even a nearly-balanced Budget. If we are to give heed and support to any of these

pleas, this Board must shortly seriously consider ways and means of fairly and justly implementing revenue.

I trust that our deliberations during the next few days may produce a completely satisfactory answer to the many perplexing problems on this year's annual agenda.

All of which is respectfully submitted.

(Sgd.) R. O. WINN, D.D.S.

President.

Motion adopted:

THAT the Report of the President of the R.C.D.S. be adopted.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board:

In accordance with your instructions the Act and By-Laws, as amended to date, were published and distributed to the membership.

The biennial election of the Board will be held this coming fall. It will be necessary to appoint Scrutineers at this meeting.

The subject of civilian defence in case of an emergency is assuming increasing importance. Until recently the work upon this matter was conducted upon the national level where a policy for members of the dental profession was established and published. It is now being implemented on the provincial and municipal levels. The cooperation of dentists in this preparatory measure, which may prove vital, should be of an active nature. If emergency should arise the military side of the matter also creates a problem to be met which requires preliminary study.

CHANGES IN REGISTER

As of April 30th, 1952, the number on the Active List of the register was as follows:

Annual fee paid	2120	
Less deceased & retired since paying fee	13 —	2107
Honorary licences issued	89	
Less deceased since January 1st	1 —	88
Fees unpaid on April 30th	2 —	2
Total		2197

The following changes in the list have occurred between April 30th, 1951, and April 30th, 1952:

Additions

New Graduates	133	
D.C.C. Certificates registered	1	
D.D.C. Certificates registered	4	
Board Examination	1	
Transferred from Inactive	7 —	146

Deletions

Deceased	30	
Retired	38 —	68

Gain during year	78	
------------------------	----	--

For earlier years the total number could be considered as practising dentists. During recent years an increasing number on the list are not actually engaged in practising dentistry for the public. Consequently it is difficult to make ratio comparisons of the number of dentists to population with the stated figures of ten or more years ago. The number engaged in services other than actual private practice has increased substantially during the last ten years. At this date 12 are engaged in full-time teaching and 11 are employed in

full-time public health services. It is conservatively estimated that one-third of those on the Honorary list are not practising. Some 34, who are outside the province or not in practice, retain their standing by paying under the half-fee regulation. This makes a total of approximately 64 in these two groups who are included in the total number but not actually engaged in practice. In addition, there are 39 members who are serving in the Royal Canadian Dental Corps and 17 members are employed by the Department of Veterans Affairs; part of whom are serving the Ontario population. A few, not accounted for above, are in full-time employment other than rendering actual treatment services for the Ontario public. To arrive at an estimated figure for the number actually serving the Ontario public is a difficult problem. Conservatively estimated, it is safe to say that there are approximately 150 names appearing on the list who render no dental treatment services directly to the Ontario public.

In 1931 there were 1800 dentists in Ontario all of whom, for practical purposes, were practising for the public and the ratio was 1 dentist to 1906 of the population. Today there are approximately 2050 dentists actually performing dental services for the public. The ratio, based on the 1951 census figures, for 2050 dentists works out to 1 dentist for 2243 of the population.

The increase of practitioners reported above for the current year was realized from 133 who registered in Ontario out of the 1951 Graduating Class of 1952 at the Toronto School together with 13 who registered from other sources. The graduating class this year has 85 students of whom it is estimated 50 to 60 will become active practitioners in Ontario. Eight (8) of this year's class have accepted appointments in the Royal Canadian Dental Corps, and the remainder are locating elsewhere than Ontario. With deaths and retirements averaging 50 each year very little betterment of ratio can be anticipated in future as classes at the Toronto School are more or less stabilized at the number graduating this year.

Extramural Lectures and Clinics

Following is a detailed report of the Extramural service during the past year. Thirty-three lectures were given in twenty-three centres. This service is appreciated as is evidenced by the letters of appreciation received at this office:

EXTRAMURAL LECTURES AND CLINICS

LICENTIATES DECEASED

APRIL 30, 1951-1952

1905	Adams, George Arthur Maurice	Toronto	July 21, 1951
1890	Belden, George Franklin	Virginia	Sept. 10, 1951
1933	Braund, Stanley	Peterborough	Dec. 3, 1951
1822	Bright, Robert James Rose	Bobcaygeon	May 14, 1951
1904	Clarkson, Charles Harold	Toronto	Jan. 29, 1952
1904	Davy, Wm. Clark	Morrisburg	Aug. 26, 1951
1912	Dayment, Frank Lethbridge	Toronto	Dec. 2, 1951
1900	Elliott, Wilkinson Foster	Toronto	Apr. 3, 1952
1914	Elliott, William Stoddart	Atikokan	Sept. 17, 1951
1950	Epp, Benjamin	Newtonbrook	Apr. 10, 1952
1936	Follick, Frederick Rea	St. Mary's	Sept. 20, 1951
1903	Fowler, Howard	Clinton	Jul. 3, 1951
1902	Gibson, Orlando Kingsley	Ottawa	Sept. 27, 1951
1926	Gourlay, John	Barrie	Sept. 20, 1951
1908	Hamilton, Richard S.	Brussels	Feb. 17, 1952
1922	Holmes, LeRoy Hibbard	Toronto	Oct. 9, 1951
1929	Hudson, Albert Henry	Timmins	Aug. 16, 1951
1923	Huffman, Ralph W.	Long Branch	July 11, 1951
1921	Hunter, William Harold	Orillia	Aug. 3, 1951
1921	Kerr, Arnold Roy	Toronto	Feb. 19, 1952
1905	Kirby, Hiram Horton	Hawkesbury	Jan. 19, 1952
1917	Legate, Mrs. H. B. (Milne)	Owen Sound	July 19, 1951
1897	MacLean, William Alex.	St. Catharines	June 4, 1951
1901	McBride, Charles Wilson	Kingston	May 8, 1951
1923	McBain, Wallace Ward	Port Colborne	Mar. 2, 1952
1922	McEwen, Alma Lillian	Toronto	Jan. 11, 1952
1899	Reeves, Charles Milton	Tweed	Apr. 30, 1951
1909	Semple, Hugh Arnold	Toronto	May 29, 1951
1923	Shepherd, O. G.	Saskatchewan	Apr. 25, 1952
1912	Spence, William George Evans	Listowel	Mar. 4, 1952
1923	Winter, Lorne Main	Galt	Jan. 16, 1952
1920	Wintrobe, Louis Max	Toronto	July 12, 1951
1899	Zinkan, Edwin Ira	Toronto	Sept. 10, 1951
1913	Zinn, Sylvester Herbert	Hanover	July 27, 1951
1946	Mitchell, Margaret Mary (Currie)	Toronto	Feb. 7, 1952

HONORARY REGISTRATION

The following members who have been on the Ontario Register for 50 years or more were sent Honorary Renewal Certificates:

1886	Carrique, J. H.	Toronto
1888	Frain, J. H.	Norwich
1889	Matthewman, G. P.	Ottawa
1891	Sisley, M. J.	Toronto
1892	Musgrove, G. J.	Niagara Falls
1893	Fowler, G. S.	Teeswater
1893	McGorman, W. T.	Port Arthur
1893	Peaker, E. A.	Toronto
1894	Abbott, C. N.	London
1894	Bell, J. W.	Hamilton
1894	Cameron, J. D.	Renfrew
1894	Davidson, D.	Woodstock
1894	Sangster, W. A.	Port Perry
1894	Lyon, V. H.	Leaside

1903	Sanderson, H. M.	Richmond Hill
1903	Walt, C. F.	Orangeville
1903	Walton-Ball, W. H.	Toronto
1903	Williamson, F. L.	Hamilton

The work of this office has been greatly facilitated by the active part taken in it by members of the Board. It is my desire to express appreciation to each of you for the many generous courtesies which have occurred during the year.

Yours faithfully,

DON W. GULLETT,
Registrar-Secretary.

Motions adopted:

THAT those members registered in the year 1903 be granted Honorary registration beginning January 1st, 1953.

THAT A. T. Laidlaw and A.D.A. Mason be appointed scrutineers for the biennial election of the Board.

WHEREAS it is the considered opinion of this Board that in the event of a national emergency all dental and ancillary personnel should be mobilized and

WHEREAS the representative organizations of the profession are best acquainted with the need for and distribution of available personnel, be it resolved

THAT such mobilization should be under the control of the representative dental organizations.

THAT the Report of the Registrar-Secretary be adopted.

REPORT OF TREASURER

Mr. Chairman and Members of the Board:

Your attention is directed to the following matters:

Auditors' Statement

The Auditors' Statement for the year 1951-52 is herewith submitted for your consideration. Particular notice should be taken of the statement of Revenue and Expenditure as compared to that of the previous year. The appointment of Auditors for the ensuing year is necessary.

Licentiate Fees

In accordance with the regulations, first fee notices were sent out on December 1st last, second fee notices were mailed on January 15th

and drafts drawn on those unpaid on February 1st. As a result, four members had not paid the fee on April 1st and these accounts were placed in Division Court for collection. By April 30th two accounts were paid into Court leaving the fees of Dr. L. Ballantyne, Thornhill, and Dr. N. C. Kelly, Windsor, unpaid.

Revenue and Expenditures

Sufficient funds will not be available to carry the committed expenditures of the Board for the balance of the present year and consideration should necessarily be given to method for the provision of operating monies.

Securities

No change was made in the securities held by the Board during the year.

Respectfully submitted,

DON W. GULLETT, D.D.S.,

Treasurer.

Motions adopted:

THAT Thorne, Mulholland, Howson and McPherson be appointed auditors for the ensuing year.

THAT the Report of the Treasurer be adopted.

THAT the Auditors' Statement be adopted.

AUDITORS' REPORT

We have examined the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1952. All our requirements as auditors have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1952.

REPORT OF EXECUTIVE COMMITTEE

To the Board of Directors, R.C.D.S.

Gentlemen:

A meeting of the Executive Committee was held in the Board Room at 234 St. George Street, Toronto, on Wednesday, April 16th, 1952, under the Chairmanship of Dr. R. O. Winn, President of the Board.

The purpose of the meeting was to meet a delegation from the Ontario Dental Association headed by Dr. W. K. Prendergast, President of the Ontario Dental Association. Other members of the delegation were Dr. G. V. Morton and Dr. R. R. Butler.

Dr. Prendergast stated that a very small number paid a sustaining membership fee to the Ontario Dental Association yet all dentists benefitted from the work of the organization and he requested, on direction of the Board of Governors, that the R.C.D.S. Board pay to the O.D.A. a sustaining membership fee for every dentist in the Province of Ontario.

A lengthy discussion followed in respect to the work being done by the O.D.A., the status of the O.D.A. as a voluntary organization and the legality of the Board of the R.C.D.S. to pay fees to the O.D.A. It was pointed out that the Board could make grants.

The Executive decided that the matter would have to come before the Board of the R.C.D.S. at the annual meeting for further discussion at which time Dr. Prendergast stated that a further presentation would be made.

Respectfully submitted,

M. C. G. BEBEE
R. O. WINN
H. W. REID
R. J. GODFREY
S. J. PHILLIPS
C. M. PURCELL, Chairman.

Motion adopted:

THAT the Report of the Executive Committee be adopted.

REPORT OF THE DEAN OF THE FACULTY OF DENTISTRY UNIVERSITY OF TORONTO FALL MEETING

Mr. Chairman, and Members of the Board:

The registration in the Faculty of Dentistry for the 1951-52 session is detailed below.

	Ex-service	Civilian	Total
Predental year	—	75	75
First Dental Year	4	74	78
Second Dental Year	13	52	65 (6.D.P's)
Third Dental Year	14	57	71
Fourth Dental Year	44	41	85
Dental Nursing	—	23	23
Dental Hygiene	—	6	6
Diploma Courses			
Periodontics	—	3	3
Pedodontics	2	—	2
Dental Oral Surgery and Anaesthesia	—	1	1
Dental Public Health	1	—	1
B.Sc. (Dent.)	2	—	2
M.Sc. (Dent.)			

Orthodontics 1950-51	4	2	6
Orthodontics 1951-52	4	2	6
General	—	2	2
Occasional students	1	—	1
	90	337	427

It will be noted that the classes average 74.8 students. While the Board of Governors of the University approved, the limitation of the Predental class to 70 for the 1951-52 session, the Committee on Admissions recommended the admission of 75 of the 150 eligible students who applied. On the basis of the Royal College of Dental Surgeons electoral districts, the distribution of the Pre-dental class is as follows:

District	Accepted
1	5
2	5
3	6
4	30
5	4
6	5
7	4
8	15
P.E.I.	1
	75

Registration in the Specialty Courses is at a new high. There are six students in each of the first and second years of the Orthodontic course; three in Periodontics; two in Pedodontics and one in each of Dental Surgery and Anaesthesia and Dental Public Health. There are six Dental Hygiene students registered in the first year of the new course.

Course in Dental Hygiene

In the report presented at the Annual Meeting of this Board last spring, we indicated that the Senate of the University had adopted the recommendation of the Faculty Council for the establishment of the course in Dental Hygiene. At that time there remained to be arranged finances for supporting the course during its initial stages. Subsequently, a grant of \$34,800. was received from the W. K. Kellogg Foundation, providing assistance for a three-year period. This further evidence of the Foundation's interest in this Faculty evokes our deepest appreciation.

The first year of the course is proceeding according to the plan reported to this Board last spring. While only six students are registered in the course, the Committee admitted all applicants who met the minimum admission requirements. Many inquiries are being received respecting admission to the course, and therefore it is anticipated that the limitation of ten students per class will be exceeded by the number of applicants.

Miss Andree Hebert, R.N., B.Sc.D.H., (Columbia) has been appointed to supervise the course.

Staff

Retirements on June 30, 1951, included Dr. H. A. Hoskin, and Dr. R. R. Walker. Both men had served in their respective departments for a long period of time, and through their faithful, loyal efforts they contributed greatly to the education (both professional and cultural) of a large group of students. They are missed by their colleagues on the staff, and we wish for them both good health and happiness for many years to come.

New appointments include Dr. W. J. Ross of Kitchener, as Professor of Dentistry to succeed Professor H. A. Hoskin; Dr. K. J. Paynter as Assistant Professor in the Department of Dental Anatomy; and Dr. D. H. Jenkins as Associate (part time) in the Department of Orthodontics; and Dr. H. Mercer, Dr. M. Lucyk, Dr. P. T. Smylski, and Dr. P. L. Rondeau as Demonstrators in Dentistry.

Promotions include, Dr. R. E. Diprose, and Dr. J. D. Purves, from the rank of Associate in Dentistry to Assistant Professor in their respective departments. The following demonstrators were promoted to Associates in Dentistry: Drs. A. J. Blanchard, R. E. Breen, J. T. Crouch, R. B. Dunlop, R. O. Green, A. B. Hord, R. A. Hugill, R. W. Marshall, and W. K. Shultis.

Research

In May I reported that we anticipated receiving some financial assistance from the University for the rehabilitation of space on the fifth floor of the dental building, for research. The request has been met in part by the University and as this report is being prepared these changes are in progress. By January 1, 1952, we expect to be able to re-occupy this space. New equipment is also being provided.

In addition to physical facilities, the Faculty has set up a plan for coordinating the expanding research program. The recommendation of the Faculty Council for the establishment of "A Division of Dental Research" within the Faculty has been approved by the Board of Governors of the University. Further developments in this matter are pending and will be reported as circumstances permit.

Continuation Courses

Announcements respecting the series of continuation courses scheduled for the 1951-52 session have been sent to every member of the profession in Ontario and, in addition, to a large group of men elsewhere in Canada and the U.S.A. who have attended previous continuation courses. It is interesting to note that a few members of the profession return each year for one or two courses. There is one graduate from the U.S. who has attended all the courses we offer in the various fields.

The series for 1951-52 is outlined in the bulletin "Announcement of Courses for Graduates in Dentistry."

A long list of graduates who are desirous of taking a continuation course in the use of the Airbrasive equipment has been established. The S. S. White Co. kindly made the equipment available on a consignment basis some months ago. Since then the staff in the Department of Operative Dentistry has been conducting certain tests to become acquainted with the equipment. At an early date these staff members will attend a course in the Airbrasive equipment and will, in turn, set up the courses to be given in the Faculty of Dentistry. It is not anticipated that these courses will be available in our Faculty until the spring of 1952.

European Graduates in Dentistry

The admission of European dental graduates to the dental course in order that they might obtain the D.D.S. degree and fulfil the requirements of the Board for a license to practise dentistry, has exercised the minds of the members of the Faculty Council for several years. In session 1950-51 two European graduates were admitted to a two-year program proceeding to the D.D.S. degree. The first of the two years, a combined second-third year was reported on in detail at your Annual Meeting in 1950. Our experience with this special course during the 1950-51 session led us to the conclusion that it was

not satisfactory from the Faculty standpoint, nor from the standpoint of the students. Therefore, commencing with the present session a new procedure has been initiated.

In brief, European graduates are required to sit for a qualifying examination in the subjects of Organic Chemistry, Dental Materials and Technology, Anatomy (Gross) and Dental Anatomy, and Histology (Gross and Oral). The Committee on Admissions is provided with the results of these qualifying examinations and the credentials submitted by each applicant. Those who are admitted enter the Second Dental Year, and commence a three-year program of study leading to the D.D.S. degree. Six European graduates who took the qualifying examination were admitted to the Second Dental Year this fall. It is possible that promotion from the Second to the Fourth Year may be recommended for an outstanding European graduate on the basis of the results of the qualifying examination plus the results of the Second Dental Year examinations.

Examination Results

In reporting examination results each spring to the Senate of the University, the various Faculties provide statistics relating to the percentage failure rate. In May 1951, the figures for the University generally, showed evidence of a rather high failure rate in the first year of a course. This matter was commented on in May and again recently when the supplemental examination results were presented. Dentistry, with a casualty rate of 31% in the First Dental Year was in "3rd" place with an amended failure rate of 13% after supplemental examination results were considered. It is not without interest that Medicine and Dentistry, the two major faculties which limit admission, using academic standing as a major criteria in the selection process, have the lowest failure rate in the First Year of their respective courses, with the single exception of Social Work.

Miscellaneous Items

We are pleased to report that two members of the class that graduated in the spring distinguished themselves in essay competitions. Dr. M. A. Kamienski was awarded the First Prize in the Canadian Dental Association War Memorial Scholarship Competition. Dr. W. J. Wainwright was awarded Second Prize in the competition established by the American Academy of Periodontology for his essay entitled: "The present status of electro-sterilization in Dentistry." This competition was open to students registered in dental schools on this continent.

The survey of the undergraduate curriculum continues with consideration being given to the content of the Third and Fourth Dental Years.

The Open House afternoon held on Sunday, October 28th in conjunction with Homecoming Weekend at the University was very successful. Approximately 350 people visited the dental building on that occasion. We express our deep appreciation to this Board for its assistance with this function.

All of which is respectfully submitted.

ROY G. ELLIS, Dean.

Motions adopted:

THAT the Secretary be instructed to write Dr. M. A. Kamienski and Dr. W. J. Wainwright expressing our congratulations.

THAT the Report of Dean Ellis of the Faculty of Dentistry, U. of T. be adopted.

**REPORT OF THE DEAN
FACULTY OF DENTISTRY, U. OF T.
ANNUAL MEETING**

To the Board of Directors of the R.C.D.S.

Gentlemen:

Registration

The enrollment figures for session 1951-52 were included in the report presented to this Board last fall. It is too early to predict what the demand for admission in September 1952 may be, although we have reason to anticipate a decrease in applications. Such a trend was reported by schools in the United States at the recent meeting of the American Association of Dental Schools. However, in the event that the Admissions Committee receives applications far in excess of the accommodation, the Board of Governors of the University of Toronto has approved the recommendation of the Council of the Faculty Dentistry that the registration in Dentistry be limited to approximately 70 in the Predental Year and approximately 80 in the First Dental Year.

At the time of preparation of this report seven European dental graduates have applied for admission to the Qualifying Examinations to be given in July 1952. (See Appendix I for Procedure of Admission of European Dental Graduates.)

On January 7, 1952, the Council of the Faculty of Dentistry gave further consideration to the question of admission of graduates of British Commonwealth dental schools to advanced standing in the four year course leading to the D.D.S. degree. Council was informed at that time that 125-150 definite inquiries or applications had been received for admission. After taking into account all factors relative to this situation, the following resolution was adopted:

"That in session 1952-53 there may be admitted to the Fourth Dental Year, proceeding towards the degree of Doctor of Dental Surgery, not more than three British Commonwealth graduate dentists and that their selection be based upon scholarship or evidence of appointment to the staff of a recognized dental school." Only candidates holding a University degree from a recognized dental school may be admitted to the final year. Two places in the Third Dental Year may be made available to graduates who do not meet the requirements for admission to the Fourth Dental Year. This action on the part of the Council was taken as a token of goodwill at the postgraduate level, toward the dental schools in the sister nations of the Commonwealth.

Dental Hygiene

Miss Hebert, Supervisor of the Course in Dental Hygiene, reported on the progress of the Course in Dental Hygiene to the Faculty Council at its monthly meeting on April 7. The first year of the course is nearing completion and, as was expected, a number of problems have arisen.

For example, only one of the six candidates registered had taken a high school course in Zoology. We now recognize that Zoology may have to be regarded as a compulsory prerequisite to some of the first year subjects. We may meet this situation in the future either by placing Zoology on the list of compulsory subjects for admission or by providing a course in the early part of the first year. A decision in this matter will be made only after careful consideration of the many factors involved.

Late delivery of instruments delayed the pre-clinical and clinical training during the first year. Other problems of a minor nature have occurred. However, we are satisfied with the progress made by this

first class and we have profited by the experience gained during the present session.

The timetable and outline of courses for the second year is nearing completion and we hope to have a full class of 10 students registered in the first year in September 1952.

Course in Dental Nursing

One year ago the Council of the Faculty of Dentistry revised the admission qualifications to this course by adding to the requirement of the Secondary School Graduation Diploma: "evidence of proficiency in typing up to the level of Ontario Grade XII." This relieves the Faculty of the responsibility of providing the course of instruction in typing.

Commencing with the graduating class of June 1953 a Certificate will be issued upon successful completion of the course, thereby replacing the Diploma issued previously. This change is in line with the University policy respecting one year courses and particularly those accepting junior matriculation entrance qualifications.

A new calendar has been prepared which contains the Announcement of Courses in Dental Hygiene and Dental Nursing. Copies of this calendar are available upon request.

Continuation Courses

The annual series of three and five-day courses for graduates included 12 courses during the present session. Approximately 150 graduates were in attendance. The detail of subjects included in the courses and also detail respecting the one and two-year courses in the various specialty fields, offered by the Faculty, is contained in the Faculty brochure entitled: "Announcement of Courses for Graduates in Dentistry," a copy of which may be obtained upon request.

Canadian Dental Association Survey

Approximately one year ago the Council on Dental Education of the Canadian Dental Association set up a Survey Committee which was invited by each of the five Canadian Dental Schools to survey its educational program. One year ago we reported that this Faculty was visited by the Survey team during March 1951. In June 1951 the President of the University of Toronto received a confidential report of the findings of the Survey Committee in respect to this Faculty. A copy of this report was also sent to the Dean of the Faculty. It concluded with a series of specific recommendations which were accepted as objective and constructive. The President referred to this subject in his annual report to the Senate and Board of Governors of the University for 1951, as follows: "The University is indebted to the Council on Dental Education of the Canadian Dental Association. Comprehensive and constructive, their report will be of great assistance in advancing the progress of the Faculty." We are confident that many of the recommendations made in the report will be implemented in the near future.

Research

The rehabilitated fifth floor quarters of the Division of Dental Research are now in use. This modernized space has been further improved by virtue of the splendid financial assistance given for the purchase of equipment and apparatus, by O'Keefe Foundation and the W. E. Mason Foundation. We express our deep appreciation to these organizations for their generous support. The three bottle-necks referred to one year ago when reporting to this Board on research, have been reduced to within the limits of tolerance and the research program has been greatly activated. The number of projects for which grants-in-aid have been received for the 1952-53 session assures us of increasing activity in this division.

At the recent meeting of the International Association of Dental Research two University of Toronto men reported on projects. Dr. J. J. Rae (Department of Chemistry) read a paper entitled "Ammonium Production in Saliva" and Dr. J. B. Macdonald reported on "A Study of Motile Rods of the Oral Cavity". Both papers were a credit to this institution. The Toronto section of the International Association of Dental Research has continued to function, with meetings held twice a month throughout the session.

New Scholarships and Awards

In recent months the Scholarships Committee of the Faculty has received offers for the establishment of several new awards.

The Associated Dentists' Co-operative has provided \$100 for the establishment of the Ed. Green Bursary. This award will be made annually to a student of the second dental year upon the basis of proficiency in Operative Dentistry and financial need.

The Dental Alumni Association has informed the Faculty that it will donate two scholarships annually, each to the value of \$200. These scholarships will be awarded on the basis of admission to the First Dental Year.

Mr. Harry Posen of Posen & Furie Dental Laboratories has offered an annual bursary of \$100 and a Key to be known as the Posen & Furie Bursary and Key. These awards will be made on the basis of the results of the annual examinations of the Third Dental Year. The Bursary will be awarded to the student who demonstrates outstanding ability in the subject of Prosthodontics and on the basis of financial need. The gold Key will be awarded to the Third Dental Year student who ranks highest in the subject of Prosthodontics.

The committee administering the Edgar Paul Commemoration Fund has donated the balance of the Fund for the establishment of the Edgar Paul Prize in Dental Oral Surgery. The prize, which is to be awarded annually, is of the value of \$25. The award will be made to the student of the final year who has shown the greatest proficiency in Clinical Dental Oral Surgery.

To the donors who have generously provided the awards referred to above, the Faculty extends sincere appreciation. The stimulus which these awards will provide will be reflected in the scholastic attainments of the individual winners and, indirectly, in the overall standards. We are deeply grateful for the continuing interest of the graduates and others who are instrumental in making these awards possible.

Ladies' Auxiliary Fund

Early in 1950 the Ladies' Auxiliary to the Academy of Dentistry adopted a service project "to establish a fund for a service within the Faculty of Dentistry, for needy children with dental abnormalities such as cleft palate, hare lip, congenitally missing teeth and maxillo-facial injuries." Three donations from the Ladies' Auxiliary, totalling nearly \$2,500. have been received since the establishment of this fund. A number of needy children with extensive dental problems have already received benefit through this worthy project.

Hospital for Sick Children — Dental Service

On November 1, 1951, the Dental Service at the Hospital for Sick Children was re-organized under the capable direction of Dr. S. A. MacGregor. The joint announcement made by Dr. Sidney Smith, President of the University and the Chairman of the Hospital Board, indicated that this service would be developed as a teaching and research centre.

The urgent need and demand for dental services at the Hospital for Sick Children and of its subsidiary at Thistletown, further emphasize the need for a more thorough preventive and treatment service of dental conditions in children.

The recognition by the Hospital authorities of the great contribution which a well-organized Dental Service can make toward a more complete health service to the child patient is a most gratifying sign. It is hoped that the department, by bringing the dental consultant closer to medical problems and the physician closer to problems in dentistry, will do much to close the gap that has existed in the health service of dentistry and medicine as now constituted.

In addition to Dr. MacGregor, Director of the Dental Service, the staff comprises Dr. Gordon Nikiforuk, Assistant Director; and Drs. C. D. Beierl, J. M. Carefoot, M. J. Crockford, V. A. Herron, J. D. Ledlow, H. W. MacDonald and Y. Yoneyama providing a voluntary service. Consultants in the department include Drs. R. G. Ellis, G. V. Fisk, J. H. Johnson and W. G. McIntosh. Additional consultants will be appointed as the organization of the dental service progresses.

Dental Public Health

During the past few years the activities and contacts of the Department of Dental Public Health have been greatly expanded under Dr. G. T. Mitton's able guidance. From a few lectures to undergraduate dental students, the program has grown to include an introductory lecture entitled "Orientation to Dental Public Health" to the First Dental Year: 12 lectures, a series of seminars to small groups and field trips to the Health Units for students of the Fourth Year: 25 lectures to Dental Hygiene students; six lectures and field trips to the Dental Building for students in the Public Health Nursing Course; four lectures to students in Physical and Health Education; one lecture to the senior classes in each of the Colleges of Pharmacy and Ontario Veterinary College; and at the postgraduate level — 11 hours (lectures and seminars) to the graduates of Medicine proceeding to the Diploma in Public Health; six hours of instruction in a refresher course for Public Health Nurses; and an extensive program of lectures, seminars and field trips in the course leading to the Diploma of Dental Public Health. It will be recognized that significant links have been established with other groups in the health field.

Teaching Dental Diagnosis

The clinical practice phase of teaching in dental diagnosis and treatment-planning has been greatly strengthened during the present session in the new quarters provided for this purpose. In addition, to supplement the program a series of weekly clinical Diagnosis Conferences was scheduled during January, February and March, at which time students presented clinical cases of particular interest from the diagnostic standpoint. The papers presented at these conferences and all illustrations used (slides and color transparencies) have been deposited in the library and are available to students and graduates for review and study in the library.

Extramural Lectures

During the 1951-52 session 31 extramural lectures have been held in 23 Ontario centres, with approximately 646 dentists in attendance. By comparison with the report which was made one year ago the number of lectures has decreased by six and the attendance has fallen off considerably. In view of the fact that we have provided lectures whenever requested, it is difficult to explain the decrease in these figures.

Numerous expressions of appreciation have been received from the staff who have benefitted by the increased automobile travel allowance which was approved at the last annual meeting.

Staff Notes

It is with profound regret that we record the passing of Dr. Margaret Mitchell on February 7, 1952. Her death removes a very promising young teacher from the Department of Periodontology.

Dr. D. M. Tanner, Associate Professor of Dental Surgery and Anaesthesia, was elected to a Fellowship in the International College of Dentists in Ottawa last September. Dr. Robert E. Moyers supported by the entire staff in the Department of Orthodontics presented a symposium at the annual meeting of the American Association of Orthodontists held in St. Louis, April 21-24. Such an honor has seldom before been conferred on an Orthodontic Department of one Faculty.

Drs. P. T. Smylski and D. S. Moore have been appointed consultants to the Hamilton General Hospital. Dr. H. M. Worth, now residing in Vancouver, remains as a member of the staff. He returned this session for the month of February, giving his full course in the Interpretation of Roentgenograms to the undergraduate students and taking a major part of the continuation course for graduates. Dr. Worth has agreed to return in February 1953.

A reciprocal arrangement was set up this session whereby members of the staff of the Ontario College of Pharmacy gave three lectures to students of our graduating class, and our staff gave a similar number of lectures to the senior year Pharmacy students.

The continued moral and financial support of this Board for the furtherance of dental education; and the active participation of the Royal College of Dental Surgeons in the past in building up a fine tradition in the field of dental education, serve as a stimulus to the entire Dental Faculty of today.

All of which is respectfully submitted.
(23 April 52)

ROY G. ELLIS, Dean.

Motion adopted:

THAT the Report of the Dean of the Faculty of Dentistry, University of Toronto, be adopted.

APPENDIX I

PROCEDURE OF ADMISSION OF EUROPEAN DENTAL GRADUATES

1. **Limitation.** The number of such persons admitted to the Faculty is limited by the quota fixed each year, which is based upon the available accommodation.
2. **Basis of Selection.** Admission is based upon —
 - (a) A personal interview
 - (b) The result of written qualifying examinations in the subjects of Dental and General Anatomy, Organic Chemistry, Histology and Dental Technology.
3. **Interviews.** Where feasible each candidate is interviewed by the Dean at the time the application is made.
4. **Qualifying Examinations.** The application for qualifying examinations, accompanied by the \$10 fee, is required to be submitted by July 1st. The examinations are held in the last week in July.
5. **Applications For Admission.** Candidates are required to submit before March 1st
 - (a) The completed forms of application for admission
 - (b) Originals and certified translations of both University and High School records showing subjects taken and standings obtained.
 - (c) Evidence of proficiency in reading, writing and speaking English.
 - (d) Declaration of Intention To Become A Canadian Citizen.
6. **Promotion.** Successful candidates are admitted to the regular Second Dental Year. While they are not so informed, at the conclusion

of this year the results of their qualifying and annual examinations are reviewed, and when their records warrant it they may be promoted directly to the Fourth Dental Year, conditional upon recommendations to that effect from the heads of the major dental departments, and upon their passing, before the opening of the fall term, an examination in Pathology.

REPORT ON EXAMINATIONS

Faculty Examinations

Dean Ellis met the Board and presented a detailed report respecting the marks obtained by those candidates taking the final examinations at the Faculty of Dentistry, University of Toronto.

The report was considered and the following action taken:

Motion adopted:

THAT the following having fulfilled all the requirements of this Board, be granted the L.D.S. Certificate:

Albanese, Angelo Louis; Armour, Frank Moore; Atkins, Alan Douglas; Baird, Norman Clifford; Blackstein, Bernard; Bobbie, Harry James; Boyko, Robert; Brown, Daniel Franklin; Bryant, Robert Joseph; Burleigh, William Arthur; Campbell, Harvey Reid; Clarke, Harvey Edward; Collins, Bernard; Coupland, Douglas Charles Thomas; Cunningham, Joseph Emmet; Currie, Peter Edwin; Daly, Albert Joseph; Dann, John Harold; Darling, Robert Carth; Davison, John Anderson; Echlin, Robert Edward; Edwards, Alexander Charles; Edwards, Reginald William; Epstein, Murray Solomon; Findlay, George Nicholson; Forler, Claude Elton Joseph; Gazen, Leonard Irwin; Hebert, Frederick Charles; Henderson, Edward Charles Park; Hickling, Clifford Kemp; Hickman, Wilfred Vincent; Hori, Noble; Hunt, Ralph Allison; Hurton, James Perry; Jones, Robert Russel; Kannegiesser, Clarence Melville; Klein, William Charles; Kleinberg, Israel; Knight, George Albert; Kostyshyn, Walter Mickey Ford; Kowalchuk, Peter Walter; Kulik, Steven Elwood; Leib, Harold; Lindsay, Donald Everett; London, Louis; Luborsky, Murray; MacKay, William Donald; McClintock, John Peck; McCusker, Thomas; McDermott, Donald Edward; McGarry, Lloyd Daniel; Marten, Daniel John; Mathias, Henry Dunbar; Maugeri, George John; Merrifield, Wendell Robert; Mitchell, James Gordon; Mitchell, Leroy Francis; Monteith, Charles Gordon; Muirhead, Kenneth William; Nakashima, Shoji Edward; Ostler, John Arthur; Parisi, James Joseph; Phillips, John Mackinnon; Pressey, Walter Wilfred; Riches, William Franklin; Richmond, Archie; Siren, John Victor; Smith, Andrew Doyle; Stewart, Ralph Owen; Turner, John Louis; Walker, John Joseph; Warrington, Robert Ross; Watson, Robert Marshall; Wood, Donald Wilson; Yasny, Malcolm; Young, William James Joseph; Yule, Howard Mather; Zachar, Charles; Zane (Zaretsky), Samuel Sidney.

Motion adopted:

THAT the following, when they complete all requirements of this Board, be granted the L.D.S. Certificate: Irish, Paul Joseph; Kelley, Thomas Richard Clarence; Kingman, Douglas Henry Ross; Martos, Mrs. Ilse Ann Leoni; Romano, Armando; Webster, Neil Holden.

BOARD EXAMINATION:

One candidate, Dr. Willa Wen-lan Liu (Chou), took the Ontario Board Examination and the results were presented by Dr. Phillips, Chief Examiner.

Motion adopted:

THAT Dr. Willa Wen-lan Liu (Chou), when she has fulfilled

the requirements of the Board, be granted and L.D.S. Certificate.

CERTIFICATION AS SPECIALISTS:

The following actions were taken respecting applicants for certification as specialists:

Motions adopted:

THAT Dr. David Charles Way be granted certification as a Specialist in Orthodontics.

THAT Dr. Edward G. Dore be granted certification as a Specialist in Dental Oral Surgery.

THAT Dr. Robert Lorne Scott be granted certification as a Specialist in Pedodontics.

THAT Dr. Wilfred Harold Feasby be granted certification as a Specialist in Pedodontics.

THAT Dr. John Edward Speck be granted certification as a Specialist in Periodontics.

THAT Dr. Gordon Edgar Sayers be granted certification as a Specialist in Orthodontics.

THAT Dr. Donald L. Anderson be granted certification as a Specialist in Periodontics.

REPORT OF LIBRARIAN

To the Board of Directors of the R.C.D.S.

Gentlemen:

The Library has continued to function as an effective teaching and research agent during the current year, and a comparative table of circulation figures for the last six years is appended hereto. It will be noted that both Faculty and Graduate book loans have materially increased, the Faculty loans being almost twice what they were six years ago. Graduate loans have increased approximately 65% during the same period. Student loans on the other hand, show a decrease in borrowing of approximately 12%, which is almost identical with a reduction in total student registration of 14%. The average number of books borrowed by students was 28 books per student in 1950-51 and 29 books per student in 1951-52.

There were 108 books acquisitioned during the year and 8 new Journal subscriptions were placed. 48 orders are still outstanding as of date of submission of this report, and this backlog continues to be a detraction to library efficiency. There has been some complaint and criticism because of the length of time elapsing between the dates of requisition and receipt of books, but your Committee has spared no effort in attempting to shorten this interval. The main difficulties in this respect are beyond the control of your Library Committee, and are inherent in the mechanics of ordering and acquisitioning books by the central University Library. Consideration is being given to requisitioning books every two weeks, instead of once a month as formerly, but this would leave the primary difficulty still unsolved.

As previously reported, Journal subscriptions have been transferred from the Harry R. Abbott Fund to the University account, but it was necessary to draw on the former account for \$129.50 during the current year for the binding of Journals previously purchased from the Abbott Fund. This charge will no longer exist against this Fund. It is hoped that the accumulations from this fund may, in future, be expended in exact conformity with the deed of trust.

Many of the books of the Abbott collection are now so old that they form an irreplaceable historical nucleus and belong in the rare book category. Time has taken its toll from many of the bindings and a large proportion of these books require repair or rebinding without undue delay. It is hoped that the accumulation from the Abbott Fund may now be devoted to repairing and rebuilding these books in facsimile binding, so that they may be retained for posterity.

Much of this material is too valuable to remain on open shelves, and immediate attention should be given to placing them under lock and key and beneath glass. To do so presents a major problem from the standpoint of physical facilities, but the nature of the problem warrants immediate action.

University requirements demand that departmental libraries be held individually responsible for the replacement of any books lost while under their jurisdiction. During the year your Library has replaced 20 books so lost, with funds made available from an outside source. Losses from open library shelves are an anticipated sequelae to such a system, but your Librarian reports with regret one serious act of vandalism during the current year.

122 requests for books were received from outside the city this year, as compared with 96 last year. Then requests were received for material from Canadian and American Universities during the year and our Library requested material from an identical number of institutions on inter-library loan. Donations of books and material are gratefully acknowledged from the Universities of McGill, North-western, Pennsylvania and New York, as well as from many private donors of specimens for the Museum, and these gifts are hereby gratefully acknowledged. One interesting donation was a group of 'Waterloo Teeth' presented by Dr. J. B. Parfitt of Reading, England. Various senior members of the profession have been mailed memoranda-material and stationery with the request that they record their early recollections of Dentistry for the archives of the Harry R. Abbott collection. Several have promised to do so but to date no material has come to hand. The Museum remains relatively static due to lack of space and facilities. A picture of the late Vice Dean, Dr. Thomas Cowling, has been framed and hangs in the rotunda of the building.

The University has continued its generous and much appreciated financial support to our Library during the year. Our original budget was further enhanced during the year by an addition of \$250.00 obtained through the Federal grant to Universities, making in all \$1600.00 of University funds available to our Library. \$1300.40 of this amount has been expended as of present date, with the outstanding orders as previously noted.

The assistance received from the Board of the Royal College of Dental Surgeons, from the Assistant Librarians, and from the individual members of the Library Committee is gratefully acknowledged, and this report is respectfully submitted with the recommendation that the customary support be continued for the ensuing year.

J. H. JOHNSON,
Librarian.

Motion adopted:

THAT the Report of the Librarian be received and adopted.
THAT Dr. J. H. Johnson be appointed Librarian at the usual honorarium.

CIRCULATION FIGURES

1951—1952

Year	Faculty	Students	Graduates	Periodicals	Total
1946-47	448	8,737	894	1,944	12,023
1947-48	508	7,502	990	2,727	11,727
1948-49	582	8,498	630	3,250	12,960
1949-50	494	8,818	634	3,114	13,060
1950-51	605	9,286	885	3,201	13,977
1951-52	812	7,271	1,403	3,091	12,577

REPORT OF DISCIPLINE COMMITTEE

Mr. Chairman and Members of the Board:

During the year there have been the usual number of complaints from the public respecting treatment services which have been dealt

with through the Secretary's office. A large percentage of these complaints arise through lack of understanding and could be avoided if the dentist discussed with the patient all details before beginning the services.

There is an increase in illegal practice and every effort is being made to deal with offenders. Members of the College can assist greatly by reporting any cases that come to their attention.

For the first time a rather unusual anomaly arose in which a certain dentist threatened to give evidence for an illegal practitioner in a case with the College as plaintiff. It is a peculiar situation to have the Board in possession of ample evidence of an infraction of the Dentistry Act and a member of the profession desirous of acting for the defence. After advice from the Board's solicitor such evidence was not given.

It is regrettable to report that complaints are still received respecting the uncleanness of offices. Such complaints have been investigated by our Inspector, on instruction from the Board office, and re-checked to see that the instructions are carried out.

No meeting of the Committee has been held during the year.

HARVEY W. REID,
Chairman.

Motion adopted:

THAT the Report of the Discipline Committee be adopted.

REPORT OF INSPECTOR

To the Board of Directors of the R.C.D.S.

Gentlemen:

I have the honour to report, for your information, the following investigations and prosecutions from April 30, 1951, to April 30, 1952:

Daniel Russell Perrin, Dental Technician, no fixed abode. There were three charges preferred against the accused (two charges for making and supplying, and one for having dental equipment). He pleaded guilty to the two charges of making and supplying. The charge of having equipment was dismissed owing to the fact that we were given to understand that a plea of guilty was to be entered on this charge. Mr. Perrin pleaded not guilty, and we were not prepared. This charge was dismissed. Mr. Perrin was fined \$500. and costs or three-months on the two charges, his sentence to run concurrent with his 1942 conviction.

Don Watters, 195 Dundas Street, Room 413, London, Ontario, Dental Technician. After having two plates repaired by this person a charge was preferred and he was found guilty and fined \$100. and Court Costs.

I have inspected some signs that did not meet with the requirement of your regulations and those which needed to be corrected have been attended to. Other were in order.

I have about fifteen complaints on hand that have yet to be attended to re. Dental Technicians working illegally but to date, have not obtained evidence against these Technicians.

I have inspected Dr.'s office, which had been reported unclean. This dentist is doing his best to keep his place clean considering the handicap under which he is working — his age is 82 years.

Respectfully submitted,

GAVIN A. MONAHAN,
Inspector.

Motion adopted:

THAT the Report of the Inspector be received and adopted.

REPORT OF THE COMMITTEE ON EXAMINERS AND PETITIONS

To the Board of Directors, R.C.D.S.

Gentlemen:

The Examiners and Petitions Committee met with the Executive Committee in the National Headquarters Building at 234 St. George Street, Toronto, on April 16th at 1.30 p.m.

Your Committee wishes to report and recommend detailed procedure for Board examinations as herewith submitted.

The following recommendation is presented for your consideration —

THAT this Committee recommends that an applicant for a licence to practise dentistry in the Province of Ontario shall present evidence that he has successfully completed, previous to his dental course, two years in a course of Arts and Sciences in a recognized university which shall have included the subjects of English, Chemistry, Physics and Biology and that any former regulation in this matter is hereby superseded.

All of which is respectfully submitted.

S. J. PHILLIPS,
Chairman.

Motion adopted:

THAT the Report of the Committee on Examiners and Petitions be adopted and that examination procedure be reviewed from time to time.

REPORT OF THE FINANCE COMMITTEE, R.C.D.S.

Mr. President and Members of the Board:

A meeting of the Finance Committee was held at The Alexandra Palace Hotel on the evening of December 4th at the hour of 8.30 p.m. to study the finances for the year 1952-1953.

Present:

Members of the Finance Committee

Dr. M. V. J. Keenan

Dr. F. J. Furlong

Dr. C. M. Purcell, Chairman

Dr. D. W. Gullett, Treasurer

Also — Doctors Phillips, Godfrey, Bebee, Winn,
and Morrow.

Upon careful examination of the finances of the Board it was observed that there would be a depreciation in revenue in the future with an increase in expenditure due to the upward trend in administration costs.

The following resolution was passed:

THAT in view of the fact that the Board of the R.C.D.S. is faced with a depreciation in revenue and a considerable increase in expenditure for the future, your Finance Committee recommends to the Board of Directors of the R.C.D.S. that the annual Licentiate Fee be increased to the maximum amount of \$25.00 as authorized by Section 22 Sub-section 1 of the Dentistry Act of Ontario.

Respectfully submitted,

M. V. J. KEENAN

F. J. FURLONG

C. M. PURCELL, Chairman.

Motion adopted:

THAT the Report of the Finance Committee be adopted.

REPORT OF THE REPRESENTATIVE TO THE DENTAL COUNCIL OF CANADA

To the Board of Directors of the R.C.D.S.

Gentlemen:

No official meeting of the Dental Council of Canada has been held since reporting to you a year ago. Our next meeting will be held in Vancouver June 12th—14th and it is quite possible that this one may be the last for this present Council, depending entirely on the formation of a new Examining Board, the set-up for which is, I believe, well advanced.

At the conclusion of incorporation of this National Dental Examining Board the Dental Council of Canada will immediately proceed to wind up its affairs and become a thing of the past. Many there are who have a kind word for the conscientious efforts of this Council during the past forty years but care not to, or dare not, express themselves lest they cast a shadow over the halo of the child already conceived but yet unborn. May the doctors attending this delivery be granted exceptional wisdom and foresight to bring forth a sturdy son who will grow up to maturity sound in wind and limb, possess the judgment of a Solomon and be a worthy son of a worthy sire, the Dental Council of Canada.

It is with sincere regret that I acknowledge in this report the sudden passing last May 22nd of Dr. A. E. Proctor of Winnipeg, long a valued member of this Council.

The Manitoba Board has appointed Dr. H. J. Merkeley of Winnipeg to succeed Dr. Proctor and I am happy to extend to Dr. Merkeley, on behalf of this Board, a very warm welcome. As the official representative of the D.C.C. to the C.D.A. meeting held in Ottawa last September, it was my privilege to extend this welcome to both Dr. Merkeley and Dr. H. S. Crosby of Halifax who succeeded Dr. Oxner.

Following is a brief report of the Examinations held during 1951 —

- 75 wrote the examination May 21st—26th
- 24 were graduates from Toronto University
- 15 were graduates from Alberta University
- 20 were graduates from McGill University
- 3 were graduates from Montreal University
- 12 were graduates from Dalhousie University
- 1 wrote for Maritime registration only.

Of this number —

- 1 failed due to low average (Graduate Toronto University)
- 1 failed due to low average (Graduate University Montreal)
- 2 failed in Oral Medicine and low average (University of Montreal)
- 1 failed in Oral Medicine (Candidate for Maritime Regstrn.)
- A special examination was granted one candidate who wrote June 11th to 15th and passed.

In all 71 candidates were granted certificates during 1951.

Due to his extremely heavy program at the time of our spring examinations, Dr. C. H. M. Williams, University of Toronto, examiner in Oral Medicine, was forced to tender his resignation which was accepted with sincere regret. Dr. H. A. Hunter along with Dr. K. J. Paynter as associate examiner have agreed to succeed Dr. Williams. Our thanks to these two outstanding men for accepting this responsible position and we feel confident that all candidates coming under their jurisdiction will receive fair and just attention.

The difference in the standing of a number of graduates applying for the D.C.C. examinations, particularly as it applies to the Basic Sciences, still is a matter of the greatest concern, and it is to be hoped possibly through some guidance from the Council on Dental Education, that the National Dental Examining Board may be able to produce a satisfactory solution to this perturbing problem.

Financially the Dental Council is in a very strong position, the statement dated June 30th, 1951, showing a favorable operating balance for the year of \$4,603.57.

The disposition of records and assets of the Dental Council, if, as and when the National Dental Examining Board comes into being will, in all likelihood, be discussed at our next meeting and your representative to the Council will appreciate some thought being given to the matter by the members of this Board so that, should the occasion arise, he may vote with the knowledge of the full support of the Board he represents.

All of which is respectfully submitted.

R. O. WINN,

Representative to the D.C.C.

Motion adopted:

THAT the Report of the Representative to the Dental Council of Canada be adopted.

REPORT OF DENTAL REFEREE TO WORKMEN'S COMPENSATION BOARD

To the Board of Directors of the R.C.D.S.

Gentlemen:

This report covers a period of 12 months ending April 30th, 1952. During the year some 55 cases have been reviewed and suggested settlements submitted to the Workmen's Compensation Board; this is quite an increase in the service over any previous year. In addition, there have been the usual telephone consultations with members of the Medical Aid staff of the Board. In all matters your Referee has had the most cordial relations with the Board staff and particularly with Mr. C. G. Cameron who is the most frequent contact.

Cases reviewed during the year constantly bring up new problems. For the most part, members of the profession have co-operated splendidly. In some instances there have been complaints that fee allowances are not adequate when considered in light of the depreciated value of the dollar. Your Board might review this schedule as to its fairness in the various areas of Ontario.

In recalling the various cases reviewed throughout the year your Referee is prompted to make a few observations —

Root Canal Therapy — The question of adequate fee for this service has come up many times. It is recognized that modern root canal therapy and proper canal obliteration cannot be carried out for a fee of \$8.00. The Board has allowed up to \$15.00 when x-ray evidence is submitted showing satisfactory results; when root resection is necessary an additional \$10.00 has been allowed.

X-Rays — In some instances radiographs have been submitted with the dentist's report which have very little diagnostic value. In fairness to all concerned, the dentist has been advised that the fee for x-ray service was increased to promote better diagnostic radiographs and that the Board is not willing to pay for radiographs of poor quality. There is a need for better dental radiographs in many offices.

Authorization — There are still a few instances where dental services have been completed for a patient without the Board's authorization. In two instances elaborate services were completed and excessive fees charged. These practices cannot be justified when the Board's printed form supplied to every claimant in an accident specifically states that all dental restorative service must be authorized before being undertaken. Only emergency service may be given without authorization. Replacement of an anterior tooth for aesthetic reasons is not emergency service. When in doubt, the dentist concerned should write the Medical Aid Department of the Workmen's Compensation Board.

Scope of Service Allowed — The Workmen's Compensation Act provides that in case of dental injury, a workman is entitled to such dental treatment and restorative service as would place his mouth and teeth in as good health and function as he enjoyed before the accident, giving due consideration to the range of possibility and the type of service the workman would purchase for himself if he were paying for it.

Quite a number of reports submitted by dentists have included all dental services needed whether related to the accident or not, apparently with the idea that the Board can only refuse. This is unfair when the Board pays the dentist for a professional examination. Services directly resulting from the accident are the Board's responsibility.

Fees Allowed — A few instances have occurred where the dentist, in submitting his report, specifies his personal fee for services without any regard for the schedule of fees allowed by the Board. It appears in more than one instance that this was done with the idea that the Board would scale the fee down anyway.

This is not so. The Workmen's Compensation Board accepted without amendment, the present dental schedule on recommendation of the Board of the Royal College of Dental Surgeons. This tariff is the basis for the dental fees allowed. Higher fees will not be paid except in special cases when the Board reserves the right to have the case examined by a dentist of their choosing. It has been the experience of your Referee however, that if a difficult case is encountered the Board is willing to go along with the dentist in any reasonable fashion providing justification for increased fee is submitted. It is

obvious that complete reports of all cases should be submitted, giving all facts pertaining to the injury and services made necessary as a result.

Prosthetic Service — Quite often denture patients have tried to get new dentures because an old denture had been fractured in an accident. Pressure on the dentist resulted in his reporting the need for new dentures; no mention is made that the patient needed new dentures before the accident. Needless to say, all such reports are suspected and investigated. The dentist who makes such an incomplete report does not help his reputation in future cases.

Again, in a few instances, elaborate prosthetic appliances have been reported as needed treatment because the patient did not want anything else. The Board's adjusters naturally feel the claimant knows nothing about dental appliances and therefore the dentist must have planted the idea in his mind. Such cases are always questioned and investigated.

These and many other problems arise as your Referee reviews files of information and reports. For the most part, members of the profession are quite anxious to co-operate with the Workmen's Compensation Board in treating their beneficiaries. Misunderstandings do occur and these are usually easily adjusted. Unsatisfactory reports result from hurried examination and inaccurate diagnosis rather than from a deliberate attempt to mislead the officers of the Board. Just the same, such reports reflect on the integrity of the dentist concerned and, to some extent, on the profession at large. If your Referee were permitted a constructive suggestion in closing this report it would be a plan for comprehensive examination of every Workmen's Compensation beneficiary and a complete report of conditions found; probably condition of health before the injury and dental service needed as a result of the accident.

Your Referee is appreciative of the privilege of serving your Board in this capacity and grateful to individual members whose advice, from time to time, has been most helpful.

Respectfully submitted.

.....D.D.S.

Motions adopted:

THAT the Representative to the Workmen's Compensation Board meet with our Dental Referee and bring in a report at the next meeting of the Board for the purpose of reviewing fees and other related matters.

THAT the Report of the Dental Referee to the Workmen's Compensation Board be adopted and that Dr. be re-appointed as Referee and that the thanks of this Board be extended to him.

REPORT OF THE DENTAL PUBLIC HEALTH COMMITTEE

To the Board of Directors of the R.C.D.S.

Gentlemen:

The Dental Public Health Committee, a standing Committee of The Ontario Dental Association, has completed another busy year. Growing demands for our services have prompted us to administer our endeavors through sub-committees with sub-chairmen. The details of this year's work can be most conveniently reported under sub-committee headings:

Field Work Committee

Dr. Wesley Dunn and his Committee concentrated most of their effort on the Barrie district. The program here has progressed to the point where a Local Dental Public Health Committee has been formed. Further activities will be suggested.

By request we spent a day in Belleville. Dental Public Health problems were discussed with the Medical Officer of Health, members of the Board of Health and local dentists.

Several of our men met in Brantford with Dr. Hutton, Medical

Officer of Health, and members of the Health Unit. Topical application of sodium fluoride in the rural areas was discouraged by our Committee, at least for the time being.

By request again, a trip was made to Trenton. Some interest in a preventive program has emanated from this area.

This sub-committee has prepared a small brochure outlining steps to be taken in arranging a local Dental Public Health Committee and program. This may be available in the fall.

The establishment and maintenance of local Dental Public Health Committees and active programs throughout the province is one of the major aspects of our work. As we gain in experience and as our knowledge of local dental conditions increases, one vitally important point becomes increasingly apparent to us. The interest and co-operation of the dentists in any district are absolutely necessary for the success of any sustained Dental Public Health effort. Much time and effort must be given in the coming years, to this problem.

Members of our Dental Public Health Committee spoke at more than 40 meetings of lay audiences during the year. More than 40 requests for speakers in a season is a substantial increase over any previous year. The people are becoming dental-health conscious.

Materials Committee

Dr. A. W. S. Wood and his Committee have just completed the book they have been working on for most of two years. This is a Manual on Dentistry especially designed for School Teachers, Public Health Nurses and other Health Workers. This endeavor has consumed much of our time — upwards of 40 meetings. The Materials Committee is to be commended for the excellent results they have achieved. There has been a great need for this particular type of literature, which we hope will now be effectively fulfilled.

A series of new slides, for use in lectures to lay groups, has been prepared. The dental health officers in the health units will each receive a set.

Our films are sent all over the province. They are in continuous use; being booked weeks in advance.

We have adopted the plan of sending certain News Releases, Pamphlets, etc. to every dentist in the province, from time to time. Much favourable comment has resulted from this activity.

This might be the appropriate place to point out that the policy of the Dental Public Health Committee is being shaped, of necessity, gradually so that our services can be made available on an expanding basis which will eventually cover the entire province. We have already accomplished this objective in a few of our services.

Dental Public Health Promotion at the Convention

Dr. Carson McGowan has arranged to publicize 'The New Book' at the Convention. Our permanent display panels are both useful and economical for this and many other purposes. The breakfast meeting and the Tuesday luncheon are scheduled as usual. The President, Dr. W. K. Prendergast, and the Board of The Ontario Dental Association, have shown great interest and have given careful consideration to the furthering of Dental Public Health interest.

Dr. Robert Graigner has attended all regular meetings and many sub-committee sessions. A very fine spirit of co-operation exists between Dr. Graigner and our Committee in the mutual interests.

Red Cross Committee

Dr. S. A. MacGregor reports that three Red Cross Coaches are now operating in the remote areas of the province. An educational program is conducted along with treatment. The Red Cross Committee on Nutrition follows the coaches with additional educational material for the parents.

Dental Seminars

Plans are about completed for the introduction of Dental

Seminars to the Dentists in Ontario. Dr. Robert Grainger has urged that the first courses be put on in Health Unit Areas. We have agreed to attempt to do this.

The Seminars will take the form of two and a half day courses with two clinicians taking part. Operative procedures will be demonstrated with patients.

A nominal fee of \$5.00 will be charged to the dentists. Most of the costs of the Seminars will be borne by the Dental Public Health Committee for the present.

It is our hope that these so-called Seminars can be started in the early fall. If they meet with success — and time will tell — additional courses may be arranged.

Field Work Secretary

Dr. Mitton's report is presented to you in the form of a brief summary. Dr. Mitton has rendered invaluable service throughout the year. No voluntary group of practising dentists could attempt what we have tried to accomplish this year, without the assistance of at least a half-time Secretary. I only hope that our demands on his time have not been too taxing. Dr. Mitton has given considerable assistance to the Dental Alumni in producing a film-strip on Vocational Guidance.

Diplomas in Dental Public Health

No civilian dentist will receive a Diploma in Dental Public Health in Ontario this year. As indicated on last year's report, this was to be expected.

Finally, in this modern industrial age when Social Security, Hospital and Medical Care, Pensions, Fringe Benefits, etc. are uppermost in the minds of the people and, therefore, in the minds of governments we, the dentists of this province, must become conscious of the need of a Dental Program that will eventually fulfil the dental requirements of all the people. Your Dental Public Health Committee feels that a strong and expanding program of education for prevention and maintenance of good dental health, plus early treatment, is one of the most important steps in the attainment of this goal.

Respectfully submitted.

R. R. BUTLER,
Chairman.

SUMMARY OF REPORTS OF THE D.P.H. FIELD SECRETARY

I have briefly summarized the activities under five headings:

1. Field Trips in which a speaking assignment is involved

Places covered include:

Dunchurch	Guelph
Milton	Barrie (2)
Scarborough	Belleville
Swansea	Willowdale
Peterborough	Brantford (2)
Welland (5 trips)	Trenton
St. Thomas	

Associations — Ontario Public Health Association — Toronto
Health League — Radio (Health Week)
Careers Day — Leaside High School
Health League — Conference Hospital for Sick Children

Toronto Welfare Council — Association Meeting

2. Voluntary Organization Committee Meetings attended

Hospital Dental Services

Toronto Welfare Council — Committee on Dental Needs and Resources (8 meetings)

Field Work Committee (2)
 Health League Nutrition Committee (2)
 Materials Subcommittee (19 meetings)
 Convention Sub-committee (3)
 Research Committee Publicity (1)
 Dental Seminar Committee (1) with R.C.D.S. Board
 Canadian Public Health Association — Dental Section Program committee (2)

3. Meetings attended in interests of Dental Public Health

Canadian Public Health Association — Annual Meeting — Montreal
 Health League — Annual Meeting — Toronto
 Academy of Dentistry (4) — Toronto
 C.D.A. & E.O.D.A. — Annual Meeting — Ottawa
 Ontario Public Health Association — Annual Meeting — Toronto
 Toronto Welfare Council — Annual Meeting — Toronto
 Canadian Welfare Council — Health Insurance Committee
 Medical Alumni Meeting — Hospital for Sick Children — Toronto
 Health League — Annual Meeting of Division of Child & Maternal Welfare.

4. Conferences respecting Dental Public Health

Dr. J. M. Mather — Halton County project
 Miss Emory) Dental Health post graduate refreshers
 Miss Millman) for Public Health Nurses
 Dr. Chant Robertson — (2) Material for article in 'Chate-laine'
 Public Health Workers Conference — 7 M.O.H's., 14 P.H. Nurses, 18 dentists attended
 Dr. R. Stewart — Director Dental Division Manitoba re. Section program
 Dr. H. K. Brown — Chief Dental Division — re. Dental Public Health program
 Miss Edna Moore — re. refresher course for Public Health Nurses
 Dr. McHenry — Public Health Nutrition and Section Meeting program
 Dr. B. Linscott — re. fluoridation program
 Dr. Ledlow — respecting advice on table clinic material
 Dr. Stones — re. British survey team on fluoridation programs in U.S. and Canada
 Refresher Course — Public Health Nursing
 3½ days — 6 hours dental instruction
 80 in attendance — as far away as Maritimes
 Sub-committee on professional education: Public Health Dentists (2 meetings)

5. Assistance to Halton County Health Unit Dental Program

Since the decision was made to give assistance to the Halton County Health Unit dental program, thirty-one trips have been made to the Halton County area by the writer. Dr. Grainger has assisted in this program and has made eighteen trips. A total of 49 trips. During 23 of these trips, fourth year dental students were taken out to observe the child health programs carried on in the Health Unit. The medical, public health nursing and the dental counselling in the Child Health centres were observed during the two-hour period.

This will cover briefly the activities respecting public health, outside the detail of letters, telephone calls and conversations which are the daily routine and need not be elaborated.

Respectfully submitted.

GLEN T. MITTON. D.D.S., D.D.P.H.

Motion adopted:

THAT the Report of the Dental Public Health Committee be adopted.

REPORT OF REPRESENTATIVES TO AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Board of Directors R.C.D.S.

Gentlemen:

President Philip Schwartz of New Jersey, President of the American Association of Dental Examiners, opened the sixty-eighth annual meeting, in the Hall of Nations Room, Washington Hotel, Washington, and said in part:

"Our Association has as one of its outstanding objectives, the constant elevation of dental standards in the interest of public health. To this end, we are constantly trying to improve our examination procedures and methods, to stimulate discussion at our meeting and seminars, so that we all might go back to our respective boards with a renewed purpose to carry back to them the new ideas, practical methods and unlimited enthusiasm for another year's work."

The sessions for the next two days were divided into two parts, one which dealt with regular board business and the other a seminar.

Foreign Colleges

This past year has been spent in trying to evaluate the qualifications and standardize the credits of foreign applicants. The Committee has received replies from 146 foreign colleges as well as Canada, which we believe very excellent. Most of these foreign graduates have a long way to go to compare with our second Dental year, especially in clinical subjects. We gave none more than two year's credit.

A Bureau of the A.D.A. and the Council on Dental Education by examinations are trying to grade these foreign graduates. The Medical Council has made a survey of foreign schools and has recommended certain of them.

Legislation and Standardization of State Laws

The greatest desire and need of Dentistry to-day, in the United States, is to strengthen and amend all Dental Codes and Laws by all the State Boards.

Indifference and lack of interest of the private dentist to our State laws, makes it more difficult to get the necessary changes. Because of the Charter of United Nations, which supersedes all practice acts, most States are having difficulties with the citizenship clause, because it will not stand a court case and therefore unconstitutional. Every man in the United States is entitled to Life, Property, Liberty and Personal Living.

The legal definition of the Practice of Dentistry is not up to date in most of the States and because of opposition from several sources, it is impossible to have them changed. One State asks each applicant to take the following oath:

"I have read the Dentistry Act, I have studied the laws and I hereby certify that I agree to abide by the laws of this State and report any violations of them."

Bills to regulate Dental Technicians were defeated in many States, in seeking to get these Bills, it was pointed out that Dental Technicians unless regulated, usurp the rights of Dentists, while on the other hand, the argument is that a Dental Technicians do the work anyway.

Many State Boards lack the funds to carry out convictions.

Council on Dental Education

Most of the time allotted to this part of the program was devoted to a consideration of the survey of Dental Schools. We were told

that the Canadian survey team used the same questionnaire as in the United States. Some of the points considered were:

1. Research
2. Good Library
3. Effective Hospital connection
4. Effective Medical connection
5. Mechanical defects
6. Technical advantages
7. Evaluation of subjects and time spent on each subject
8. Clinic
9. Laboratories
10. Anatomy — where taught etc.

Some conclusions and general information:

- A. More time needed for children's dentistry
- B. More time for orthodontics
- C. Prominent in the minds of all educators was the need for funds.
- D. Great lack of facilities.
- E. Need for decision in respect to "Basic Requirements"
- F. Accreditation of programs
- G. Forty-two Schools have completed five years of Aptitude testing.
- H. That Council of Dental Education is the accreditation agency for all Dental Schools
- I. That these Dental surveys be an agency for collecting of information, reviewing of educational methods and studying of Dental programs to be of value to other Dental Schools.

National Examination Board

At the beginning of this year, 26 States were members and since then 5 other States have become members. The aims and purpose of this Board are to raise the standards of examination and interest Dental Schools in the new methods of examination. These standards should be high and only small portion of candidates pass. Since 1933, three thousand have written examinations and only 875 granted certificates. It was suggested the use of these examinations for foreign students and all States recognize the certificate of the National Board. In this manner, it would assist State Boards and relieve them of their examinations. If student fails, he still has the opportunity to write State Board examination.

This Board is a Standing Committee of the A.D.A. with Dr. Peterson as secretary.

The Fourth Seminar on Testing Methods

Subject: Oral Diagnosis and Complete Treatment Planning.

Complete examination for student was divided into three parts with the value in marks the same in each part and a failure in any of the three parts was a failure in the examination. The divisions were:

- A. Oral Diagnosis and Treatment Planning
- B. Written Examination
- C. Clinical Examination

Procedure

1. Instructions to applicant, time 15 minutes.

Each applicant was given:

- A. Examination Booklet, Appendix A
- B. Examination View Box
- C. Upper and lower models of mouth
- D. Complete X-Rays
- E. History Card of patient, Appendix B.

The applicant is then told that this is a very important part of

his examination, that it represents one third of his total marks and that he has now an opportunity to ask questions.

In all cases there are no full Dentures.

Models and radiograms are from the same mouth.

Be sure there is no confusion in applicant's mind in reference to right or left of X-Ray.

II. The applicant is then told that you cannot have a full examination without a patient. That the patient is in the operating room now and you have the next 15 minutes to study materials in the presence of the patient and ask the patient any question you wish.

III. Return to examination room and are told:

A. This is all the information we have

B. Give answer to each line

C. That examination consists of parts:

Part I Diagnosis, Page 2

Part II Treatment, Page 3

You have one hour for above two parts.

Part III Design, Page 4, one half hour

Part IV Letter to Physician, Page 5, one quarter hour.

The letter should be judged on the following points:

1. English good

2. What he found and facts as to his diagnosis

3. What he is going to do

4. Thanks to Physician

5. Typed or in a readable hand writing

Part V Spaces on pages 6, 7, 8, are for 15 radiograms which are to be shown on a screen, two minutes for each. Give your diagnosis and locate the area shown.

For applicant's information use one slide to show what is wanted. For example:

A. Right Upper Bicuspid area.

B. Pathology — abscessed area or normal.

Coloured slides obtainable from:

A. Col. Joseph L. Bernier

Dept. of Pathology,
Armed Forces Institute,
Washington, D.C.

B. American Dental Association

Slides: Oral Lesions and Atlas

Rental: \$3.50 per week.

Description with each slide or lesion of mouth.

Part VI Private interview of applicant with all members of examination Board.

Note Parts V & VI in the afternoon session.

Marking

There was so much disagreement in the opinions of the members of workshop groups that it was finally decided to leave each State Board to set up their own system of marks.

Conclusions by Dr. Swanson

The moderator of each workshop group handed to Dr. Swanson, its findings.

It is with enthusiasm that I present this part of the program, it is by far the best seminar to date, with much more interest, because it was clean cut, definite and easy to follow, also so practical that any State or Provincial Board could follow with these advantages for the betterment of their examinations.

1. It is most important because it covers all subjects applicant has studied over the past four years and applies this knowledge at first to every patient coming into his practice the rest of his life. 2. Oral Diagnosis and Treatment Planning must become

one of the most important parts of teaching because it co-relates all his learned knowledge. 3. Applicant must be well grounded in basic sciences. 4. Good examination is one that is able to get from the applicant, the knowledge he possesses. 5. It is a better examination for graduates some years out of College. 6. You can judge an applicant's ability to do Dentistry better by this examination than seeing him put in a gold filling or silver filling State after State adopted this form of examination. It was so favourably considered that the following motion was passed: "Be it resolved that it be mandatory on all future State Boards that all applicants must pass an Oral Diagnosis and Treatment Planning examination before he can receive his L.D.S. degree. Be it also resolved that this motion be sent to the "House of Delegates and to the Council on Dental Education."

Please accept our thanks for making it possible to attend these meetings at Washington.

All of which is respectfully submitted.

DON W. GULLETT, D.D.S.
S. J. PHILLIPS, D.D.S.

Motion adopted:

THAT the Report of the representatives to the American Association of Dental Examiners Meeting, as presented by Dr. Phillips, be received and adopted and that this report be referred to the Committee on Examiners and Petitions.

REPORT OF REPRESENTATIVES TO CANADIAN DENTAL ASSOCIATION

Mr. Chairman and Members of the Board:

The Canadian Dental Association annual meeting was held at Ottawa in September of this year. It was a very successful meeting with the registration much larger than expected.

Dental Profession Pension-Assurance Trust Plan

This plan is designed to be the Canadian Dental Association's own, operated under the supervision of two members of the profession as Trustees and appointed by the Board of Governors. The legal responsibility for the fulfilment of the contracts will be borne by a group of legal reserve Insurance Companies.

The plan is unique both in completeness of protection and in economy of premium rates, for it combines into a single comprehensive contract all the multitude of separate types of contracts now offered. They form collectively a complete system of protection against all the personal economic hazards of the Dentists.

New Headquarters

Members from all the Provinces expressed the opinion that the Housing Committee had accomplished much and completed a very fine job in presenting National Headquarters to the Dentists of Canada. The following statement very well sums up the results of the undertaking, "Canadian Dentists did more to elevate prestige by this one step than could have been accomplished in any other way."

National Dental Examining Board of Canada

The first step in the formation of the National Dental Examining Board was taken in February 1951, when the representatives of all Provincial Licensing Bodies of the Dental Profession met in Toronto. The objective of the meeting was to set forth certain conditions, principles and regulations which might prove mutually acceptable to the ten corporate members of the Canadian Dental Association.

Principles

1. That the qualifying conditions shall be the highest in Canada.
2. That the rules and regulations governing the examinations shall be acceptable to the licensing bodies concerned.

3. That the examinations will be conducted in a manner fair and equitable to all concerned.

Next to receive considerable thought —

- A. What qualifications must a candidate possess in order to be eligible for Examinations?
- B. What shall be the Regulations of the Examination?
- C. What subjects shall Candidate write for this examination?
- D. What length of time may a province be a member of the National Dental Examination Board before that Province could give notification of their intention to withdraw.

The following resolution was passed —

"That the Executive of the C.D.A. proceed with the procedure of the incorporation of the National Dental Examining Board."

The Executive Committee presented to the Board of Governors the first draft for the establishment of a National Dental Examining Board of Canada and this draft was passed with certain amendments.

Public Relations

Never in the history of the Dental Profession was there greater need for good public relations. No business has the moral right to allow itself to go unexplained and misunderstood. The Public Relations Committee recommended in its report that it was a necessity to have a planned public relations program for organized dentistry within the financial possibilities of the C.D.A.

It is almost impossible for each member of the Committee to give the time necessary to conduct such a program. The Committee considered seriously and suggested the appointment of a Public Relations Officer for the profession.

Health Insurance Studies

This Committee studied Health Insurance under the four following heads —

- A. Prepayment plans in Dental Health service.

The findings were summarized by the following resolution, —

"Whereas considerable study has been made of pre-payment plans in respect of dental treatment for children, this Committee recommends that an approach be made to the legal bodies of each province in the hope that one or more pilot plans may be set in operation as a research project to determine the feasibility of a general dental health insurance scheme for children."

- B. New Zealand Dental Health Service.

This scheme has taught us this lesson, —

"To attempt to supply treatment in the necessary quantity and quality is to attempt to fill a bottomless well. New Zealand decided her immediate problems was 'providing treatment' and placed it as number one on her Dental Health Program. She is spending one and one half million dollars annually for treatment and twelve thousand for research to reduce need of treatment. Surely the lesson to be gained emphasizes that the long-range approach to the problem of coping with Dental Disease is through prevention. Research then should be the primary consideration.

- C. Objectives of Dental Health Program.

1. Dental Public Health Education.
2. Treatment which includes greater quantity, better quality and fair costs.
3. Prevention of Dental disease through Research.

- D. Principles for Dental Health Services.

These were reviewed and revised.

Dental Public Health

The immediate problem that seems to face each province is the shortage of personnel and facilities. The following resolution was passed, —

"Whereas the problem of dental personnel is becoming increasingly acute and whereas the impact of activities in the field of Dental Public Health will undoubtedly accentuate this problem, therefore be it resolved that the Dental Public Health Committee of the C.D.A. make strong recommendations to the proper authorities that in any implementation of the Massey Report in regard to Federal Aid to Universities, due emphasis be given to dental schools allowing expansion of facilities for the necessary increase of Dental Personnel including Dental Hygienists. Such representation to be made on the provincial level, where necessary, and that if considered desirable, to include financial assistance to carefully selected students."

This was a very important meeting and much more could be written about the thirty-two reports presented for consideration. Each member of the profession will receive a copy of the proceedings and each will do well to study this report.

May we now offer sincere congratulations to Dr. Percy Lowery, President, and Dr. Don W. Gullett, Secretary, for a very fine, well-arranged meeting and skilfully carried through program.

All of which is respectfully submitted.

R. P. LOWERY, D.D.S.

H. W. REID, D.D.S.

M. PURCELL, D.D.S.

S. J. PHILLIPS, D.D.S.

Motions adopted:

THAT this Board approves the first draft legislation for the establishment of the National Dental Examining Board of Canada.

THAT this Board is in full accord with the plans re. 'Pre-payment in Dental Health Services' by the Health Insurance Studies Committee of the C.D.A. and this Board is willing to give every assistance in the formation of Pilot Plans.

THAT the Report of Representatives to the Canadian Dental Association as presented by Dr. Phillips, be adopted.

PRESENTATION BY BOARD OF GOVERNORS OF THE ONTARIO DENTAL ASSOCIATION

The Board of Governors of The Ontario Dental Association have, for a long time, been concerned with the fact that the endeavours of the Association have been supported by less than half the dentists of Ontario, while the benefits and results are shared by all.

The Board of Governors have also felt that it would be a great advantage, when approaching governments and other bodies, which might be concerned, if it could be said that they were speaking for all the dentists of Ontario rather than for a limited number.

It seems that the so-called Sustaining Fee of The Ontario Dental Association has been very little understood and also is a bone of contention to the profession at large in the Province. In order to overcome this objection and to give all dentists in Ontario the privilege of becoming members of the Association, the Board of Governors are prepared to eliminate the Sustaining Fee and to give every dentist in Ontario membership in the Association in accordance with Chapter 1, sub-section 6 of the By-laws.

While the act of making every dentist of the Province a member of The Ontario Dental Association will not actually increase our expenses to any appreciable extent, and the Association is at present in a solvent state, it is felt that the ever-increasing work of the Dental Public Health Committee will, in fact, be accelerated when more members realize that they may request the aid of this group of self-sacrificing dentists.

The expense of this work, together with the other activities of The Ontario Dental Association, will very soon exceed our annual revenue and we would respectfully request an increase in the annual grant given to The Ontario Dental Association by the Board of Directors of The Royal College of Dental Surgeons of Ontario.

All the activities of The Ontario Dental Association are carried on by its officers and committee members without remuneration and none is contemplated in the future.

Salaries are paid to the Secretary and Assistant and an honorarium is paid to the Editor of the Journal.

All the foregoing is respectfully submitted for your consideration.

W. K. PRENDERGAST, D.D.S.

R. R. BUTLER, D.D.S.

G. V. MORTON, D.D.S.

Special Committee of

The Ontario Dental Association.

Motion adopted:

THAT this Board make a grant to the Ontario Dental Association of \$4,000.00 to be earmarked for use by the Dental Public Health Committee of The Ontario Dental Association.

MINISTER OF HEALTH

Dr. Mackinnon Phillips, Ontario Minister of Health, attended the Annual Meeting of the Board. The President welcomed the Minister assuring him that the Board was most anxious to co-operate with his Department in promoting health work in Ontario. The Minister outlined the present and proposed plans of the Health Department indicating an enlarged program in dental health matters. He discussed the recommendations made in the Health Survey Report, particularly those related to dentistry. In respect to teaching facilities, Dr. Phillips stated that the Government was ready to give serious consideration to the need for expansion.

1933	LOUIS JULIUS COTE	1949	DAVID GLENDENNING WATT
1933	JACOB KREUTZER	1951	JAMES RENWICK FLETCHER

* Deceased.

SPECIALISTS

The following are registered as specialists in the specialty designated.

† — Indicates Registration	Honorary	Name	Address	Certified
DENTAL ORAL SURGERY				
1924		Breslin, William Wolfe, D.D.S.	206 Bloor St. W., Toronto	Nov. 26, 1944
1909		Cation, James Murray, D.D.S.	371 Keele St., Toronto	Feb. 21, 1945
1908		Chalmers, William Logan, D.D.S.	1 Charles St. E., Toronto	Feb. 21, 1945
1930		Coupland, James Percival, D.D.S.	142 Laurier Ave. W., Ottawa	Nov. 26, 1944
1930		Crabbe, James Orval, D.D.S.	Cobourg	Feb. 21, 1945
1923		Crich, William Aubrey, D.D.S.	Grimsby Beach	Feb. 21, 1945
1931		Diprose, Robert Ellis, D.D.S.	74 St. Clair Ave. W., Toronto	Feb. 21, 1945
1935		Dore, Edward Gowland, D.D.S.	169 Delaware Ave., Hamilton	May 23, 1952
1934		Gardiner, Allan, D.D.S.	General Delivery, St. Catharines	Jul. 11, 1946
1933		Hobden, Alan Edward, D.D.S.	170 St. George St., Toronto	Jul. 11, 1946
1925		Johnson, Joseph Harker, D.D.S.	230 College St., Toronto	Nov. 26, 1944
1923		Kennedy, James Fred Murton, D.D.S.	333 Dufferin Ave., London	Nov. 26, 1944
1924		Leslie, Samuel William, D.D.S., M.D.	394 Bloor St. W., Toronto	May 9, 1945
1938		MacDonald, David Henry John, D.D.S.	2 College St., Toronto	Jul. 11, 1946
1924		Matchett, Roger Wellington, D.D.S.	86 Bloor St. W., Toronto	Feb. 21, 1945
1944		Methven, John Fraser	Suite 570, 86 Bloor St. W., Toronto	Sept. 26, 1947
1930		Morgan, George Alfred, D.D.S.	170 St. George St., Toronto	Nov. 26, 1944
1920		Moyle, Carl Thomas, D.D.S.	603 Medical Arts Bldg., Hamilton	Nov. 26, 1944
1917		Nesbitt, Percy Lyness, D.D.S.	165 Sparks St., Ottawa	Dec. 14, 1948
1901	†	Paul, Edgar Watson, D.D.S.	2 College St., Toronto	Nov. 26, 1944
1902	†	Robb, Henry George, D.D.S.	170 St. George St., Toronto	Nov. 26, 1944
1924		Scott, Albert Ralston, D.D.S.	372 Bay St., Toronto	Nov. 26, 1944
1940		Smylski, Peter Thomas, D.D.S.	681 Main St. E., Hamilton	Jul. 9, 1947
1928		Stewart, Alexander Austin, D.D.S.	371 Keele St., Toronto	Feb. 18, 1952
1912		Tanner, Douglas McGill, D.D.S., B.Sc. (Dent)	170 St. George St., Toronto	Oct. 17, 1945
ORTHODONTICS				
1923		Bliss, Horace Colton, D.D.S.	170 St. George St., Toronto	May 9, 1945
1925		Boyd, James Wesley, D.D.S.	345 Queen's Ave., London	Nov. 14, 1947
